

Subject Postsecondary institution student voter registration

Authors Altendorf and Gordon

Analyst Laura Felone Day

Date March 7, 2026

Summary

This bill requires postsecondary institutions to provide students with information about how to register to vote and request and submit an absentee ballot in all other 49 states. Additionally, it requires postsecondary institutions to provide a voter registration form and an absentee ballot request form for a student's home state upon the student's request.

Under current law, all postsecondary institutions that enroll students accepting state or federal financial aid must provide voter registration forms to students twice a year.

Effective the day following final enactment.
