

Subject Government Data Practices: Department of Natural Resources data on minors

Authors Becker-Finn

Analyst Nathan Hopkins

Date February 15, 2021

Overview

This bill classifies as private certain data that the Department of Natural Resources (DNR) collects, creates, receives, maintains, or disseminates about minors (i.e. individuals under the age of 18).

Summary

Section	Description
1	Data on individuals who are minors. Creates a cross-reference within the Government Data Practices Act (chapter 13) for the new statute created by section 2 of the bill.
2	Data on individuals who are minors. Classifies as private the enumerated kinds of data that the DNR collects, creates, receives, maintains, or disseminates about known minors. Creates an exception for data that would be classified as public because the minor is employed by the DNR. Specifies that data on a minor remains private even after the individual turns 18.
