Overview

Under current law, up to two cases of wine per year may be shipped by an in- or out-of-state winery to a resident of the state. This bill would allow a winery to ship up to 12 cases per year but would require all out-of-state direct ship wineries to obtain a license if they ship into the state.

In addition, the bill would require direct ship wineries to pay all liquor related taxes. Currently, the wine excise tax does not apply to direct shipped wine. This exemption is eliminated in the bill. The bill would also require a direct ship winery to collect and remit sales tax on all sales into the state, and pay the alcohol gross receipts tax as well.

The bill would also impose reporting requirements on direct ship wineries and common carriers to aid in enforcing the proposed regulations.
