Summary

Section	Description
1	Route No. 180. Modifies the routing for a legislative route established in state statute through parts of Grant and Otter Tail counties.
2	Trooper Ray Krueger Memorial Highway. Memorializes Ray Krueger by designating the stretch of Trunk Highway 210 in Cass County as “Trooper Ray Krueger Memorial Highway.”

4	Specialist Noah Pierce Bridge. Memorializes Specialist Noah Pierce by designating a bridge on U.S. Highway 53 in Eveleth as “Specialist Noah Pierce Bridge.”
5	Direct negotiation. Raises the limit from \$150,000 to \$250,000 for maintenance or construction contracts in which MnDOT can use direct negotiation instead of being required to use the competitive bidding process.
6	Laned highway. Allows semis and other similarly large vehicles to deviate from the driving lane when approaching and going through a roundabout. Makes technical changes.

Section	Description
7	Roundabouts. Provides for right-of-way when two semis or other similarly large vehicles drive through a roundabout at the same time, so that the driver of the vehicle on the right must yield to the vehicle on the left.
8	White strobe lamps on certain buses transporting children. Makes technical changes.
9	Supplemental warning system. Authorizes school buses to be equipped with supplemental flashing lights or electronic signs that are approved by the Department of Public Safety.
10	Restrictions on appearance; misdemeanor. Makes conforming and technical changes.
11	Colors. Broadens the permissible colors for the rub rails running around a school bus, to allow them to be yellow (which is in addition to black).
12	Identification. Authorizes use of a changeable electronic message sign instead of specified static text on the rear of a school bus, if it is used in conjunction with school bus warning and stop lighting and is an approved supplemental warning system.
13	Supplemental warning system; temporary authority. Permits the Department of Public Safety to approve school buses to be equipped with supplemental flashing lights or changeable electronic message signs. The authority expires August 1, 2022 (and buses previously approved to be equipped can continue to use the system). Specifies considerations for granting approval and requires research and consultation with stakeholders.
14	Lights or reflectors required. Makes technical changes. (The language being stricken is substantially reproduced in other sections of statutes.)
15	Maintenance. Makes technical changes. (The language being stricken is substantially reproduced in another section of statutes.)

Section	Description
16	Flashing lights; glaring lights. Makes conforming and technical changes, including to centralize restrictions on flashing and glaring lights.
17	White light. Makes conforming, technical, and clarifying changes, to create a centralized provision on when a vehicle can display white lights. (This includes language being reproduced from another section of statutes.)
18	Strobe lamp. Modifies the minimum intensity of authorized strobe lamps on vehicles to be based on an engineering standard produced by SAE International, instead of referencing a candela measure of light output. Makes technical changes.
19	Automobile transporter. Modifies length limits and backhaul authority for vehicles that transport assembled motor vehicles, including allowing loads that extends four feet or less in front of the vehicle and six feet or less in the rear.
20	Conditions. Permits a vehicle operating under an overweight permit for hauling raw or unfinished forest products to operate on a stretch of Interstate 35 between Carlton County and St. Louis County (as authorized under federal law).
21	Certain emergency vehicles. Establishes per-axle and gross vehicle weight limits for emergency vehicles operated on interstates, using limits established in federal law.
22	Restricted license for farm work. Allows an individual to use a restricted license for farm work on any type of farm, regardless of how it is legally established. Expands the allowed operation radius from the farmhouse, to be 40 miles instead of 20 miles. Effective June 1, 2019.
23	Legislative report. Modifies a legislative report on the Transportation Economic Development (TED) program, so that the report need not be submitted if no funds were provided in the previous 24 months.

Section	Description

25	Creation; authorized disbursements. Allows for state airports fund expenditures for municipal airport planning and permits municipalities to receive assistance from the fund even if its comprehensive plan is incompatible with the state aviation plan. Effective August 1, 2019, for runway-related changes on or after that date.
26	Authority to establish. States that airport operation and maintenance is an essential public service. Allows MnDOT to fund airport safety projects to maintain existing infrastructure regardless of a zoning authority’s efforts to complete zoning, but otherwise requires funds be withheld from the airport unless it is proceeding with or has completed an airport zoning ordinance. Effective August 1, 2019, for runway-related changes on or after that date.
27	Air transportation service. Requires MnDOT to charge users of agency provided air transportation services for the capital costs of the aircraft, including for aircraft acquisition, replacement, or leasing. Establishes a new account for the revenue. Prohibits account transfers. Makes technical changes.
28	Airport hazard prevention; protecting existing land uses. Narrows specification of what constitutes airport hazards based on existing land uses around the airport. Establishes that prevention of airport hazards and airport lighting are essential public services, not just public purposes. Effective August 1, 2019, for runway-related changes on or after that date.
29	Enforcement under police power. Provides for municipal zoning regulation in airport hazard areas (that is, areas where an aircraft takeoff or landing hazards might be established), broadening the geographic area that can be regulated by removing the specific distance limitations. Effective August 1, 2019, for runway-related changes on or after that date.
30	Joint airport zoning board. Makes technical and conforming changes, to cross-reference proposed airport zoning regulation standards being established in the bill. Effective August 1, 2019, for runway-related changes on or after that date.

Effective August 1, 2019, for runway-related changes on or after that date.</p>
