**Date** February 22, 2022

## Summary

This bill would appropriate \$250,000 to the Agricultural Utilization Research Institute (AURI) on a onetime basis to conduct an anaerobic digestion feedstock study to be used in the production of renewable natural gas.

AURI is a 501(c)(3) nonprofit corporation originally established by the legislature in 1987 as part of the now-defunct Greater Minnesota Corporation (Laws 1987, chapter 386).
