Date March 13, 2023

Overview

House File 2178 specifies that the Pollution Control Agency has the same authority to regulate greenhouse gases as it does any other air contaminant, via standards, rules, or permit conditions.

Summary

Section	Description
1	[116.06] Definitions. Subd. 10a. Greenhouse gases. Defines greenhouse gases.
2	[116.07] Powers and duties. Subd. 2. Adopting standards. Adds greenhouse gases to the air contaminants for which the Pollution Control Agency may adopt standards.
3	[116.07] Powers and duties. Subd. 4. Rules and standards. Specifies that the agency may adopt rules or standards relating to sources or emissions of greenhouse gases.
4	[116.07] Powers and duties. Subd. 4a. Permits. Authorizes the agency to prescribe conditions in facility permits regarding emissions of greenhouse gases.
