## September 2008

## Major State Aids and Taxes A Comparative Analysis

2006 Update

This report presents a comparative analysis of the major state aids and taxes in Minnesota. This data has been distributed in various formats by House Research for many years, although many of the reports in earlier years contained significantly less information.

This report was prepared by **Karen Baker** and **Nina Manzi**, legislative analysts in the House Research Department.

Questions may be addressed to **Karen** at 651-296-8959 or **Nina** at 651-296-5204.

Kristie Strum provided graphics and production assistance.

**Dane Johnson, Julie Fastner, and Jessica Holm** provided research assistance.

Copies of this publication may be obtained by calling 651-296-6753. This document can be made available in alternative formats for people with disabilities by calling 651-296-6753 or the Minnesota State Relay Service at 711 or 1-800-627-3529 (TTY). Many House Research Department publications are also available on the Internet at: www.house.mn/hrd/hrd.htm.

# Introduction

This report presents a comparative analysis of the major state aids and taxes in Minnesota. It is a reference document and is **NOT INTENDED** to be a complete list of all the aids and credits paid by the state and all the taxes collected by the state. The report contains data on:

- **Major State Aids** including education aid, human services aid, highway aid, local government aid (LGA), disparity reduction aid (DRA), county program aid, community corrections funding, property tax refund, and targeting.
- **Property Tax Data** including property tax levies by type of taxing district, miscellaneous property tax credits, property valuation data, and average tax rates.
- **Major State Taxes** including individual income tax, sales/use tax, motor vehicle sales tax, motor vehicle registration tax, motor fuels tax, corporate franchise (income) tax, and state property tax.

This report is divided into four major sections.

Section 1 discusses the state aids, property tax data, and state taxes and gives the assumptions and caveats for using the report. It contains current and historical data using graphs, maps, and tables in both total dollars and on a per capita basis.

Section 2 presents STATEWIDE SUMMARY DATA. A sample table with a general explanation introduces the section. The section contains the summary data for the most recent available year on the statewide totals and compares the metro and the nonmetro economic development regions to each other.

Section 3 compares aid and tax data for the most recent available year for each of the 13 ECONOMIC DEVELOPMENT REGIONS to total statewide data.

Section 4 compares aid and tax data for the most recent available year for each COUNTY to total statewide data and to the economic development region in which the county is located.

# 1. Current and Historical Data

Section 1 contains the most recent available data for the major state aids, credits, and taxes and describes the programs under the general categories in the tables of this report. The assumptions and caveats for using the report are mentioned in this section. In addition to information from the most recent year, section 1 also contains historical information. The data is for a five-year time period.

Section 1 is divided into three parts:

- Major state aids
- Property tax data
- Major state taxes

Some of the data in this section are county level, while other tables and graphs are by region or groupings of regions. One table and one graph use northern and southern groupings of the 80 nonmetro counties. The groupings were selected for convenience, rather than for any specific analytical purpose. The northern and southern regions are grouped as follows:

Northern Regions		South	ern Regions
1	Northwest	6E	Six East
2	Headwaters	6W	Upper Minnesota Valley
3	Arrowhead	7W	Central Minnesota
4	West Central	8	Southwest
5	Five	9	Nine
7E	East Central	10	Southeastern Minnesota

The seven metro counties are not included in either the northern or southern regions and are region 11.

A table on page 5 lists the 2006 county population estimates, which were used to calculate per capita amounts in the report. A map and accompanying table on pages 6 and 7 show the counties and the economic development regions.

The standard format for each aid or tax consists of four or five pages of information. The first page or two contains information for the latest available year, followed by two maps and a page with historical data.

**Program Description:** The first one to three pages provide a program description of the aid or tax. They also provide the statewide amount for the most recent available year, any relevant reporting information, and the source of the data. In some cases, summary tables itemizing the data in different ways (e.g., by program totals) are included. Any recent law changes that affect the program and are important in analyzing the data are noted on this page.

**Maps:** The next two pages contain maps showing the per capita distribution of the aid or tax by **county** for the most recent year and by **economic development region** (EDR) for the most recent year. 2006 population is used to calculate per capita amounts throughout this report, even if 2005 is the most recent year for which data for a particular aid or tax is available.

Note on population: The 2006 population estimates used in this report are from the Minnesota State Demographer. Last year's report (2005 Update, published in July 2007) used population estimates from the U.S. Census Bureau.

The counties were grouped by dividing the data range for each aid and tax into three to five segments. The map legend shows the size of the segments, the per capita amount received or paid by the average county or economic development region, the range from lowest to highest amount per capita, and the overall statewide per capita amount. In some cases, a small number of counties may have per capita aid or tax amounts much higher or lower than all other counties. For purposes of comparability, the groupings constructed on the county data ranges were also used for maps presenting data by economic development region.

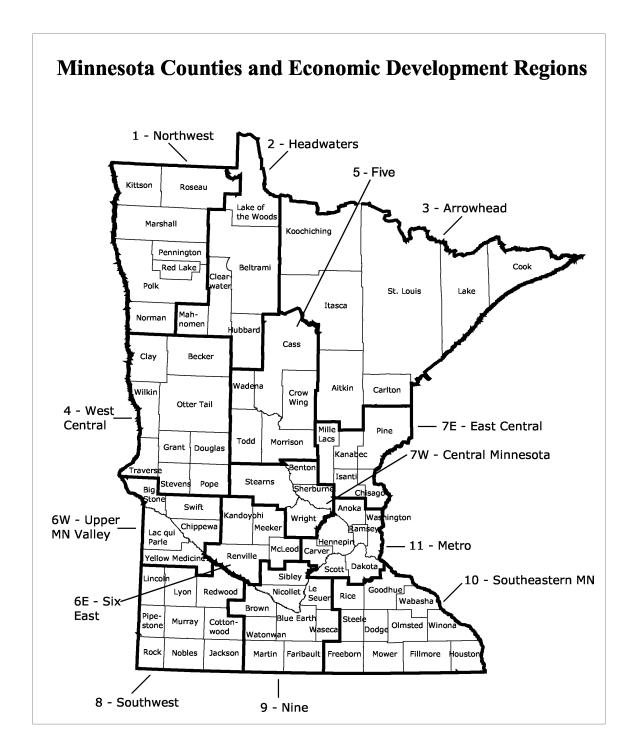

All maps are on a per capita basis for comparability among counties. For some aids and taxes, however, other measures would probably be more appropriate. For example, a measure incorporating per pupil units could provide insight into the distribution of education aid. Construction of such measures on a county basis is beyond the scope of this report due to time and data limitations. Where appropriate, footnotes are provided suggesting alternatives.

**Historical Data:** The following page has a table containing the historical data for the state and the geographic areas of the state. The right-hand column shows a percentage change for the time period presented, calculated using current dollars (i.e., not adjusted for inflation). Hennepin and Ramsey counties are shown separately from the rest of the metro counties on this page because of their greater size, and because each contains a city of the first class.

At the bottom of this page is a statewide graph containing a trend of the data in current (actual) dollars and in constant (inflation-adjusted) dollars. This is the only place where amounts presented are adjusted for inflation.

The 2006 population estimates listed below, from the Minnesota State Demographer, are used to calculate the per capita amounts throughout the report, even though the most recent year for which data for a particular aid or tax is available may be 2005 or 2006.

**Major State Aids** 

# **Education Aid**

### **Program Description**

**Education aid** is the total amount of state aid paid to school districts for all K-12 educational purposes. This amount includes state aid for general education, special education, transportation, community education, capital expenditure, secondary vocational, and other miscellaneous programs. Almost 84 percent of the total aid (including aid to charter schools) is general education aid.

### **Aid Amount and Reporting**

### 2005/2006 Education Aid: \$6.5 billion

The total education aid for the 2005/2006 school year is \$6,477,912,747. The amounts received by school districts for property tax credits (i.e., homestead market value credit, agricultural market value credit, taconite homestead credit, disparity reduction credit, etc.) are not included in this amount since they are itemized elsewhere in the report. This total includes \$178,898,636 that went to the 125 charter schools operating in 2005/2006. This is the third year that the report incorporates aid to charter schools in its tables and analysis.

All education aids are reported by home county, that is, the county where the school district's administrative headquarters is located. If a school district is located in more than one county, the total aid for that school district is included in the home county's aid amount. Data by school district by county portion is not available. Aid to charter schools is reported in the county in which each school is located. Education aid by home county by school district, obtained from the Department of Education, is listed in Appendix A.

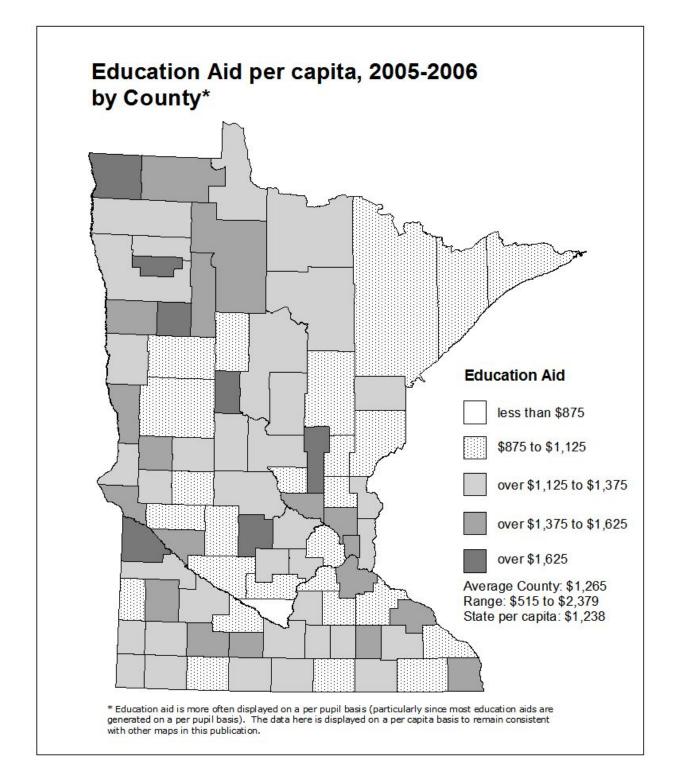

The education aid total does not include \$20,194,000 that went to colleges participating in the postsecondary enrollment options (PSEO) program in 2005/2006, and also does not include lesser amounts spent on metropolitan intermediate school districts and nonmetropolitan educational cooperative districts,<sup>1</sup> and other providers.<sup>2</sup>

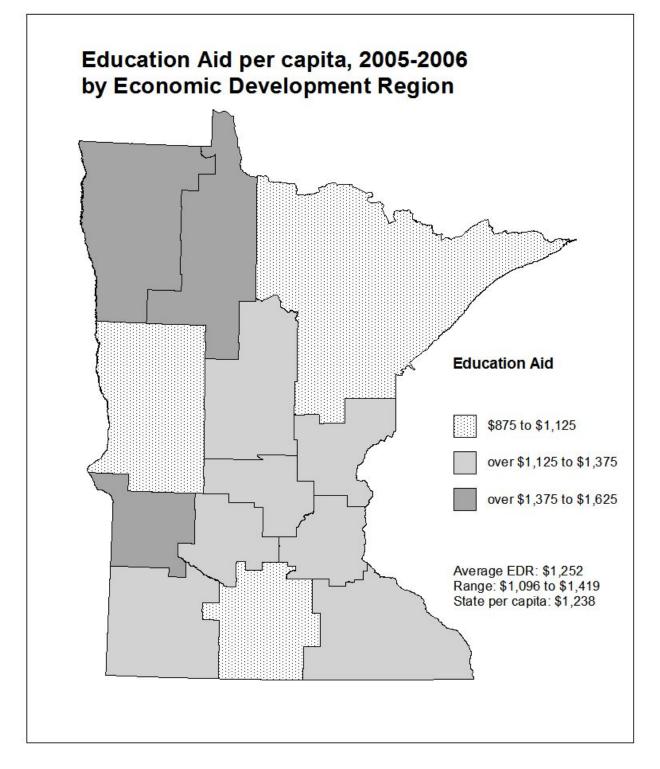

<sup>&</sup>lt;sup>1</sup> In 2005/2006, intermediate school districts #916 and #917 received \$98,000 in education aid, and cooperative school organizations received \$4,843,000 in aid. Before 1994/1995, larger amounts of educational aid were paid directly to intermediate districts and cooperative school organizations. Since that time, this additional aid has been paid directly to school districts which, in turn, distribute it to intermediate and cooperative school organizations. This change in aid distribution has resulted in a substantial decrease in aid paid directly to these intermediate and cooperative school organizations.

<sup>&</sup>lt;sup>2</sup> In 2005/2006, \$1,542,000 in aid went to four tribal contract schools, \$400,000 to the Faribault Academies for the deaf and blind, and \$5,108,000 to nonprofits operating alternative programs under contract.

### **Recent Law Changes**

General education aid amounts increased significantly beginning with property taxes payable in 2002 (revenue for the 2002/2003 school year). This is due to the state takeover of general education funding and the elimination of the local general education property tax levy. General education aid increased by roughly \$1.5 billion—\$1.3 billion is due to the elimination of the gross general education levy (the levy amount before deduction of the homestead and agricultural credits) and \$200 million is due to the "roll-in" of the first \$415 per pupil unit of each district's operating referendum revenue. This increase in school aid is partially offset by a \$400 million reduction in property tax credits and aids to school districts.

### The Past Five Years of Education Aid

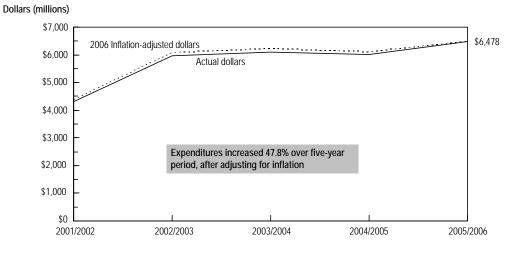

The table below shows the distribution of education aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of education aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

Current dollars, in thousands							
	2001/2002	2002/2003*	2003/2004**	2004/2005**	2005/2006**	5-Yr. Chg.

## Education Aid: 2001/2002 School Year to 2005/2006 School Year

\* The significant increase in education aid from 2001/2002 to 2002/2003 is primarily due to the state takeover of general education funding (see page 11).

\*\* Includes \$120 million of aid to charter schools in 2003/2004, \$146 million in 2004/2005, and \$179 million in 2005/2006.

### **Statewide Education Aid**

# **Human Services Aid**

### **Program Description**

**Human services aid** is the total amount of state aid for human services programs, including all income maintenance and social service programs. Although the federal government and the counties contribute money to programs in varying degrees, the amounts in this report reflect only the **state's share** of the human services costs.

### **Aid Amount and Reporting**

### 2006 Human Services Aid: \$3.6 billion

The state's share of the human services expenditures for calendar year 2006 is \$3,628,653,530. The statewide amounts by program are listed below.

Type of Program	Amount	Percent					
Medical Assistance	\$2,016,672,930	55.6%					
Minnesota Family Investment Program (MFIP)	39,027,491	1.1					
General Assistance (GA)	30,393,166	0.8					
General Assistance Medical Care (GAMC)	284,471,052	7.8					
Social Services (including CSSA)	1,145,550,685	31.6					
Miscellaneous:							
Minnesota Supplemental Assistance	30,602,430	0.8					
Group Residential Housing	77,813,833	2.1					
Food Stamp Delivery*	-33,547	0.0					
Title IV Child Support	4,155,490	0.1					
Total \$3,628,653,530 100.0%							
<ul> <li>* This excludes \$342,602 received from the counties for administration; because of timing issues the net for 2006 is negative. Previous years' reports included similar amounts recovered from counties in the state's share.</li> </ul>							

State MFIP spending shown in this report is before offsetting any current year child support collections applied against current and prior years' MFIP and AFDC payments. In calendar year 2006, MFIP spending in Minnesota totaled \$327.7 million (\$263.6 million federal, \$39.0 million state, \$22.2 million county, \$2.9 million other), and offsetting child support collections totaled \$54.7 million.

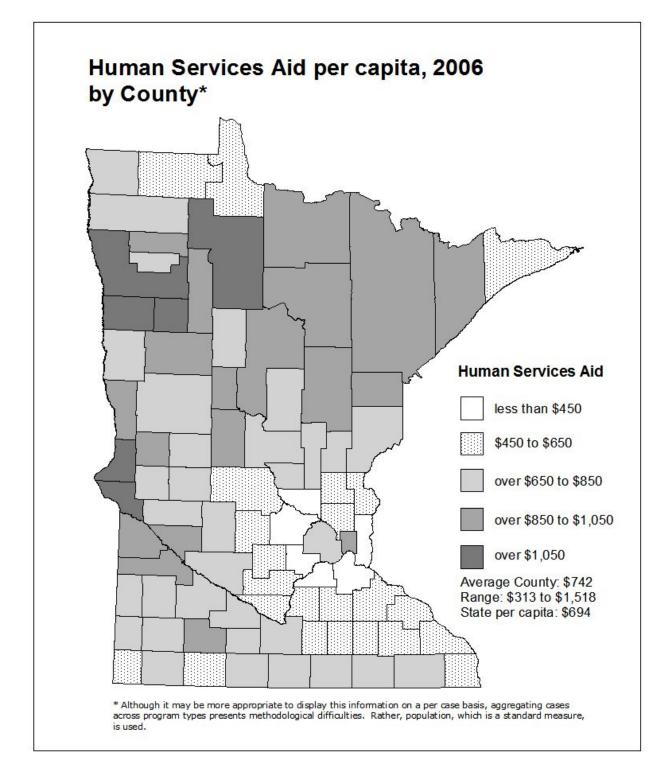

The human services amounts are not available by county in two cases:

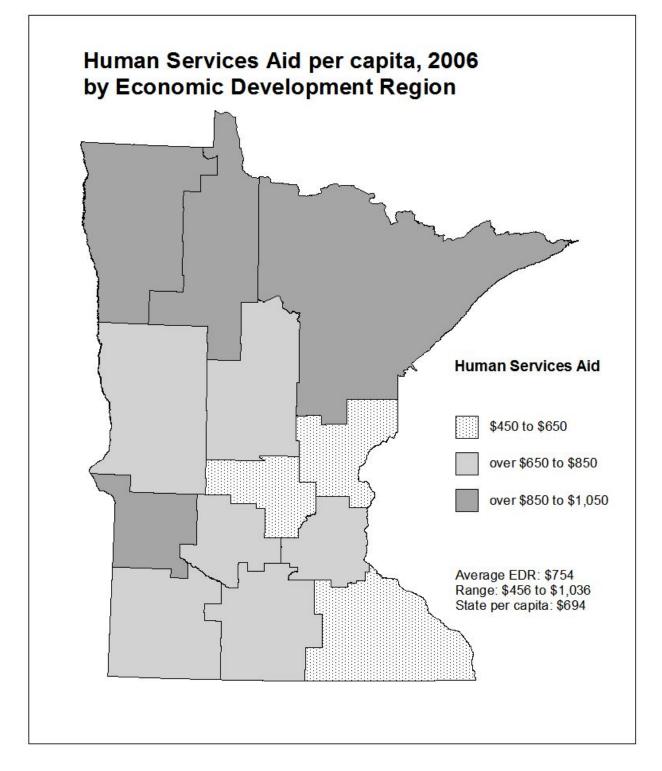

- Region VIII N—Lincoln, Lyon, and Murray
- Human Service Board—Faribault and Martin

In these two groups, human services aid is administered through a "home" county: Lyon in Region VIII N and Faribault in the Human Service Board. The total human service amount for

Region VIII N is \$30.4 million and for the Human Service Board, \$29.3 million. An estimated amount based on population for the five counties is contained in each of the respective county tables.

Human services aid data was obtained from the Department of Human Services, Financial Management Division.

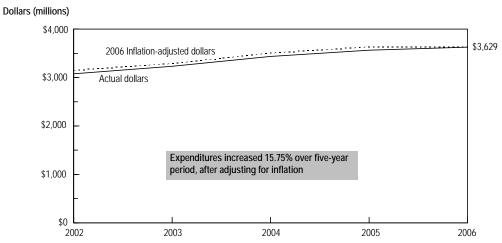

### The Past Five Years of Human Services Aid

The table below shows the distribution of human services aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of human services aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

Human Services Aid: 2002 to 2006

Current dollars, in thousands							
	2002	2003	2004	2005	2006	5-Yr. Chg. Aid

### **Statewide Human Services Aid**

House Research Graphics

# **Highway Aid**

### **Program Description**

**Highway aid** is the total amount of state aid distributed to counties, cities, and towns for highway purposes. It includes three basic types of aid: (1) amounts distributed according to constitutional formula to all counties and cities; (2) amounts distributed to counties, cities, and towns from state bridge bond proceeds; and (3) amounts distributed to towns for town roads and bridges. The sources of these funds are the Highway User Tax Distribution Fund, a portion of the motor vehicle sales tax revenues, and proceeds from state bridge bonds.

### **Aid Amount and Reporting**

### 2006 Highway Aid: \$524.2 million

The total state highway aid paid in calendar year 2006 to the counties, cities (i.e., municipal), and towns is shown below by category.

Type of Highway Aid		Amount		Total
County Aid	County State Aid	\$356,389,259		
	County Bridge Bond Funding	20,557,279		
			County	\$376,946,538
Municipal Aid	Municipal State Aid	\$111,502,367		
	Municipal Bridge Bond Funding	2,967,534		
			Municipal	\$114,469,901
Township Aid	Town Road Account	\$19,509,859		
	Town Bridge Account <sup>3</sup>	7,164,275		
	Town Bridge Bond Funding	6,137,044		
			Township	<u>\$32,811,178</u>
		Total	Highway Aid	\$524,227,617

The county and municipal turnback account money (excluding the money in the town road and town bridge accounts shown above) is **not** included in the above totals. In 2006, there were allotments of approximately \$18.2 million in the county turnback account and \$5.7 million in the municipal turnback account. This money is used on former state highways that have been "turned back" from state highways to fall under the jurisdiction of counties and municipalities. Disbursements of \$19.8 million were made to the counties and \$9.3 million to municipalities. The amount spent in each county is not readily available.

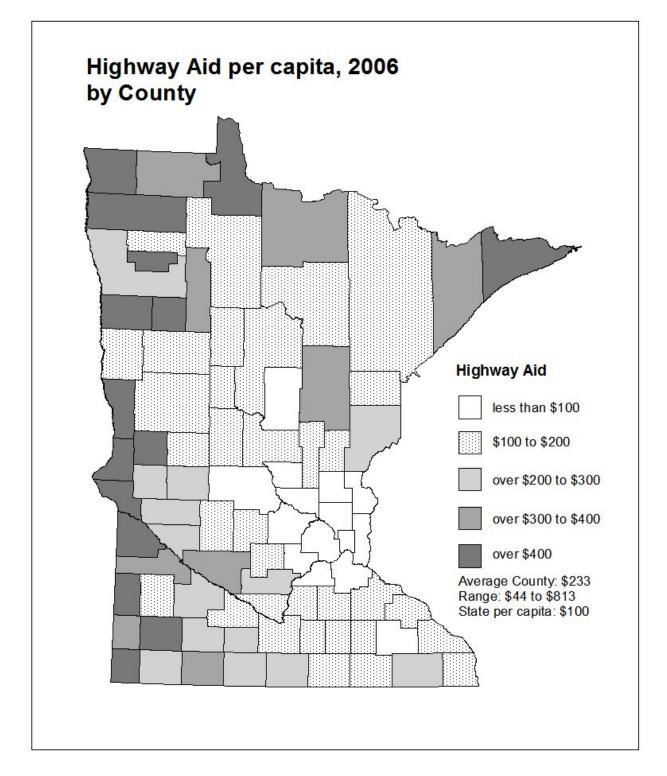

<sup>&</sup>lt;sup>3</sup> The Department of Transportation sets aside a portion of Town Bridge Account funding for flexible distribution as needed throughout the state. Amounts in this special Town Bridge Account are not always spent within the calendar year and are not included in this report. Historical data for 2002 have been adjusted to exclude this account.

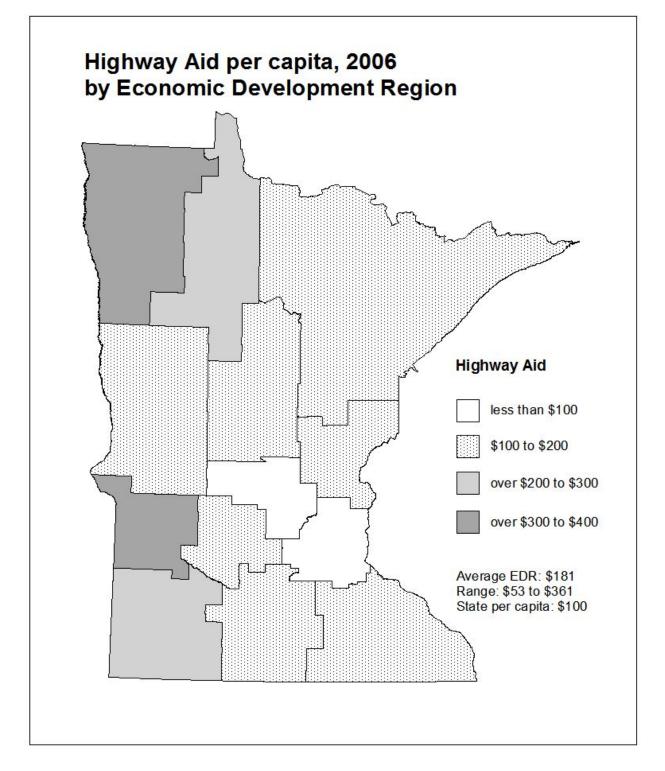

Highway aid data was obtained from the Department of Transportation.

### **Recent Law Changes**

The 2008 Legislature made two basic changes (effective July 1, 2009) to the allocation of flexible highway account funds. It:

- (1) reallocated a portion of the funds to metropolitan area counties, and
- (2) modified allowable uses of the funds to:
  - eliminate funds for the trunk highway system,
  - allow funds to be used for "safety improvements on county highways, municipal highways, streets, or town roads," and
  - allow funds to go to routes of regional significance.

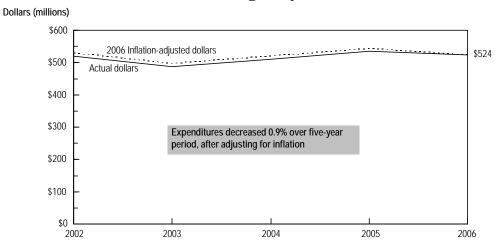

### The Past Five Years of Highway Aid

The table below shows the distribution of highway aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of highway aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

Highway Aid: 2002 to 2006

Current dollars, in thousands           2002         2003         2004         2005         2006         5-Yr. Chg. Aid

### **State Highway Aid**

House Research Graphics

# Local Government Aid (LGA)

**Local government aid (LGA)** is a state program that provides property tax relief by giving general purpose financial support to cities. For cities with population of 2,500 or more, need is determined by five characteristics: population decline, age of the housing stock, if the city is in the seven-county metro area, average number of vehicular accidents over the most recent three-year period, and household size. For cities with population less than 2,500, need is determined by population decline, age of housing stock, percent of the property in the city classified as commercial or industrial, and a population adjustment factor. Ability to pay is the city's adjusted tax capacity.

### **Aid Amount and Reporting**

### 2006 Local Government Aid: \$484.6 million

The total amount of LGA that was distributed to cities for calendar year 2006 was \$484,558,200. This amount is **after** the subtraction of \$493,800 for various state administrative expenses.

Prior to 2002, additional amounts (related to tax increment financing) were subtracted from many cities' LGA. The TIF offset was eliminated with the implementation of the state general education takeover in 2002.

LGA data was obtained from the Department of Revenue.

### Law Changes

Below is an overview of the changes made to town and city LGA.

#### **Town LGA Eliminated in 2002**

As part of the property tax reform enacted by the 2001 Legislature, township LGA was eliminated beginning in calendar year 2002.

#### City LGA

#### 2002 aid changes:

- City homestead and agricultural credit aid (HACA) was eliminated and the appropriation for city LGA was increased by \$140 million over the regularly scheduled inflation increase.
- The guaranteed portion of LGA was increased for cities in outstate Minnesota with a population greater than 10,000. The increase for each city is equal to the lesser of (1) \$60 multiplied by its population over 5,000; or (2) \$2.5 million.
- Both changes were part of the property tax reform enacted by the 2001 Legislature.

#### 2003 aid changes:

• The calendar year 2003 city LGA payments were certified at \$586,848,950, but the actual payments were reduced to \$464,941,977 because of the state budget shortfall. Reductions to each city were equal to 9.3 percent of its calendar year 2003 certified LGA plus its payable 2003 levy, subject to some limits based on each city's calendar year 2000 general fund revenues.

#### 2004 aid changes:

- The city LGA program's appropriation was permanently reduced to about \$437 million for calendar year 2004 and future years. The automatic growth in the appropriation was eliminated.
- Most of the guaranteed (grandfathered) portion of LGA was eliminated and all but \$26.6 million of the appropriation was distributed via a new LGA formula. However, increases and decreases in payments to individual cities in any year were capped to allow a gradual phase-in of redistribution under the new formula.
- The new LGA formula had an updated measure of city "need" for cities with a population of 2,500 or more. Beginning with calendar year 2005 aids, the measure of a city's "ability to raise revenue" was modified to include revenues from taconite aids.
- After 2004 aids were calculated, errors were found in the aid calculations for three cities—Rockville, White Bear Lake, and New Prague. Additional LGA of \$315,501 was paid to these cities under an adjustment mechanism authorized in Minnesota Statutes, section 477A.014, subdivision 3.
- In 2004, the state also provided one-time transition money to cities whose aid cut under the new LGA formula was greater than 14 percent<sup>4</sup> of the sum of the city's 2003 certified levy plus LGA amount. Although this amount was reported and paid to cities as part of the 2004 LGA, it was paid from a separate open appropriation. The total LGA payments, including transition aid, were \$437,513,119.

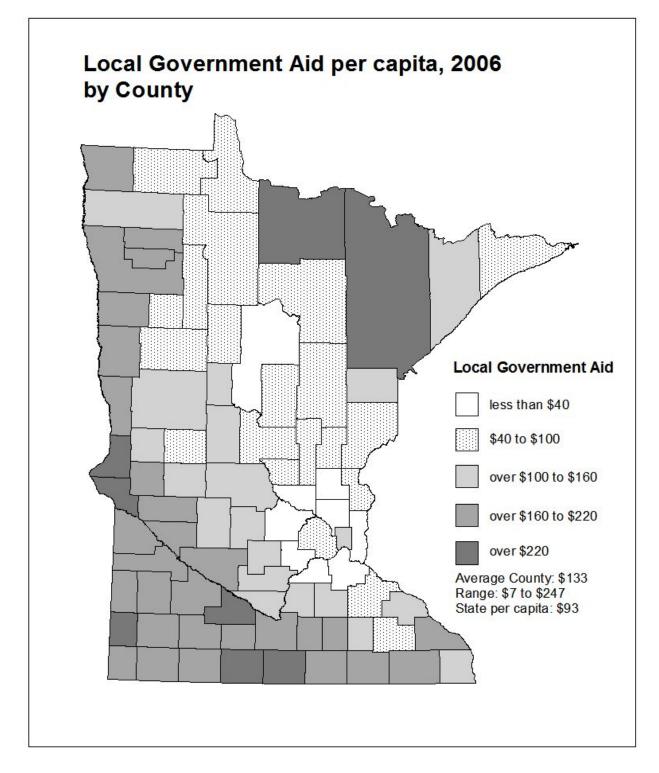

#### 2005 aid changes:

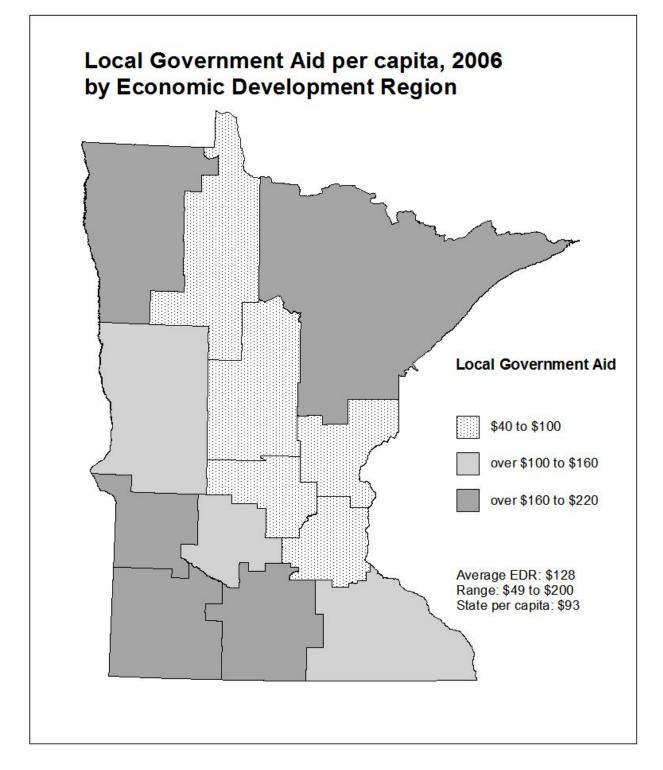

• The transition aid of 2004 was eliminated beginning in 2005, and the total LGA appropriation was \$437,052,000, which included \$333,913 in state costs.

#### 2005 law changes that affected aid payments in 2006 and future years:

- Beginning with 2006 aids, the annual LGA appropriation was permanently increased by \$48 million, to \$485,052,000.
- Beginning with 2006 aids, cities with a population less than 5,000 get additional aid of \$6 per capita.
- Beginning with 2006, the taconite aid received by the cities of Babbit, Eveleth, Hibbing, Keewatin, Mountain Iron, Silver Bay, and Virginia are not to be used to calculate the "ability to raise revenue" for those cities.

<sup>&</sup>lt;sup>4</sup> 12 percent for cities with a property tax base of less than \$700 per capita.

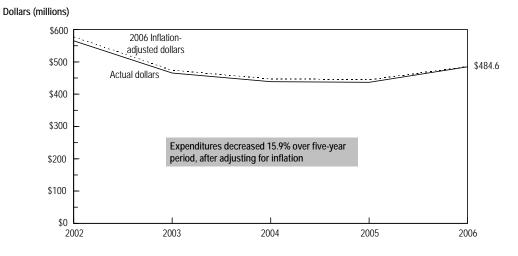

#### The Past Five Years of Local Government Aid

The table below shows the distribution of LGA in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of LGA for that same time period in current (actual) and constant (inflation-adjusted) dollars.

Current dollars, in thousands

# Local Government Aid: 2002 to 2006

\* The calendar year 2003 city LGA payments were significantly lower than the 2002 amounts due to the aid cuts (see pages 28-29).

#### **Statewide Local Government Aid**

# **Disparity Reduction Aid (DRA)**

# **Program Description and Aid Amount and Reporting**

### 2006 Disparity Reduction Aid: \$18.3 million

Disparity reduction aid is a state aid program that distributed \$18,311,254 to counties, towns, and school districts in 2006. The aid is directed to taxing jurisdictions in areas that had inordinately high tax rates in the base year of 1988. The basis for computing the aid amount is the relationship of the area's 1988 tax rate to a benchmark tax rate of 100 percent of tax capacity.

Since its origination in 1989, the amount of aid distributed under this program has significantly decreased from approximately \$63 million to its current level of \$18 million. Generally, the decrease has been the result of changes made in the property tax system over that period. Disparity reduction aid has been partially incorporated into other aid programs, and in some cases, it has been reduced due to changes in the underlying composition of the tax base. Nevertheless, the underlying formula for determining the amount of aid for each area is still based on tax base calculations originating in 1988, and jurisdictions that did not qualify for aid in the initial year have never been able to qualify for it in a later year.

<b>D</b>	isparity Reduction A

#### **Disparity Reduction Aid: 2006**

# **County Program Aid**

# **Program Description**

In the 2003 legislative session, county general-purpose aids were restructured into a single program called county program aid. The following individual aid programs were eliminated: homestead and agricultural aid credit (including manufactured housing HACA), county criminal justice aid, family preservation aid, and attached machinery aid. The formula for distributing county program aid encompasses some factors from the programs being subsumed, along with some new ones. One-half of the funding for county program aid is distributed based on each county's relative shares of (1) persons receiving food stamps, (2) age-adjusted population (population weighted more heavily for the number of persons over age 65), and (3) reported crimes. The other half is distributed based on a formula that takes into account each county's population and its property wealth.

For 2004, approximately \$112 million was distributed based on the distribution formulas of the aid programs that were eliminated, minus the substantial aid cuts enacted during the 2003 legislative session. For 2005 and 2006, \$206 million was distributed according to the new formula, with the aid cuts fully restored.

# **Aid Amount and Reporting**

# 2006 County Program Aid: \$205.8 million

The total amount of county program aid for taxes payable in 2006 is \$205,846,660. This total is after subtraction of \$500,000 to pay for court-ordered counsel and \$214,000 to pay for preparation of local impact notes.

The county program aid data was obtained from the Department of Revenue.

#### **Recent Law Changes**

One-half of the funding for county program aid is distributed based on each county's relative shares of (1) persons receiving food stamps, (2) age-adjusted population (population weighted more heavily for the number of persons over age 65), and (3) reported crimes. The other half is distributed based on a formula that takes into account each county's population and its property wealth. This distribution replaces the distributions under the four aid programs under the old law, which are described below.

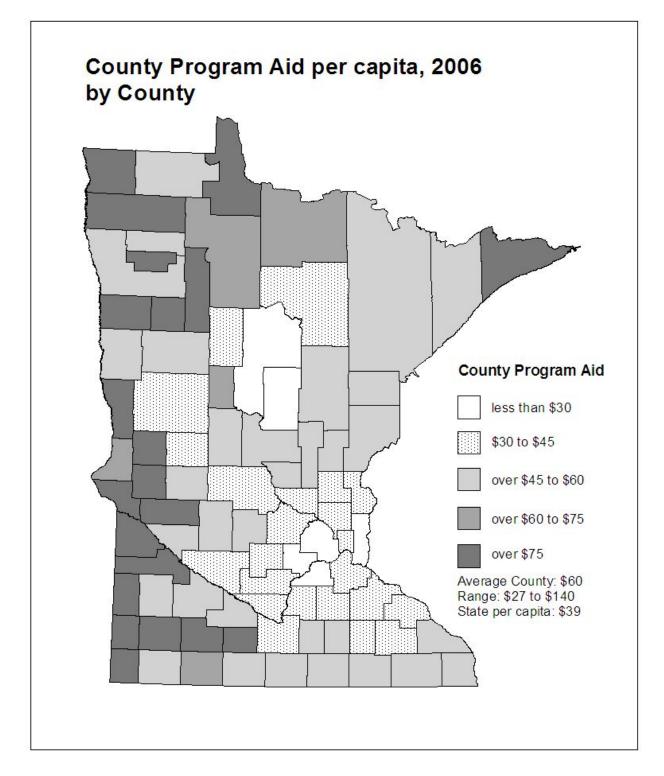

**Homestead and agricultural credit aid (HACA)** was a state aid program that originated in 1990 to compensate taxing jurisdictions for major structural changes in the property tax base made in 1988 and 1989. From 1990 through 2001, county government HACA payments increased modestly each year based on the county's growth in number of households; in addition, HACA payments were permanently increased in some years to compensate counties for legislatively determined tax base reductions. In some years, HACA payments were permanently

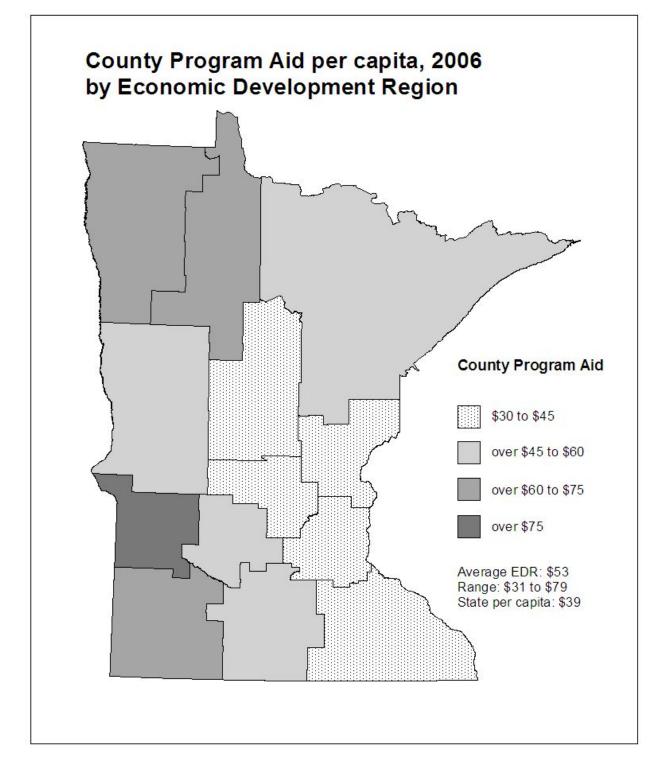

reduced when the state took over certain local government financing responsibilities (such as court financing). In its last year of full funding (2002), the total amount of county HACA payments statewide was \$204.8 million.

**County criminal justice aid** (**CCJA**) was a state aid to county governments originated in 1993 to reduce the reliance of criminal justice and corrections programs on property taxes. One-half of the aid was distributed to each county based on the county's population; the other half was distributed to each county based on the reported number of serious ("Part I") crimes committed in the county. The appropriation for CCJA increased each year based on the rate of inflation. In its last year of full funding (2002), the total amount of CCJA payments statewide was \$31.5 million.

**Family preservation aid (FPA)** was a state aid to county governments to reduce the reliance of out-of-home placement costs on property taxes. The initial allocation of FPA in 1995 among counties was based on two factors—each county's share of total children in out-of-home placement in the state and each county's share of income maintenance cases in the state. After 1995 each county's aid increased or decreased based on the change in its relative share of income maintenance caseloads in the state. The appropriation for FPA increased each year based on the rate of inflation. In its last year of full funding (2002), the total amount of FPA payments statewide was \$23.4 million.

Attached machinery aid (AMA) was a state aid to county governments to compensate counties for removing industrial attached machinery from the property tax base in the early 1970s. Only the 13 counties having the most attached machinery as a share of their property tax base received aid under the program; the amounts were static from year to year. In its last year of full funding (2002), the total amount of AMA payments statewide was \$2.4 million.

The table below summarizes the county program aid amounts by region for 2006.

		Amount	Percent of
		(thousands)	Total
Northern Regions	Northwest (1)	\$6,349	3.1%
	Headwaters (2)	5,718	2.8

<b>County Program Aid:</b>	2006 Distribution

# **Community Corrections Funding**

### **Program Description**

Although counties assume much of the cost of their community correctional services, the state provides direct funding and in-kind services. Counties choose to receive funding from one of three basic funding systems: the community corrections act (CCA), county probation officer (CPO), and the Department of Corrections (DOC). They are as follows:

- Thirty-two counties are CCA counties. This group contains about 70 percent of the state's population, including most of the Twin Cities metropolitan area.
- Fifty-five counties are non-CCA counties. Although the DOC provides adult felony supervision to all 55 of these counties, they differ and are generally referenced as follows:
  - Twenty-nine counties (called "CPO" counties) provide their own juvenile and adult misdemeanant supervision
  - Twenty-six counties (called "DOC" counties) have their juvenile and adult misdemeanant supervision provided by the DOC

To keep the counties on a comparable basis, the dollar amount of in-kind services provided by the DOC is included in this report, even though these counties do not receive an "aid payment" per se from the state.

### **Aid Amount and Reporting**

### 2006 Community Corrections Funding: \$78.1 million

In 2006, the state funding was \$78,052,455.<sup>5</sup> The table below lists the calendar year 2006 statewide total amounts for the various community corrections funding programs.

Program	Amount	Percent
CCA aid	\$36,781,772	47.1%
CPO reimbursement aid	4,553,489	5.8
DOC field services	14,189,000	18.2
Adult felony caseload reduction	964,000	1.2
Caseload/workload reduction	10,811,000	13.9
Intensive supervision	5,898,479	7.6
Enhanced supervision of adult sex offenders	4,854,715	6.2
Total Aid and In-kind Services	\$78,052,455	100.0%

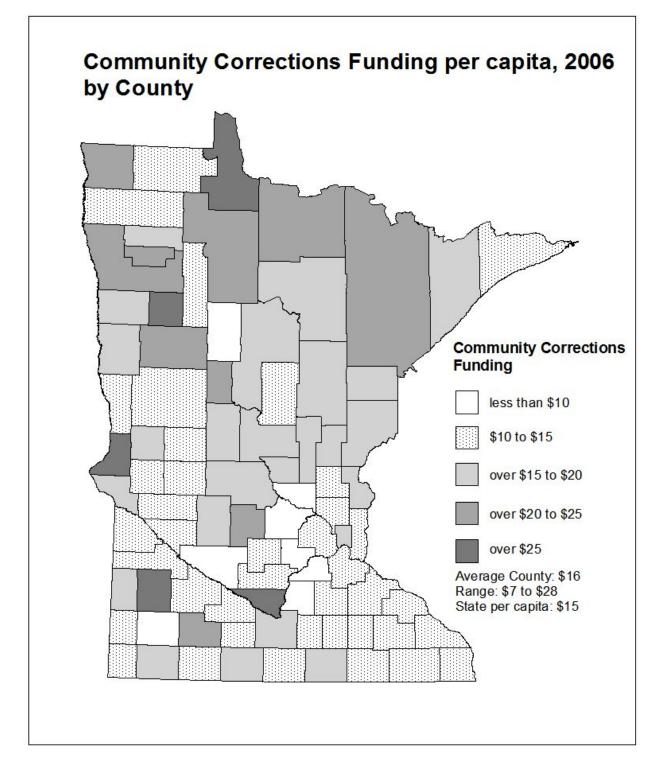

<sup>&</sup>lt;sup>5</sup> An additional \$11.8 million, not included in this report, was distributed for miscellaneous categorical services.

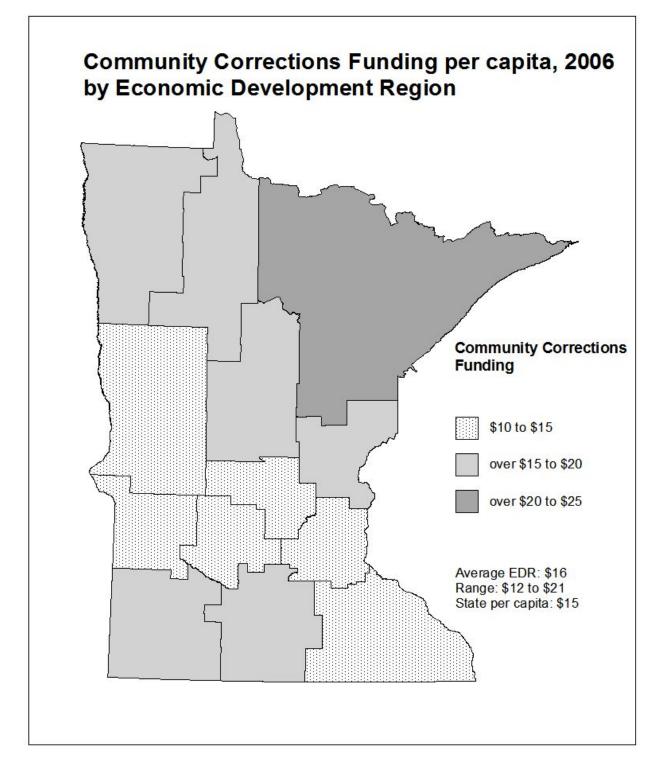

The community corrections funding total for 1999 through 2002 included juvenile placement aid. This program was discontinued effective in calendar year 2003.

The DOC distributes some adult felony reduction aid, caseload/workload reduction aid, and intensive supervision aid to regional groups of counties. For purposes of this report, these aid amounts were apportioned to the individual counties within each region based on the distribution of CCA aid to these counties in 2005. This apportionment method was suggested by the DOC. These counties and the DOC regions they belong to are listed in the table below.

Region	Counties
Central Minnesota	Aitkin
	Crow Wing
	Morrison
DFO	Dodge
	Fillmore
	Olmsted
Tri-County	Norman
	Polk
	Red Lake
Arrowhead	Carlton

# **Community Corrections Funding: 2002 to 2006**

### **Community Corrections Funding**

# **Property Tax Refund**

# **Program Description**

The property tax refund, also known as the Circuit Breaker, is a program in which the state partially reimburses homeowners and renters for a portion of their qualifying property taxes if those property taxes exceed a certain level of household income. Generally speaking, the higher the property tax and the lower the income, the higher the refund. The legislature establishes the income and property tax thresholds, reimbursement rates, and maximum refund amounts for the program. Each qualifying homeowner and renter must apply directly to the state for a refund. The amounts in the graphs and tables exclude the additional property tax refund (often referred to as targeting). See page 49 for a description of the targeting refund.

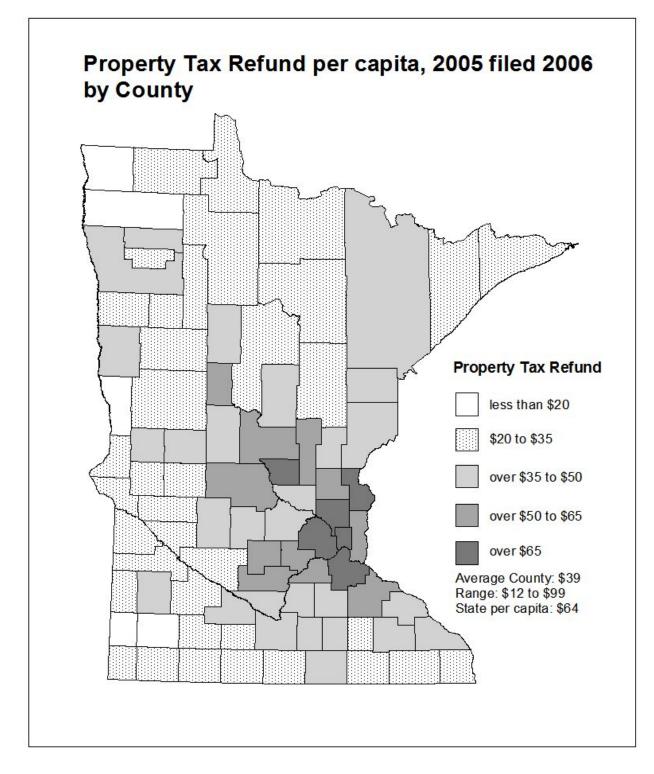

### **Aid Amount and Reporting**

### 2005 Filed 2006 Property Tax Refund: \$335.5 million

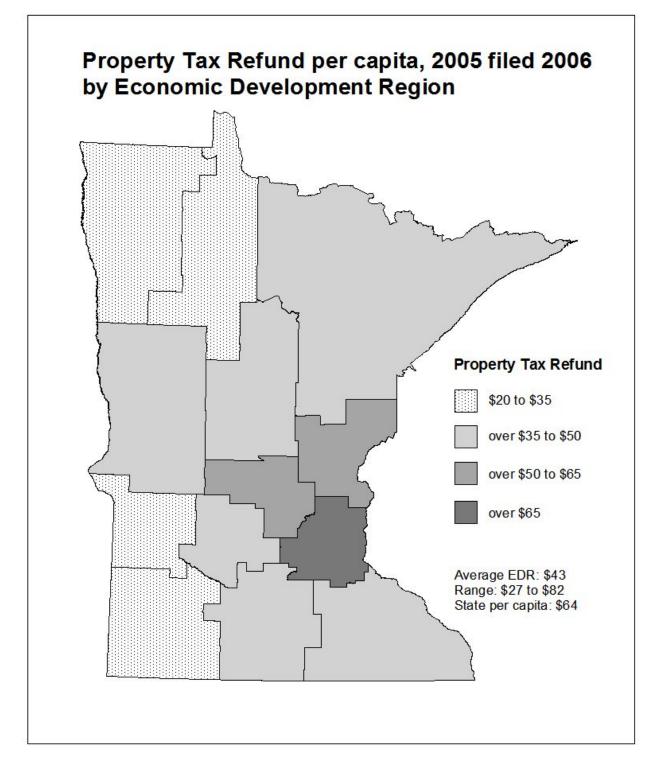

The total property tax refunds for the 2005 returns filed in 2006 for homeowners and renters is \$335,469,947. The table below summarizes statewide data on the number of returns, amounts, and average dollar per return for the various types of filers.

	Number of Returns (A)	Total Amount (B)	Net Amount per Return (C = B ÷ A)
Homeowners: <sup>6</sup>			
Senior/Disabled	116,385	\$74,172,760	\$637
Under 65 Years	<u>185,021</u>	115,787,365	626
Total Homeowners	301,406	\$189,960,125	\$630
Renters:			
Senior/Disabled	77,499	\$45,754,383	\$590
Under 65 Years	<u>193,900</u>	99,755,439	_514
Total Renters	271,399	\$145,509,822	\$536
Total	572,805	\$335,469,947	\$586

<sup>&</sup>lt;sup>6</sup> Includes claimants who are part homeowners and part renters for that year's claim.

House Research Department

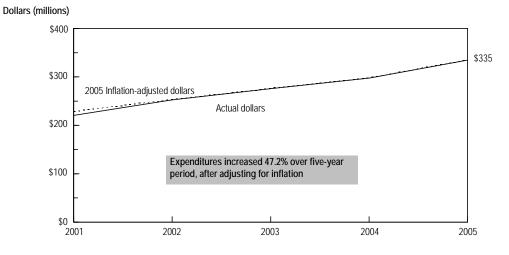

### The Past Five Years of Property Tax Refund

The table below shows the distribution of the property tax refund in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the property tax refund for that same time period in current (actual) and constant (inflation-adjusted) dollars. The property tax refund historical data on this page excludes any targeting data.

# Property Tax Refund: 2001 (filed 2002) to 2005 (filed 2006)

# **Statewide Property Tax Refund**

# **Additional Property Tax Refund (Targeting)**

# **Program Description**

"Targeting" is an additional property tax refund. The refund targets property tax relief to those homeowners whose property tax increase over the previous year exceeds a threshold percentage set by the legislature. The property tax refund return (M1PR) contains a separate schedule for the targeting refund. The taxpayer files for this refund at the same time and in the same manner as for the regular property tax refund. However, unlike the regular property tax refund, all homeowners qualify for targeting regardless of their household income if the tax increase exceeds the specified percentage.

# **Aid Amount and Reporting**

#### 2006 Targeting Refunds: \$13.6 million

For returns filed in 2006 (for property taxes payable in 2006), the state paid 60 percent of the property tax increase over 12 percent (i.e., the taxpayer had to pay the first 12-percent increase over the previous year before qualifying for a refund), provided that the increase was greater than \$100. There were about 157,000 returns filed in 2006 for a total amount of \$13,591,763. The average refund per return was \$55. (The maximum refund is \$1,000.) The amount of the targeting refund is listed separately on all of the tables in this report, directly after the regular property tax refund amounts.

Two counties reported fewer than four claims for targeted refunds filed in 2006 by senior/disabled claimants (Kittson and Norman), and one county reported fewer than four claims for nonsenior/nondisabled claimants (Kittson). To protect taxpayer confidentiality, the Department of Revenue is unable to provide detailed counts for these counties. These refunds were included in the totals for "county undesignated," and apportioned to the 87 counties based on each county's share of refunds.

Dollars (millions)

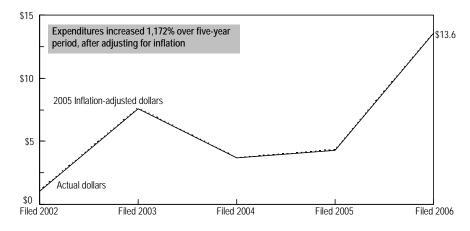

# The Past Five Years of Targeting Refunds

The table below shows the distribution of targeting refunds in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of targeting refund for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# Targeting: 2002 through 2006

# **Targeting Refunds**

**Property Tax Data** 

# **Property Tax Data**

# **Payable 2006 Property Tax Credits**

The property tax credits discussed in this section are listed on the property tax statement. The property's tax minus any applicable property tax credits equals the net tax amount that the taxpayer must pay to the county for distribution to the local governmental units.

#### Payable 2006 Market Value Homestead Credit: \$286.1 million

As part of property tax reform measures, the 2001 Legislature enacted the market value homestead credit effective for taxes payable in 2002 and thereafter. In payable 2006, the credit equaled \$286,052,547 statewide.

The credit applies to each homestead property. For a homestead with a taxable market value of \$76,000 or less, the credit is 0.4 percent of the taxable market value. For a homestead with a taxable market value over \$76,000, the credit is \$304 minus 0.09 percent of the value over \$76,000. Under this formula, homesteads valued over \$414,000 receive no market value homestead credit. For taxes payable in 2003 to 2006, the state did not fully compensate local governments for the credit computed on each taxpayer's tax statement due to state budget shortfalls. For 2006, the credit compensation reduction was \$16.0 million. Throughout this report, the credit amounts shown are the full amount and do not reflect the reductions in compensation resulting from state budget shortfalls.

For agricultural homesteads, this credit applies only to the value of the house, garage, and one acre of land.

### Payable 2006 Market Value Agricultural Credit: \$24.9 million

The 2001 Legislature created a new market value agricultural credit for all agricultural homestead property, which was enhanced by the 2002 Legislature for taxes payable in 2003 and thereafter. In payable 2006, the credit equaled \$24,926,497 statewide.

For agricultural homestead property with a taxable market value of \$115,000 or less, the credit is equal to 0.3 percent of the taxable market value of the property. For agricultural homestead property with a value between \$115,000 and \$345,000, the credit is equal to \$345 minus 0.05 percent of the value over \$115,000. For property with a value over \$345,000, the credit is equal to \$230. This credit does not apply to the value of the house, garage, and one acre of agricultural homestead property. In payable 2006, the credit was reduced by \$0.1 million due to the budget shortfall. The aid cut was made to local governments. The taxpayers still received the credit.

### Payable 2006 Miscellaneous Credits: \$5.5 million

The total of the miscellaneous property tax credits for 2006 is \$5,549,686. This includes the taconite homestead credit, disparity reduction credit, power line credit, agricultural preserves credit, county conservation credit, and disaster credit. A statewide breakdown of these miscellaneous credits is shown below.

Type of Credit	Amount
Taconite Homestead Credit	\$16,434,247
Disparity Reduction Credit <sup>7</sup>	4,973,937
Power Line Credit	81,856
Agricultural Preserves Credit	292,345
County Conservation Credit	201,548
Disaster Credit	0
Total	\$21,983,933

### Payable 2006 Taconite Homestead Credit: \$16.4 million

The taconite homestead credit is the largest of the miscellaneous credits. Homeowners in the taconite tax relief areas, located in northern Minnesota on the Iron Range, receive a credit of either 57 percent or 66 percent. The percentage of relief depends upon certain characteristics of the local jurisdiction, such as the value of the iron ore in the district, proximity to mines, etc. A supplemental taconite homestead credit amount of \$5,114,196 is included in the \$16.4 million taconite homestead credit amount. However, the mobile home taconite homestead credit and any adjustment amounts for prior years are not included in the amounts.

A county breakdown of the taconite homestead credit is shown below.

County	Taconite Credit
Aitkin	\$890,359
Cook	480,434
Crow Wing	1,176,839
Itasca	4,099,828
Koochiching	3,707
Lake	1,127,022
St. Louis	8,656,058
Total	\$16,434,247

<sup>&</sup>lt;sup>7</sup> A disparity reduction credit was established by the 1988 Legislature to provide additional property tax relief in the border cities of Breckenridge, Dilworth, East Grand Forks, and Moorhead. The credit applies to class 4a apartments with four or more units, and commercial, industrial, and public utility land and buildings. The credit is the amount by which the net tax exceeds a 2.3-percent effective tax rate for apartments, commercial, industrial, and public utility land and buildings.

#### 2005 Statewide Property Valuation

### Market Valuation: \$464.1 billion Net Tax Capacity: \$5.2 billion

This is the total real and personal property valuation for the 2005 assessment for taxes payable in 2006. The total market valuation is \$464,142,891,204, and the total net tax capacity is \$5,213,748,277. Net tax capacity is the value that results after the tax capacity class rates have been applied to the market values. The state totals exclude \$104,224,100 of market value and \$2,040,797 of net tax capacity that is located in JOBZ zones and exempt from property tax.

### Payable 2006 Net Property Tax Levy: \$6.6 billion

The payable 2006 net property tax levy, excluding special assessments, made by each type of taxing district (i.e., county, city/town, school district, and miscellaneous taxing districts) is shown in the table below. The table includes \$5,339 million of net tax capacity levy, \$561.5 million of market value levy, and \$655.6 million of statewide property tax levy. The statewide, region, and county tables include the total of the net tax capacity levy and the market value levy. However, the average tax rate shown on those tables is the net tax capacity average tax rate, which is the primary tax rate used.

"Miscellaneous districts" includes levies made by special taxing districts (i.e., Metropolitan Council, regional transit authorities, hospital districts, port authorities, watershed districts, etc.), as well as the tax increment of tax increment financing districts and the power line levy amounts.

"Net property tax levy" is the amount of property taxes actually paid by the taxpayer after the subtraction of the state-paid property tax credits. However, the tax amount is prior to the subtraction of the regular property tax refund and the targeting refund.

Type of Taxing District	Payable 2006 Net Property Tax Levy* (dollars in millions)		Percent
County		\$2,109	32.2%
City/Town:		1,616	24.6
City	\$1,440		
Town	176		
School District		1,667	25.4
Miscellaneous Districts:		510	7.8
Special Taxing Districts	234		
Tax Increment Financing	276		
Power Line	0.2		
State		656	10.0
Total, all districts		\$6,557	100.0%

\* The taxing district's levy includes the portion from the fiscal disparity program (see table on next page).

A portion of each jurisdiction's levy in the seven-county metropolitan area and on the Iron Range is paid through the fiscal disparities program. Those amounts are shown in the table below.

Type of Taxing District	Metro	Iron Range	Total
County	\$107,957,034	\$1,555,093	\$109,512,127
City	102,543,049	1,669,997	104,213,046
Town	1,111,133	167,229	1,278,362
School District	98,926,398	375,186	99,301,584
Special Taxing Districts	23,058,842	48,763	23,107,605
Total Fiscal Disparity Levy	\$333,596,456	\$3,816,268	\$337,412,724

Pavabl	e 2006 Fiso	al Dispar	rity Distril	bution Levy

In the statewide, region, and county tables (sections 2 to 4 of the report), the fiscal disparity levy is included in the "Miscellaneous District Levy," since that is how it is reported to the Department of Revenue and a detailed breakdown of that levy is not readily available.

### **Payable 2006 Average Tax Rate Calculations**

The average net tax capacity rate is computed by dividing the total levy excluding special assessments by the total net tax capacity, then multiplying by 100.

A small portion (\$561.5 million statewide) of property tax levies are spread on market value rather than on net tax capacity. Of this amount, \$532.5 million is the school district referendum market value levy, which is shown separately on all of the tables in sections 2 to 4 of the report.

A separate average tax rate is computed for the net tax capacity levy and the referendum market value levy.

For purposes of the net tax capacity tax rate calculation

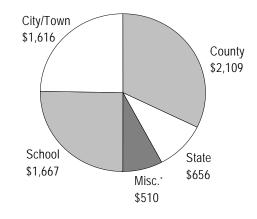

- "levy" includes the tax increment financing levy and the fiscal disparity contribution levy; and
- "tax capacity" includes the total net tax capacity before the subtraction of the tax increment financing captured net tax capacity and before any fiscal disparity adjustments.

This rate represents the average local net tax capacity rate of taxation on all property.

# Payable 2006 Property Tax Levies by Type of Taxing District \$6,557

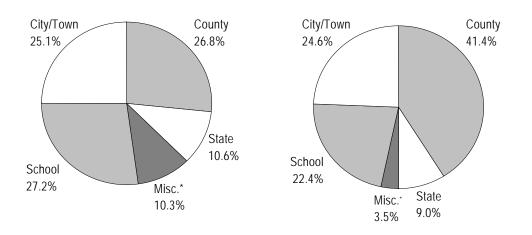

(dollars in millions)

Nonmetro

House Research Graphics

\* Miscellaneous includes special taxing districts, tax increment financing, and power line levies, but excludes the fiscal disparities distribution levy, which has been allocated to counties, cities/towns, school districts, and special districts. (The tables later in the report show the fiscal disparities levy as part of "Miscellaneous District Levy.")

Major State Taxes

# **Individual Income Tax**

# **Program Description**

**Individual income tax** is a tax imposed by the state upon (1) the income of Minnesota residents and (2) the income, derived from Minnesota sources, of nonresident individuals. The 2005 tax base (filed in 2006) is essentially federal taxable income with minor modifications, including the addition of interest earned on bonds issued by other states, an income exclusion for elderly filers, and a subtraction for certain dependent education expenses. Rates applied in 2005 ranged from 5.35 percent to 7.85 percent. In 2005, Minnesota allowed a refundable dependent care credit of up to \$720 for one child and \$1,440 for two or more children, and a working family credit tied to the federal earned income credit. The maximum working family credit was \$1,540.

# **Tax Amount and Reporting**

### 2005 Filed 2006 Individual Income Tax: \$6,304.1 million

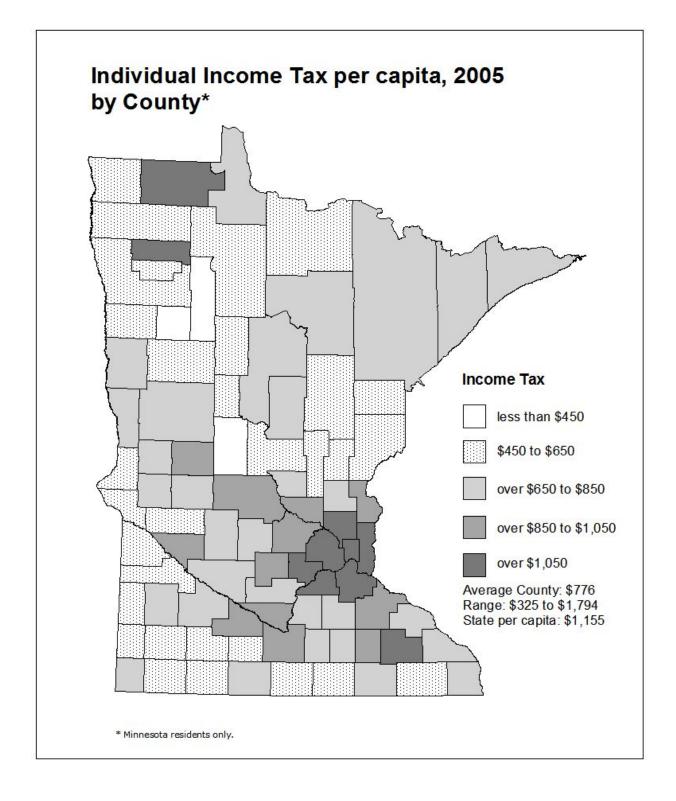

The total amount of the 2005 individual income tax returns filed in 2006 is \$6,304,110,375. The tax shown is net tax (after refunds) reported on the basis of the filer's county of residence.<sup>8</sup> The state total includes \$261.8 million of individual income taxes collected from returns filed by nonresident taxpayers, which was not allocated to the counties throughout this report resulting in a net amount of \$6,042.3 million collected from Minnesota residents.

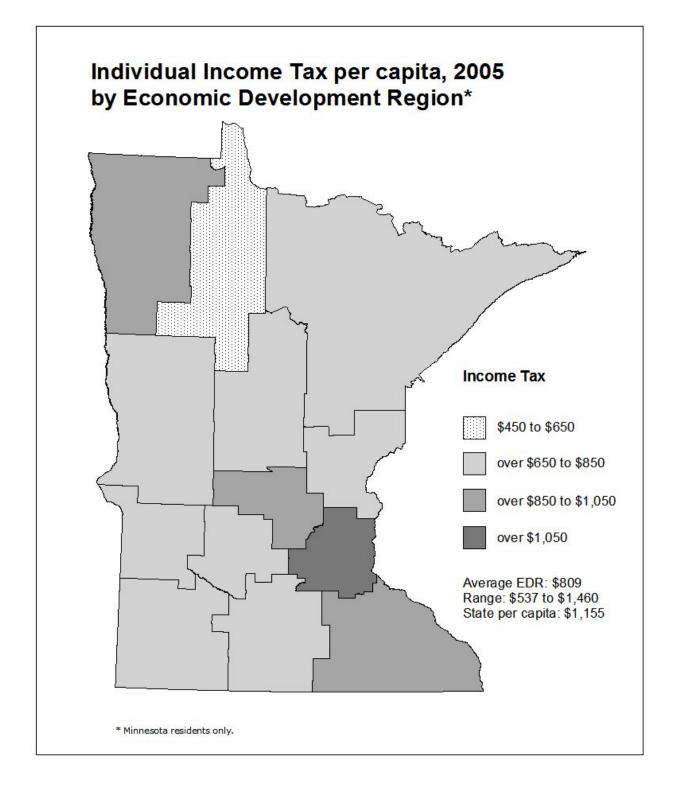

Individual income tax data was obtained from the Department of Revenue.

### **Recent Law Changes**

Minnesota has conformed with all major changes made in the federal tax code through tax year 2006, but has not conformed to the several federal tax bills affecting tax year 2007 and following years. Items on which Minnesota will diverge from the federal definition of taxable income include the teacher classroom expense deduction, the higher education tuition deduction, and income limits for deductible IRA contributions.

<sup>&</sup>lt;sup>8</sup> The Department of Revenue used a new method of assigning returns to counties beginning in 2003, resulting in some shifting in comparison to previous years' data.

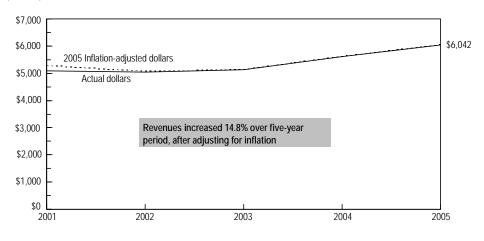

Dollars (millions)

#### The Past Five Years of Individual Income Tax

# Individual Income Tax, Residents Only: 2001 to 2005

Statewide Income Tax, Residents Only

# Sales/Use Tax

# **Program Description**

**Sales tax** is imposed by the state on the gross receipts of all persons who sell, lease, or rent tangible personal property at retail or provide taxable services. The **use tax** complements the sales tax and is imposed at the same rate on the storage, use, or consumption in Minnesota of taxable, tangible personal property purchased from any retailer, unless the Minnesota sales tax was paid on the same property. Although the tax rate has changed over the years, it has been 6.5 percent since July 1, 1991. (See law changes on next page.)

Major exemptions include: food consumption off premises, clothing, prescribed drugs and medications, nonprescribed analgesics, gasoline and special fuels taxed under the motor fuels excise tax, publications issued at intervals of three months or less (except over-the-counter magazines), motor vehicles subject to the 6.5 percent motor vehicle excise tax, materials used or consumed in agricultural or industrial production, textbooks, residential heating fuels and water services, and capital equipment for new or expanding industries.

# **Tax Amount and Reporting**

# Calendar Year 2006 Sales/Use Tax: \$4.64 billion (gross) \$4.43 billion (net after refunds)

A total of \$4,635,729,737 in state sales/use taxes was collected during calendar year 2006. The net amount of sales/use tax after the reduction of capital equipment refunds of \$204.5 million was \$4,431,244,570. Of the \$4.43 billion in net sales taxes, about \$701 million was collected from returns filed by out-of-state taxpayers, resulting in \$3.7 billion allocated to Minnesota.

The amounts shown in the statewide tables are net of the capital equipment refund; the amounts shown by geographic region in the maps are also net of the total paid by out-of-state taxpayers.

In 2001 and 2002, the Department of Revenue did not tabulate sales tax receipts by county. For purposes of this report, the statewide total for 2001 was allocated to counties based on the distribution of sales tax by county in calendar year 2000, and the total for 2002 was allocated based on the distribution of sales tax by county in 2003. In 2003, a preliminary total of \$3.39 billion allocated to counties after capital equipment refund was used in this report. The historical table in this year's report has been revised to show the 2003 final total of \$3.37 billion.

The sales tax amounts contained in this report exclude any local sales taxes that cities impose. Local sales taxes are used primarily to support economic development and tourism. As of December 2006, the cities of Albert Lea, Austin, Baxter, Bemidji, Hermantown, Mankato, Minneapolis, New Ulm, Proctor, Rochester, St. Paul, Two Harbors, Willmar, and St. Cloud area cities imposed a 0.5-percent general sales tax. The city of Duluth and Cook County imposed a 1percent general sales tax. Note: Sales tax is reported in the county where the purchases are made, resulting in higher amounts in counties with a regional center (e.g., Twin Cities, Duluth, Rochester, etc.).

Sales/use tax data was obtained from the Department of Revenue.

### Law Changes

The general rate has not changed since 1991. The tax rate was 3.0 percent in 1967 when it was first enacted. The last change was the enactment of the "optional" local sales tax of ½ percent in 1991. This "optional" tax was officially rolled into the state tax rate in 1994.

Period	Rate
August 1, 1967 – October 31, 1971	3.0%
November 1, 1971 – June 30, 1981	4.0%
July 1, 1981 – December 31, 1982	5.0%
January 1, 1983 – June 30, 1991	6.0%
July 1, 1991 – present	6.5%

# **Capital Equipment Refunds**

The amount of sales/use tax allocated to Minnesota is adjusted for capital equipment refunds made to taxpayers. The total amount of capital equipment refunds is allocated to counties based on the ratio of each county's mining and manufacturing payroll to the total statewide mining and manufacturing payroll. For 2006, total capital equipment refunds are \$204.5 million. The data in the historical table and graph on page 70 have been adjusted to reflect refund claims.

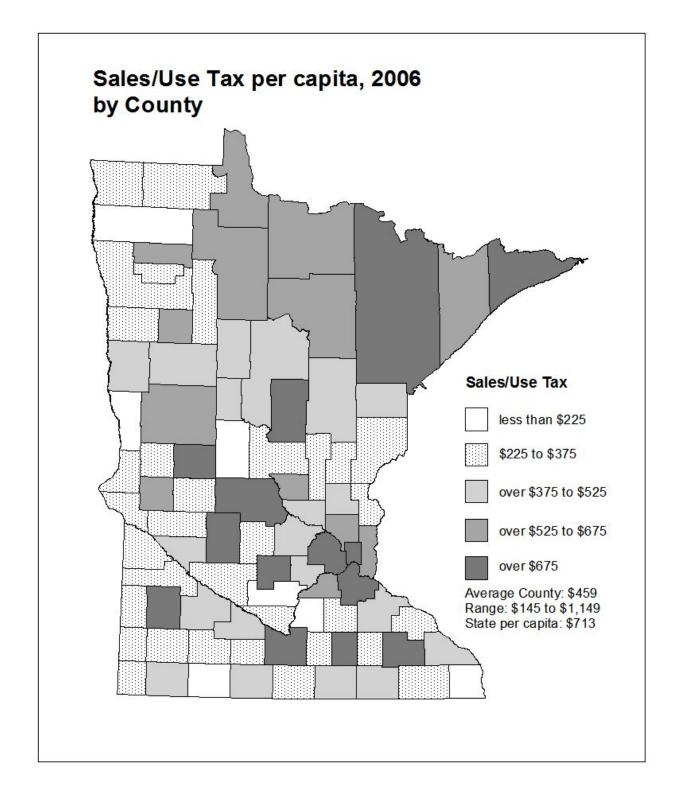

### **Amounts Not Allocated to Minnesota**

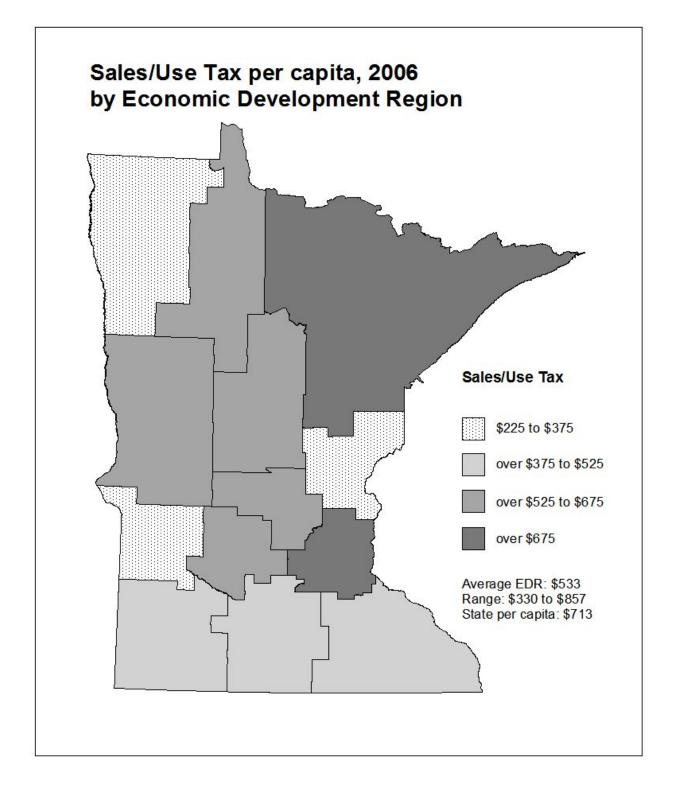

About \$701 million of sales/use taxes are collected from returns filed by out-of-state taxpayers. This amount was not allocated to Minnesota in this report since the taxpayer's residence and/or place of business is unknown, nor is it included in the five-year historical table on page 70. The table on the following page lists the amounts and percentages since 2000.

	Allocated to N	<b>/innesota</b>	Not Allocated	l to Minnesota	
Year	Amount	Percent	Amount	Percent	Total

# **Sales/Use Taxes** (in thousands) (after capital equipment refund)

Most of these dollars are sales made by out-of-state businesses to Minnesota residents, which are reported on a single non-Minnesota return. As that amount grows, it becomes more and more of a concern that it should somehow be allocated to the various Minnesota counties. The amount not allocated to Minnesota has remained in the 14 percent to 18 percent range since 2000.

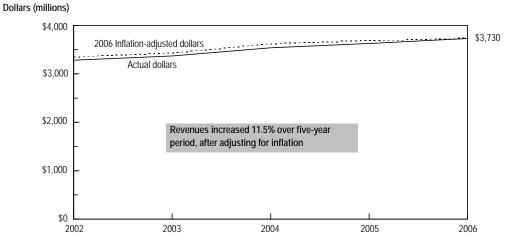

#### The Past Five Years of Sales/Use Tax

The table below shows the distribution of sales/use tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of sales/use tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# Sales/Use Tax, Residents Only: 2002 to 2006

### Statewide Sales/Use Tax, Residents Only

# **Motor Vehicle Sales Tax**

## **Program Description**

The **motor vehicle sales tax** is imposed on new and used motor vehicles at the time of sale. It is imposed at the same rate as the sales tax on the sale price of motor vehicles, minus any trade-in allowance. (A flat fee of \$10 is imposed upon most motor vehicles that are ten or more years old in lieu of the motor vehicle sales tax.)

The table below lists the allocation of the motor vehicle sales tax revenues from fiscal year 2004 through fiscal year 2012 and thereafter.

Allocation of Motor Vehicle Sales Tax Revenues										
	FY 2004-2007	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012+				
Highway user tax distribution fund	30.00%	38.25%	44.25%	50.25%	56.25%	60.00%				
County state-aid highway fund	0.65									
Municipal state-aid highway fund	0.17									
Metropolitan transit	21.50	24.00	27.75	30.00	33.75	36.00				
Greater Minnesota transit	1.43	1.50	1.75	3.50	3.75	4.00				
General fund	46.25	36.25	26.25	16.25	6.25	0.00				

### **Tax Amount and Reporting**

### Calendar Year 2006 Motor Vehicle Sales Tax: \$532.3 million

The total 2006 motor vehicle sales tax is \$532,261,349. The Department of Public Safety collects the motor vehicle sales tax. Due to the method of collection, the amount of actual tax liability from each county is not available. However, since the motor vehicle sales tax is an important revenue source for the state, an estimate was made on how much the taxpayers in each county paid.

Two main factors were used in determining an estimated tax amount for each county. First, the number of passenger vehicles and pickup trucks registered in each county in 2006 was obtained from the Department of Public Safety. Registrations within each county are a good indicator of where the owners of the vehicles live. No weighting was attempted based upon the differences in the market value of the vehicles among counties.

Second, the distribution of motor vehicle registration tax by county as provided by the Department of Public Safety was used as a proxy for the value of vehicles purchased.

A percent distribution was made on each of the two factors (i.e., registrations and registration tax), comparing each county to the state. The results of each distribution were then weighted equally to allocate the \$532.3 million tax revenue to the 87 counties.

Motor vehicle sales tax data was obtained from the Department of Revenue. Since last year's report was issued, the department has corrected the 2004 motor vehicle sales tax total after recognizing a calculation error. The historical tables include the corrected 2004 total of \$573.3 million, which was allocated to the 87 counties using the methodology described earlier.

#### **Recent Law Changes**

#### 2005 Laws:

The 2005 omnibus transportation bill proposed a constitutional amendment providing for the phase-in of the full dedication of the motor vehicle sales tax to transportation purposes.<sup>9</sup>

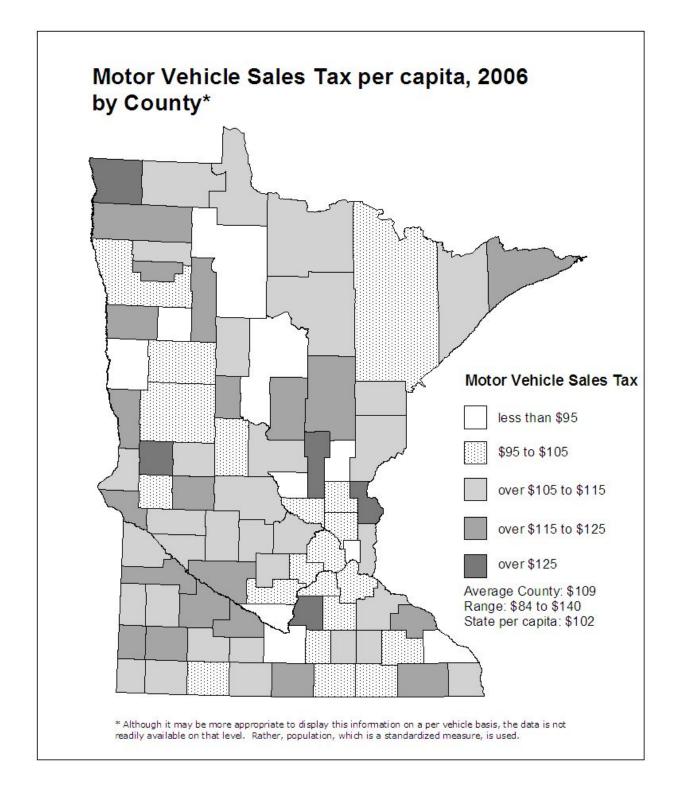

At the 2006 general election, the voters approved the constitutional amendment dedicating all motor vehicle sales tax revenue to transportation purposes. The amendment specifies that 63.75 percent must be dedicated to transportation purposes in fiscal year 2008, growing by 10 percent per year until it reaches 100 percent in fiscal year 2012.

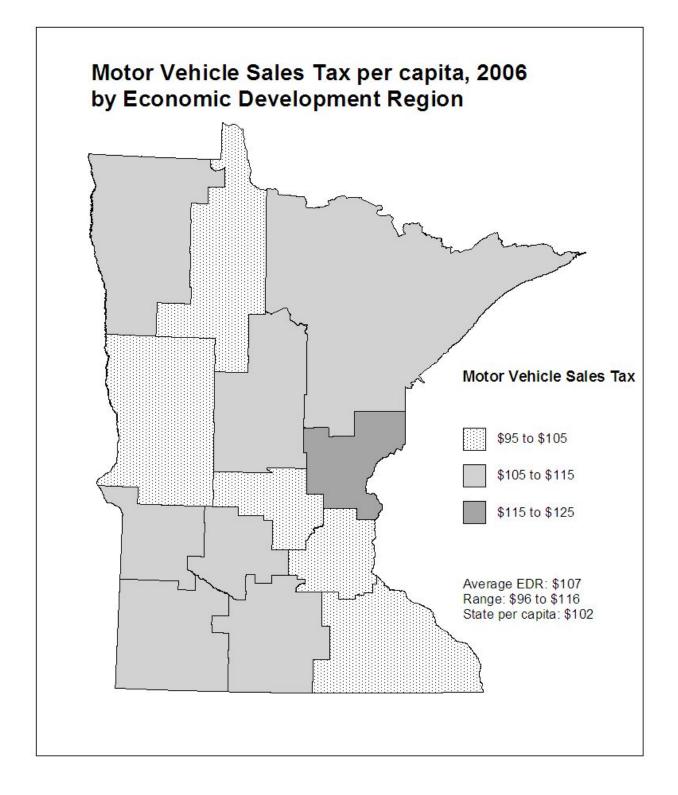

The constitutional language also requires that "no more than 60 percent" of the revenue go to the Highway User Tax Distribution (HUTD) fund, and "not less than 40 percent" go to public transit assistance (Minn. Const. art. XIV, sec. 13). These distribution limits, which establish a ceiling for allocation to highways and a floor for the allocation to transit, are referred to as the "60/40 split." Within the distribution limits, the Constitution allows legislation to set the actual division between highways and transit.

#### 2007 Laws:

2007 legislation established a motor vehicle sales tax phase-in schedule, shown in the table on the preceding page. In fiscal year 2012, after the phase-in is fully completed, the revenues will be distributed 60 percent to highways and 40 percent to transit, with the transit portion divided 36 percent for the metropolitan area and 4 percent for greater Minnesota.

<sup>&</sup>lt;sup>9</sup> The 2005 transportation bill (Laws 2005, ch. 88) was vetoed by the governor, but since constitutional amendments are not subject to veto, the amendment was put before the voters in November 2006.

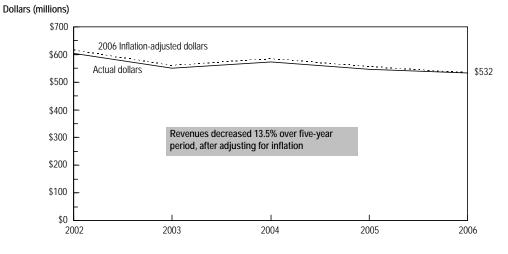

#### The Past Five Years of the Motor Vehicle Sales Tax

The table below shows the distribution of motor vehicle sales tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of motor vehicle sales tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# Motor Vehicle Sales Tax: 2002 to 2006

\* Revised amount.

# **Statewide Motor Vehicle Sales Tax**

House Research Graphics

# **Motor Vehicle Registration Tax**

## **Program Description**

The **motor vehicle registration tax** is imposed annually on each motor vehicle registered and licensed in Minnesota to use the public streets and highways. The tax on passenger cars, pickup trucks, and vans is equal to the total of (1) a \$10 flat tax, and (2) an additional tax of 1.25 percent of base value, subject to minimum and maximum amounts based on the age of the vehicle.

The tax on trucks, tractors, and buses is based upon the type, weight, and age of the vehicle. A minimum tax applies to each type of vehicle. There is also a flat tax on motorcycles and mopeds. The tax is paid when the vehicle is first registered in Minnesota to use the public streets and annually thereafter when it is re-registered.

Exemptions from the tax include vehicles owned by governmental units, school buses, agricultural tractors and trailers, special mobile equipment, vehicles used solely for carrying construction camp equipment or attached machinery, fire apparatus, ambulances, and vehicles not operated on highways.

#### **Tax Amount and Reporting**

### Calendar Year 2006 Motor Vehicle Registration Tax: \$488.5 million

The total motor vehicle registration tax for calendar year 2006 was \$488,537,692. The tax is collected by the Department of Public Safety. The amount of actual tax liability from each county is not available. The statewide total was allocated to counties based on estimates of the amount actually remitted by each county to the Department of Public Safety. To make all of the data in the historical table and graph on page 82 consistent, the previous four years' data were adjusted using past years' Department of Public Safety estimates.

Revenue from this tax, like revenue from the motor fuels tax, is deposited in the Highway User Tax Distribution Fund. (See page 84 for description of the allocation of the Highway User Tax Distribution Fund.)

The statewide motor vehicle registration tax amount was obtained from the Department of Revenue.

## **Recent Law Changes**

#### 2000 Changes:

The 2000 Legislature decreased the motor vehicle registration tax beginning in June 2000. This reduction was estimated to cost \$149.8 million in fiscal year 2001. The table below summarizes the changes.

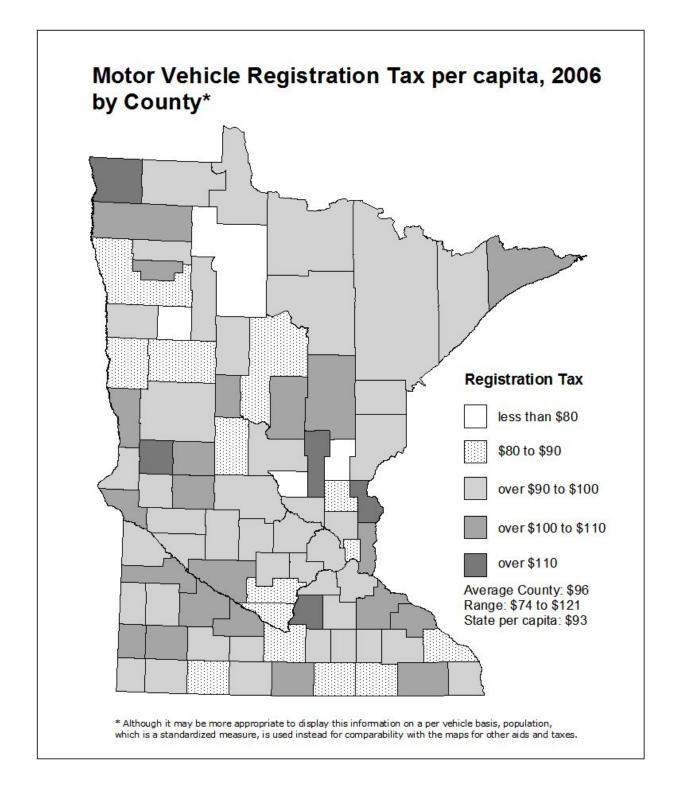

Year of vehicle registration in Minnesota	Flat tax	Plus	Total tax not to exceed
1	\$10	1.25% of base value	10 + 1.25% of total value
2	\$10	1.25% of base value*	\$189
3-10	\$10	1.25% of base value*	\$99
11 and up	\$10	\$25	\$35

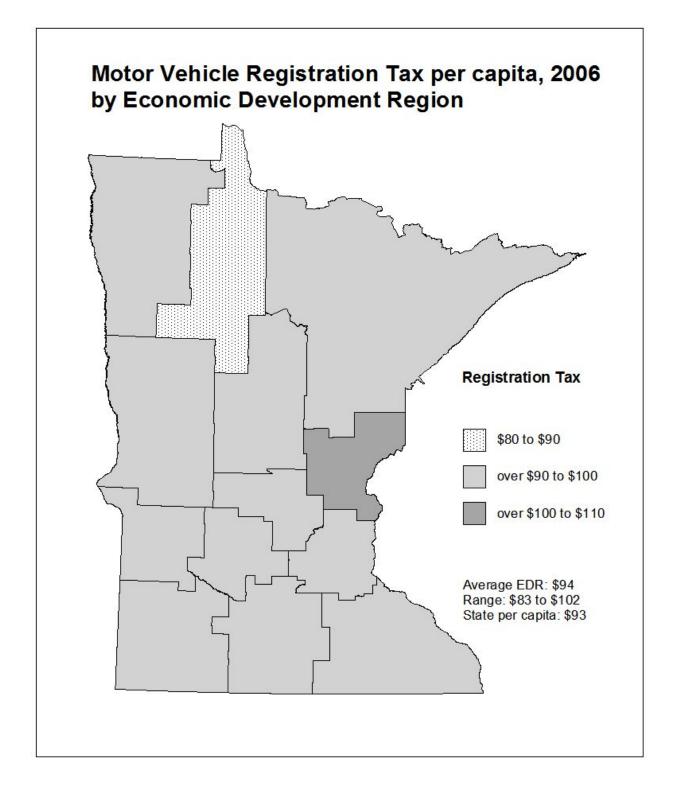

\* Base value decreases as the vehicle gets older.

#### 2008 Changes:

The 2008 Legislature restructured the registration tax for passenger vehicles by:

- eliminating the maximum of \$189 in the first registration renewal and \$99 in subsequent renewals;
- amending the vehicle depreciation schedule, which is the basis for a vehicle's valuation in collecting the tax (it is a decreasing percentage of the vehicle's original value as the vehicle gets older); and
- restricting the tax changes so that the amount owed for vehicles previously registered in Minnesota does not increase from the amount paid in previous years (regardless of whether vehicle ownership changes).

#### The Past Five Years of the Motor Vehicle Registration Tax

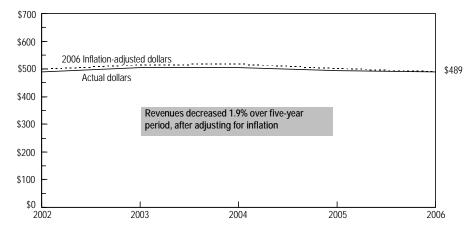

The table below shows the distribution of the motor vehicle registration tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the motor vehicle registration tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# Motor Vehicle Registration Tax: 2002 to 2006

## **Statewide Motor Vehicle Registration Tax**

Dollars (millions)

# **Motor Fuels Tax (Gas Tax)**

## **Program Description**

The **motor fuels tax** is imposed on gasoline, diesel fuel, and other motor fuels used by vehicles on public highways. Aviation fuel purchased, stored, or withdrawn from storage in Minnesota is also subject to the tax. Highway motor fuels have been taxed at a rate of 20 cents per gallon since 1988.<sup>10</sup> Beginning April 1, 2008, a rate increase is phased in whereby by July 1, 2012, the rate will be 28.5 cents per gallon. Aviation fuels are subject to a graduated, declining tax rate from 5 cents per gallon based on the number of gallons used during the calendar year.<sup>11</sup>

### **Tax Amount and Reporting**

#### Calendar Year 2006 Motor Fuels Tax: \$641.7 million

The total net amount after refunds of the motor fuels tax for calendar year 2006 was \$641,653,129. This is the net amount after the distribution to the snowmobile, motorboat, forest roads, and all-terrain vehicles (ATV) accounts.

The motor fuels tax goes into the Highway User Tax Distribution Fund and is dedicated for highway use. The Minnesota Constitution sets the distribution formula for 95 percent of the money in the fund: 29 percent to the county state-aid highway fund, 9 percent to the municipal state-aid street fund for cities with populations over 5,000, and 62 percent to the state trunk highway fund. The remaining 5 percent of the fund is allocated by law rather than by constitutional provision. In 2006 about 46 percent of this 5-percent set-aside was used for town roads and town bridges. The rest went into a "flexible fund" that was primarily used for improvements to former state highways that have reverted to local jurisdiction.

The highway aids listed in the tables estimate how much each area received from the above distribution. Like both the motor vehicle excise tax and the motor vehicle registration tax, the amount of motor fuels tax paid by taxpayers in each county is unknown. For purposes of this report, an estimate was made for each county based upon the total number of vehicle miles traveled in each county in 2006 as a proportion of the total vehicle miles traveled within the state in 2006.

The statewide motor fuels tax amount was obtained from the Department of Revenue.

<sup>&</sup>lt;sup>10</sup> Alternative fuels, such as liquefied natural gas and high-alcohol gasoline, are taxed at rates proportional to relative energy content.

<sup>&</sup>lt;sup>11</sup> Motor fuels used by public transit systems receiving state financial assistance are exempt. Until October 1, 1997, ethanol-gasoline blends received a tax credit of 5 cents for each gallon of ethanol.

## **Recent Law Changes**

The 2008 transportation finance act provides for a phased-in increase in the motor fuels tax. The tax increases by 2 cents to 22 cents per gallon on April 1, 2008, and the rate is further phased in up to 28.5 cents per gallon by July 1, 2012, as shown in the table below. Beginning in 2009, low-income individuals may claim a refundable income tax credit of \$25 to offset the motor fuels tax increase.

The 2008 act provides for the revenues resulting from the 5-cent increase to be distributed 40 percent based on each county's share of motor vehicle registrations and 60 percent based on each county's share of construction needs.

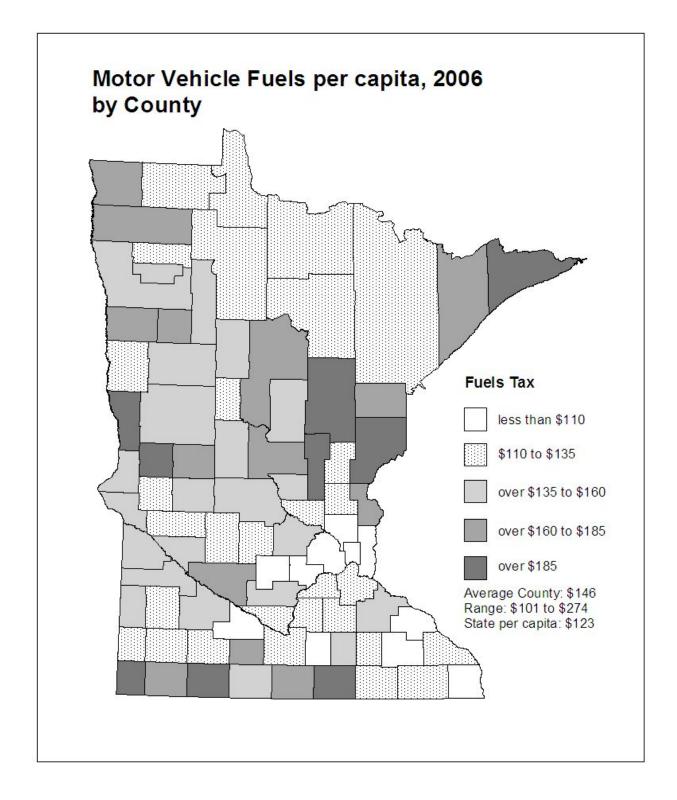

The following table contains the phase-in schedule of motor fuel tax rates. The \$641.7 million in motor fuels tax for 2006 includes tax collected on all fuels shown in the table.

				10/1/08				
	Through	4/1/08 -	8/1/08 -	_	7/1/09 -	7/1/10 -	7/1/11 –	7/1/12

# Motor Vehicle Fuels Tax: 2002 to 2006

#### **Statewide Motor Vehicle Fuels Tax**

# **Corporate Franchise (Income) Tax**

# **Program Description**

**Corporate franchise (income) tax** (usually referred to as the corporate income tax) is imposed on the net income of corporations. The rate of the tax is 9.8 percent. The tax base is federal taxable income with a variety of Minnesota adjustments. Corporations that do business both inside and outside of Minnesota apportion their income using a three-factor formula based on the share of the corporation's total property, payroll, and sales that are in Minnesota. For tax years 2001 through 2006, the formula weights sales 75 percent and property and payroll 12.5 percent each.<sup>12</sup>

An alternative minimum tax (AMT) applies to federal alternative minimum taxable income, if it would result in a higher tax than the regular corporate franchise tax. This tax rate is 5.8 percent. A minimum fee is imposed on corporations (including S corporations) and partnerships in addition to the regular tax or the AMT. The minimum fee ranges from \$100 to \$5,000, depending upon the corporation's sales, property, and payroll in Minnesota.

# **Tax Amount and Reporting**

## 2005 Corporate Income Tax: \$696.2 million

The corporation statistics presented in this report were tabulated from all Minnesota corporation income tax returns filed during the calendar year ending December 31, 2005. (Primarily, returns from 2004 were filed in calendar year 2005.) The total statewide corporate tax amount of \$696,227,456 includes income taxes collected from corporations whose main offices are in other states and foreign countries. It does not include any taxes or minimum fees paid by S corporations.

The corporate income tax data was obtained from the Department of Revenue's processing file. The location of each corporation's home office is not available on that file. Instead each county's total payroll, reported in County Business Patterns, was used as an indicator of where the corporate tax was paid. This method allowed allocation of the entire \$696.2 million of corporate tax liability rather than only that incurred by corporations headquartered in Minnesota. Since about one-third of the corporate tax liability is from these out-of-state corporations, this methodology allocates those corporate taxes to the counties.

<sup>&</sup>lt;sup>12</sup> Beginning in 2007, the formula will phase in 100 percent sales apportionment, reaching that percentage in 2014.

In addition to the total dollar amount of corporate tax shown by region and by county in sections 2 to 4 of the report, the tables below summarize statewide data by unitary/nonunitary and by type of corporation/return.

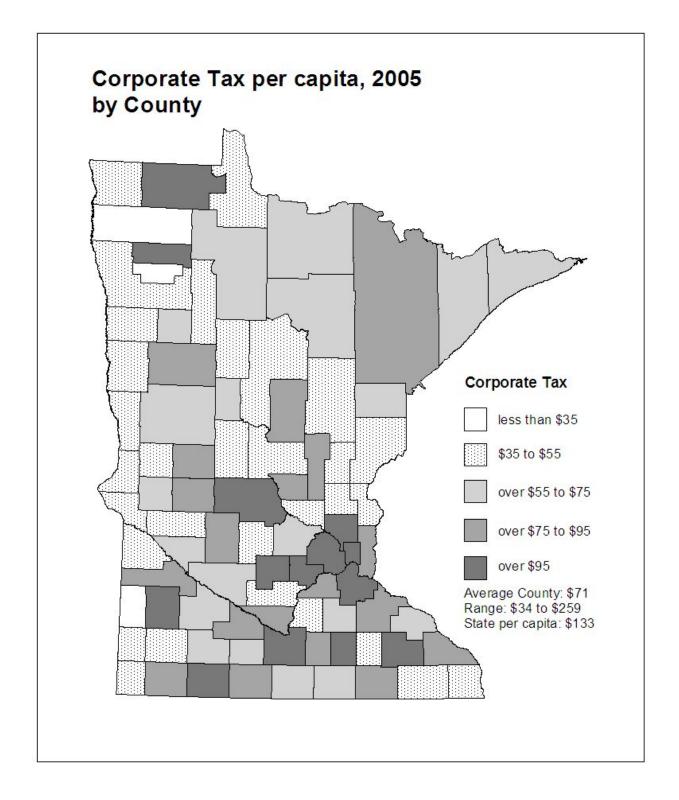

Returns Filed in 2005	# of Returns	% of Total	Tax Liability	% of Total	Average Tax

Tota	1 47,990	100.0%	\$696,227,456	100.0%	\$14,508

## By Type of Return

<sup>&</sup>lt;sup>13</sup> Related corporations, such as subsidiary, brother-sister, and parent corporations, must file on a unitary basis. For these corporations, the denominator of the three-factor apportionment formula (property, payroll, and sales) includes the factors of all the corporations in the unitary group. The numerator is the factors of the individual corporation, and the taxable income apportioned is the total income of the unitary group.

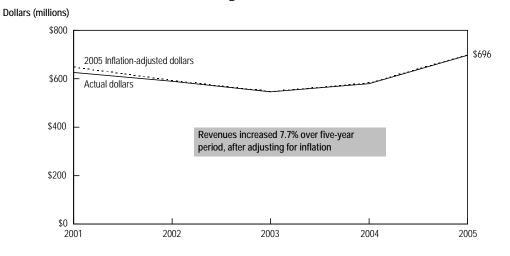

#### The Past Five Years of Corporate Franchise Tax

The table below shows the distribution of the corporate franchise tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the corporate franchise tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

House Research Graphics

# **State General Property Tax**

### **Program Description**

A state general property tax was instituted as part of the overall property tax reform adopted during the 2001 legislative session. The state tax is levied only on commercial/industrial/public utility property and seasonal recreational property. That portion of public utility property consisting of attached machinery used in the generation of electrical energy is exempt from the state general property tax, as well as the property at the Minneapolis-St. Paul International Airport and the St. Paul intermediate airport.

For its first year in taxes payable 2002, the state general levy amount was \$592 million. Each subsequent year's amount is increased from the previous year's amount by using the increase in the implicit price deflator for government consumption expenditures and gross investments published by the U.S. Bureau of Economic Analysis (an index of inflation).

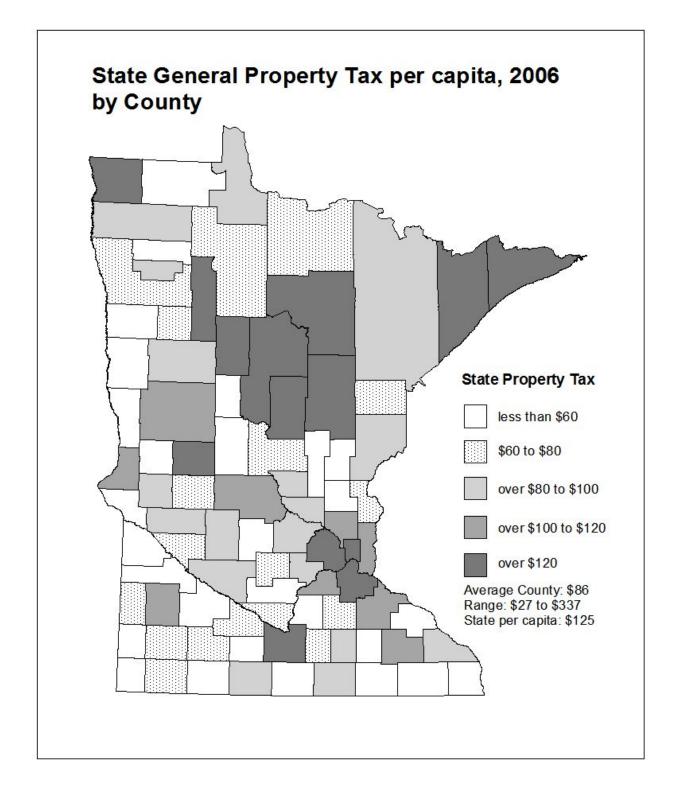

#### **Tax Amount and Reporting**

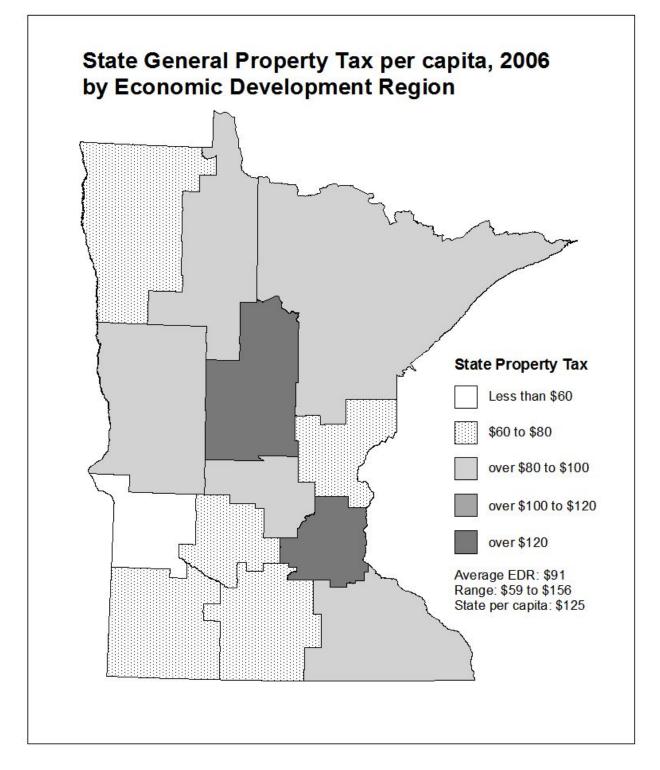

#### Payable Year 2006 State General Property Tax: \$655.6 million

The total state general property tax for taxes payable in 2006 was \$655,554,000. Beginning in 2006, separate tax rates were established for commercial-industrial property and seasonal recreational property. For 2006, the state tax rate was 50.827 percent for commercial-industrial property and 28.385 percent for seasonal recreational property, based on a prescribed levy of \$658.7 million.<sup>14</sup>

A small portion—\$32.9 million, or 5 percent—of the state tax was levied against seasonal recreational property; the majority of the tax (i.e., \$622.8 million) was levied against commercial/industrial/public utility property.

<sup>&</sup>lt;sup>14</sup> The actual levy was \$655.6 million due to changes made in the tax base after the rate was established. In addition to the amount formally levied, an additional amount of approximately \$2.1 million is collected from properties that are not included in the abstract of assessment (i.e., the majority of the tax is on certain transmission and distribution line property). This amount is not included in this report because its distribution is unknown.

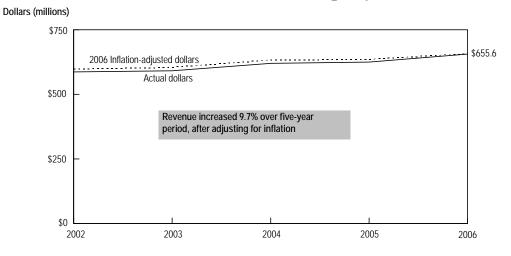

## The First Five Years of State General Property Tax

The table below shows the distribution of the state general property tax in thousands of dollars for the first five years for the state and economic development regions.

# State General Property Tax: Payable 2002 to 2006

# 2. Summary Data

This section contains summary data for the most recent available year on

- statewide totals
- the seven metro and the 80 nonmetro counties
- the 13 economic development regions

A sample table and a general explanation of the tables in sections 2, 3, and 4 of the report precede the data.

# **General Explanations of Tables**

The basic format is the same for all the regional and county tables in sections 3 and 4 of the report. (See adjacent page.)

**I. MAJOR STATE AIDS/CREDITS.** Although all of the aids/credits listed are paid by the state, there are three types of aids/credits.

#### A. Aids to Local Governments

- Are paid to the local taxing district and are part of its total revenue
- Benefit all types of property in the taxing district
- Reduce what is needed from the property tax levy

#### **B.** Property Tax Credits

- Are paid to the local taxing district, but are listed on the property tax statement as a credit against the property's gross tax
- Benefit only certain types of property
- Are computed on a parcel-by-parcel basis on qualifying property

#### C. Property Tax Refunds (Circuit Breaker/Targeting)

- Are paid directly to homeowners and renters (property tax refund)
- Are based upon a relationship between household income and the homeowner's property tax or the renter's share of property tax (property tax refund)
- Are targeted to homeowners who have large property tax increases in one year (targeting)

#### II. PROPERTY TAX DATA

- **A. Property Tax Levy** for taxes payable in 2006 by type of taxing district, including the state property tax levy
- **B. Property Valuation** of taxable real and personal property for the 2005 assessment (taxes payable in 2006), including the total market value, referendum market value, and net tax capacity
- C. The Average Tax Rates for taxes payable in 2006 of the local net tax capacity and referendum market value

#### III. MAJOR STATE TAXES

- Individual income tax
- Sales/use tax
- Motor vehicle sales tax
- Motor vehicle registration tax
- Motor fuels tax (i.e., gas tax)
- Corporate income tax
- State property tax

The motor vehicle sales tax, the motor vehicle registration tax, the motor fuels tax, and the corporate income tax have been included in this report on a county-by-county basis. However, it should be stressed that these county amounts are only estimates since actual collections by county are not available. (See section 1 for detail on how the county apportionments were calculated).

### **Statewide Summary**

Tables 2-1 and 2-2 contain the statewide totals of all the state aids and taxes presented in this report. Table 2-1 summarizes the total amounts for Minnesota residents only, whereas the amounts in Table 2-2 also include those dollars paid by nonresidents.

2006 population is used to calculate per capita amounts in the tables and maps throughout this report, even if 2005 is the most recent year for which data for a particular aid or tax is available, except for Appendix C and the maps on pages 114 and 115.

The total state aids and credits contained in this report equal about \$12.1 billion, whereas the total of the seven major taxes listed in this report equal \$12.79 billion paid by residents and an additional \$0.96 billion paid by nonresidents (for a total tax amount of \$13.75 billion).

The total taxes presented in this report **are not the total of all taxes collected by the state**. The total state net tax collections after refunds were about \$15.5 billion in fiscal year 2005 and \$16.9 billion in fiscal year 2006. Furthermore, the taxes presented in this report are not for a specific time period but rather are the latest available data and/or the next data in sequence to the 2005 Update report (published July 2007). Therefore, the \$13.7 billion total taxes listed in this report (residents and nonresidents) is about 84.6 percent of the total taxes actually collected over that period.

The taxes not contained in this report include estate, mortgage registry and deed, insurance gross premiums, MinnesotaCare, mineral, cigarette and tobacco products, lawful gambling, and alcoholic beverages. The collections from some of these taxes are dedicated for specific purposes.

### Metro/Nonmetro Data

**Tables 2-3 and 2-4** contain data comparing the metro and nonmetro counties. The metro counties are the Twin Cities seven metropolitan counties—Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington. The nonmetro counties are the remaining 80 counties in the state.

Table 2-3 has the metro and nonmetro dollar amounts of aids and taxes and a per capita comparison.

Table 2-4 presents a statewide breakdown of metro versus nonmetro for each of the categories. Each item adds across to 100 percent; for example 55.2 percent of the education aid goes to metro counties and 44.8 percent goes to nonmetro counties.

2006 population is used to calculate per capita amounts in the tables and maps throughout this report, even if 2005 is the most recent year for which data for a particular aid or tax is available, except for Appendix C and the maps on pages 114 and 115.

Note: The metro and nonmetro totals add to the state totals in Table 2-1, which include only Minnesota residents.

The additional amounts paid by out-of-state taxpayers have not been allocated to any county. The amount of sales and income taxes which is unallocated to Minnesota is about \$963 million. Appendix B has a list of the type of tax and amounts not entirely allocated to Minnesota counties.

### 3. Regional Data

There are four statewide maps comparing various tax/aid factors.

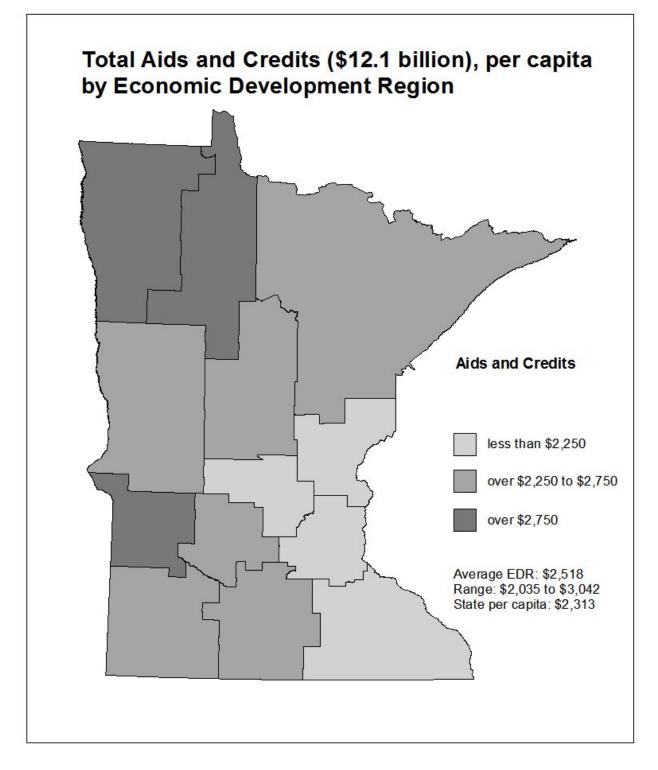

- Map on page 112 is total per capita aid and credits by economic development region
- Map on page 113 is total per capita taxes (residents only) by economic development region
- Map on page 114 is per capita personal income by county
- Map page 115 is per capita personal income by region

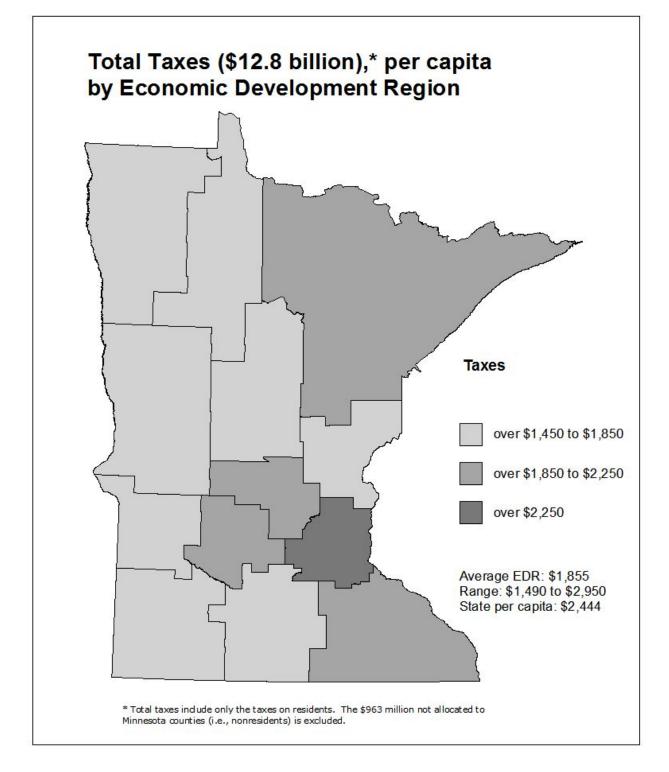

Table 3 compares the state aid/tax data for each of the 13 regions with the statewide totals. There is a separate table for each region.

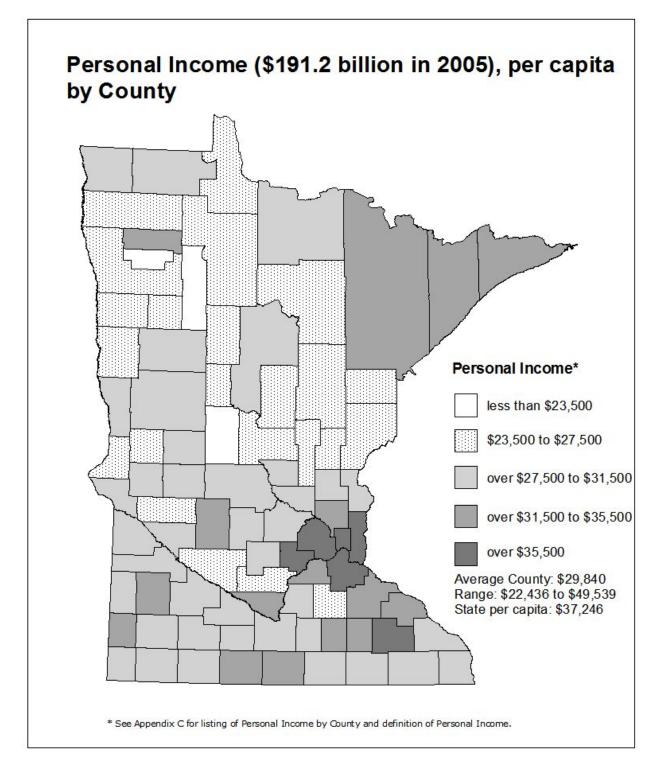

## Statewide per capita amounts exclude income and sales taxes paid by nonresidents of Minnesota.

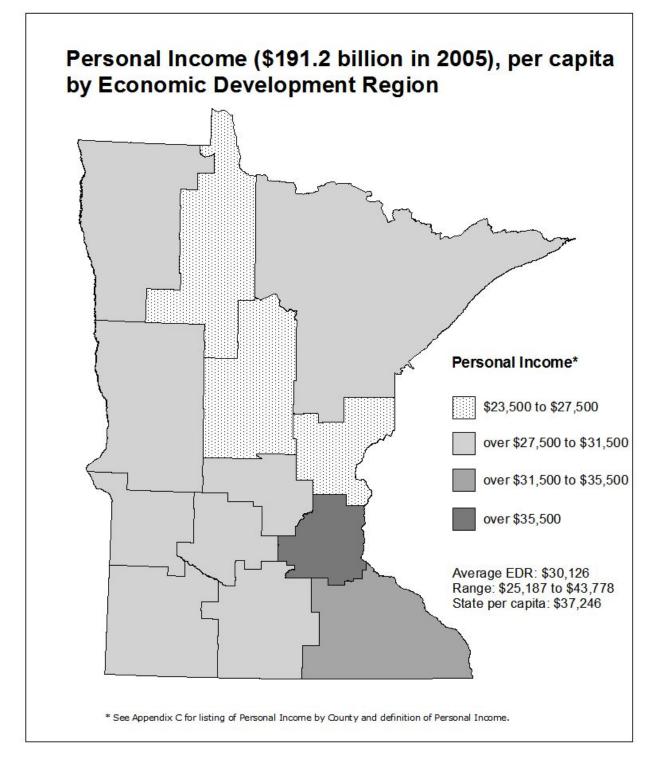

The map of Minnesota on page 6 and table on page 7 show the counties that are located in each of the 13 economic development regions.

2006 population is used to calculate per capita amounts in the tables and maps throughout this report, even if 2005 is the most recent year for which data for a particular aid or tax is available, except for Appendix C and the maps on pages 114 and 115.

# 4. County Data

This section compares data from each county with statewide data and data from the economic development regions in which the county is located. The counties are listed in alphabetical order. There is a separate table for each county.

# Statewide per capita amounts exclude income and sales tax paid by nonresidents of Minnesota.

A table containing the 2006 estimated population, which was used for each county in determining the county and region per capita amounts, is on page 5. 2006 population is used to calculate per capita amounts throughout this report, even if 2005 is the most recent year for which data for a particular aid or tax is available.

NOTE: The human service amounts were not available by county for the Human Services Board (Faribault and Martin). The total for the Human Service Board is \$29.3 million, which was allocated to the counties on a per capita basis (\$12.385 million estimated to Faribault county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for Region VIII N (Lincoln, Lyon, and Murray). The total for Region VIII N is \$30.4 million, which was allocated to the counties on a per capita basis (\$4.595 million estimated to Lincoln county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

I NOTE: The human service amounts were not available by county for Region VIII N (Lincoln, Lyon, and Murray). The total for Region VIII N is \$30.4 million, which was allocated to the counties on a per capita basis (\$19.076 million estimated to Lyon county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for the Human Services Board (Faribault and Martin). The total for the Human Service Board is \$29.3 million, which was allocated to the counties on a per capita basis (\$16.879 million estimated to Martin county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for Region VIII N (Lincoln, Lyon, and Murray). The total for Region VIII N is \$30.4 million, which was allocated to the counties on a per capita basis (\$6.697 million estimated to Murray county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

### **Appendix D**

#### Personal Income, Taxes, and Aids/Credits by Economic Development Region

Personal income by county is estimated by the Bureau of Economic Analysis, and is defined as "the sum of wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and transfer payments to persons, less personal contributions for social insurance." Per capita amounts for personal income, taxes, and aids/credits in this appendix are calculated using 2006 population, so that the tax and aids/credits per capita amounts match the amounts shown on tables throughout the report. This means that the per capita amounts for personal income in this appendix do not match the amounts shown in Appendix C, or on the maps on pages 114 and 115, which are calculated using 2005 population.

		Per Capita (2006 Population)			
		Personal Income	Taxes	Aids/Credits
