## Overview

H.F. 1528 would allow a new markets tax credit in Minnesota, similar to the federal credit. The bill would allow a credit for 50 percent of the amount an investor invests in a qualified community development entity (QCDE). The 50 percent amount could be claimed over a period of five years, beginning two years after the investment is made.

Within one year from receiving an investment, a QCDE would be required to make an investment in qualified active community low-income businesses in Minnesota (qualified businesses), which are defined by reference to the federal credit.

A maximum of \$60 million would be allocated to the credit (but not claimed) in tax years 2024 and 2025, meaning that the seven-year holding period would begin in either of those taxable years with the first ten percent credit amounts taken in 2026. Investments would be required to be made by the end of 2025 and no credit could be claimed after 2031. \$30 million of the credit would be allocated to qualified businesses in the seven-county metro area and \$30 million would be allocated to greater Minnesota.

The Department of Employment and Economic Development (DEED) would administer the credit. An account for fee revenue relating to the credit would be created and amounts from this account would be appropriated to DEED for purposes of administering the credit.

that is, ten percent of an investor's investment for each of the last five years of a seven-year investment period.

**Subd. 3. Application.** Requires a QCDE to apply to the commissioner of DEED to designate an investment as a qualified equity investment, which allows the investment to qualify for the credit. Among other requirements, the QCDE would have to specify the percentage of the allocation sought under the greater Minnesota or metro allocation, or both. A \$5,000 application fee would also be required. Applications would have to be submitted within 30-45 days after the federal CDFI fund announces allocation awards.

**Subd. 4. Certification and timing of qualified equity investments.** Establishes application, allocation, and compliance procedures for the credit.

\$60 million of credits would be allocated for investments greater Minnesota and the metro area and a QCDE would be required to make investments by January 1, 2026.

A QCDE could transfer its investment authority to its controlling entity or partner of a controlling entity (if it's also a QCDE) provided that certain requirements are met.

The commissioner of DEED must notify the commissioner of revenue within 15 days of approving a credit.

**Subd. 5. Credit recapture.** Requires the credit amount to be recaptured if the federal credit is recaptured, the QCDE redeems or repays an equity investment prior to the seven-year investment period, or the QCDE doesn't invest 100 percent of the investment as required, within 12 months of the qualified equity investment.

Recaptured amounts would be assessed by the Department of Revenue and the taxpayer would not be eligible for future credits for the equity investment.

**Subd. 6. Examination.** Allows the commissioner of DEED to conduct examinations to verify that credits are properly received and applied, and for purposes of enforcing the recapture provisions.

**Subd. 7. Annual reporting by community development entities.** Requires a QCDE to submit an annual report to the commissioner on the qualified investments made by the QCDE and pay an annual fee of \$1,500. The report must include documentation on the entity's investments, information on job growth and salaries at qualified businesses, information regarding recapture, and relevant changes for taxpayers/investors.
