

Subject Well contractor licensing requirements

Authors Wolgamott

Analyst Justin Cope

Date March 25, 2024

## Overview

This bill would allow licensed well contractors to design and install water service lines without needing a license for plumbing or for the practice of architecture, professional engineering, land surveying, landscape architecture, professional geoscience, or interior design.

## Summary

Section	Description
1	<b>Limitation.</b> Exempts the planning and supervision of the construction and installation of work by a licensed well contractor from licensing requirements applying to the practices of architecture, professional engineering, land surveying, landscape architecture, professional geoscience, and interior design.
2	<b>Well contract exempt from licensing and bond; conditions.</b> Expands exemptions from plumbing licensing requirements for licensed well contractors to include the design and installation of water service lines.
