

Subject Prenatal substance use reporting

Authors Morrison and others

Analyst Sarah Sunderman

Date March 14, 2019

Overview

This bill removes the requirement for health care and social services professionals (who are mandated reporters of suspected child maltreatment) to report a woman's use of a controlled substance for a nonmedical purpose or excessive consumption of alcohol during pregnancy to the local welfare agency, if the professional is providing the woman with prenatal care or other health care services.
