## Article 1: Federal Conformity

This article makes conforming changes to Minnesota tax law to respond to federal legislation enacted from December 16, 2016, through December 31, 2018. It adopts the Internal Revenue Code as modified by the following acts of Congress:

- Disaster Tax Relief and Airport and Airway Extension Act
- Tax Cuts and Jobs Act (TCJA)
- Bipartisan Budget Act of 2018 (BBA 2018)
- Consolidated Appropriations Act of 2018

The most important changes were made by TCJA, the major restructuring of the federal tax enacted in December 2017, and the BBA 2018, enacted in February 2018, which includes the standard package of federal “extenders”—i.e., the extension of a collection of federal tax provisions that regularly expire and are extended for one or two years by Congress.

BBA 2018 extended a number of provisions for one year through tax year 2017 (i.e., the tax year that had already ended for calendar years taxpayers when the extension was enacted). The most significant provisions extended were the deductions for tuition and mortgage insurance premiums, the exclusion of discharge of indebtedness income of a principal residence, and various depreciation rules.

The TCJA changes are too numerous to list, but they include both major changes in the definition of the tax base for individual income (both personal and business-related provisions) and corporate taxation. Some of the major changes—adopted by the article (because they affect the calculation of federal adjusted gross income or FAGI):

- Expanded section 179 and bonus depreciation rules apply, essentially allowing current deduction for investments in most equipment. (The maximum section 179 amount was permanently increased to \$1 million; allowance of bonus depreciation is temporary.) The article conforms to the section 179 treatment, but continues the pattern of allowing only 20 percent of bonus depreciation in the year made.
- The use of active losses from one business to reduce other income (e.g., wages, investment income, or income from another business) were subject to dollar limits (\$500,000, married joint filers; \$250,000 for others).
- Business interest deductions were limited to 30 percent of adjusted taxable income.
- Many more businesses will be allowed to use cash basis accounting.
- Net operating loss carrybacks are eliminated and carryovers limited to 80 percent of the loss.
- Various employee compensation costs (e.g., meals, lodging, and certain transportation costs) were disallowed as business expense deductions.
- Taxation of foreign income was substantially modified, requiring taxation of deferred foreign earnings (from 1986 through 2017) on a onetime basis (repatriation tax) and future inclusion of certain income for low taxed income from intangibles (global intangible low taxed income, or GILTI). The article

does not conform to the federal GILTI provisions; instead, foreign corporations that generate GILTI are included in the corporate unitary group, which subjects all of the income of the foreign corporation to apportionment, as is currently required for domestic corporations. Individual shareholders who would otherwise pay tax on GILTI included in income for federal purposes receive a state subtraction for this income.

- The deduction allowed to employers who reimburse employees for moving expenses and the exclusion of those amounts from income of employees were both suspended.

The adopted federal changes generally take effect for Minnesota purposes at the same times as the federal changes take effect, although for 2018, a special adjustment is established for individual filers so that they will not see an increase or decrease in tax, although some exceptions apply.

The article changes the starting point for calculating individual income taxes for individuals from federal taxable income (FTI) to FAGI. The effect of this change is to make (1) itemized and standard deductions and (2) dependent exemptions a matter to be determined by Minnesota, rather than federal, law. The article provides a dependent exemption amount equal to that allowed under pre-TCJA law, but eliminates the personal exemption.

The article increases the standard deduction allowed to match the amounts allowed federal under the TCJA. The state standard deduction amounts for tax year 2019 are \$24,400 for married couples filing joint returns, \$12,000 for singles, and \$18,350 heads of households. The additional standard deduction amounts (for age 65 or older, blind, and so forth) remain unchanged. The standard deduction is partially phased out according to the same rules that govern the partial phase-out of itemized deductions.

The article adopts Minnesota itemized deductions that parallel those under the TCJA, but retains some deductions that were repealed federally. This results in the following changes in the allowable itemized deductions:

- **Taxes paid:** Disallows property taxes paid over \$10,000
- **Charitable contributions:** Increases the 50 percent AGI limit to 60 percent
- **Interest:** Disallows home equity interest and interest attributable to acquisition indebtedness over \$750,000 (for mortgages incurred after December 15, 2017); present law allows interest on acquisition indebtedness up to \$1 million.
- **Medical expenses:** Allows medical expenses that exceed 10 percent of AGI.
- **Unreimbursed employee expenses:** Allows a deduction for unreimbursed employee expenses in excess of 2 percent of AGI—this deduction was repealed federally.
- **Miscellaneous deductions:** Does not allow miscellaneous itemized deductions that are subject to the 2 percent of AGI floor; this includes tax preparation services.
- **Losses:** Allows a state deduction for personal casualty and theft losses—TCJA limited the federal deduction to losses in disaster areas.

- **“Other miscellaneous” deductions:** Retains miscellaneous deductions not subject to the 2 percent floor. This matches the federal treatment, which did not change under TCJA.

A taxpayer’s itemized deductions are limited using the existing formula for limiting itemized deductions under Minnesota law.

1	<p data-bbox="349 512 521 541"><b>Debt; debtor.</b></p> <p data-bbox="349 554 1421 869">Modifies the inflation indexing of the income-based exemptions for debtors with medical care debts under the revenue recapture program. Adopts the new federal indexing rules based on the Chained Consumer Price Index for Urban Consumers (C-CPI-U). Revenue recapture provides for offsetting tax refunds for various types of debts owed to government agencies (in addition to unpaid taxes). The law provides income-based exemptions from recapture of debts for medical care. The statutory dollar amounts are indexed for inflation. This section resets the dollar amounts at the 2018 levels and converts their inflation indexing to the C-CPI-U, rather than the CPI-U, as under present law.</p> <p data-bbox="349 907 1421 1192"><b>Background and chained CPI.</b> TCJA converted inflation indexing in federal tax law from the CPI-U to C-CPI-U. Chained CPI accounts for the fact that consumers often change their consumption habits when prices increase by substituting for other goods. The index does that by regularly modifying (or “reweighting”) the market basket of goods and services whose prices are used in measuring price changes. By contrast, CPI-U uses a fixed market basket of goods and services that does not regularly change. Chained CPI tends to increase more slowly than CPI-U. This means that provisions that are indexed for inflation will grow more slowly than they did under prior law.</p>
2	<p data-bbox="349 1241 667 1270"><b>Cost of living adjustment.</b></p> <p data-bbox="349 1283 1421 1457">Adds a new section to chapter 270C that describes the rules for indexing for inflation the income tax and property tax refund. Specifies that both income tax and property tax refund amounts are indexed using the August-to-August change in the Chained Consumer Price Index for All Urban Consumers (C-CPI-U). Requires the Department of Revenue to annually publish the adjusted dollar amounts on its website.</p>

7	<p><b>Installment payments of tax on deferred foreign earnings.</b></p> <p>Authorizes C corporations that are subject to the onetime tax on deferred foreign earnings under TCJA to elect to pay their Minnesota tax in installments. This option mirrors that available under federal law, which requires reporting the income in tax year 2017, but allows paying the tax in eight annual installments. A corporation’s election for Minnesota purposes does not need to follow its federal election.</p> <p>Effective date: Retroactively at the same time the provisions of the TCJA became effective for federal purposes.</p>
8	<p><b>Conforming change.</b></p> <p>Adds a reference to FAGI in the commissioner’s assessment authority, consistent with the article’s change in the starting point of the individual income tax from FTI to FAGI.</p> <p>Effective date: Tax year 2019.</p>
9	<p><b>Determination of marital status.</b></p> <p>Adds rules governing how an individual is determined to be married for tax purposes. Adopts by cross reference the federal rules currently in effect for Minnesota purposes (because of the state’s use of federal taxable income as the starting point for its income tax).</p> <p>Effective date: Tax year 2019.</p>

10	<p data-bbox="354 275 691 302"><b>Surviving spouse definition.</b></p> <p data-bbox="354 317 1390 485">Adds a definition of “surviving spouse” (linked to the federal definition) for purposes of the individual income tax chapter, since this term is used multiple times in the chapter including in the new section providing for Minnesota exemption amounts. A surviving spouse is an unmarried individual whose spouse died in one of the two preceding tax years and who maintains a separate household.</p> <p data-bbox="354 527 708 554">Effective date: Tax year 2019.</p>

The bill also updates the date of the Internal Revenue Code that is in effect for the purposes of calculating net income.</p> <p data-bbox="354 827 1419 1031"><b>Effective date:</b> The switch to FAGI as the starting point for the state’s tax code is effective for tax year 2019. The update of the version of the Internal Revenue Code version is effective the day following final enactment, but changes incorporated by the federal changes are effective retroactively at the same time as they became effective for federal purposes. The effective date also specifies that the changes are subject to the special adjustment for tax year 2018 under section 290.993.</p>

This definition also requires taxpayers to have consistent elections for federal and Minnesota purposes on items that affect computation of FAGI (e.g., the cost recovery method that businesses use to compute their income).</p> <p data-bbox="354 1646 894 1667">Effective date: Day following final enactment.</p>

The threshold is \$291,950 for married couples filing joint returns and \$194,650 for single taxpayers.</p> <p data-bbox="451 1087 1398 1150"><b>Subd. 3. **Section Description – Article 1: Federal Conformity**

- Foreign income, war profits, and excess profits taxes to the extent not reduced by the federal foreign tax credit.
- Foreign subnational taxes that did not qualify for the state credit for taxes paid to another state. The amount of foreign subnational taxes is limited to the amount that qualifies for the federal foreign tax credit. This itemized deduction replaces an existing subtraction in state law.

**Subd. 4. Charitable contributions.** Allows an itemized deduction for the amount of charitable contributions allowed under federal law. The state deduction permanently adopts the TCJA’s 60 percent AGI limit for charitable contributions, which is scheduled to expire in tax year 2026. The amount of contributions eligible for a carryover corresponds to the amount allowable in Minnesota.

**Subd. 5. Interest.** Allows an itemized deduction for interest paid equal to the amount deductible under federal law. The deduction equals the amount allowed federally, but permanently adopts the TCJA’s changes to the mortgage interest deduction.

**Subd. 6. Medical expenses.** Allows an itemized for medical expenses in excess of 10 percent of AGI.

**Subd. 7. Unreimbursed employee expenses.** Allows an itemized deduction for unreimbursed employee expenses. The deduction is limited to expenses in excess of 2 percent of AGI. TCJA suspended this deduction, as well as other miscellaneous deductions subject to the 2 percent AGI floor.

**Subd. 8. Losses.** Allows a state itemized deduction for personal casualty and theft losses; TCJA limited the federal deduction to losses in disaster areas. The state deduction is limited to losses in excess of 10 percent of AGI, consistent with the treatment under federal law prior to the TCJA.

**Subd. 9. Miscellaneous deduction.** Allows a state itemized deduction for to federal miscellaneous deductions not subject to the 2 percent floor. These deductions were retained by TCJA, and are still allowed under current federal law.

Section 67(c)(1)	Business casualty and theft losses

18 **Standard deduction amounts**

**Subd. 1. Standard deduction amount.** Establishes a state standard deduction. The deduction amounts correspond to the amounts allowed federally, as follows:

- Married couples filing joint returns or surviving spouses: \$24,400
- Heads of household: \$18,350
- All other filers: \$12,200

Taxpayers who are 65 years or older, or who are blind, may claim an additional amount under subdivision 2.

The standard deduction is subject to the reduction under subdivision 5.

**Subd. 2. Additional amount for senior or blind taxpayers.** Allows an additional standard deduction amount for taxpayers ages 65 or older, or who are blind. The additional amount is \$1,300 for married taxpayers and surviving spouses, and \$1,650 for other taxpayers. These amounts correspond to the amount allowed under current federal law.

**Subd. 3. Amount for dependents.** Establishes the standard deduction amount for taxpayers who are claimed as dependents on another return. The deduction for those taxpayers equals \$500 or \$250 plus the taxpayer’s earned income. These rules correspond to the current federal treatment.

**Subd. 4. Deduction disallowed.** Disallows the standard deduction for married separate taxpayers whose spouses itemize deductions, and for taxpayers who changed their annual accounting period and are filing a return for a period of less than 12 months.

**Subd. 5. Deduction limited.** Reduces a taxpayer’s standard deduction if the taxpayer’s income exceeds the threshold amounts. The thresholds are \$194,650 for all taxpayers except married individuals filing separate returns, for whom the threshold is one-half that amount.

A taxpayer’s standard deduction is reduced by 3 percent of AGI in excess of the threshold amounts, but is never reduced below 20 percent of the taxpayer’s standard deduction amount. For married couples filing joint returns who do not

**Section**      **Description – Article 1: Federal Conformity**

qualify for an additional standard deduction amount, the standard deduction reaches the 20 percent limit (\$4,880) at \$845,317 of adjusted gross income.

**Subd. 6. Inflation adjustment.** Indexes for inflation the standard deduction amount, additional standard deduction amount, and phaseout thresholds.

**19**            **Additions to income; scope.**

Modifies the scope subdivision of the section providing individual income tax additions to income to be consistent with the article's change in the starting point of the individual income tax from FTI to FAGI.

**Effective date:** Tax year 2019.

**20**            **State and local income and sales taxes.**

State and local income and sales taxes. Limits the addition for state and local income taxes and sales taxes to estates and trusts, since only those entities will continue to use FTI (which incorporates the federal deduction for state and local income taxes) in calculating Minnesota tax. The limitation on the deduction to the amount of the standard deduction is repealed, since trusts and estates are not allowed to elect the standard deduction.

**Effective date:** Tax year 2019.

**21**            **Section 179 addition.**

Conforms to the federal section 179 allowances (allowing expensing for qualifying equipment purchases by businesses) for individuals, including pass-through entities, by limiting the addition to amounts deducted for federal purposes in taxable years before 2018. This change would allow individual income taxpayers the full section 179 deduction for property placed in service starting in tax year 2018.

**Effective date:** Retroactively for tax year 2018.

**22**            **529 plan distributions.**

Requires distributions from 529 Plans (Qualified Tuition Plans) that are used to pay for K-12 expenses to be added to FAGI. The TCJA permits taxpayers to use distributions for K-12 expenses without being subject to tax. The amount added back could not exceed the amount of "earnings" of the account that are excluded from income for the taxable. Thus, recovery of amounts contributed to the account (rather than the account's investment returns) would not be taxed. This approach effectively treats any uses for K-12 purposes as the first use to which these investment returns or earnings are put (e.g., if distributions are also used to pay for higher education expenses).

**Effective date:** Retroactively for tax year 2018.

deducted for federal purposes in taxable years before 2018. This change would allow corporate taxpayers the full section 179 deduction for property placed in service starting in tax year 2018.

Effective date: Retroactively for tax year 2018.

**36 Global intangible low taxed income; corporations.**

Provides a corporate franchise tax subtraction for global intangible low taxed income (GILTI). Instead of taxing GILTI, a controlled foreign corporation (CFC) that generates GILTI is pulled into the domestic unitary group, allowing all of the CFC's income to be apportioned based on the group's Minnesota sales.

Effective date: Tax year 2019.

**37 Conforming change.**

Makes a conforming change to the lump sum tax to reflect the use of FAGI as the starting point for the tax.

Effective date: Tax year 2019.

**38 Taxes imposed on exempt entities.**

Excludes employee fringe benefits from the definition of unrelated business taxable income—TCJA required nonprofits to add certain employee fringe benefits to unrelated business taxable income.

Requires a nonprofit corporation required to pay UBIT to add back its federal NOL and claim a Minnesota NOL under the rules applicable to C corporations under the Minnesota tax. This prevents TCJA's rules requiring separately calculating NOLs for each activity.

Effective date: Retroactively to tax year 2018.

**39 Inflation adjustment of brackets.**

Makes a conforming change to reference the new inflation-indexing provision under section 2.

Effective date: Tax year 2020.

**40 Section 529 plan recapture.**

Creates a definition of "qualified higher education expenses" by reference to the federal definition, but exclusive of K-12 qualifying education expenses.

Effective date: Retroactively to tax year 2018.

Effective date: Tax year 2019

60	<b>Special limited adjustment.</b>
----	------------------------------------

Establishes a “special limited adjustment to tax” for individual income tax filers in tax year 2018 only. The adjustment allows taxpayers in tax year 2018 to elect to itemize their deductions for state purposes, even if they claimed the federal standard deduction.

The section also establishes an adjustment to tax for tax year 2018 equal to the difference in tax between the pre-conformity and post-conformity tax calculations. This effectively means that even though the bill generally conforms to TCJA and BBA retroactively, as a general rule conformity will not affect the tax paid in tax year 2018.

However, the bill outlines a list of sections of the BBA and TCJA to which the special adjustment does not apply. Conformity to the provisions listed is retroactive and will affect the tax paid in 2018.

The list of sections that will affect tax year 2018 liability are:

- 11012 of TCJA: limitation on excess business losses for pass-through businesses;
- 13101 of TCJA: changes to section 179 expensing;
- 13201 of TCJA: changes to bonus depreciation;
- 13202 of TCJA: changes to the depreciation limitations on luxury automobiles and personal use property;
- 13203 of TCJA: changes to depreciation rules for farm property;
- 13204 of TCJA: changes to the recovery period for certain real property;
- 13205 of TCJA: alternative depreciation system for electing farm businesses;
- 13207 of TCJA: expensing of certain costs of replanting citrus plants;
- 13301 of TCJA: interest deduction limitation;
- 13302 of TCJA: modification of the NOL deduction;
- 13303 of TCJA: modifications to rules governing like kind exchanges of real property;
- 13313 of TCJA: Rollover of publicly traded securities gain into specialized small business investment companies;
- 13502 of TCJA: modifications to the definition of substantial built-in loss in the case of a transfer of partnership interest;
- 13503 of TCJA: charitable contributions and foreign taxes taken into account in determining the limitation on the allowance of a partner’s share of a loss;
- 13801 of TCJA: changes to the production period for wine, beer, and distilled spirits;
- 14101 of TCJA: deduction for foreign-source dividends received by domestic corporations from controlled foreign corporations;

**Section**      **Description – Article 1: Federal Conformity**

---

- 14102 of TCJA: special rules relating to sales or transfers of controlled foreign corporations;
- 14103 of TCJA: Repatriation of deferred foreign income;
- 14202 of TCJA: GILTI and FDII;
- 14211 through 14215 of TCJA: modifications to rules for subpart F income;
- 14501 of TCJA: Restriction on insurance business exception to passive foreign investment company rules; and
- 40411 of the Bipartisan Budget Act: Extension of the phaseout of the energy credit.

**61      Property tax refund income definition and exemption amounts.**

Modifies the definition of household income under the property tax refund for renters and the homestead credit refund programs to eliminate the addition for the domestic production deduction, which was repealed by the TCJA, and to include nontaxable alimony received by the claimant. Moving expenses would be allowed to be deducted in computing household income.

Effective for tax year 2019, TCJA provides that alimony (paid under new agreements or orders) is no longer deductible to the payer and includible in the recipient's income.

References to the exemption amount in the definition of household income are tied to the dependent exemption amount under the Minnesota income tax.

Effective date: Refunds based on property taxes payable in 2020 and rent paid in 2019.

**62      Gross rent amount; indexing.**

Sets the gross rent amounts for nursing homes, foster care homes, and intermediate care facilities at the 2018 amounts and converts indexing to the C-CPI-U index.

Effective date: Refunds based on rent paid in 2019.

**63      PTR update.**

Updates the reference to the Internal Revenue Code for purposes of the property tax refund chapter. This will incorporate federal changes made to FAGI and TCJA's repeal of the exemption allowance (replaced in section 67 with a reference to the Minnesota amount provided by the article).

Effective date: Refunds based on property taxes payable in 2020 and rent paid in 2019.

**64      PTR inflation indexing.**

- Imposes a new 3 percent tax on certain capital gain and qualified dividend income.
- Allocates \$10 million to the small business investment credit (aka “angel credit”) for tax years 2019 and 2020 and reduces the investment threshold for certain targeted businesses.

- Raises the starting point for the second tier and reduces starting point for the third tier in the individual income tax brackets.
- Makes changes to a number of credits, by expanding the working family credit, increasing the phaseout of the military service credit, reducing the marriage penalty for the student loan credit, and creating clarifying definitions for the stillbirth credit.
- Modifies provisions of the corporate franchise tax for captive insurance companies (i.e., insurance companies that are captives of a unitary group) to clarify which captives are exempt from the tax and which captives are disqualified, and therefore not exempt.

6	<b>Annual reports; angel credit.</b> Lowers the fine for qualified businesses, funds and investors failing to file an annual report from \$500 to \$100 but allows the commissioner to revoke the credit or trigger the credit repayment provisions if a report is not filed by April 1. 9	<b>Financial institution; captive insurance companies.</b> Modifies the definition of a financial institution for corporate franchise tax purposes to eliminate the requirement that exempt insurance companies must be subject to Minnesota insurance premiums taxation. This will allow out-of-state insurers who do not write coverage on Minnesota risks (and, thus, are not subject to the Minnesota premiums tax) to qualify as insurance companies that are exempt from corporate franchise tax. Under current law, these companies would be considered captives.  Effective date: Retroactively to tax year 2017.
10	<b>Disqualified captive insurance company.</b> Defines a "disqualified captive insurance company" for corporate franchise tax purposes. Disqualified captives are subject to the corporate franchise tax (other insurance companies are exempt) and must include their income and apportionment factors on the combined return of a unitary business of which they are a part.

Section	Description – Article 2: Income, Corporate, and Estate Taxes

11	<p><b>Social Security subtraction.</b></p> <p>Increases the Minnesota Social Security subtraction by \$1,300 for married couples filing joint returns, and by \$650 for single and head of household taxpayers. The bill also reduces the phaseout thresholds for the subtraction such that taxpayers in the phaseout range would not receive the full amount of the decrease.</p> <p>Effective date: Tax year 2019.</p>

15	<p><b>Additional tax on “preferential rate” income.</b></p> <p><b>Subd. 1. Definitions.</b> Defines “net capital gain” and “preferential rate income.”</p> <p>“Net capital gain” means net long-term capital gains, reduced by any net short-term capital losses.</p> <p>“Preferential rate income” is defined to equal the lesser of a taxpayer’s “adjusted net capital gain” and federal taxable income.</p> <p>“Adjusted net capital gain” is a federal term used to define income that receives a preferential rate. It includes:</p> <ol style="list-style-type: none"><li>1) Net long-term capital gains eligible for a preferential federal rate. This excludes capital gains subject to the 28 percent rate (such as gains on collectibles) and gains on 1250 property (subject to a 25 percent rate).</li></ol>

**Section Description – Article 2: Income, Corporate, and Estate Taxes**

2) Qualified dividends, which are eligible for a preferential rate.

**Subd. 2. Tax imposed; capital gains.** Imposes a 3 percent tax on preferential rate income in excess of \$500,000. The tax is in addition to the individual income tax and alternative minimum tax.

**Subd. 3. Nonresidents.** Allows nonresidents and part-year residents to apportion the additional tax based on the share of their preferential rate income that is capital gains from Minnesota situs property and qualified dividends earned while the taxpayer was domiciled in Minnesota.

**Subd. 4. Credit for taxes paid to another state.** Reduces the credit for taxes paid to another state for taxpayers who earned a capital gains exclusion, deduction, or exemption under the state’s tax. The tax used to calculate the credit for taxes paid to another state is reduced by 3 percent of the dollar amount of the exclusion, deduction, or exemption. The bill is effective for tax year 2019.

Effective date: Tax year 2019.

16 **Schedule of rates for individuals, estates, and trusts.**

Increases the starting point of the second individual income tax bracket, and reduces the starting point for the third individual income tax bracket. The change in the third tier bracket threshold is by the amount needed to offset the tax benefit of the change to the second tier threshold for taxpayers who paid tax on income in the old third tier.

Effective date: Tax year 2019.

**18 Military service credit.**

Increases the phaseout threshold for the credit from \$30,000 to \$50,000 of AGI. Under the bill, the credit would be fully phased out at \$57,500 of AGI.

Effective date: Tax year 2019.

**19 Student loan credit; definitions.**

Amends the definition of “earned income” for the purposes of the student loan credit to reference the definition of “earned income” in the marriage penalty credit, which adds Social Security benefits and some retirement income to the definition.

This change allocates the couple’s adjusted gross income to each spouse based on their pro rata share of the couple’s earned income. A small number of taxpayers who were previously not allowed a student loan credit due to the earned income limitation may become newly eligible for the credit, for taxpayers who had Social Security or retirement income but did not earn significant wages or self-employment income.

Effective date: tax year 2019.

**20 Student loan credit; credit allowed.**

Requires the Department of Revenue to allocate the couple’s combined adjusted gross income to each individual spouse based on the spouse’s percentage share of the couple’s earned income. This has the effect of reducing the marriage penalty in the credit.

Effective date: Tax year 2019.

### Article 3: Sales Tax

- Modifies and clarifies the duty to collect and remit sales taxes for remote sellers and marketplace providers, post the Supreme Court *Wayfair* case.

---

Effective July 1, 2019.

**2 Marketplace provider information report.**

Requires a marketplace provider to file a quarterly report with the Department of Revenue on sales made and sales taxes collected for each retailer making sales on their website. For each retailer the data must include:

- the total gross sales for the quarter;
- the total taxable sales for the quarter;

Effective for sales made after June 30, 2019.

**3 Penalty for failure to report.**

Imposes the same penalty for not filing the information report in section 2 as is currently imposed on persons who fail to file the liquor sales informational report. The penalty is \$500 for each failure to report and is \$1,000 if the failure to report is intentional.

Effective for sales and purchases made after June 30, 2019.

**4 Definitions.**

Reorganizes the definitions used in establishing the duty to collect sales and use tax in response to the *Wayfair* case.

Paragraph (a) defines a retailer or marketplace provider maintaining a place of business (physical presence) in this state.

Paragraphs (b) and (c) define a retailer or marketplace provider not maintaining a place of business in this state which, because of regular or systematic soliciting of sales in the state (economic presence) must collect and remit the sales tax. The definition of what constitutes regular or systematic soliciting of sales is identical to the language that is being repealed in subdivision 32. This language changes the current de minimis provision that requires businesses without a physical presence in the state (remote sellers and remote marketplace providers) to only collect and remit the tax to match the de minimis in the *Wayfair* case. A remote retailer must collect if they either make 200 retail sales or \$100,000 in retail sales into the state during the last 12-month period.

Paragraph (d) is the existing definition of “marketplace provider.”

Paragraph (e) is the existing definition of “destination of a sale” that used to be in paragraph (b).

Effective for sales and purchases made after September 30, 2019.

**Section**      **Description – Article 3: Sales Tax**

---

**5**            **Collection and remittance requirements for retailers and marketplace providers.**  
Provides for who is responsible for collecting the tax and when remote sellers must begin collecting the tax or when they may discontinue collecting the tax.

Paragraph (a) requires all retailers with a duty to collect and remit taxes to do so on all sales except those facilitated by a marketplace provider that is collecting and remitting the sales tax.

Paragraph (b) strikes language providing a separate (lower) de minimis for retailers making sales only through marketplace providers. The de minimis in section 4 will apply to all remote entities with a duty to collect and remit the tax. Requires all marketplace providers to collect and remit tax on sales they facilitate unless:

- 1) a retailer provides the marketplace provider with a copy of its registration to collect the tax; and
- 2) the marketplace provider and retailer agree that the retailer will collect the tax on these sales.

Paragraph (c) states that nothing in paragraph (b) prohibits the retailer and marketplace providers from entering into an agreement about who will collect and remit the tax.

Paragraph (d) states that a remote retailer or marketplace provider must begin collecting and remitting the sales tax no later than 60 days after meeting the de minimis requirement and must continue to collect and remit for at least 12 months.

Paragraphs (e) and (f) outline the steps a remote retailer or marketplace provider must take in order to cease collecting the sales tax after no longer soliciting sales in this state.

Effective for sales and purchases made after September 30, 2019.

**6**            **Marketplace provider liability.**  
Eliminates language related to when a remote seller must collect the tax. This language was moved to section 4, paragraph (b). States that a marketplace provider is subject to audit on the sales for which it must collect and remit sales tax. Limits the liability for a tax error due to incorrect or insufficient information provided to the marketplace provider by a retailer using the site.

Effective for sales and purchases made after September 30, 2019.

Effective for sales and purchases made after June 30, 2019.

Effective the day after final enactment and applies to purchases after June 30, 2019, and before July 1, 2021.

**10**             **Qualified data centers.**

Changes the sales tax exemption of computer software purchases at qualified data centers. Under current law, computer software purchases are exempt for 20 years after the first qualifying purchase at a data center but there has been some dispute between the industry and the Department of Revenue regarding what is included in the definition of exempt computer software.

The new language proposes two definitions for computer software:

- for software purchased prior to July 1, 2019, the definition explicitly excludes software distributed to users outside of the facility; and
- for software purchased after June 30, 2019, the definition includes the software distributed to users outside the facility but limits the exemption to only 50 percent of the tax paid.

The length of time that a data center qualifies for a full or partial exemption of the sales tax on computer software is also reduced as follows:

- For data centers that first qualified before June 30, 2014, they get an exemption of 100 percent of the tax on the narrower definition of computer software until June 30, 2019. This is an exemption of between five and seven years.
- For data centers that first qualified between July 1, 2014, and July 1, 2019, they get a five-year exemption for software – 100 percent on software meeting the narrow definition if purchased before July 1, 2019, and 50 percent on all software purchased after July 1, 2019, but before the end of the five-year window.

**Section Description – Article 3: Sales Tax**

---

- For data centers that first qualify after June 30, 2019, they get a five-year exemption on 50 percent of all software purchases.

Also adds a new provision stating that if a qualified data center’s 20-year certification period runs out before the expiration date for this exemption (June 30, 2042) and it gets recertified, that there is no software exemption with the second certification.

The 20-year exemption for information technology equipment and electricity remains unchanged.

Effective for sales and purchases made after June 30, 2019, but the limited definition of exempt computer software is effective for purchases made after June 30, 2012, and before July 1, 2019.

For existing recipients with \$32,169 of household income or less, the co-payments are reduced by 5 percentage points, with the exception of the lowest income range which is reduced from 5 to 2.5 percent. Requires landlords to provide the data either using the electronic system developed under subdivision 3, or in an alternate form and manner approved by the department. Requires the Department to retain data collected as long as is necessary to ensure compliance. Deems data collected to be return information. **6**            **Annual report on rents paid in Minnesota.**

Requires the Department of Revenue to publish an annual report on rents paid in Minnesota using the rental market information collected under the previous section. The report must include aggregated summary data on rents, broken out by the number of bedrooms in the unit, and geographic region.

The department must submit the report to the tax, property tax, and housing committees of the legislature on March 15, 2022, and every following March 15.

Effective the day following final enactment.

**7**            **Guaranteed distribution.**

Guarantees the production tax distributions allocated to the Taconite Municipal Aid Account at 100 percent of the 1983 distribution and eliminates the decrease in the distribution when production falls below 42 million taxable tons. ## Article 7: Local Option Sales Tax

Modifies the existing general law applying to the authorization of local sales tax special laws as follows:

- requires a more detailed resolution outlining and limiting the specific projects to be funded and providing more project specific costs, and documentation of a project's regional significance;
- requires the voter approval be sought only after the authority is granted and requires the voters to approve each project to be funded in a separate question with a reduction in the authority for any project that fails at the election; and
- allows cities that successfully passed a local sales tax referendum at the 2018 general election that did not get authority this year to come back and seek authority without an additional referendum provided that they meet the new resolution requirement and the projects listed in the resolution do not conflict with original referendum.

Modifies provisions for the following existing local sales taxes:

- lodging taxes for Minneapolis, St. Paul, and Two Harbors; and
- general sales tax for Cloquet.

Provides the following new or increased sales taxes:

- general local sales taxes for Duluth, Two Harbors, Avon, Blue Earth, Cambridge, Detroit Lakes, Elk River, Excelsior, Glenwood, International Falls, Perham, Sauk Centre, Virginia, Willmar, and Worthington; and
- new local lodging taxes for Lake County, La Crescent, North Mankato, and Plymouth.

Provides that certain cities granted new local sales tax authority to pass a new resolution providing more detail on the specific projects to be funded and limiting the use of the local sales tax revenues to funding only the projects listed in the new resolution.
