Date March 24, 2025

Overview

This bill extends the deadline for submission of the final report on supported-decision-making and cancels any unexpended amount of the fiscal year 2024 appropriation for supported-decision-making grants and appropriates the amount canceled in fiscal year 2026 for the same purpose.

Supported-decision-making services are services provided to help an individual consider, access, or develop supported decision making, potentially as an alternative to more restrictive forms of decision making, including guardianship and conservatorship. The services may be provided to the individual, family members, or trusted support people. The individual may currently be a person subject to guardianship or conservatorship, but the services must not be used to help a person access a guardianship or conservatorship.
