

Subject Access to multi-unit residential facilities by Census workers

Authors Lee and others

Analyst Matt Gehring

Date March 7, 2019

Overview

This bill requires census employees conducting official work during a decennial census to be granted access to certain multiunit residential facilities, such as apartment buildings, dormitories, nursing homes, and the like. Additional details and conditions are provided.

The bill amends a section of the Fair Campaign Practices Act that currently provides the same right of access to candidates for elected office. Violations of this section are enforced through the Office of Administrative Hearings.
