Overview

This bill eliminates motor vehicle weight limits for sewage septic tank trucks that transport sewage from septic or holding tanks.

Section

- 1 Sewage septic tank trucks.** Exempts sewage septic tank trucks from motor vehicle weight limits, for vehicles that exclusively haul sewage from septic or holding tanks. Requires transporting pumped material by the most direct route to the place of unloading.
- 2 Recycling and garbage vehicles.** Broadens an exemption from vehicle weight limits (and associated criminal penalties) imposed (1) by local units of government for roads under their respective jurisdiction, and (2) under spring load restrictions, which are established by MnDOT during spring thaw periods. The exemption applies to sewage septic tank trucks that exclusively haul sewage from septic or holding tanks.
