This bill would require the commissioner of Minnesota Management and Budget to include certain information along with any collective bargaining agreement submitted to the subcommittee on employee relations. The information, which would be in a form prescribed by the subcommittee, would include: (1) a breakdown of costs under the plan or agreement, including costs attributable to pay versus benefits; (2) how costs would fit into the budget of each executive branch agency affected by the plan or agreement; (3) which appropriation or fund would cover each cost under the plan or agreement; (4) any transfers between agencies or items of appropriation expected; (5) description of any costs related to contractors; and (6) contingency plans if revenue proves insufficient to cover costs.
