

**Subject** Preferential scoring for proposed housing projects in communities with community land trusts

**Authors** Perryman

**Analyst** Justin Cope

**Date** March 6, 2026

## Summary

This bill would require that the commissioner of the Minnesota Housing Finance Agency (MHFA) award additional points to proposals seeking awards from competitive development programs that would be located within a city or a township containing community land trust property. The requirement would apply to selection criteria and scoring systems developed after enactment and would expire at the end of 2030.
