

Subject Driver's license and identification card data

Authors Hornstein and others

Analyst Matt Burress (matt.burress@house.mn)

Date May 10, 2022

Overview

This bill provides for collection of race and ethnicity data in conjunction with driver's license and identification card applications, and makes an appropriation for the implementation costs.

Summary

Section	Description
1	Classifications. Provides for data practices on race and ethnicity data collected under the change being made in the bill. Effective January 1, 2023.
2	Contents of application; other information. Adds optional indication of race and ethnicity in driver's license and identification card applications. Effective January 1, 2023.
3	Appropriation; race and ethnicity data. Appropriates \$414,000 in fiscal year 2023 from the vehicle services operating account to the Department of Public Safety, in order to implement race and ethnicity data collection. It is a onetime appropriation.
