

Subject Dual-training competency standards

Authors Mahoney and others

Analyst Anna Scholin

Date March 11, 2019

Overview

Adds next generation technology to the list of industries that the commissioner of labor and industry must develop competency standards for, which also makes such occupations eligible for dual-competency training grants under Minnesota Statutes, section 136A.246. Appropriates \$100,000 in fiscal year 2020 and \$100,000 in fiscal year 2021 from the general fund for developing competency standards for dual training in occupations in next generation technology.
