Per Capita City Aid - 1990, 2002, and 2003 in Nominal and Constant 2003 Dollars

The attached run shows city aid for the calendar years 1990, 2001, and 2003 on a per capita basis in nominal and constant 2003 dollars. It also shows the percent change between per capita aid between 1990 and 2003 in both nominal and constant dollars. The 1990 aid includes LGA, equalization aid, city share of disparity reduction aid, and HACA. Cities only receive LGA in 2002 and 2003.

The implicit price deflator for state and local government purchases was used to derive the constant dollar amounts.

Note: Because 2001 Population is the most recently available estimates, 2003 aid per capita is based on 2001 population, 2002 aid per capita is based on 2000 population and 1990 aid per capita is based on 1988 population for consistency.

For further information contact: Pat Dalton 651-296-7434

Note: The cities are grouped by type for comparison purposes. The groups are different from the ones used by House Research for the last eight years. The new groups were developed by the League of Minnesota cities (LMC) in 2002 using 2000 census data and are based on a methodology used by House Research in developing previous grouping schemes. For information on the groups you can contact Eric Willette at the LMC.
