This bill requires the commissioner of management and budget to maintain a secure Web site that permits interested persons to make a gift of money to the state electronically. Basic statistical data related to gifts received over time must be included as part of the Web site.

Current law authorizes the commissioner to accept money and other similar types of gifts, if doing so is in the interest of the state. Other general procedures related to the acceptance of gifts and how they must be invested are also provided in current law and would remain unchanged.
