## Overview

This bill provides a rate increase for an intermediate care facility for persons with developmental disabilities located in Steele County.

ICFs/DD are medical assistance (MA) facilities that serve persons with developmental disabilities and related conditions who require the level of care provided in an ICF/DD and who choose such services. These facilities are licensed supervised living facilities and serve from four to 64 persons.

Class A supervised living facilities include homes for ambulatory and mobile persons who are capable of taking appropriate action for self-preservation under emergency circumstances.

Class B supervised living facilities include homes for ambulatory, nonambulatory, mobile, or nonmobile persons who are not mentally or physically capable of taking appropriate action for self-preservation under emergency circumstances.

Minnesota contracts with ICF/DD facilities for services and sets rates for each facility. Persons may pay through private insurance, Medicare, MA, and/or a combination of all three. Services are a predesigned package and include:

- room and board;
- services during the day, active treatment, and functional skill development; and
- transportation.

Related medical services may be covered as part of the rate.
