Overview

This bill modifies requirements related to high-voltage transmission lines in trunk highway right-of-way.

Summary

Section	Description
1	High-voltage transmission. Explicitly authorizes establishment of high-voltage transmission lines within certain highway right-of-way and sets requirements on transmission collocation requests.
2	Relocation of facilities; reimbursement. Broadens a restriction on electric transmission utility relocation reimbursement from the trunk highway fund for costs resulting from trunk highway projects. Effective for transmission lines permitted starting the day after enactment.
