

H.F. 1402

As amended by H1402A1

Subject Frost footing depth requirement in border cities

Authors Keeler and Marquart

Analyst Anna Scholin

Date March 17, 2021

Summary

This bill allows the cities of Breckenridge, Dilworth, East Grand Forks, Moorhead, and Ortonville to adopt a reduced frost footing depth requirement for one- and two-family dwellings that matches the requirements of an adjacent municipality in a bordering state, rather than the State Building Code, as long as that depth is at least 3-1/2 feet. This bill is effective the day following final enactment.
