This bill would increase the amount of money from each resident and nonresident adult deer hunting license sold that is deposited in the deer management account from \$2 to \$16. It would also remove the statutory appropriation from the account. The bill is effective retroactively to March 1, 2018, which is the date the deer license fee increases passed last session became effective. Under current law, \$2 from all deer licenses is deposited in the account and the account is statutorily appropriated to the commissioner for deer habitat improvement or deer management programs.
