Overview

This bill makes changes to the Minnesota child care assistance programs to put the programs in compliance with the federal Child Care and Development Block Grant (CCDBG) Act of 2014. The CCDBG provides federal funds for child care assistance and child care quality initiatives.

The federal CCDBG Act of 2014 reauthorized the child care program and made several changes to the program including:

- establishing a 12-month eligibility determination period;
- requiring an expedited application process for homeless families;
- requiring an extended eligibility and authorization process; and
- requiring provider reimbursement rates to be based on a survey of market rates and to be updated regularly.

There are other federal requirements included in the CCDBG Act of 2014 that are not included in this bill related to health and safety requirements, consumer and provider education, and increasing access for children to high quality care.

Currently, the state is operating the child care assistance programs under a federal waiver that expires on September 30, 2017. If the state does not come into compliance with the federal law and regulations, the state may be penalized by the federal government.

Section
