Overview

This bill requires the commissioner of commerce to have a scheduling conference with, and issue a scheduling order to, an insurance company for examinations of market analysis. Changes were also made regarding the manner in which the commissioner can request information pursuant to a market analysis examination, and the classification of data that the commissioner receives.

Section

- 1 Examination report; foreign and domestic companies.** Classifies information received by the commissioner of commerce from an insurance company from a market analysis examination. Requires requests for information from the commissioner to an insurance company for market analysis to be issued pursuant to the commissioner's authority under this section. An exception to this is that the commissioner may request information using the authority provided by section 45.027, subdivisions 1a or 2, and not under section 60A.033, if the request involves an unresolved consumer complaint or there is an imminent risk of significant harm to a consumer.
- 2 Penalty.** Removes the requirement that a violation of an order be commenced in Ramsey County by the attorney general on behalf of the state.
- 3 [60A.033] Scheduling conference and order.**
 - Subd. 1. Scope.** Applies this section to examinations involving market analysis.
