

**Subject** Snowmobile Registration

**Authors** Sandstede

**Analyst** Janelle Taylor

**Date** February 21, 2020

## Summary

This bill would eliminate the requirement that snowmobiles be registered in order to transport them. Under current law, a snowmobile must be registered in order to transport or operate it.

Certain exemptions from snowmobile registration requirements apply under current law, including when in transit by a manufacturer, distributor, or dealer, or for snowmobiles registered in another country, state, or by a tribal government if used in the state temporarily/no more than 30 consecutive days.
