Overview

Extended time revenue provides additional money to school districts participating in a State-Approved Alternative Program (SAAP). State-Approved Alternative Programs are delivered through Area Learning Centers (ALCs), Alternative Learning Programs (ALPs), targeted services activities, and through contract alternative schools. A pupil must voluntarily enroll in a SAAP. This means the extended time revenue does not cover a child who has been placed in a residential facility.

A school district may count the hours that a student spends in a SAAP for additional funding. The hours are capped so that the additional time served cannot exceed 0.2 pupils in average daily membership. Extended time revenue for a school district equals each district's extended time pupil units times the statutory allowance of \$5,117.

H.F. 725 extends extended time revenue for summer programming to students who have been placed in a children's residential facility.

Summary

Section	Description
---------	-------------

1	Extended time revenue.
----------	-------------------------------

Expands extended time revenue to include summer services to students who have been placed at a children's residential facility.

Defines "children's residential facility" as a residential facility for children, including a psychiatric residential treatment facility (PRTF), licensed by the Department of Human Services or the Department of Corrections and subject to Minnesota Rules, chapter 2960, or an inpatient hospitalization that includes mental health services.
