

Subject Township Aid
Authors Lislegard
Analyst Jared Swanson
Date March 15, 2024

Overview

Modifies the township aid formula so that the entire appropriation available for the aid is used and increases the amount available for the aid from \$10,000,000 to \$11,500,000. These changes are effective beginning with aid paid in 2025.

Summary

Section	Description
---------	-------------

1	Towns. (formula)
---	-------------------------

Modifies the town aid distribution formula so that the entire amount available for the aid is distributed. Under current law, the sum of each town's distribution may be less than the \$10,000,000 annually appropriated for the aid. None of the formula factors are changed in the bill, which would still distribute aid based on each township's area, population, and share of tax base made up of agricultural land.

2	Towns. (appropriation)
---	-------------------------------

Increases the annual appropriation for the aid from \$10,000,000 to \$11,500,000.
