

**Subject** Grants  
**Authors** Bennett and others  
**Analyst** Cristina Parra  
**Date** January 29, 2019

## Overview

This bill requires applicants for grants administered by the commissioner of education to include in their applications a statement of the goals of the grant. The grant goals should be aligned to the World's Best Workforce goals, and the state ESSA plan goals. The applicants must include strategies used to meet the goals, and a plan to measure the effectiveness of the strategies. A grant recipient must report to the commissioner and the legislature on the effectiveness of the strategies.
