Overview

This bill requires an exception to the size limitation for customized living and 24-hour customized living services provided under the brain injury (BI) and community access for disability inclusion (CADI) waivers for certain settings located in Hennepin and Itasca Counties.

MA home and community-based services (HCBS) waivers offer service options that allow people to live in the community instead of going into or staying in an institutional setting. HCBS covers two types of services: (1) services necessary to avoid institutionalization that are not offered in Minnesota's MA state plan; and (2) services that are extensions of Minnesota's MA state plan services.

The BI waiver provides services for individuals with brain injury who need the level of care provided in a nursing home or neurobehavioral hospital.

The CADI waiver provides services for individuals with disabilities who need the level of care provided in a nursing home.
