

Subject Higher education: resident tuition rates

Authors Rehrauer

Analyst Nathan Hopkins

Date March 11, 2026

Summary

This bill amends a statute to provide that a student is eligible for resident tuition rates at a Minnesota State College or University if the student (or the student's spouse, parent, or guardian) moved to Minnesota to accept full-time employment here *before* the student applied to the college or university.

The University of Minnesota is, under the current statutory language, requested to implement this provision.
