

Subject Legislative Budget Office

Authors Nash and Allen

Analyst Colbey Sullivan

Date March 9, 2026

Summary

This bill requires state agencies, including the Minnesota Supreme Court, to promptly supply data requested by the Legislative Budget Office (LBO) when the data is necessary for the LBO to review the accuracy of a fiscal note prepared for a bill that was subsequently enacted into law.

A fiscal note is an official estimate of the fiscal impact of a bill under consideration by the legislature. Fiscal notes are prepared by the state agency or agencies that would administer or otherwise be impacted by the bill and are reviewed for reasonableness, accuracy, and objectivity by LBO staff.
