

Subject PFAS removal report

Authors Lee, F.

Analyst Chelsea Griffin

Date April 12, 2024

Summary

This bill authorizes any unspent portion of a 2023 appropriation for the PFAS manufacturers fee work group after the work group's report has been submitted to the legislature to be used for the PFAS removal report required by this bill. The appropriation is available until June 30, 2025.

The PFAS removal report is required to be submitted to the legislature by the commissioner of the Pollution Control Agency on or before January 15, 2025. The report must provide recommendations for strategies the state may use to require manufacturers of PFAS to pay the cost of purchasing and installing infrastructure designed to remove PFAS from intake waters and municipal wastewater facilities statewide and the cost of treating and disposing of the PFAS. The report must also specify any legislation needed to implement the strategies. Options from the PFAS manufacturers fee work group report must be incorporated. The bill specifically prohibits recommendations for further reports or studies.

Effective the day following final enactment.
