

**Subject** Driver's education on distracted driving

**Authors** Tabke and Pryor

**Analyst** Matt Burress (matt.burress@house.mn)

**Date** March 11, 2019

## Overview

This bill directs the Department of Public Safety to (1) modify administrative rules on driver's education to include information on laws and dangers related to distracted driving, and (2) include distracted driving information in future revisions to the driver's manual. The change to administrative rules must be made by January 1, 2020. The department can use the expedited rulemaking process (which involves some of the same notice and comment steps as customary rulemaking, but there is not an opportunity for public hearing).
