Subd. 1. Definitions. Provides definitions, including defining “skilled and trained workforce” as a minimum percent of the employees of a contractor or subcontractor working at the site of the petroleum refinery either currently or previously being registered apprentices in the applicable trade or having completed all requirements to graduate from a registered apprenticeship or a comparable combination of experience and training. trained workforce as defined in subdivision 1, unless hired to perform OEM work necessary to comply with equipment warranty requirements or unless subject to a project labor agreement or collectively bargained maintenance agreement involving a registered apprenticeship program or if there is an emergency or lack of workers that makes compliance impracticable.

Subd. 3. Penalties. Directs the commissioner of labor and industry to fine owners, operators, contractors, or subcontractors at least \$5,000, but no more than \$10,000 for every shift where the skilled and trained workforce requirement is violated, in addition to other penalties. Allows the size of the penalty to be scaled to the size of the violator’s business and the gravity of the violation.

Effective date. This section is effective January 1, 2024, and applies to contracts entered, extended, or renewed on or after that date. Requires existing contracts entered before that date to be renegotiated to comply with this section by January 1, 2025.
