4-6 **Partial federal conformity.**

Under current law, Minnesota’s income tax code is tied to the federal Internal Revenue Code, as amended through December 31, 2018. Since that date, Congress

Description – Article 1: Federal Conformity; Individual Income and Corporate Franchise Taxes

has enacted six significant tax acts, which the state has not adopted for the purposes of its income and corporate franchise tax.

Sections 4-6 of the bill adopt 19 sections of federal law that Congress enacted after December 31, 2018. In some cases, the bill adopts the federal sections for the same tax years they are effective for federal purposes. In other cases, the bill adopts federal sections temporarily for tax year 2020.

The federal changes the bill adopts were enacted in the following acts (and sub-acts) of Congress:

- Further Consolidated Appropriations Act, 2020 (FCAA 2020), which contained two tax policy sub-acts:
 - Taxpayer Certainty and Disaster Tax Relief Act of 2019 (TCDTR 2019)
 - Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019
- Coronavirus Aid, Relief, and Economic Security (CARES) Act
- Consolidated Appropriations Act, 2021 (CAA 2021), which contained two tax policy sub-acts:
 - COVID-related Tax Relief Act (CTRA) of 2020

7 Losses.

Makes three clarifications related to the Minnesota itemized deduction for casualty losses.

- 1) It limits the deduction to losses not covered by insurance.
- 2) It explicitly subjects the deduction to the two percent AGI floor in section 67(b)(3) of the Internal Revenue Code.
- 3) It explicitly subjects the deduction to the limits in section 165(h) of the Internal Revenue Code (which stipulate the deduction is amount in excess of \$100, less ten percent of the taxpayer's AGI).

These changes are consistent with the Department of Revenue's current interpretation of the law.

Effective date: the day following final enactment.

8 Volunteer driver reimbursement.

Allows a Minnesota subtraction for payments from charitable organizations to volunteer drivers. The subtraction is limited to payments in excess of the IRS reimbursement rates for charitable organizations (\$.14 cents/mile) but do not exceed the reimbursement rate for businesses (\$.56 cents/mile in 2021, subject to annual adjustment).

Effective date: tax year 2021.

10 Credit allowed.

Allows taxpayers ages 19 to 21 without qualifying children to qualify for the Minnesota working family credit. Description – Article 1: Federal Conformity; Individual Income and Corporate Franchise Taxes

Effective date: day following enactment.

12 Student loan credit.

Subd. 1. Definitions. Amends the definition of “earned income” for the purposes of the student loan credit to reference the definition of “earned income” in the marriage penalty credit. Under current law, “earned income” includes wages, salaries, tips, and self-employment income. The bill adds Social Security benefits and some retirement income to the definition.

Subd. 2. Credit allowed. Requires the Department of Revenue to allocate the couple’s combined adjusted gross income to each individual spouse based on the spouse’s percentage share of the couple’s earned income. This has the effect of reducing the marriage penalty in the credit.

Effective date: tax year 2021.

13 Minnesota housing tax credit.

Establishes a housing tax credit for 85 percent of contributions to the newly established contribution account.

Subd. 1. Definitions. Excludes the contribution used to claim the credit from being used to claim any other subtraction or credit allowed under other sections of law. Requires the credit to be allocated according to provisions of current law for nonresidents and part-year residents.

If there are insufficient amounts to match the contribution, the MHFA must return the contribution to the taxpayer.

Subd. 4. Partnerships; multiple owners. Requires distribution of the credit to partners, members, shareholders, or multiple owners of property on a pro rata basis.

Subd. 5. Recapture. Provides that credits claimed are not subject to recapture but that if grants or loans are canceled or recaptured, the grant or loan is returned to the housing tax credit contribution account.

Subd. 2. Reporting and payment requirements for partnerships and tiered partners. Article 3: Pass-through Entity Tax

Establishes a fully refundable pass-through entity tax that allows electing pass-through businesses to pay state income tax at the entity level and deduct this tax for federal income tax

purposes. Under federal law, taxes on pass-through income are subject to the SALT cap of \$10,000.

Section Description – Article 3: Pass-through Entity Tax

1 Composite income tax returns for nonresident partners, shareholders, and beneficiaries.

Allows entities to file a composite return if their Minnesota-source income is only from entities electing to file a composite return or pay the pass-through entity tax.

2 Pass-through entity tax.

Paragraph (a) establishes definitions for “income,” “qualifying entity,” and “qualifying owner” for purposes of the pass-through entity (PTE) tax. Income is calculated in the same manner as required for composite return filers. A qualifying entity may not have a pass-through business as an owner. A qualifying owner may be an estate or trust that is a shareholder of an S-corporation that is a qualifying entity.

Paragraph (b) allows a qualifying entity to file and pay the PTE tax if the owners holding more than a 50 percent ownership in the entity elect to do so. The election would be irrevocable for the taxable year. The election is only available in a year the SALT deduction cap is effective for federal purposes.

Paragraph (c) imposes the PTE tax on a qualifying entity. The amount of tax is equal to the amount of tax liability of each owner.

Paragraph (d) requires the tax liability of each owner to be calculated by applying the highest individual rate under the income tax. As is the case for the composite return filing rules, no nonbusiness deductions would be allowed. In addition, only those deductions and credits allowed to an individual owner are allowed in calculating the owner’s tax liability.

Paragraph (e) requires that the same deductions used to calculate an owner’s tax liability for the PTE tax must also be used to calculate the owner’s liability under the income tax.

Paragraph (f) imposes the estimated tax requirements on owners paying the PTE tax, in the same manner as required for composite return filers.

Paragraph (g) clarifies that an owner’s adjusted basis in the partnership is determined as if the election to pay the PTE tax was not made.

Paragraph (h) treats a PTE return and a qualifying entity like a composite return and composite filer for administrative purposes.

Section Description – Article 3: Pass-through Entity Tax

Paragraph (i) allows the commissioner of revenue to prescribe the content, format, and manner of PTE returns and other documents.

Paragraph (j) allows PTE filers to also pay the composite tax.

Paragraph (k) allows the PTE tax to satisfy the tax liability for nonresidents, in the manner allowed for nonresidents electing composite return filing.

Effective date: tax year 2021 and thereafter.

3 Pass-through entity tax.

Provides that the PTE tax is treated as a corporate tax for the purposes of certain civil penalties.

Effective date: tax year 2021 and thereafter.

4 Schedules of rates for individuals, estates, and trusts.

Requires an adjustment to the residency percentage for nonresident qualifying owners of a PTE tax-electing pass-through business, for the state income tax addition and state subtraction for tax refunds, to the extent these adjustments are attributed to the electing pass-through.

Effective date: tax year 2021 and thereafter.

5 Credit for taxes paid to another state.

Clarifies that the provision requiring a pro-rata share of a partnership-level tax to be considered a tax imposed on the partner also includes LLCs.

Effective date: tax year 2021 and thereafter.

6 Pass-through entity tax credit.

Allows a taxpayer to claim a refundable credit for their share of the amount of PTE tax paid by an electing pass-through business.

Effective date: tax year 2021 and thereafter.

7 Withholding by partnerships.

Provides an exception to the withholding rules for partners in a partnership that elects to file and pay the pass-through entity tax in section 1.

Effective date: tax years in 2021 and thereafter.

Section Description – Article 3: Pass-through Entity Tax

8 Withholding by S-corporations.

Provides an exception to the withholding rules for shareholders in an S-corporation that elects to file and pay the pass-through entity tax in section 1.

Effective date: tax years in 2021 and thereafter.

Article 4: Sales and Use Taxes

This article makes a number of changes to the requirement of certain vendors to remit June accelerated sales tax liabilities. This article also provides exemptions for:

- the extra price paid to sit in a “preferred viewing location” for season tickets to a college sporting event;
- fundraising sales made by school-associated student groups; and
- supplies and materials used in and equipment incorporated into construction or remodeling of public safety facilities and other various capital projects owned by a local government.

Section Description – Article 4: Sales and Use Taxes

1 Additional revenues; priority.

Requires the reduction of the percentage of accelerated June sales tax liabilities of certain vendors if there is a budget surplus determined by a November forecast.

The reduction in percentage is priority number six for the allocation of additional revenues in a surplus situation. The percentage will only be reduced if the other five priorities are met first.

Requires the commissioner of management and budget to certify the reduced percentage to the commissioner of revenue by March 15 annually, and requires the commissioner of revenue to certify the percentage to stakeholders by April 15 annually.

Effective July 1, 2021.

2 Sales and use tax.

Makes the following changes relating to June accelerated tax payments:

- reduces the percentage of accelerated June sales tax liabilities of certain businesses in accordance with section 1;

Section Description – Article 4: Sales and Use Taxes

- requires the expiration of the June accelerated payment for sales and use tax liabilities after the percentage is reduced to zero; and
- exempts certain vendors that make retail sales of certain construction materials from the requirement to remit June accelerated payments.

Effective for estimated payments made after July 1, 2021.

3 Accelerated payment of June sales tax liability; penalty for underpayment.

Adjusts the threshold for the imposition of penalties for the underpayment of accelerated June sales tax liabilities to the percentage as determined under section 1.

Requires this provision to expire once the percentage is reduced to zero.

Effective for estimated payments made after July 1, 2021.

4 Season ticket purchasing rights to collegiate events.

Excludes the extra price paid to sit in a “preferred viewing location” for season tickets to a college sporting event from the taxable sales price of the ticket, provided the following criteria is met:

- the underlying ticket price must be at least as high as the highest ticket price for the surrounding seats, not in a preferred viewing location;
- the extra price must be separately stated; and
- the revenue from the extra price must go entirely to support student scholarships, student wellness, and academic costs.

Effective for sales and purchases made after June 30, 2021.

5 Fund-raising sales by nonprofit groups.

Exempts from sales tax the sales made by school-associated student groups even when the money is recorded as part of school district revenues provided that:

- the sales are for fund-raising purposes of elementary or secondary student organizations for the purposes of funding extracurricular activities such as sports, arts, etc.; and
- the school district reserves the revenue raised for extracurricular activities and the money raised for a specific activity is spent on that activity.

This provision restores this exemption that was in place prior to a change made in the 2019 omnibus education bill.

Effective the day after final enactment.

the state’s tax expenditures to identify purpose statements and metrics for evaluating each expenditure.

After the period of initial review, the commission must review and evaluate Minnesota’s tax expenditures on a regular, rotating basis. The schedule must ensure that each expenditure is evaluated at least once every ten years. The schedule may group expenditures by policy area or constituency, but must evaluate a similar number of expenditures from each tax type each year. Before December 1 of each year the commission issues a report reviewing an expenditure, it must hold a public hearing on the expenditure.

Subd. 5. Components of review. Describes the process for evaluating a tax expenditure. At a minimum, the commission must:

- Identify potential modifications to the tax expenditure to increase its efficiency or effectiveness.
- Estimate the amount by which the relevant tax rate could be reduced if the expenditure were repealed.
- Estimate the incidence of significant tax expenditures.
