

Subject Extended Time Revenue for Students in Day and Residential Treatment Programs

Authors Youakim

Analyst Tim Strom

Date February 8, 2023

Overview

Extended time revenue provides additional money to school districts participating in a State-Approved Alternative Program (SAAP). State-Approved Alternative Programs are delivered through Area Learning Centers (ALCs), Alternative Learning Programs (ALPs), targeted services activities, and through contract alternative schools. A pupil must voluntarily enroll in an SAAP. This means the extended time revenue does not cover a child who has been placed in a residential facility. A school district may count the hours that a student spends in an SAAP for additional funding. The hours are capped so that the additional time served cannot exceed 0.2 pupils in average daily membership. Extended time revenue for a school district equals each district's extended time pupil units times the statutory allowance of \$5,117.

H.F. 795, as amended by the H0795DE1 amendment, indexes extended time revenue to increases in the basic formula allowance and provides extended time revenue for summer programming to students who are placed in a children's residential facility or who are attending a summer day treatment program.

Summary

Section	Description
---------	-------------

1	Extended time revenue.
---	-------------------------------

Links extended time revenue to growth in the general education basic formula allowance for fiscal years 2024 and later by setting the extended time formula allowance to 75 percent of the basic formula allowance.

Expands extended time revenue to include summer services to students who are attending a day treatment program or who are placed at a children's residential facility.

Section **Description**

Defines "children's residential facility" as a residential facility for children, including a psychiatric residential treatment facility (PRTF), licensed by the Department of Human Services or the Department of Corrections and subject to Minnesota Rules, chapter 2960, or an inpatient hospitalization that includes mental health services.
