Overview

Medical Assistance (MA) provides coverage for pregnant women with incomes up to 278 percent of the federal poverty guidelines (FPG). Women remain eligible for MA for 60 days postpartum, and may be eligible for MinnesotaCare if their incomes do not exceed 200 percent of FPG. This bill exempts persons terminated from MA eligibility as pregnant women from MinnesotaCare premiums for ten months following the end of the MA postpartum period, and requires the commissioner of human services to present recommendations to the legislature on methods to ensure continuous health care coverage for women and infants following the MA postpartum period.
