Date March 11, 2020

Summary

H.F. 2981 would decouple an alcohol caterer's permit from a primary permit held by an on-sale intoxicating liquor licensee. This would allow a liquor caterer to obtain their own independent license that is not tied to an underlying on-sale license. The bill would apply all laws applicable to an on-sale licensee to the holder of caterer's permit and would also continue to allow on-sale licensees to obtain a caterer's permit.
