Subject Local government user testing of software

Authors Masin and others

Analyst Deborah A. Dyson

Date March 20, 2019

Overview

Requires a state agency implementing new information technology business software application or functionality that significantly impacts the operations of local governments to give local governments the opportunity to test it. Provides an exception. Applies to software applications and functionality where local governments are the primary users. Does not apply to routine software upgrades or changes to comply with federal law, rules, or regulations.

A state agency is “any state officer, employee, board, commission, authority, department, entity, or organization of the executive branch of state government, including the Minnesota State Colleges and Universities.”
