# **Major State Aids and Taxes**A Comparative Analysis

2009 Update

This report presents a comparative analysis of the major state aids and taxes in Minnesota. This data has been distributed in various formats by House Research for many years, although many of the reports in earlier years contained significantly less information.

This report was prepared by **Nina Manzi**, legislative analyst in the House Research Department.

Questions may be addressed to **Nina** at 651-296-5204.

**Kristie Strum** provided graphics and production assistance.

Cami Connell provided research assistance.

Copies of this publication may be obtained by calling 651-296-6753. This document can be made available in alternative formats for people with disabilities by calling 651-296-6753 or the Minnesota State Relay Service at 711 or 1-800-627-3529 (TTY). Many House Research Department publications are also available on the Internet at: <a href="https://www.house.mn/hrd/hrd.htm">www.house.mn/hrd/hrd.htm</a>.

## Introduction

This report presents a comparative analysis of the major state aids and taxes in Minnesota. It is a reference document and is **NOT INTENDED** to be a complete list of all the aids and credits paid by the state and all the taxes collected by the state. The report contains data on:

- **Major State Aids** including education aid, human services aid, highway aid, local government aid (LGA), disparity reduction aid (DRA), county program aid, community corrections funding, property tax refund, and targeting.
- **Property Tax Data** including property tax levies by type of taxing district, miscellaneous property tax credits, property valuation data, and average tax rates.
- **Major State Taxes** including individual income tax, sales/use tax, motor vehicle sales tax, motor vehicle registration tax, motor fuels tax, corporate franchise (income) tax, and state property tax.

This report is divided into four major sections.

**Section 1** discusses the state aids, property tax data, and state taxes and gives the assumptions and caveats for using the report. It contains current and historical data using graphs, maps, and tables in both total dollars and on a per capita basis.

**Section 2** presents **STATEWIDE SUMMARY DATA**. A sample table with a general explanation introduces the section. The section contains the summary data for the most recent available year on the statewide totals and compares the metro and the nonmetro economic development regions to each other.

Section 3 compares aid and tax data for the most recent available year for each of the 13 ECONOMIC DEVELOPMENT REGIONS to total statewide data.

**Section 4** compares aid and tax data for the most recent available year for each **COUNTY** to total statewide data and to the economic development region in which the county is located.

## 1. Current and Historical Data

Section 1 contains the most recent available data for the major state aids, credits, and taxes and describes the programs under the general categories in the tables of this report. The assumptions and caveats for using the report are mentioned in this section. In addition to information from the most recent year, section 1 also contains historical information. The data is for a five-year time period.

Section 1 is divided into three parts:

- Major state aids
- Property tax data
- Major state taxes

Some of the data in this section are county level, while other tables and graphs are by region or groupings of regions. One table and one graph use northern and southern groupings of the 80 nonmetro counties. The groupings were selected for convenience, rather than for any specific analytical purpose. The northern and southern regions are grouped as follows:

<u>North</u>	nern Regions		Southe <u>rn</u>	Regions
1	Northwest		6E	Six East
2	Headwaters		6W	Upper Minnesota Valley
3	Arrowhead		7W	Central Minnesota
4	West Central		8	Southwest
5	Five	9		Nine
7E	East Central		10	Southeastern Minnesota

The seven metro counties are not included in either the northern or southern regions and are region 11.

A table on page 6 lists the 2009 county population estimates, which were used to calculate per capita amounts in the report. A map and accompanying table on pages 4 and 5 show the counties and the economic development regions.

The standard format for each aid or tax consists of four or five pages of information. The first page or two contains information for the latest available year, followed by two maps and a page with historical data.

**Program Description:** The first one to three pages provide a program description of the aid or tax. They also provide the statewide amount for the most recent available year, any relevant reporting information, and the source of the data. In some cases, summary tables itemizing the data in different ways (e.g., by program totals) are included. Any recent law changes that affect the program and are important in analyzing the data are noted on this page.

**Maps:** The next two pages contain maps showing the per capita distribution of the aid or tax by **county** for the most recent year and by **economic development region** (EDR) for the most recent year. 2009 population is used to calculate per capita amounts throughout this report, even if 2008 is the most recent year for which data for a particular aid or tax is available. The 2009 population estimates used in this report are from the Minnesota State Demographer.

The counties were grouped by dividing the data range for each aid and tax into three to five segments. The map legend shows the size of the segments, the per capita amount received or paid by the average county or economic development region, the range from lowest to highest amount per capita, and the overall statewide per capita amount. In some cases, a small number of counties may have per capita aid or tax amounts much higher or lower than all other counties. For purposes of comparability, the groupings constructed on the county data ranges were also used for maps presenting data by economic development region.

All maps are on a per capita basis for comparability among counties. For some aids and taxes, however, other measures would probably be more appropriate. For example, a measure incorporating per pupil units could provide insight into the distribution of education aid. Construction of such measures on a county basis is beyond the scope of this report due to time and data limitations. Where appropriate, footnotes are provided suggesting alternatives.

**Historical Data:** The last page has a table containing the historical data for the state and the geographic areas of the state. The right-hand column shows a percentage change for the time period presented, calculated using current dollars (i.e., not adjusted for inflation). Hennepin and Ramsey counties are shown separately from the rest of the metro counties on this page because of their greater size, and because each contains a city of the first class.

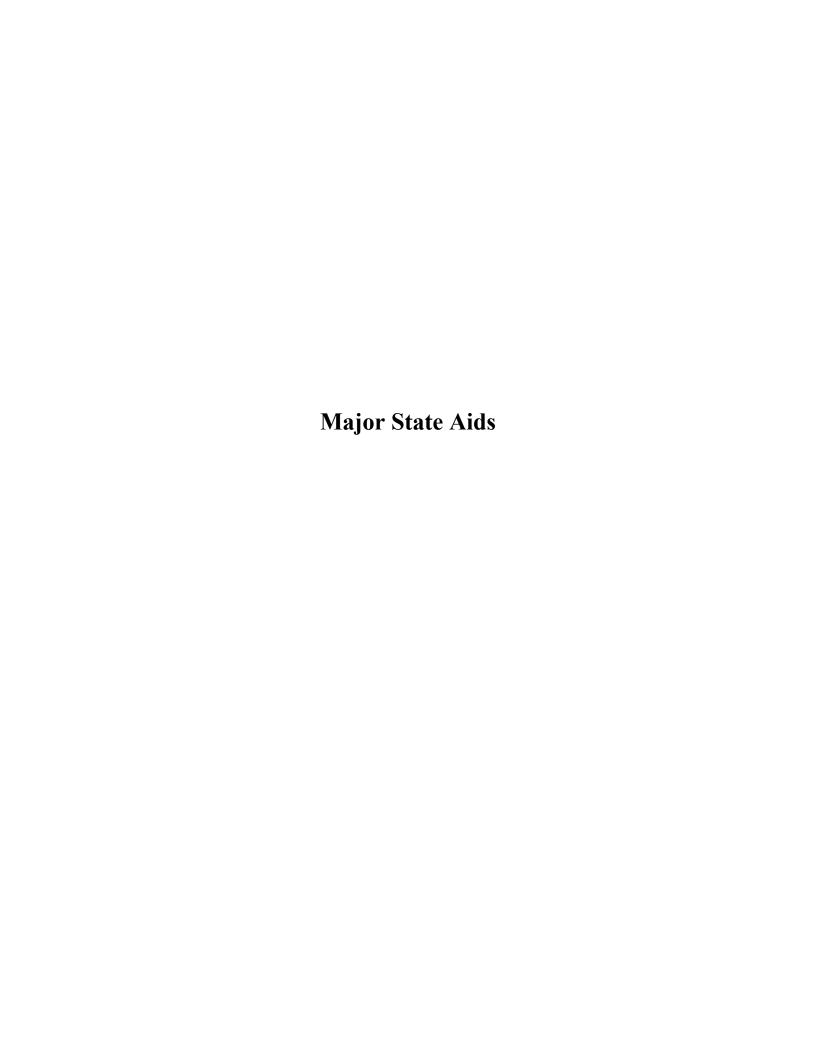

At the bottom of this page is a statewide graph containing a trend of the data in current (actual) dollars and in constant (inflation-adjusted) dollars. This is the only place where amounts presented are adjusted for inflation.

## **Education Aid**

#### **Program Description**

**Education aid** is the total amount of state aid paid to school districts for all K-12 educational purposes. This amount includes state aid for general education, special education, transportation, community education, capital expenditure, secondary vocational, and other miscellaneous programs. About 84 percent of the total aid (including aid to charter schools) is general education aid.

#### Aid Amount and Reporting

#### **2008/2009 Education Aid: \$6.7 billion**

The total education aid for the 2008/2009 school year is \$6,740,999,829. This total includes \$323,047,334 that went to the 154 charter schools operating in the 2008/2009 school year. The amounts received by school districts for property tax credits (i.e., homestead market value credit, agricultural market value credit, taconite homestead credit, disparity reduction credit, etc.) are not included in this amount since they are itemized elsewhere in the report.

Education aid is paid to school districts, many of which operate in more than one county. This year's report uses a new method of assigning education aid to counties. Education aid paid to school districts that operate in more than one county is apportioned to the various counties based on each county's share of total residential market value in the school district. For example, if one-fifth of the residential market value of a school district is in County A, two-fifths in County B, and the remaining two-fifths in County C, then one-fifth of the school district's education aid is apportioned to County A, two-fifths to County B, and two-fifths to County C. Aid to charter schools is reported in the county in which each school is located. Appendix A lists education aid by school district for 2008/2009 and lists the counties in which each school district operates.

Previous years' reports allocated education aid to each school district's home county, that is, the county where the school district's administrative headquarters is located. For comparability across years, the historical data on page 12 for aid paid for the 2004/2005 school year through the 2007/2008 school year has been reapportioned using the new residential market value apportionment method.

The education aid total does not include \$22 million that went to colleges participating in the postsecondary enrollment options (PSEO) program in 2008/2009 and also does not include lesser amounts spent on intermediate school districts and educational cooperative districts, and other providers.

<sup>&</sup>lt;sup>1</sup> An intermediate school district is an educational cooperative authorized by statute and voluntarily created by participating school districts. Intermediate school districts offer special education services, vocational services, alternative learning programs, and administrative services for member school districts. In 2008/2009 intermediate school districts received \$62 million in education aid, and cooperative school organizations received \$45 million in

Education aid by home county by school district was obtained from the Minnesota Department of Education

#### **Recent Law Changes**

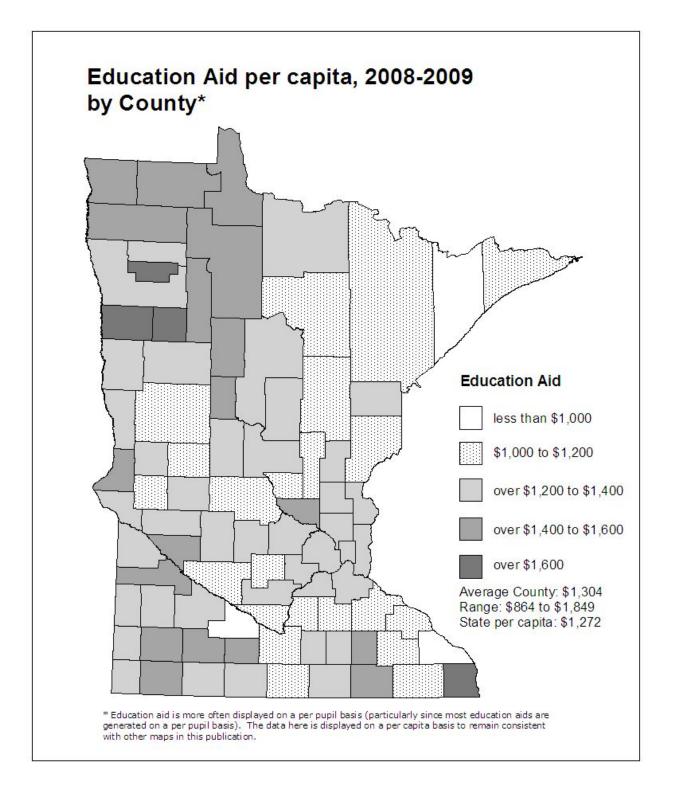

The state aid share of school district revenue that is promised to the school district through Minnesota's school finance formulas is called the "aid entitlement." This report shows the school state aid entitlement amounts for each district (these are listed in Appendix A). The amount actually paid to school districts by the state during each fiscal year is called the "appropriation." Since school districts use the accrual method of accounting, the full amount of the aid entitlement owed to the district for a fiscal year is booked by the school district as revenue for that year, regardless of when the state aid is actually received. The state, on the other hand, uses a cash-based system of accounting. As a result, the "cost" to the state of school aid is only the actual appropriation for a particular school year, not the aid entitlement.

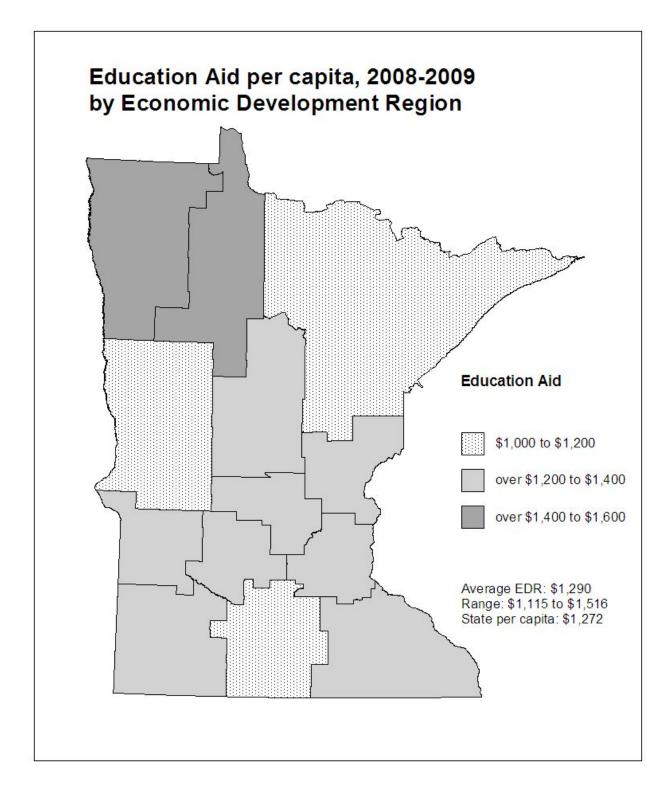

Payment shifts have been used to address state budget shortfalls since the early 1980s. Beginning in fiscal year 2010, the school aid payment shifts are reinstated and portions of school aid payments are delayed until the following fiscal year. The effects of the property tax recognition shift and the aid payment percentage shift are considerable. For state fiscal year 2011, the combined effect of the shifts saves the state general fund about \$1.9 billion by deferring a portion of the payment for school aids into the following fiscal year.

The amounts of school aid shown in this document are the state aid entitlements (the amount of state aid received by the school district for the relevant fiscal year). The property tax recognition shift and the aid payment shift have no effect on the amounts shown in this report.

aid. Some education aid amounts are paid directly to intermediate districts and cooperative school organizations that were previously paid to school districts and then transferred to the cooperative organizations. Beginning in the 2007/2008 school year, some special education aid began to be paid directly to intermediate districts, rather than paid through school districts, resulting in less aid to school districts and more to intermediate districts.

<sup>&</sup>lt;sup>2</sup> In 2008/2009, \$1.5 million in aid went to four tribal contract schools, \$3 million to the Faribault Academies for the deaf and blind, and \$6 million to nonprofits operating adult basic education.

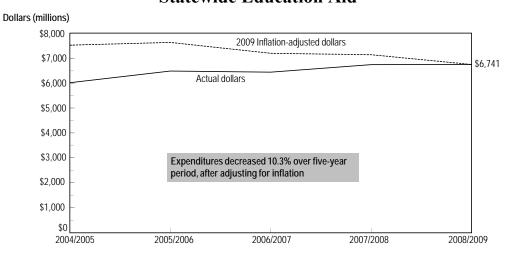

#### The Past Five Years of Education Aid

The table below shows the distribution of education aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of education aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

Education Aid: 2004/2005 School Year to 2008/2009 School Year

#### **Statewide Education Aid**

House Research Graphics

## **Human Services Aid**

#### **Program Description**

**Human services aid** is the total amount of state aid for human services programs, including all income maintenance and social service programs. Although the federal government and the counties contribute money to programs in varying degrees, the amounts in this report reflect only the **state's share** of the human services costs.

#### Aid Amount and Reporting

#### 2009 Human Services Aid: \$4.3 billion

The state's share of the human services expenditures for calendar year 2009 is \$4,323,012,516.

Type of Program	Amount	Percent
Medical Assistance	\$2,629,785,989	60.8%
Minnesota Family Investment Program (MFIP)	95,599,125	2.2
General Assistance (GA)	45,055,003	1.0
General Assistance Medical Care (GAMC)	313,735,427	7.3
Social Services (including CSSA)	1,096,944,019	25.4
Miscellaneous:		
Minnesota Supplemental Assistance	32,099,073	0.7
Group Residential Housing	105,247,705	2.4
Food Stamp Delivery	501,372	0.0
Title IV Child Support	4,044,803	0.1
Total	\$4,323,012,516	100.0%

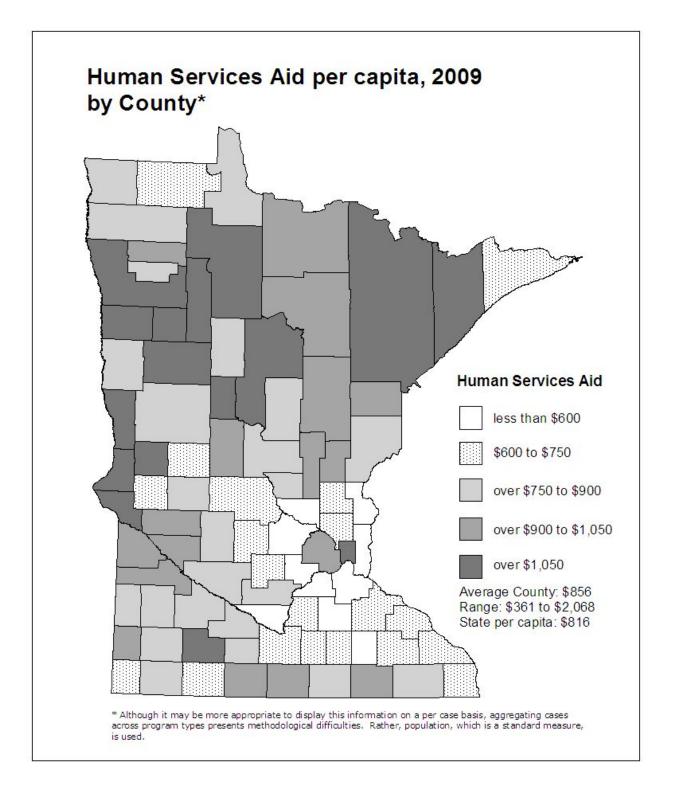

State MFIP spending shown in this report is before offsetting any current year child support collections applied against current and prior years' MFIP payments. In calendar year 2009, MFIP spending in Minnesota totaled \$332.5 million (\$262.4 million federal, \$95.6 million state, \$27.1 million county), and offsetting child support collections totaled \$52.7 million.

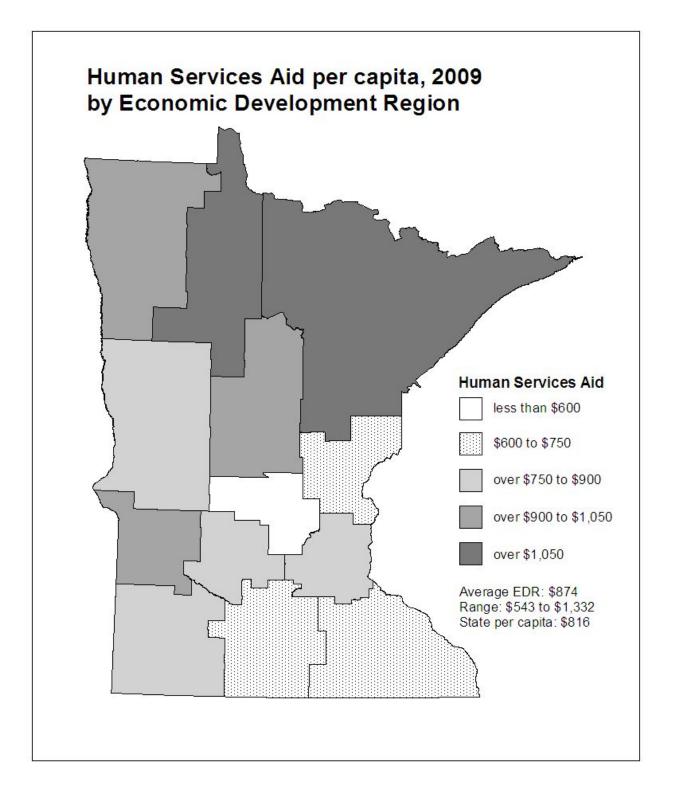

The human services amounts are not available by county in two cases:

- Region VIII N—Lincoln, Lyon, and Murray
- Human Service Board—Faribault and Martin

In these two groups, human services aid is administered through a "home" county: Lyon in Region VIII N and Faribault in the Human Service Board. The total human service amount for Region VIII N is \$33.3 million and for the Human Service Board, \$32.5 million. An estimated amount based on population for the five counties appear in the county tables.

Human services aid data was obtained from the Department of Human Services, Financial Management Division.

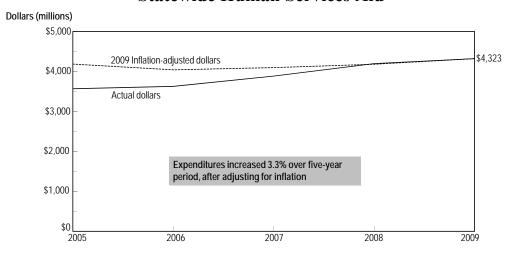

#### The Past Five Years of Human Services Aid

The table below shows the distribution of human services aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of human services aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

Human Services Aid: Calendar Years 2005 to 2009

#### **Statewide Human Services Aid**

House Research Graphics

# **Highway Aid**

#### **Program Description**

**Highway aid** is the total amount of state aid distributed to counties, cities, and towns for highway purposes. It includes three basic types of aid: (1) amounts distributed according to constitutional formula to all counties and eligible cities; (2) amounts distributed to counties, cities, and towns from state bond proceeds; and (3) amounts distributed to towns for town roads and bridges. The sources of these funds are the Highway User Tax Distribution Fund (from a portion of the motor fuels tax, motor vehicle registration tax, and motor vehicle sales tax revenues) and proceeds from state bonds.

#### Aid Amount and Reporting

#### 2009 Highway Aid: \$579.7 million

The total state highway aid paid in calendar year 2009 to the counties, cities (i.e., municipal), and towns is shown below by category. Bridge bond funding amounts are the totals awarded during 2009 and funded as of December 2011.

Type of Highway Aid		Amount		Total
County Aid	County State Aid	\$383,265,770		
-	County Bridge Bond Funding	34,847,119		
	Local Road Bond Funding	8,601,279		
			County	\$426,714,168
Municipal Aid	Municipal State Aid	\$121,761,231		
	Municipal Bridge Bond Funding	1,543,471		
			Municipal	\$123,304,702
Township Aid	Town Road Account	\$21,537,401		
	Town Bridge Account <sup>3</sup>	7,908,816		
	Town Bridge Bond Funding	283,967		
			Township	<u>\$29,730,184</u>
		Total	Highway Aid	\$579,749,054

The county and municipal turnback account money (excluding the money in the town road and town bridge accounts shown above) is **not** included in the above totals. In 2009, the state allocated approximately \$19.9 million to the county turnback account and \$2.8 million to the municipal turnback account. Counties and municipalities use this money to maintain former state highways that have been "turned back" to counties and municipalities. In 2009,

<sup>&</sup>lt;sup>3</sup> The Department of Transportation sets aside a portion of Town Bridge Account funding for flexible distribution as needed throughout the state. Amounts in this special Town Bridge Account are not always spent within the calendar year and are not included in this report.

disbursements of \$34.9 million to counties and \$5.2 million to municipalities from the turnback accounts were used for maintenance. The amount spent in each county is not readily available.

Highway aid data was obtained from the Department of Transportation.

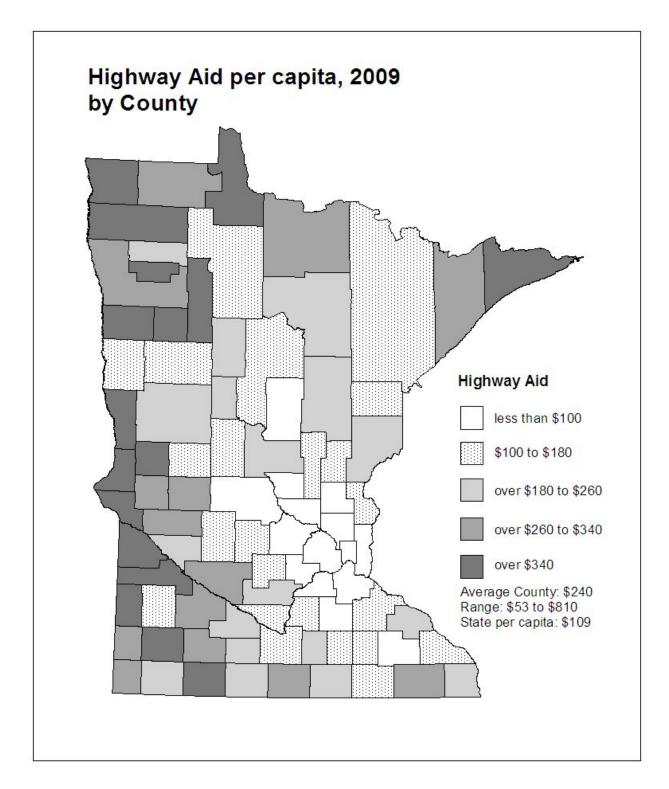

#### **Recent Law Changes**

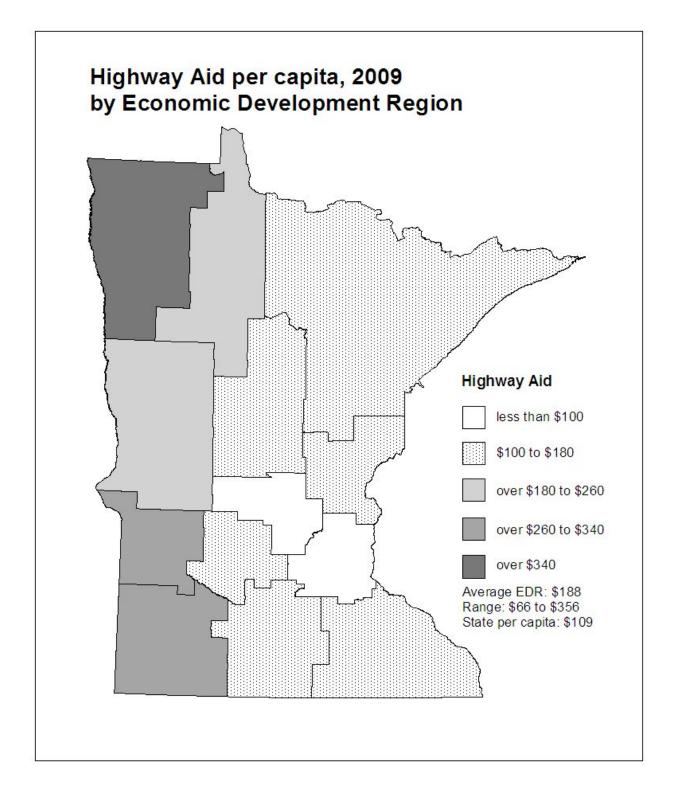

The 2008 Legislature made two basic changes (effective July 1, 2009) to the allocation of flexible highway account funds. It:

- (1) reallocated a portion of the funds to metropolitan area counties, and
- (2) modified allowable uses of the funds to:
  - eliminate funds for the trunk highway system,
  - allow funds to be used for "safety improvements on county highways, municipal highways, streets, or town roads," and
  - allow funds to go to routes of regional significance.

Also in 2008, the legislature:

- (1) modified the mechanism for distributing aid to counties by establishing a second formula to allocate a portion of Highway User Tax Distribution Fund revenues; and
- (2) authorized \$10 million in local road bonding. Most of this bonding was allocated in 2009. \$84,388 was allocated in 2008; the historical table on page 22 has been corrected to include this amount. About \$500,000 remains available to be allocated as of January 2012.

#### The Past Five Years of Highway Aid

The table below shows the distribution of highway aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of highway aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

<sup>\*</sup> The Department of Transportation revised data for 2006 Highway Aid. The historical table amounts for 2006 reflect the revisions.

## Local Government Aid (LGA)

**Local government aid (LGA)** is a state program that provides property tax relief by giving general purpose financial support to cities. "Ability to pay" and "need" are the measures used in the formula. Ability to pay is the city's adjusted net tax capacity for all cities, regardless of population.

- For cities with population of 2,500 or more, need is determined by five characteristics: population decline, age of the housing stock, if the city is in the seven-county metro area, average number of vehicular accidents over the most recent three-year period, and household size.
- For cities with population less than 2,500, need is determined by population decline, age of housing stock, percent of the property in the city classified as commercial or industrial, and a population adjustment factor.

Additional aid is also given to cities with a population less than 5,000 based on population, and to cities with a population of 5,000 or more based on the ratio of jobs to population in the city.

#### Aid Amount and Reporting

#### 2009 Local Government Aid: \$481.5 million, after \$44.6 million reduction

The 2009 certified LGA total was \$526.1 million. Gov. Tim Pawlenty unalloted \$44.6 million of the December 2009 share of the LGA payment. This unallotment was later ratified by the legislature during the 2010 special session. Net 2009 LGA distributed to cities was \$481.5 million.

LGA data was obtained from the Department of Revenue.

#### **Law Changes**

Below is an overview of the changes made to city LGA.

#### City LGA

#### 2004 aid changes:

- The city LGA program's appropriation was permanently reduced to about \$437 million for calendar year 2004 and future years. The automatic growth in the appropriation was eliminated.
- Most of the guaranteed (grandfathered) portion of LGA was eliminated and all but \$26.6 million of the appropriation was distributed via a new LGA formula. However, increases and decreases in payments to individual cities in any year were capped to allow a gradual phase-in of redistribution under the new formula.

• The new LGA formula had an updated measure of city "need" for cities with a population of 2,500 or more. Beginning with calendar year 2005 aids, the measure of a city's "ability to raise revenue" was modified to include revenues from taconite aids.

#### 2006 aid changes:

- Beginning with 2006 aids, the annual LGA appropriation was permanently increased by \$48 million, to \$485,052,000.
- Beginning with 2006 aids, cities with a population less than 5,000 get additional aid of \$6 per capita.
- Beginning with 2006, the taconite aid received by the cities of Babbit, Eveleth, Hibbing, Keewatin, Mountain Iron, Silver Bay, and Virginia are not used to calculate the "ability to raise revenue" for those cities.

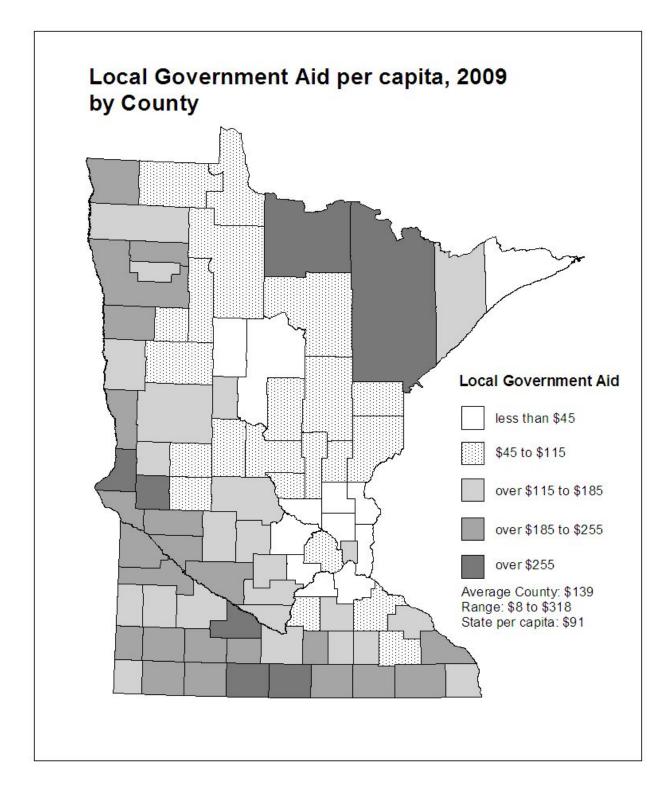

#### 2008 aid changes:

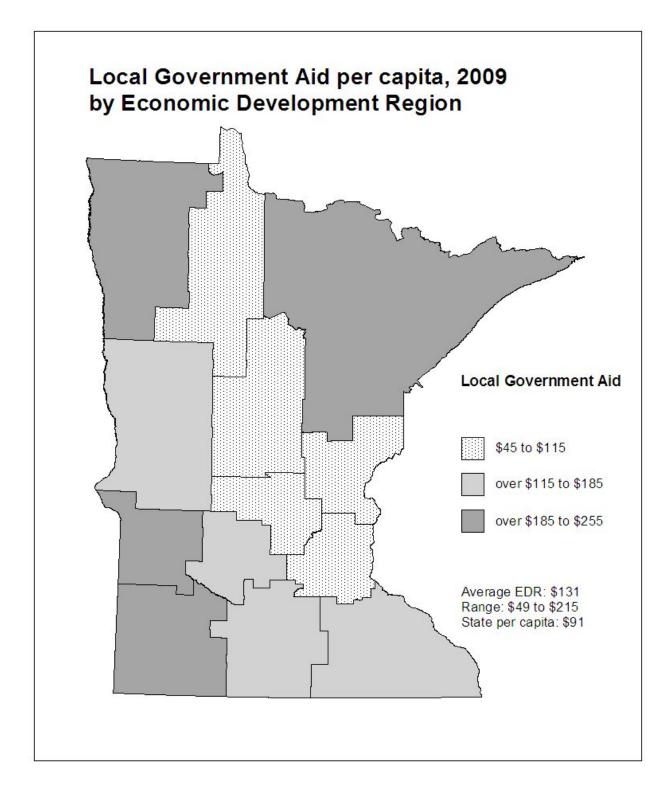

The December 2008 LGA payments were reduced by \$53.5 million due to Gov. Pawlenty's unallotment.

#### 2009 aid changes:

In response to criticism that the LGA formula was (1) too volatile, (2) didn't recognize needs of certain cities, and (3) was underfunded, the 2008 Legislature modified the program as follows, with the changes taking effect in 2009:

- Beginning with 2009 aids, maximum annual reductions to individual cities were lowered to limit volatility.
- Beginning with 2009 aids, the extra aid to cities with a population less than 5,000 was increased from \$6 per capita to \$8.50 per capita but moved from the city aid base and included in the LGA formula. A new aid for cities with 5,000 or more in population was added to the formula, based on a city's jobs per capita. A city's small city aid or city jobs aid is reduced if its "need" is less than its "ability to pay" measure.
- Beginning with 2009 aids, taconite aid was removed from the "ability to pay" measure for all cities.
- Beginning with 2010 aids, volatility is further reduced by (1) using data available as of January 1 of the year in which the aid is certified to calculate need, and (2) using the average of two years of "unmet need" (need minus ability to raise revenue) to calculate aid each year.
- The LGA appropriation was increased to \$526 million for 2009, by an additional 2 percent in 2010, and another 4 percent in 2011. These increases were subsequently eliminated due to unallotment and legislative action in 2009 and 2010.

#### The Past Five Years of Local Government Aid

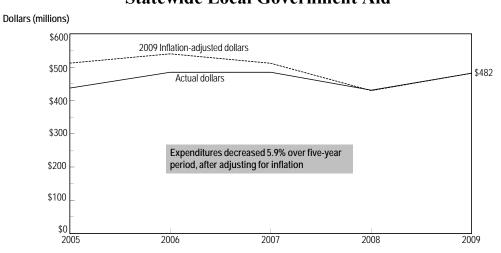

The table below shows the distribution of LGA in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of LGA for that same time period in current (actual) and constant (inflation-adjusted) dollars.

#### **Statewide Local Government Aid**

House Research Graphics

# **Disparity Reduction Aid (DRA)**

#### **Program Description and Aid Amount and Reporting**

#### 2009 Disparity Reduction Aid: \$18.0 million

Disparity reduction aid is a state aid program that distributed \$18,069,289 to counties, towns, and school districts in 2009. The aid is directed to taxing jurisdictions in areas that had inordinately high tax rates in the base year of 1988. The basis for computing the aid amount is the relationship of the area's 1988 tax rate to a benchmark tax rate of 100 percent of tax capacity.

Since its origination in 1989, the amount of aid distributed under this program has significantly decreased from approximately \$63 million to its current level of \$18 million. Generally, the decrease has been the result of changes made in the property tax system over that period. Disparity reduction aid has been partially incorporated into other aid programs, and in some cases, it has been reduced due to changes in the underlying composition of the tax base. Nevertheless, the underlying formula for determining the amount of aid for each area is still based on tax base calculations originating in 1988, and jurisdictions that did not qualify for aid in the initial year have never been able to qualify for it in a later year.

# **County Program Aid**

#### **Program Description**

One-half of the funding for county program aid is distributed based on each county's relative shares of (1) persons receiving food stamps, (2) age-adjusted population (population weighted more heavily for the number of persons over age 65), and (3) the reported number of Part I (serious) crimes. The other half is distributed based on a formula that takes into account each county's population and its property wealth. This distribution encompasses some of the distribution factors from the four programs that county program aid replaced in 2004: homestead and agricultural aid credit (HACA, including manufactured housing HACA), county criminal justice aid, family preservation aid, and attached machinery aid.

#### Aid Amount and Reporting

#### 2009 County Program Aid: \$194.3 million, after \$33.0 million unallotment

The total amount of county program aid certified for taxes payable in 2009 was \$227.3 million. The certified amount was reduced by unallotment of \$33 million, with the net aid paid totaling \$194.3 million. This total is after subtraction of \$500,000 to pay for court-ordered counsel and \$214,000 to pay for preparation of local impact notes. It also excludes onetime supplemental aid of \$100,000 paid to Pine County and \$500,000 of additional aid paid to Beltrami County, which was in addition to the aid appropriation for the year.

The county program aid data was obtained from the Department of Revenue.

#### **Recent Law Changes**

In the 2003 legislative session, county general-purpose aids were restructured into a single program called county program aid. County program aid replaced four individual aid programs:

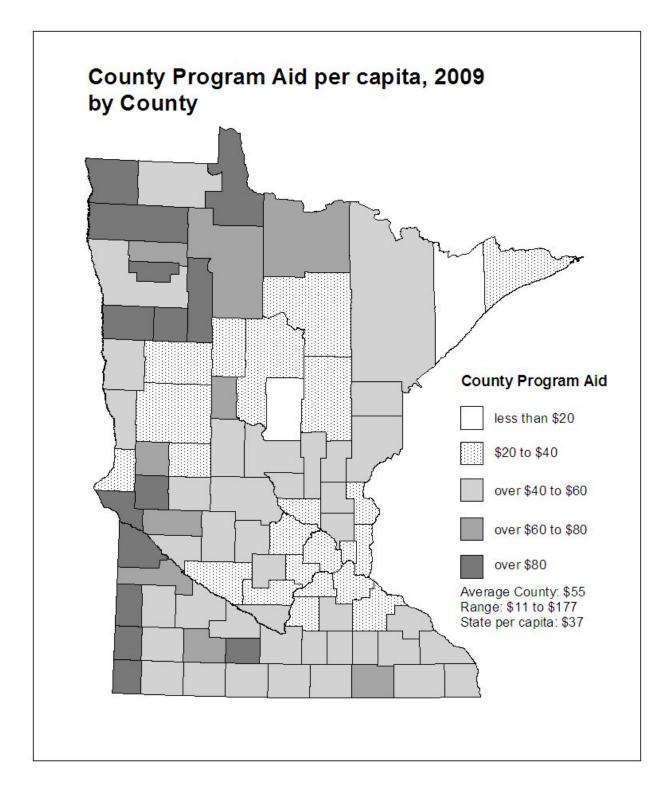

- Homestead and agricultural credit aid (HACA) was a state aid program that originated in 1990 to compensate taxing jurisdictions for major structural changes in the property tax base made in 1988 and 1989. From 1990 through 2001, county government HACA payments increased modestly each year based on the county's growth in number of households; in addition, HACA payments were permanently increased in some years to compensate counties for legislatively determined tax base reductions. In some years, HACA payments were permanently reduced when the state took over certain local government financing responsibilities (such as court financing). In its last year of full funding (2002), the total amount of county HACA payments statewide was \$204.8 million.
- County criminal justice aid (CCJA) was a state aid to county governments originated in 1993 to reduce the reliance of criminal justice and corrections programs on property taxes. One-half of the aid was distributed to each county based on the county's

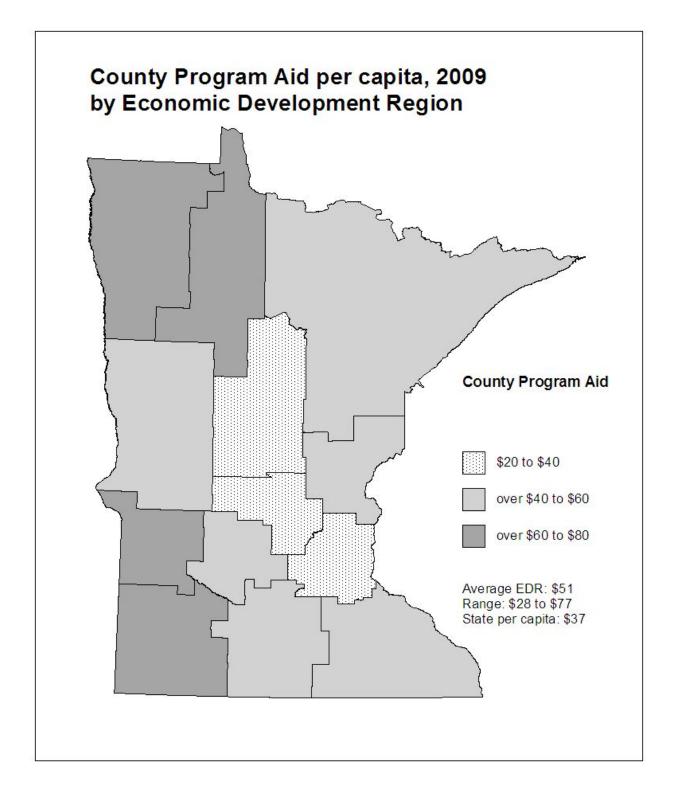

population; the other half was distributed to each county based on the reported number of serious ("Part I") crimes committed in the county. The appropriation for CCJA increased each year based on the rate of inflation. In its last year of full funding (2002), the total amount of CCJA payments statewide was \$31.5 million.

- Family preservation aid (FPA) was a state aid to county governments to reduce the reliance of out-of-home placement costs on property taxes. The initial allocation of FPA in 1995 among counties was based on two factors—each county's share of total children in out-of-home placement in the state and each county's share of income maintenance cases in the state. After 1995 each county's aid increased or decreased based on the change in its relative share of income maintenance caseloads in the state. The appropriation for FPA increased each year based on the rate of inflation. In its last year of full funding (2002), the total amount of FPA payments statewide was \$23.4 million.
- Attached machinery aid (AMA) was a state aid to county governments to compensate counties for removing industrial attached machinery from the property tax base in the early 1970s. Only the 13 counties having the most attached machinery as a share of their property tax base received aid under the program; the amounts were static from year to year. In its last year of full funding (2002), the total amount of AMA payments statewide was \$2.4 million.

For 2004, approximately \$112 million was distributed based on the distribution formulas of the aid programs that were eliminated, minus the substantial aid cuts enacted during the 2003 legislative session.

For 2005 through 2008, about \$205 million was allocated according to the new county program aid formula, with the aid cuts fully restored, except that in 2008 aids were reduced by \$43.9 million after the initial allocation through unallotment.

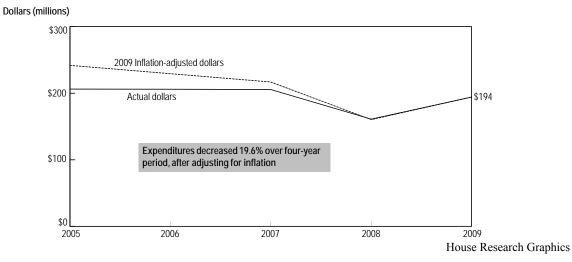

# The Past Five Years of County Program Aid

The table below shows the distribution of county program aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of county program aid for that same period in current (actual) and constant (inflation-adjusted) dollars.

# **County Program Aid**

# **Community Corrections Funding**

## **Program Description**

Although counties assume much of the cost of their community correctional services, the state provides direct funding and in-kind services. Counties choose to receive funding from one of three basic funding systems: the community corrections act (CCA), county probation officer (CPO), and the Department of Corrections (DOC). They are as follows:

- Thirty-two counties are CCA counties. This group contains about 70 percent of the state's population, including most of the Twin Cities metropolitan area.
- Fifty-five counties are non-CCA counties. Although the DOC provides adult felony supervision to all 55 of these counties, they differ and are generally referenced as follows:
  - o Twenty-nine counties (called "CPO" counties) provide their own juvenile and adult misdemeanant supervision
  - Twenty-six counties (called "DOC" counties) have their juvenile and adult misdemeanant supervision provided by the DOC

To keep the counties on a comparable basis, the dollar amount of in-kind services provided by the DOC is included in this report, even though these counties do not receive an "aid payment" per se from the state.

# Aid Amount and Reporting

# 2009 Community Corrections Funding: \$85.4 million

In 2009, the state funding was \$85,433,080.<sup>4</sup> The table below lists the calendar year 2009 statewide total amounts for the various community corrections funding programs.

Program	Amount	Percent
CCA aid	\$39,407,988	46.1%
CPO reimbursement aid	5,106,000	6.0
DOC field services	15,491,450	18.1
Adult felony caseload reduction	956,000	1.1
Caseload/workload reduction	14,647,000	17.1
Intensive supervision	6,019,710	7.0
Enhanced supervision of adult sex offenders	3,804,932	4.5
Total Aid and In-kind Services	\$85,433,080	100.0%

<sup>&</sup>lt;sup>4</sup> An additional \$12.5 million, not included in this report, was distributed for miscellaneous categorical services.

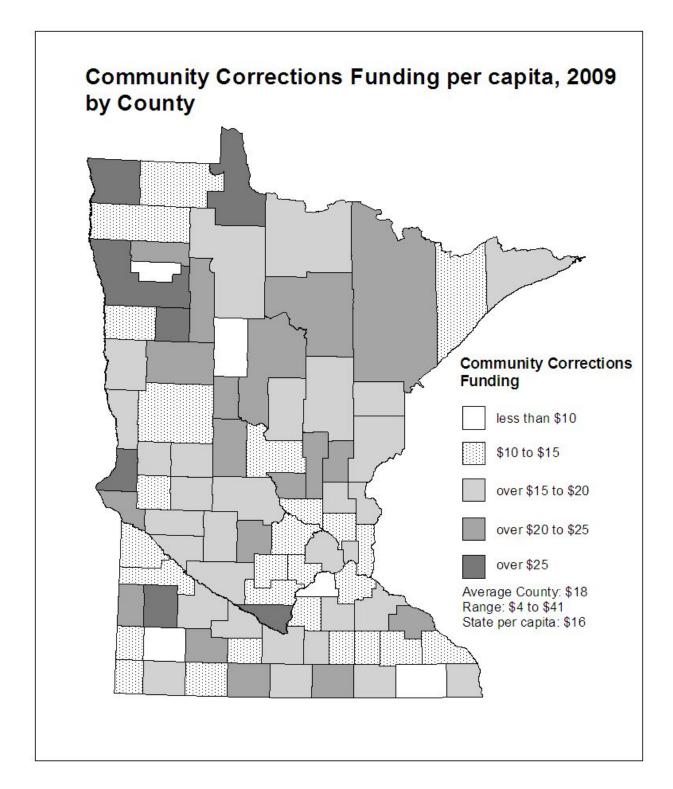

The DOC distributes some adult felony reduction aid, caseload/workload reduction aid, and intensive supervision aid to regional groups of counties. These counties and the DOC regions they belong to are listed in the table below.

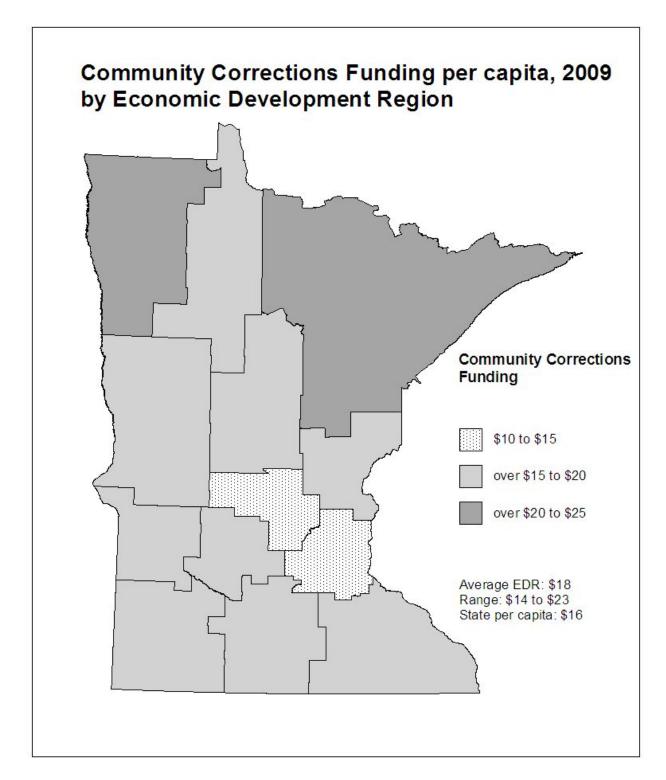

Region	Counties
Central Minnesota	Aitkin
	Crow Wing
	Morrison
DFO	Dodge
	Fillmore
	Olmsted
Tri-County	Norman
	Polk
	Red Lake
Arrowhead	Carlton
	Cook
	Koochiching
	Lake
	St. Louis
Region 6W	Chippewa
	Lac Qui Parle
	Swift
	Yellow Medicine
Rock/Nobles	Rock
	Nobles
Todd/Wadena	Todd
	Wadena

For purposes of this report, CCA amounts were apportioned to the individual counties within each region based on a five-year average distribution within the groups of counties of Part I crimes, as reported by the Department of Public Safety.

Previous years' reports allocated CCA based on the distribution of aid to these counties in 2005. For comparability across years, the historical data on page 144 for aid paid from 2005 to 2008 has been reapportioned using the new Part I crimes method.

The community corrections funding data was obtained from the DOC.

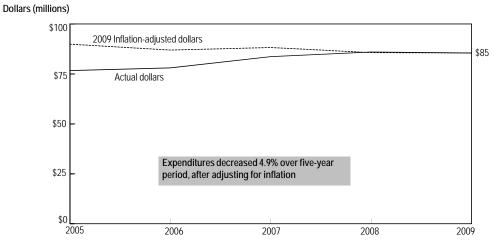

# The Past Five Years of Community Corrections Funding

The table below shows the distribution of community corrections funding in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of community corrections funding for that same period in current (actual) and constant (inflation-adjusted) dollars.

# **Property Tax Refund**

#### **Program Description**

The property tax refund is a program in which the state partially reimburses homeowners and renters for a portion of their qualifying property taxes if those property taxes exceed a certain level of household income. The homeowner refund is also known as the "Circuit Breaker," and the renter refund is also called the "Renters' Credit." Generally speaking, the higher the property tax and the lower the income, the higher the refund. The legislature establishes the income and property tax thresholds, reimbursement rates, and maximum refund amounts for the program and sets the amount of rent deemed to represent property taxes. Each qualifying homeowner and renter must apply directly to the state for a refund. The amounts in the graphs and tables exclude the additional property tax refund (often referred to as targeting). See page 47 for a description of the targeting refund.

## Aid Amount and Reporting

## 2008 Filed 2009 Property Tax Refund: \$449.4 million

The total property tax refunds for 2008 returns filed in 2009 for homeowners and renters is \$449,362,087. The table below summarizes statewide data on the number of returns, amounts, and average dollar per return for the various types of filers.

	Number of Returns (A)	Total Amount (B)	Net Amount per Return (C = B ÷ A)
Homeowners: <sup>5</sup>			
Senior/Disabled	139,426	\$105,082,861	\$754
Under 65 Years	<u>221,393</u>	164,232,346	_742
Total Homeowners	360,819	\$269,315,207	\$746
Renters:

Under 65 Years	<u>219,898</u>	125,013,156	<u>569</u>
Total Renters	304,502	\$180,046,880	\$591
Total	665,321	\$449,362,087	\$675

# **Recent Law Changes**

The 2008 Legislature expanded the homeowner property tax refund program by increasing the maximum refunds and lowering the income threshold for eligibility, effective for 2008 refunds, based on 2008 household income and property taxes payable in 2009. The maximum refund

<sup>&</sup>lt;sup>5</sup> Includes claimants who are part-year homeowners and part-year renters for that year's claim.

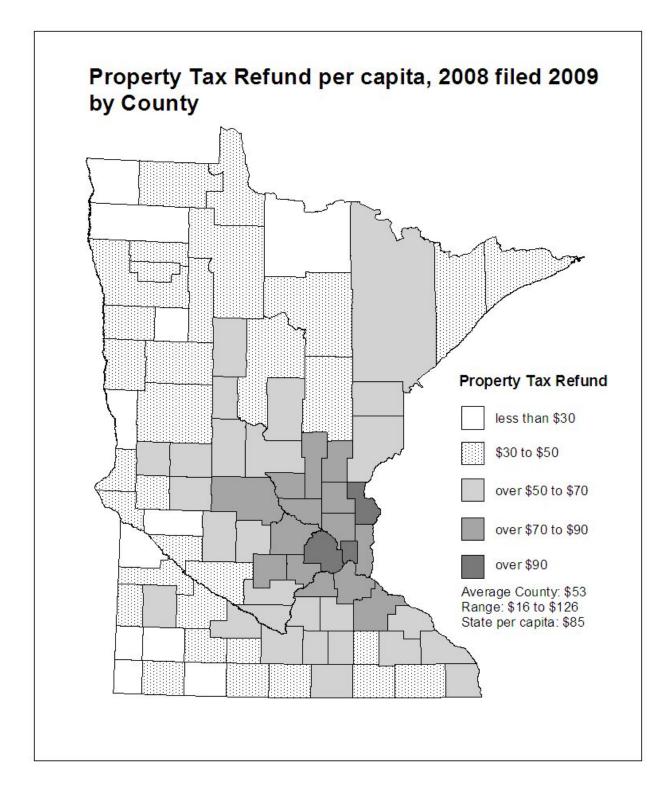

increased from \$1,800 to \$2,300, with the new maximum refund amount adjusted annually for inflation beginning with refunds based on taxes payable in 2010. The income threshold percentage decreased from 4 percent to 3.5 percent for homeowners with household income from about \$75,000 to about \$96,000. The income brackets, like the maximum refund amounts, continue to be adjusted annually for inflation.

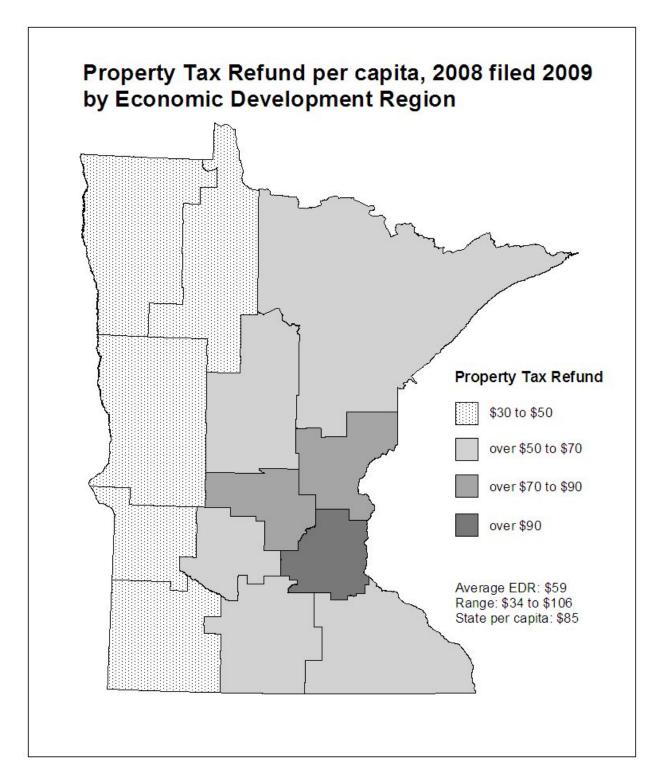

The 2010 Legislature reduced the percent of rent considered to represent property taxes from 19 percent to 15 percent, for refunds based on rent paid in 2009 only (generally filed in 2010). This put into law the reduction in the percentage made under an unallotment Gov. Tim Pawlenty made in 2009. A 2010 decision of the Minnesota Supreme Court invalidated other portions of the unallotment and suggested that the entire unallotment was likely invalid.

The 2011 Legislature reduced the percentage of rent considered property taxes from 19 percent to 17 percent, effective beginning with refunds based on rent paid in 2011 (generally filed in 2012).

The 2011 Legislature also expanded the homeowner program by increasing the maximum refund to \$2,460 for homeowners with household incomes less than \$37,280, and decreasing the copayment percentage for all claimants with incomes from \$10,880 to \$93,240. These changes were effective for claims based on taxes payable in 2012, generally filed in 2012.

Property tax refund data are from the Department of Revenue. The department is unable to identify the county from which a claim is filed for a small share of all claims (about 1 percent for 2008 claims). This report apportions these claims to counties based on each county's share of total claims.

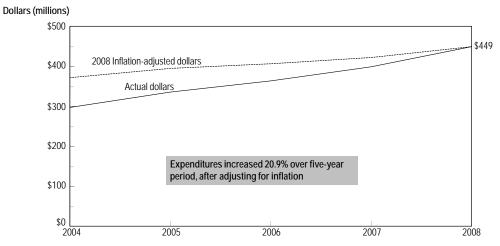

# The Past Five Years of Property Tax Refund

The table below shows the distribution of the property tax refund in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the property tax refund for that same time period in current (actual) and constant (inflation-adjusted) dollars. The property tax refund historical data on this page excludes any targeting data.

# **Statewide Property Tax Refund**

# **Additional Property Tax Refund (Targeting)**

## **Program Description**

"Targeting" is an additional property tax refund. The refund targets property tax relief to those homeowners whose property tax increase over the previous year exceeds a threshold percentage set by the legislature. The property tax refund return (M1PR) contains a separate schedule for the targeting refund. The taxpayer files for this refund at the same time and in the same manner as for the regular property tax refund. However, unlike the regular property tax refund, all homeowners qualify for targeting regardless of their household income if the tax increase exceeds the specified percentage.

#### Aid Amount and Reporting

#### 2009 Targeting Refunds: \$6.1 million

For returns filed in 2009 (for property taxes payable in 2009), the state paid 60 percent of the property tax increase over 12 percent (i.e., the taxpayer had to pay the first 12 percent increase over the previous year before qualifying for a refund), provided that the increase was greater than \$100. There were 41,818 returns filed in 2009 for a total amount of \$6,087,685. The average refund per return was \$146. (The maximum refund is \$1,000.) The amount of the targeting refund is listed separately on all of the tables in this report, directly after the regular property tax refund amounts.

Targeting refund amounts can change greatly from one year to the next in any given county. Factors resulting in large fluctuations in refunds in recent years include net tax changes due to volatility in the housing market and the phaseout of limited market value.

One county reported fewer than four claims for targeted refunds filed in 2009 by senior/disabled claimants and by nonsenior/nondisabled claimants (Clearwater). To protect taxpayer confidentiality, the Department of Revenue is unable to provide detailed counts for this county. These refunds were included in the totals for "county undesignated."

The total for which the county is undesignated represents less than 1 percent of all claims. This report apportions these claims to the 87 counties based on each county's share of refunds.

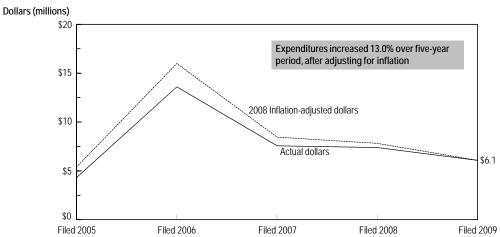

# The Past Five Years of Targeting Refunds

The table below shows the distribution of targeting refunds in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of targeting refund for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# **Property Tax Data**

## **Payable 2009 Property Tax Credits**

The property tax credits discussed in this section are listed on the property tax statement. The property's tax minus any applicable property tax credits equals the net tax that the taxpayer must pay to the county for distribution to local governmental units.

#### Payable 2009 Market Value Homestead Credit: \$267.3 million

As part of property tax reform measures, the 2001 Legislature enacted the market value homestead credit effective for taxes payable in 2002 and thereafter. In payable 2009, the amount of the credit was \$267.3 million.

The credit applies to each homestead property. For a homestead with a taxable market value of \$76,000 or less, the credit is 0.4 percent of the taxable market value. For a homestead with a taxable market value over \$76,000, the credit is \$304 minus 0.09 percent of the value over \$76,000. Under this formula, homesteads valued over \$414,000 receive no market value homestead credit. For taxes payable in 2003 to 2006, 2008, and 2009, the state did not fully compensate local governments for the credit computed on each taxpayer's tax statement due to state budget shortfalls. The taxpayers still receive the credit. Throughout this report, the credit amounts shown are the full amount and do not reflect the reductions in compensation resulting from state budget shortfalls or unallotments.

For agricultural homesteads, this credit applies only to the value of the house, garage, and one acre of land.

# Payable 2009 Market Value Agricultural Credit: \$24.9 million

The 2001 Legislature created a new market value agricultural credit for all agricultural homestead property, which was enhanced by the 2002 Legislature for taxes payable in 2003 and thereafter. In payable 2009, the amount of the credit was \$24.9 million.

For agricultural homestead property with a taxable market value of \$115,000 or less, the credit is equal to 0.3 percent of the taxable market value of the property. For agricultural homestead property with a value between \$115,000 and \$345,000, the credit is equal to \$345 minus 0.05 percent of the value over \$115,000. For property with a value over \$345,000, the credit is equal to \$230. This credit does not apply to the value of the house, garage, and one acre of agricultural homestead property.

For taxes payable in 2003 to 2006, 2008, and 2009, the state did not fully compensate local governments for the credit computed on each taxpayer's tax statement due to state budget shortfalls. The taxpayers still receive the credit. Throughout this report, the credit amounts shown are the full amount and do not reflect the reductions in compensation resulting from state budget shortfalls.

#### Payable 2009 Miscellaneous Credits: \$23.4 million

The total of the miscellaneous property tax credits for 2009 is \$23.4 million. This includes the taconite homestead credit, disparity reduction credit, power line credit, agricultural preserves credit, county conservation credit, disaster credits, and the bovine tuberculosis credit. A statewide breakdown of these miscellaneous credits is shown below.

Type of Credit	Amount
Taconite Homestead Credit	\$16,503,451
Disparity Reduction Credit <sup>6</sup>	5,666,886
Power Line Credit	82,187
Agricultural Preserves Credit	316,942
County Conservation Credit	198,974
Disaster Credit	232,228
Local Option Disaster Credit	17,239
Bovine TB Credit	345,233
Total	\$23,363,140

#### Payable 2009 Taconite Homestead Credit: \$16.5 million

The taconite homestead credit is the largest of the miscellaneous credits. Homeowners in the taconite tax relief areas, located in northern Minnesota on the Iron Range, receive a credit of either 57 percent, capped at \$289.80 per homestead, or 66 percent, capped at \$315.10 per household. The percentage of relief depends upon certain characteristics of the local jurisdiction, such as the value of the iron ore in the district, proximity to mines, etc. About two-thirds of the credit, \$11.4 million, is paid from proceeds of the taconite production tax, while \$5.1 million is paid from the state general fund. The portion paid from the general fund is referred to as the supplemental homestead credit. The mobile home taconite homestead credit and any adjustment amounts for prior years are not included in the amounts shown.

<sup>&</sup>lt;sup>6</sup> A disparity reduction credit was established by the 1988 Legislature to provide additional property tax relief in the border cities of Breckenridge, Dilworth, East Grand Forks, and Moorhead. The credit applies to class 4a apartments with four or more units, and commercial, industrial, and public utility land and buildings. The credit is the amount by which the net tax exceeds a 2.3 percent effective tax rate for apartments, commercial, industrial, and public utility land and buildings.

A county breakdown of the taconite homestead credit is shown below.

County	Taconite Credit
Aitkin	\$889,666
Cook	499,160
Crow Wing	1,172,428
Itasca	4,133,632
Koochiching	944
Lake	1,149,664
St. Louis	8,657,957
Total	\$16,503,451

Statewide Property Valuation: Assessment Year 2008

Market Valuation: \$581.2 billion Net Tax Capacity: \$6.5 billion

This is the total real and personal property valuation for the 2008 assessment for taxes payable in 2009. The total market valuation is \$581.2 billion, and the total net tax capacity is \$6.5 billion. Net tax capacity is the value that results after the tax capacity class rates have been applied to the market values. The total referendum market valuation for the state is \$487.1 billion. Referendum market valuation is the total market value excluding the value of agricultural and seasonal-recreational property, and is the base used for referendum levies. The state totals exclude \$461.9 million of market value and \$8.9 million of net tax capacity that is located in JOBZ zones and exempt from most property taxes.

# Payable 2009 Net Property Tax Levy Before Credits: \$8.0 billion

The payable 2009 net property tax levy, excluding special assessments, made by each type of taxing district (i.e., county, city/town, school district, and miscellaneous taxing districts) is shown in the following table. The table includes \$6,464 million of net tax capacity levy, \$789.4 million of market value levy, and \$774.0 million of statewide property tax levy. The statewide, region, and county tables show the net tax capacity levy and the market value levy combined by jurisdiction type, except they show the school district net tax capacity and referendum market value levies separately. The school district referendum market value levy is \$754.1 million, nearly all of the \$789.4 million in total statewide market value levy.

"Miscellaneous districts" includes levies made by special taxing districts (i.e., Metropolitan Council, regional transit authorities, hospital districts, port authorities, watershed districts, etc.), as well as the tax increment of tax increment financing districts and the power line levy amounts.

"Net property tax levy" is the amount of property taxes before the subtraction of the state-paid property tax credits, the regular property tax refund, and the targeting refund. The amount paid by the taxpayer after subtraction of state-paid property tax credits (but not the property tax refund and targeting refund) is \$7,285.3 million.

Type of Taxing District	Payable 2009 Net Property Tax Levy* (dollars in millions)		Percent
County		\$2,542	31.7%
City/Town:		1,964	24.5
City	\$1,758		
Town	206		
School District		2,119	26.4
Miscellaneous Districts:		628	7.8
Special Taxing Districts	290		
Tax Increment Financing	338		
Power Line	0.1		
State		774	9.6
Total, all districts		\$8,027	100.0%

<sup>\*</sup> The taxing district's levy includes the portion from the fiscal disparities program (see table below).

A portion of each jurisdiction's levy in the seven-county metropolitan area and on the Iron Range is paid through the fiscal disparities program. Those amounts are shown in the table below.

**Payable 2009 Fiscal Disparities Distribution Levy** 

Type of Taxing District	Metro	Iron Range	Total	
County	\$137,278,197	\$2,248,231	\$139,526,428	
City	140,583,984	2,750,461	143,334,445	
Town	1,012,191	211,473	1,223,664	
School District	148,063,106	668,790	148,731,896	
Special Taxing Districts	31,872,130	72,791	31,944,921	
<b>Total Fiscal Disparities Levy</b>	\$458,809,608	\$5,951,746	\$464,761,354	

In the statewide, region, and county tables (sections 2 to 4 of the report), the fiscal disparities levy is included in the "Miscellaneous District Levy," since that is how it is reported to the Department of Revenue and a detailed breakdown of that levy is not readily available.

# **Payable 2009 Average Tax Rate Calculations**

The average net tax capacity rate is computed by dividing the total levy excluding special assessments by the total net tax capacity, then multiplying by 100.

A small portion (\$789.4 million statewide) of property tax levies are spread on market value rather than on net tax capacity. Of this amount, \$754.1 million is the school district referendum market value levy, which is shown separately on all of the tables in sections 2 to 4 of the report.

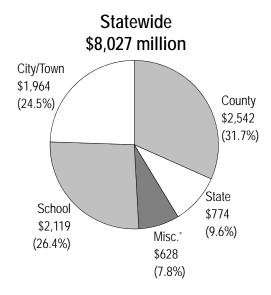

The tables show separate average tax rates for the net tax capacity levy and the referendum market value levy.

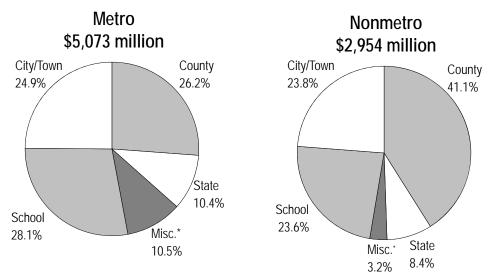

For purposes of the net tax capacity tax rate calculation:

- "levy" includes the tax increment financing levy and the fiscal disparities contribution levy; and
- "tax capacity" includes the total net tax capacity before the subtraction of the tax increment financing captured net tax capacity and before any fiscal disparities adjustments.

This rate represents the average local net tax capacity rate of taxation on all property.

# Payable 2009 Property Tax Levies by Type of Taxing District

House Research Graphics

<sup>\*</sup> Miscellaneous includes special taxing districts, tax increment financing, and power line levies, but excludes the fiscal disparities distribution levy, which has been allocated to counties, cities/towns, school districts, and special districts. (The tables later in the report show the fiscal disparities levy as part of "Miscellaneous District Levy.")

# **Individual Income Tax**

## **Program Description**

**Individual income tax** is a tax imposed by the state upon (1) the income of Minnesota residents and (2) the income, derived from Minnesota sources, of nonresident individuals. The 2008 tax base (filed in 2009) is federal taxable income with minor modifications, including the addition of interest earned on bonds issued by other states, an income exclusion for elderly filers, and a subtraction for certain dependent education expenses. Rates applied in 2008 ranged from 5.35 percent to 7.85 percent. In 2008, Minnesota allowed a refundable dependent care credit of up to \$720 for one child and \$1,440 for two or more children, a refundable credit of up to \$1,000 per child for K-12 education expenses, and a working family credit tied to the federal earned income credit. The maximum working family credit was \$1,686.

#### Tax Amount and Reporting

2008 Filed 2009 Individual Income Tax: \$6.9 billion

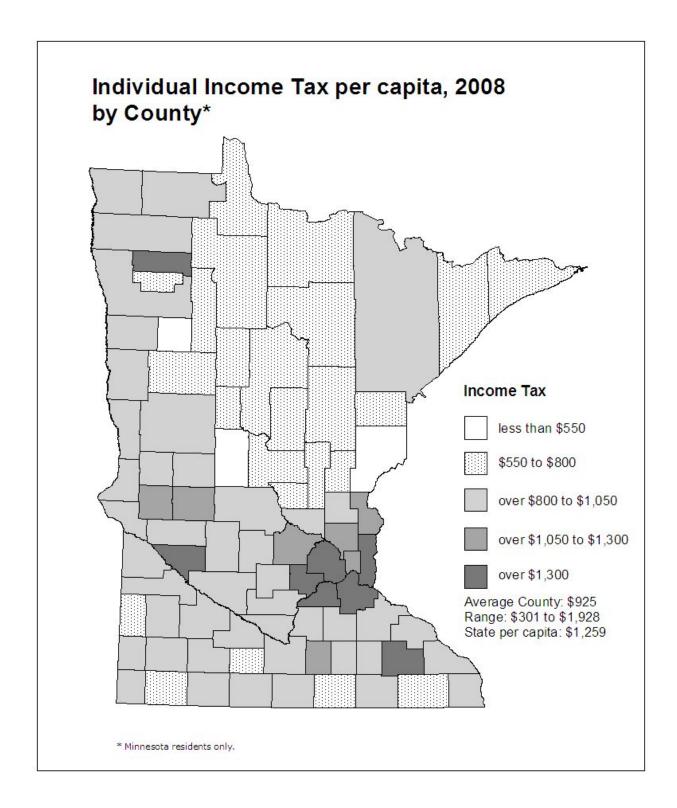

\$6.7 billion from residents

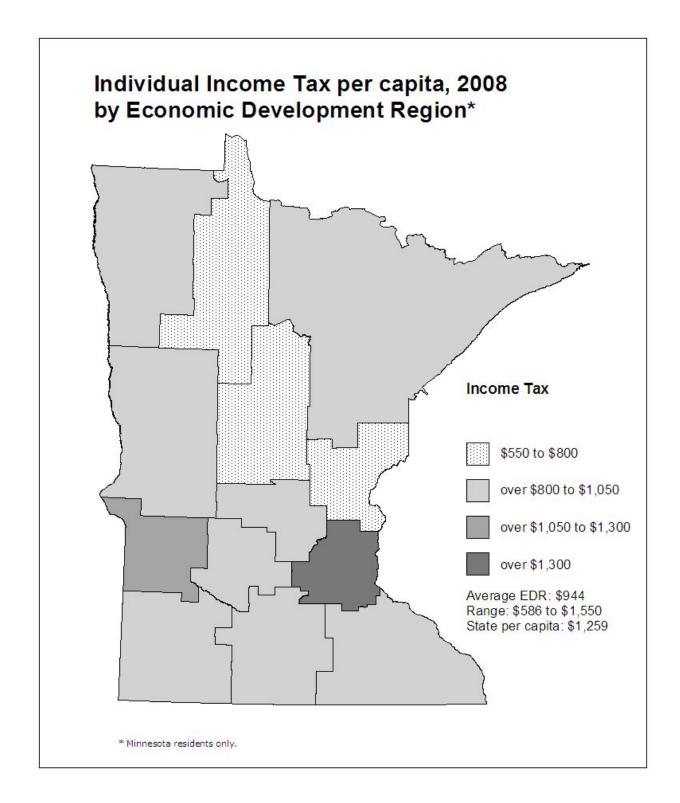

The total amount of the 2008 individual income tax returns filed in 2009 is \$6,936.5 million. The tax shown is net tax (after refunds) reported on the basis of the filer's county of residence. The state total includes \$262.4 million of individual income taxes collected from returns filed by nonresident taxpayers, which was not allocated to the counties in this report, resulting in a net amount of \$6,674.1 million collected from Minnesota residents.

Individual income tax data was obtained from the Department of Revenue.

## **Recent Law Changes**

Minnesota has conformed with all major changes made in the federal tax code through tax year 2011, except that Minnesota does not allow the additional standard deduction amount for married filers for tax years 2011 and 2012. Instead, Minnesota taxpayers must add the additional deduction amount to state taxable income.

# The Past Five Years of Individual Income Tax

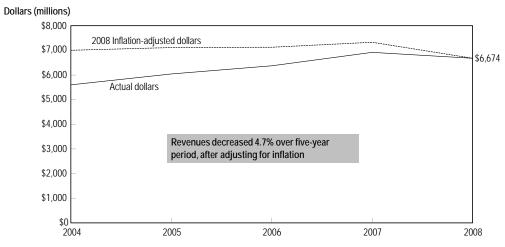

The table below shows the distribution of individual income tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of individual income tax for that same period in current (actual) and constant (inflation-adjusted) dollars.

# Statewide Income Tax, Residents Only

House Research Graphics

# Sales/Use Tax

#### **Program Description**

**Sales tax** is imposed by the state on the gross receipts of all persons who sell, lease, or rent tangible personal property at retail or provide taxable services. The **use tax** complements the sales tax and is imposed at the same rate on the storage, use, or consumption in Minnesota of taxable, tangible personal property purchased from any retailer, unless the Minnesota sales tax was paid on the same property. Since July 1, 2009, the sales and use rate has been 6.875 percent.

Major exemptions include: food consumption off premises, clothing, prescribed drugs and medications, nonprescribed analgesics, gasoline and special fuels taxed under the motor fuels excise tax, publications issued at intervals of three months or less (except over-the-counter magazines), motor vehicle purchases subject to the 6.5 percent sales tax on motor vehicles, materials used or consumed in agricultural or industrial production, textbooks, residential heating fuels and water services, and capital equipment for new or expanding industries.

#### Tax Amount and Reporting

Calendar Year 2009 Sales/Use Tax: \$4.1 billion (gross)

\$3.9 billion (net after refunds) \$3.3 billion from residents and in-state sellers

A total of \$4,122.8 million in state sales/use taxes was collected during calendar year 2009. The net amount of sales/use tax after the reduction of capital equipment refunds of \$220.0 million was \$3,902.8 million. Of the \$3.9 billion in net sales taxes, about \$621 million was collected from returns filed by out-of-state vendors, resulting in \$3.3 billion allocated to Minnesota.

The amounts shown in the statewide tables are net of the capital equipment refund; the amounts shown by geographic region in the maps are also net of the total remitted by out-of-state sellers.

The sales tax amounts contained in this report exclude any local sales taxes that cities impose. Local sales taxes are used primarily to support specific capital projects. As of December 2009, the cities of Albert Lea, Austin, Baxter, Bemidji, Brainerd, Clearwater, Hermantown, Mankato, Minneapolis, New Ulm, North Mankato, Owatonna, Proctor, Rochester, St. Paul, Two Harbors, Willmar, Worthington, and St. Cloud area cities imposed a 0.5 percent general sales tax. The city of Duluth imposed a 1 percent general sales tax, Hennepin County imposed a 0.15 percent general sales tax, and a Transit Improvement Area consisting of Anoka, Dakota, Hennepin, Ramsey, and Washington counties imposed a 0.25 percent general sales tax.

<sup>&</sup>lt;sup>7</sup> This includes a very small amount of refunds paid on other exempt purchases where the tax is paid at the time of purchase and then refunded, mainly for some specific capital projects.

Note: Sales tax is reported in the county where the seller is located, resulting in higher amounts in counties with a regional center (e.g., Twin Cities, Duluth, Rochester, etc.).

Sales/use tax data was obtained from the Department of Revenue.

#### **Law Changes**

The tax rate was 3.0 percent in 1967 when the sales tax was enacted. In 1991, an "optional" local sales tax of ½ percent was enacted. This "optional" tax was officially rolled into the state tax rate in 1994.

The general rate increased on July 1, 2009, from 6.5 percent to 6.875 percent, following passage of a constitutional amendment at the November 2008 election. The amendment dedicated the 0.375 percentage point increase to outdoor heritage, clean water, parks and trails, and arts and cultural heritage.

Period	Rate
August 1, 1967 – October 31, 1971	3.0%
November 1, 1971 – June 30, 1981	4.0%
July 1, 1981 – December 31, 1982	5.0%
January 1, 1983 – June 30, 1991	6.0%
July 1, 1991 – June 30, 2009	6.5%
July 1, 2009 – present	6.875%

# **Capital Equipment Refunds**

The amount of sales/use tax allocated to Minnesota is adjusted for capital equipment refunds made to taxpayers. The total amount of capital equipment refunds is allocated to counties based on the ratio of each county's mining and manufacturing payroll to the total statewide mining and manufacturing payroll. For 2009, total capital equipment refunds are \$220.0 million. The data in the historical table and graph on page 68 have been adjusted to reflect refund claims.

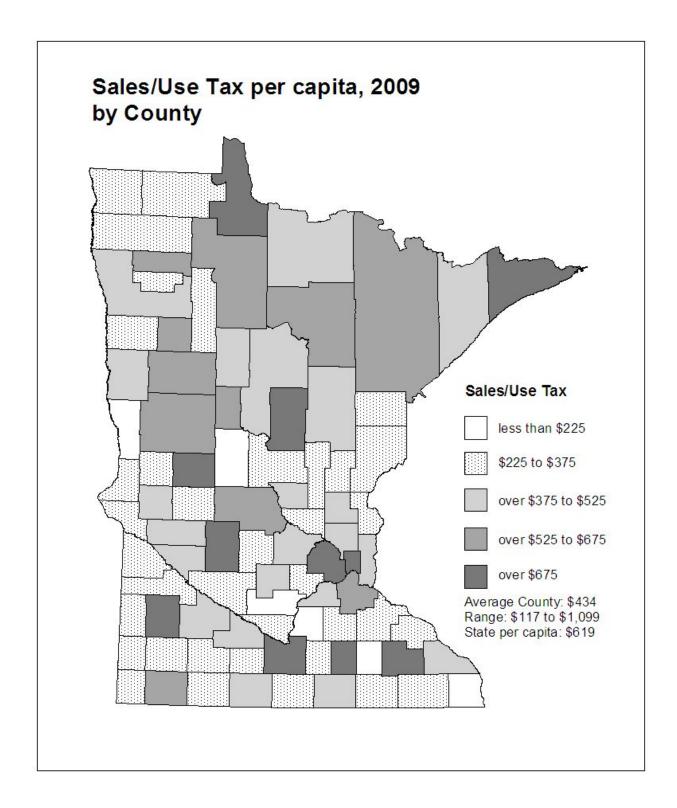

#### **Amounts Not Allocated to Minnesota**

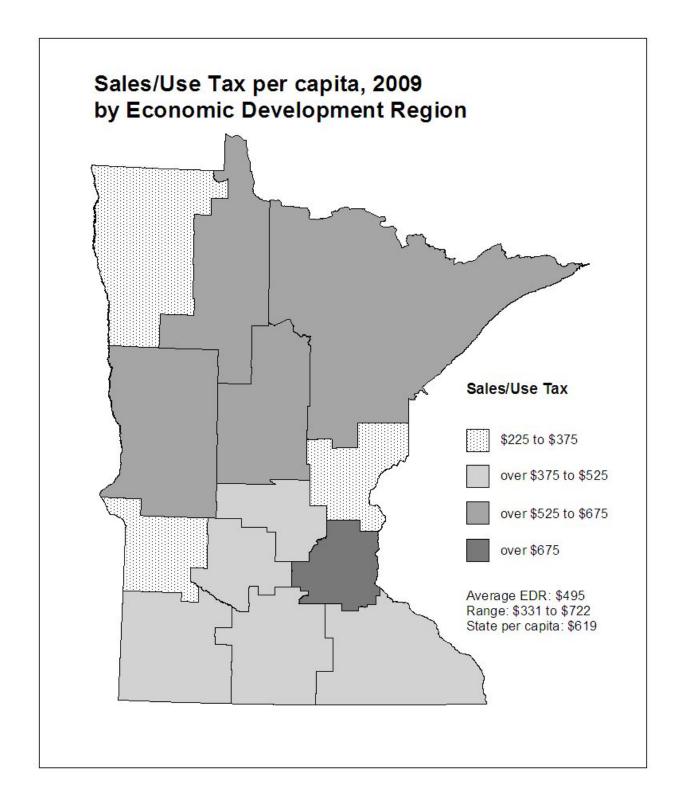

About \$621 million of sales/use taxes are collected from returns filed by out-of-state sellers. This amount was not allocated to Minnesota in this report since the taxpayer's residence and/or place of business is unknown, nor is it included in the five-year historical table on page 68. The table on the following page lists the amounts and percentages since 2000.

# **Sales/Use Taxes** (in thousands) (after capital equipment refund)

	Allocated to Minnesota		Not Allocated		
Year	Amount	Percent	Amount	Percent	Total
2000	\$3,023,456	83.0%	\$617,195	17.0%	\$3,640,651
2001 (est.)	3,049,109	82.2	661,987	17.8	3,711,096
2002 (est.)	3,281,839	85.7	547,051	14.3	3,828,890
2003	3,369,933	86.3	536,793	13.7	3,906,727
2004	3,542,797	85.9	579,820	14.1	4,122,617
2005	3,625,842	84.7	652,956	15.3	4,278,798
2006	3,729,834	84.2	701,410	15.8	4,431,245
2007	3,753,243	83.6	737,234	16.4	4,490,477
2008	3,704,922	83.6	725,751	16.4	4,430,673
2009	3,282,128	84.1	620,690	15.9	3,902,818

Most of these dollars are sales made by out-of-state businesses to Minnesota residents, which are reported on a single non-Minnesota return. The amount not allocated to Minnesota has remained in the 14 percent to 18 percent range since 2000.

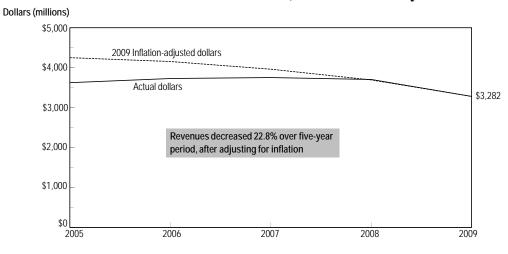

#### The Past Five Years of Sales/Use Tax

The table below shows the distribution of sales/use tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of sales/use tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

### Statewide Sales/Use Tax, Residents Only

# **Motor Vehicle Sales Tax**

### **Program Description**

The motor vehicle sales tax is imposed on new and used motor vehicles at the time of sale. It is in lieu of the general state sales tax and is imposed on the sale price of motor vehicles, minus any trade-in allowance. (A flat fee of \$10 is imposed upon most motor vehicles that are ten or more years old in lieu of the motor vehicle sales tax.) The rate is 6.5 percent, the rate of the general state sales tax prior to the 2008 passage of the constitutional amendment that increased the general sales tax rate to 6.875 percent, with the increase dedicated to outdoor heritage, clean water, parks and trails, and arts and cultural heritage. The increase did not apply to the motor vehicle sales tax

The table below lists the allocation of the motor vehicle sales tax revenues from fiscal year 2004 through fiscal year 2012 and following years.

#### FY FY FY FY FY FY 2004-2007 2008 2009 2012+ 2010 2011 Highway user tax distribution fund 30.00% 38.25% 44.25% 47.50% 54.50% 60.00% County state-aid highway fund 0.65 Municipal state-aid highway fund 0.17 35.25 Metropolitan transit 21.50 24.00 27.75 31.50 36.00 Greater Minnesota transit 1.43 1.50 1.75 4.75 4.00 4.00 General fund 46.25 36.25 26.25 16.25 6.25 0.00

**Allocation of Motor Vehicle Sales Tax Revenues** 

# Tax Amount and Reporting

#### Calendar Year 2009 Motor Vehicle Sales Tax: \$442.3 million

The total 2009 motor vehicle sales tax is \$442.3 million. The Department of Public Safety collects the motor vehicle sales tax. Due to the method of collection, the amount of actual tax liability from each county is not available. However, since the motor vehicle sales tax is an important revenue source for the state, an estimate was made on how much the taxpayers in each county paid.

Two factors are used in determining an estimated tax amount for each county. First, the number of passenger vehicles and pickup trucks registered in each county in 2009 was obtained from the Department of Public Safety. Registrations within each county are a good indicator of where the owners of the vehicles live. No weighting was attempted based upon the differences in the market value of the vehicles among counties.

Second, the distribution of motor vehicle registration tax by county as provided by the

Department of Public Safety was used as a proxy for the value of vehicles purchased.

A percent distribution was made on each of the two factors (i.e., registrations and registration tax), comparing each county to the state. The results of each distribution were then weighted equally to allocate the \$442.3 million tax revenue to the 87 counties.

Motor vehicle sales tax data was obtained from the Department of Revenue.

### **Recent Law Changes**

#### 2005 Laws:

The 2005 omnibus transportation bill proposed a constitutional amendment providing for the phase-in of the full dedication of the motor vehicle sales tax to transportation purposes.<sup>8</sup>

At the 2006 general election, the voters approved the constitutional amendment dedicating all motor vehicle sales tax revenue to transportation purposes. The amendment specified that 63.75 percent must be dedicated to transportation purposes in fiscal year 2008, growing by 10 percentage points per year until it reaches 100 percent in fiscal year 2012.

The constitutional language also requires that "no more than 60 percent" of the revenue go to the Highway User Tax Distribution (HUTD) fund, and "not less than 40 percent" go to public transit assistance (Minn. Const. art. XIV, sec. 13). These distribution limits, which establish a ceiling for allocation to highways and a floor for the allocation to transit, are referred to as the "60/40 split." Within the distribution limits, the Constitution allows legislation to set the actual division between highways and transit.

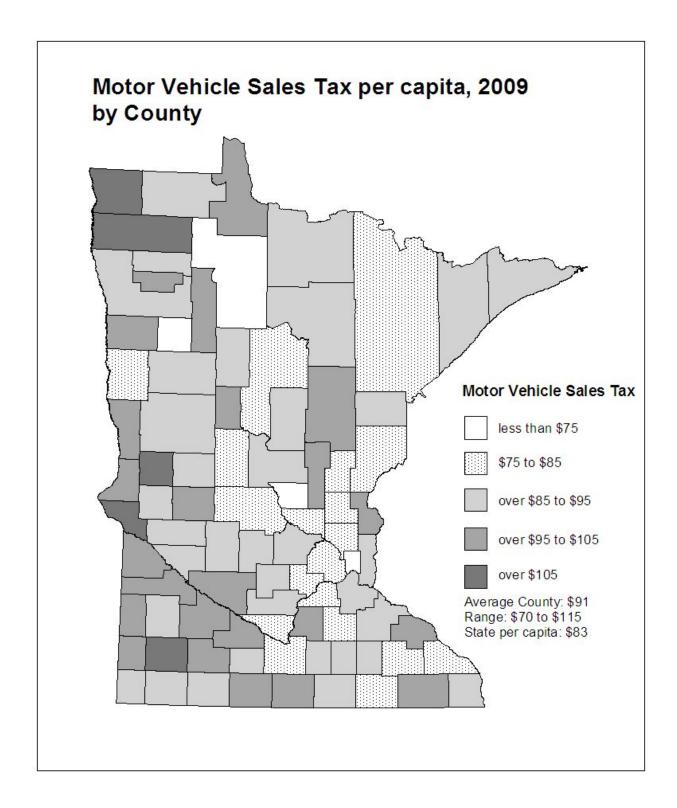

#### 2007 Laws:

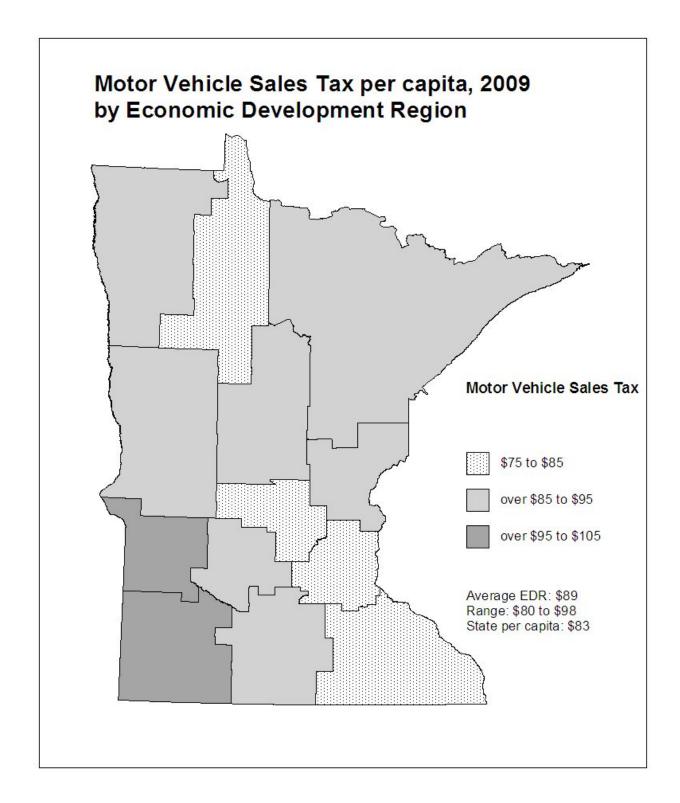

2007 legislation established a motor vehicle sales tax phase-in schedule, shown in the table on the preceding page. In fiscal year 2012, after the phase-in is fully completed, the revenues will be distributed 60 percent to highways and 40 percent to transit, with the transit portion divided 36 percent for the metropolitan area and 4 percent for greater Minnesota.

#### 2009 Laws:

As part of the 2010-2011 budget, the motor vehicle sales tax phase-in schedule was adjusted to provide additional funds to both metropolitan and greater Minnesota transit. The allocation table on the preceding page includes these adjustments, which are for fiscal years 2010 and 2011 only.

<sup>&</sup>lt;sup>8</sup> The 2005 transportation bill (Laws 2005, ch. 88) was vetoed by Gov. Pawlenty, but since constitutional amendments are not subject to veto, the amendment was put before the voters in November 2006.

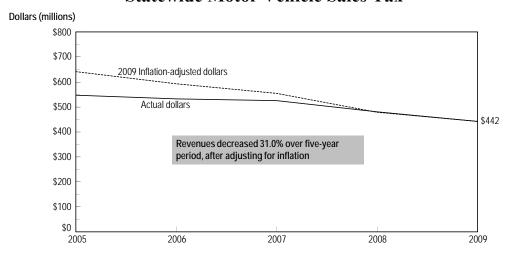

#### The Past Five Years of the Motor Vehicle Sales Tax

The table below shows the distribution of motor vehicle sales tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of motor vehicle sales tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

#### Statewide Motor Vehicle Sales Tax

# **Motor Vehicle Registration Tax**

### **Program Description**

The **motor vehicle registration tax** is imposed annually on each motor vehicle registered and licensed in Minnesota to use the public streets and highways. The tax on passenger cars, pickup trucks, and vans is equal to the total of (1) a \$10 flat tax, and (2) an additional tax of 1.25 percent of a base value that is adjusted based on the age of the vehicle, decreasing to a \$25 flat tax for older vehicles.

The tax on trucks, tractors, and buses is based upon the type, weight, and age of the vehicle. A minimum tax applies to each type of vehicle. There is also a flat tax on motorcycles and mopeds. The tax is paid when the vehicle is first registered in Minnesota to use the public streets and annually thereafter when it is re-registered.

Exemptions from the tax include vehicles owned by governmental units, school buses, agricultural tractors and trailers, special mobile equipment, vehicles used solely for carrying construction camp equipment or attached machinery, fire apparatus, ambulances, and vehicles not operated on highways.

#### Tax Amount and Reporting

# Calendar Year 2009 Motor Vehicle Registration Tax: \$512.4 million

The total motor vehicle registration tax for calendar year 2009 was \$512.4 million. The tax is collected by the Department of Public Safety. The amount of actual tax liability from each county is not available. The statewide total was allocated to counties based on estimates of the amount actually remitted by each county to the Department of Public Safety.

Revenue from this tax, like revenue from the motor fuels tax, is deposited in the Highway User Tax Distribution Fund. The Minnesota Constitution sets the distribution formula for 95 percent of the money in the fund: 29 percent to the county state-aid highway fund, 9 percent to the municipal state-aid street fund for cities with populations over 5,000, and 62 percent to the state trunk highway fund. The remaining 5 percent of the fund is allocated by law rather than by constitutional provision. In 2009 about 46 percent of this 5 percent set-aside was used for town roads and town bridges. The rest went into a "flexible account" that was used for county and city roads, including improvements to former state highways that reverted to local jurisdiction.

The statewide motor vehicle registration tax amount was obtained from the Department of Revenue.

### **Recent Law Changes**

#### 2000 Changes:

The 2000 Legislature decreased the motor vehicle registration tax beginning in June 2000. This reduction was estimated to cost \$149.8 million in fiscal year 2001. The table below summarizes the changes.

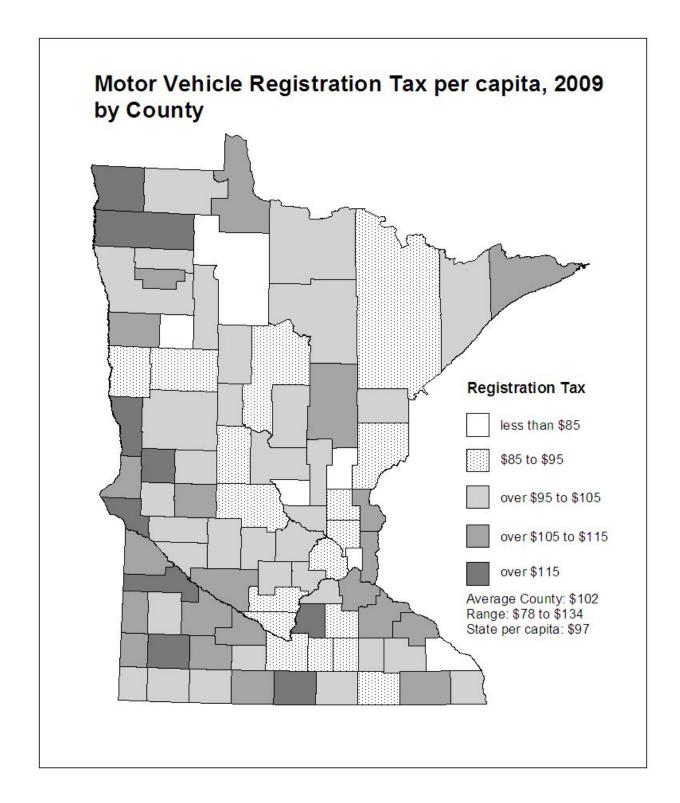

Year of vehicle registration in Minnesota	Flat tax	Plus	Total tax not to exceed
1	\$10	1.25% of base value	10 + 1.25% of total value
2	\$10	1.25% of base value*	\$189
3-10	\$10	1.25% of base value*	\$99
11 and up	\$10	\$25	\$35

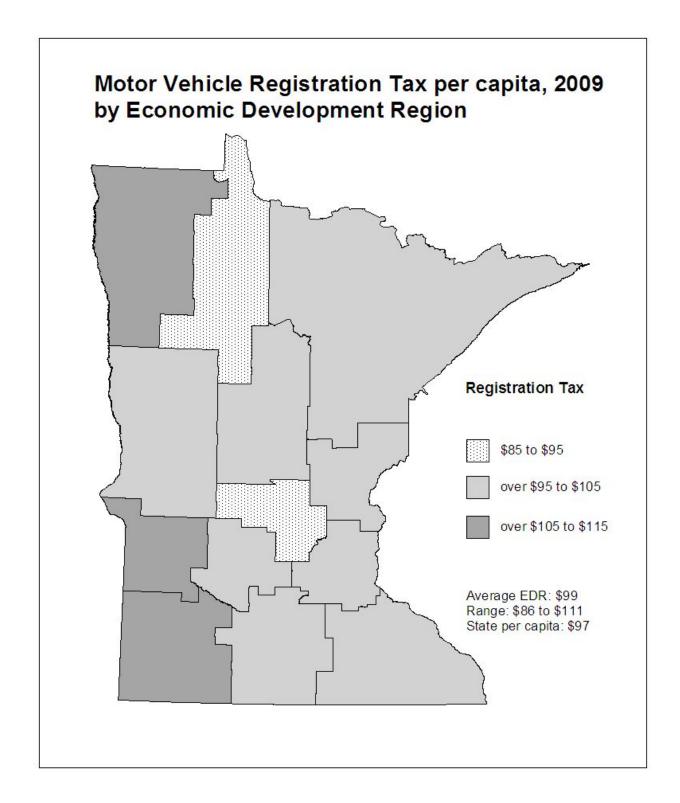

<sup>\*</sup> Base value decreases as the vehicle gets older.

#### 2008 Changes:

The 2008 Legislature restructured the registration tax for passenger vehicles by:

- eliminating the maximum of \$189 in the first registration renewal and \$99 in subsequent renewals;
- amending the vehicle depreciation schedule, which is the basis for a vehicle's valuation in collecting the tax (it is a decreasing percentage of the vehicle's original value as the vehicle gets older); and
- restricting the tax changes so that the amount owed for vehicles previously registered in Minnesota does not increase from the amount paid in previous years (regardless of whether vehicle ownership changes).

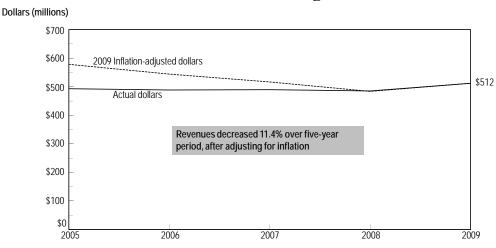

# The Past Five Years of the Motor Vehicle Registration Tax

The table below shows the distribution of the motor vehicle registration tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the motor vehicle registration tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# Statewide Motor Vehicle Registration Tax

# **Motor Fuels Tax (Gas Tax)**

# **Program Description**

The **motor fuels tax** is imposed on gasoline, diesel fuel, and other motor fuels used by vehicles on public highways. Aviation fuel purchased, stored, or withdrawn from storage in Minnesota is also subject to the tax. Starting July 1, 2012, the rate on highway motor fuels will be 28.5 cents per gallon. The highway motor fuels rate was 20 cents per gallon from 1988 to April 1, 2008, with a rate increase phased in from April 1, 2008, to July 1, 2012. Aviation fuels are subject to a graduated, declining tax rate from 5 cents per gallon based on the number of gallons used during the calendar year. <sup>10</sup>

### Tax Amount and Reporting

#### Calendar Year 2009 Motor Fuels Tax: \$798.3 million

The total net amount after refunds of the motor fuels tax for calendar year 2009 was \$798.3 million. This is the net amount after distributions (based on motor fuel use attributed to nonhighway use) to snowmobile, motorboat, forest roads, and all-terrain vehicles (ATV) accounts.

The motor fuels tax goes into the Highway User Tax Distribution Fund and is dedicated for highway use. (See page 76 for description of the allocation of the Highway User Tax Distribution Fund.)

The highway aids listed in the tables estimate how much each area received from the above distribution. Like both the motor vehicle excise tax and the motor vehicle registration tax, the amount of motor fuels tax paid by taxpayers in each county is unknown. For purposes of this report, an estimate was made for each county based upon the total number of vehicle miles traveled in each county in 2009 as a proportion of the total vehicle miles traveled within the state in 2009.

The statewide motor fuels tax amount was obtained from the Department of Revenue.

# **Recent Law Changes**

The 2008 transportation finance act provided for a phased-in increase in the motor fuels tax. The tax increased by 2 cents to 22 cents per gallon on April 1, 2008, and the rate is further phased in up to 28.5 cents per gallon by July 1, 2012, as shown in the table below. In 2009 only, low-

<sup>&</sup>lt;sup>9</sup> Alternative fuels, such as liquefied natural gas and high-alcohol gasoline, are taxed at rates proportional to relative energy content.

<sup>&</sup>lt;sup>10</sup> Motor fuels used by public transit systems receiving state financial assistance are exempt. Until October 1, 1997, ethanol-gasoline blends received a tax credit of 5 cents for each gallon of ethanol.

income individuals were eligible to claim a refundable income tax credit of \$25 to offset the motor fuels tax increase. The credit was repealed in 2010.

The following table contains the phase-in schedule of motor fuel tax rates. The \$798.3 million in motor fuels tax for 2009 includes tax collected on all fuels shown in the table.

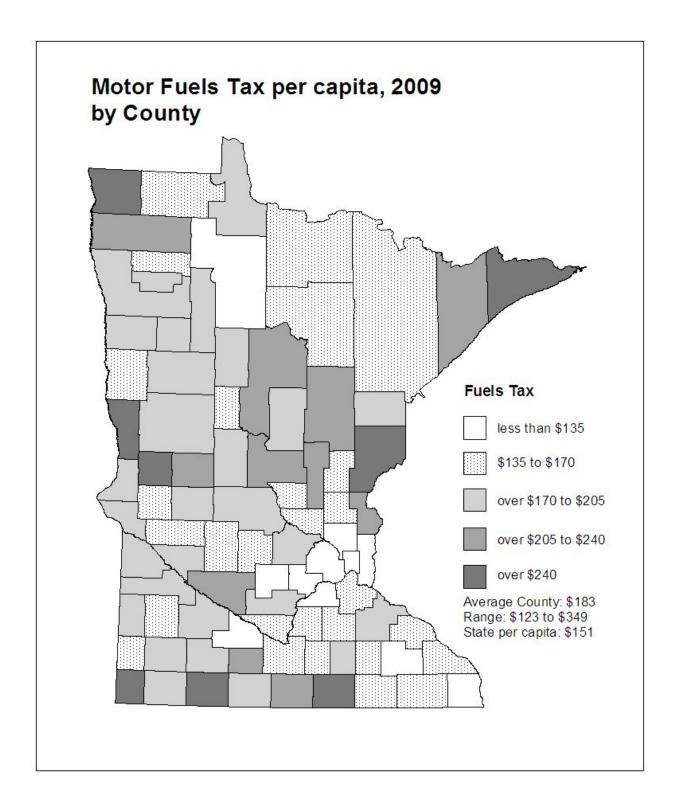

### **Motor Fuel Tax Phase-in Rates**

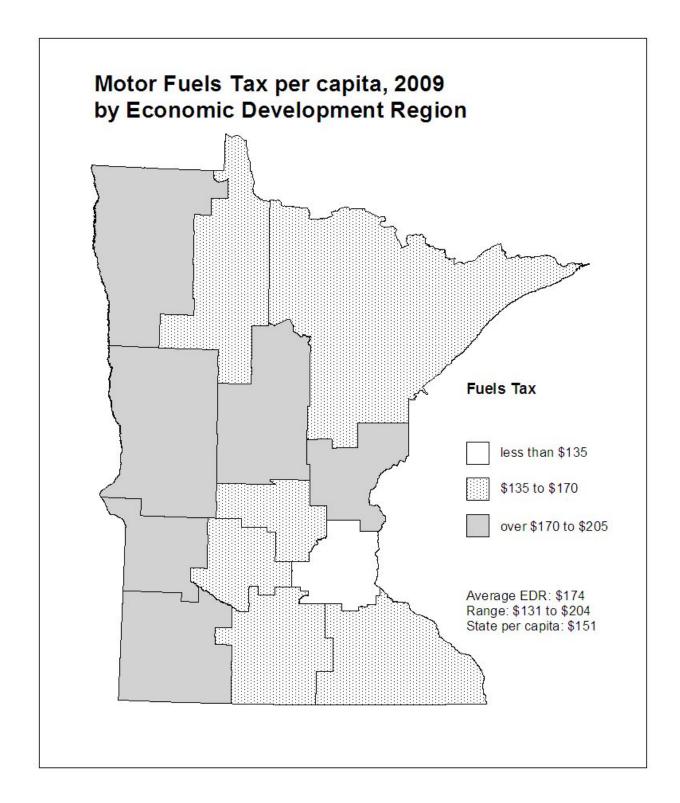

(cents)

Type of Fuel	Through 3/31/08	4/1/08 – 7/31/08	8/1/08 – 9/30/08	10/1/08 – 6/30/09	7/1/09 – 6/30/10	7/1/10 – 6/30/11	7/1/11 – 6/30/12	7/1/12 & After
Gasoline	20.0	22.00	22.50	25.50	27.10	27.50	28.00	28.50
E85	14.2	15.62	15.98	18.11	19.24	19.53	19.88	20.24
M85	11.4	12.54	12.83	14.54	15.45	15.68	15.96	16.25
Diesel	20.0	22.00	22.50	25.50	27.10	27.50	28.00	28.50
Liquefied petroleum gas (LPG)	15.0	16.50	16.88	19.13	20.33	20.63	21.00	21.38
Liquefied natural gas (LNG)	12.0	13.20	13.50	15.30	16.26	16.50	16.80	17.10
Compressed natural gas (CNG)	1.739	1.1913*	1.235*	2.217	2.356	2.391	2.435	2.478
Other special fuel	20.0	22.00	22.50	25.50	27.10	27.50	28.00	28.50

<sup>\*</sup> Rate change is not proportional due to a drafting error.

Amounts include tax-rate increases and debt service surcharge; amounts for CNG are per 1,000 cubic feet

#### The Past Five Years of the Motor Fuels Tax

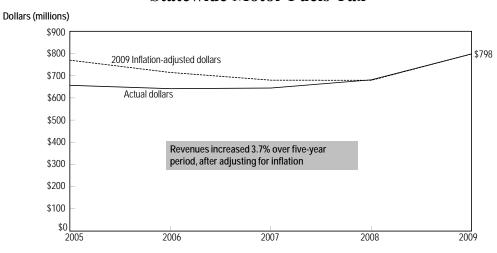

The table shows the distribution of the motor fuels tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the motor fuels tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

### **Statewide Motor Fuels Tax**

# **Corporate Franchise (Income) Tax**

### **Program Description**

Corporate franchise (income) tax (usually referred to as the corporate income tax) is imposed on the net income of corporations. The rate of the tax is 9.8 percent. The tax base is federal taxable income with a variety of Minnesota adjustments. Corporations that do business both inside and outside of Minnesota apportion their income using a three-factor formula based on the share of the corporation's total property, payroll, and sales that are in Minnesota. For tax years 2001 through 2006, the formula weights sales 75 percent and property and payroll 12.5 percent each.<sup>11</sup>

An alternative minimum tax (AMT) applies to federal alternative minimum taxable income, if it would result in a higher tax than the regular corporate franchise tax. This tax rate is 5.8 percent. A minimum fee is imposed on corporations (including S corporations) and partnerships in addition to the regular tax or the AMT. The minimum fee ranges from \$100 to \$5,000, depending upon the corporation's sales, property, and payroll in Minnesota.

### Tax Amount and Reporting

#### 2008 Corporate Income Tax: \$916.0 million

The corporation statistics presented in this report were tabulated from all Minnesota corporation income tax returns filed during the calendar year ending December 31, 2008. (Primarily, returns from 2007 were filed in calendar year 2008.) The total statewide corporate tax amount of \$916.0 million includes income taxes collected from corporations whose main offices are in other states and foreign countries. It does not include any taxes or minimum fees paid by S corporations.

The corporate income tax data was obtained from the Department of Revenue's processing file. The location of each corporation's home office is not available on that file. Instead each county's total payroll, reported in County Business Patterns, was used as an indicator of where the corporate tax was paid. This method allowed allocation of the entire \$916.0 million of corporate tax liability rather than only that incurred by corporations headquartered in Minnesota. Since about one-third of the corporate tax liability is from these out-of-state corporations, this methodology allocates those corporate taxes to the counties.

<sup>&</sup>lt;sup>11</sup> Beginning in 2007, the formula gradually phases in 100 percent sales apportionment, reaching that percentage in 2014.

<sup>&</sup>lt;sup>12</sup> For 2007, the payroll total was not available for Yellow Medicine County, in order to prevent disclosure of data pertaining to one or more businesses in the county. For purposes of allocating corporate tax data to counties, this report assumes 2007 payroll in Yellow Medicine County is in the same proportion to payroll in the remaining 86 counties as in 2006.

In addition to the total dollar amount of corporate tax shown by region and by county in sections 2 to 4 of the report, the tables below summarize statewide data by unitary/nonunitary and by type of corporation/return.

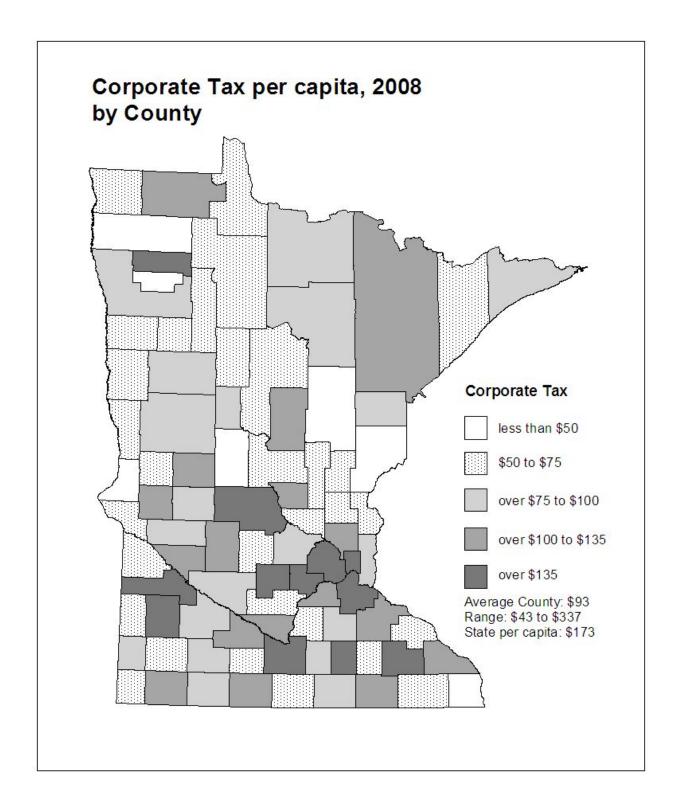

# By Unitary/Nonunitary Returns<sup>13</sup>

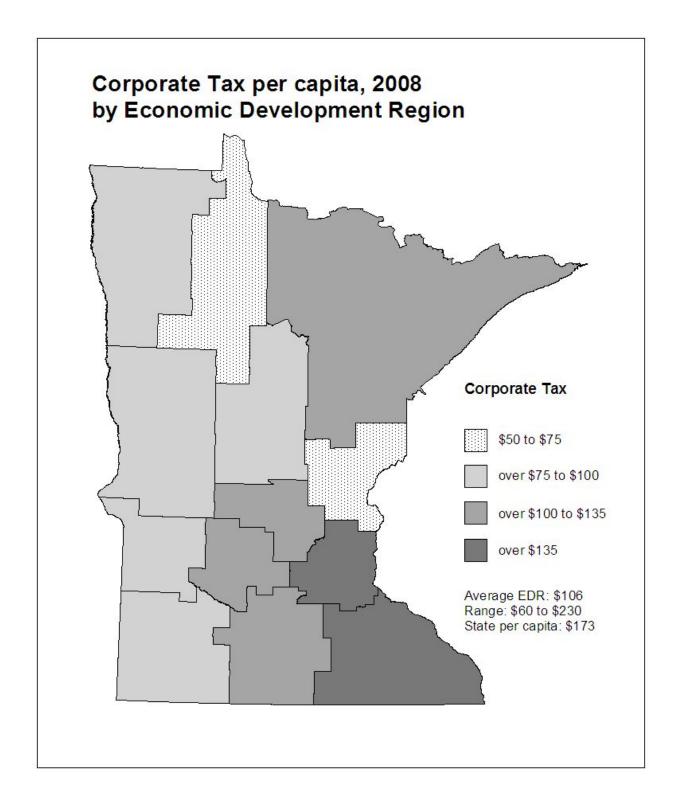

Returns Filed in 2008	# of Returns	% of Total	Tax Liability	% of Total	Average Tax
Unitary Returns Nonunitary Returns	13,856 32,849	29.7% 70.3	\$784,767,763 <u>131,275,765</u>	85.7% 14.3	\$56,637 3,996
Total	46,705	100.0%	\$916,043,528	100.0%	\$19,613

# By Type of Return

Returns Filed in 2008	# of Returns	% of Total	Tax Liability	% of Total	Average Tax
100% Minnesota Corporations Regular Tax Minimum Tax No Tax	7,285 6,108 <u>8,007</u>	15.6% 13.1 <u>17.1</u>	\$47,263,714 3,370,082 0	5.2% 0.3 <u>0.0</u>	\$6,488 552 0
Total	21,400	45.8%	\$50,633,796	5.5%	\$2,366
Multistate Corporations Regular Tax Minimum Tax No Tax  Total	11,452 6,932 6,921 <b>25,305</b>	24.5% 14.8 14.8 54.2%	\$847,784,603 17,625,129 0 \$865,409,732	92.5% 1.9 <u>0.0</u> 94.5 %	\$74,029 2,543 0 <b>\$34,199</b>
All Corporations Regular Tax Minimum Tax No Tax  Total	18,737 13,040 14,928 <b>46,705</b>	40.1% 27.9 32.0 100.0%	\$895,048,317 20,995,211 0 \$916,043,528	97.7% 2.3 <u>0.0</u> <b>100.0%</b>	\$47,769 1,610 0 \$19,613

<sup>&</sup>lt;sup>13</sup> Related corporations, such as subsidiary, brother-sister, and parent corporations, must file on a unitary basis. For these corporations, the denominator of the three-factor apportionment formula (property, payroll, and sales) includes the factors of all the corporations in the unitary group. The numerator is the factors of the individual corporation, and the taxable income apportioned is the total income of the unitary group.

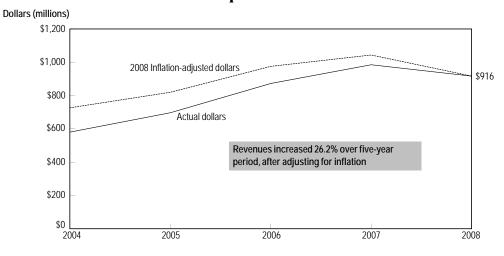

# The Past Five Years of Corporate Franchise Tax

The table below shows the distribution of the corporate franchise tax in thousands of dollars for the past five years for the state and economic development regions. ### **Statewide Corporate Franchise Tax**

# **State General Property Tax**

# **Program Description**

A state general property tax was instituted as part of the overall property tax reform adopted during the 2001 legislative session. The state tax is levied only on commercial/industrial/public utility property and seasonal recreational property. That portion of public utility property consisting of attached machinery used in the generation of electrical energy is exempt from the state general property tax, as well as the property at the Minneapolis-St. Paul International Airport and the St. Paul intermediate airport.

For its first year in taxes payable 2002, the state general levy amount was \$592 million. Each subsequent year's amount is increased from the previous year's amount by using the increase in the implicit price deflator for government consumption expenditures and gross investments published by the U.S. Bureau of Economic Analysis (an index of inflation).

### **Tax Amount and Reporting**

#### Payable Year 2009 State General Property Tax: \$774.0 million

The total state general property tax for taxes payable in 2009 was \$774.0 million.

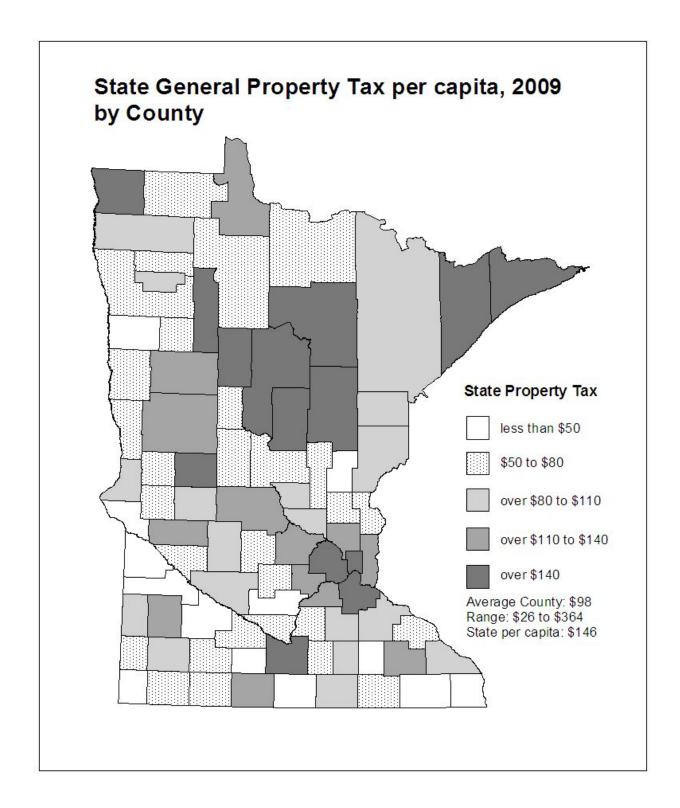

For taxes payable in 2009, the state tax rate was 45.535 percent for commercial-industrial/public utility property and 18.214 percent for seasonal recreational property, which yielded revenues of \$735.0 million and \$38.7 million respectively.<sup>14</sup>

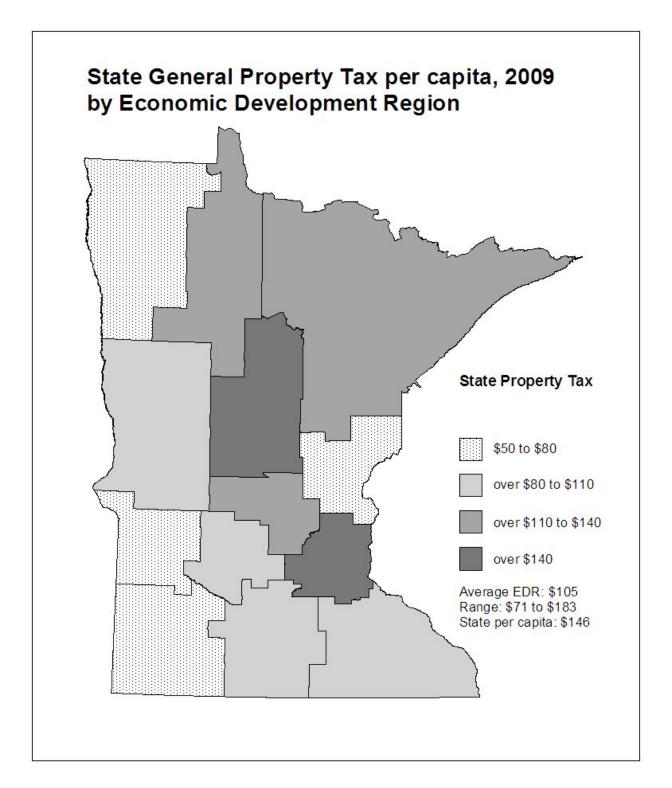

The tax rates are computed by the Department of Revenue.

# **Recent Law Changes**

Legislation enacted in 2005 (for taxes payable in 2006) required 95 percent of the state general tax to be levied against commercial/industrial/public utility property, with the remaining 5 percent levied against seasonal recreational property.

<sup>&</sup>lt;sup>14</sup> The actual levy was \$774.0 million due to changes made in the tax base after the rate was established. In addition to the amount formally levied, an additional amount of approximately \$1.8 million is collected from properties that are not included in the abstract of assessment (i.e., the majority of the tax is on certain transmission and distribution line property). This amount is not included in this report because its distribution is unknown.

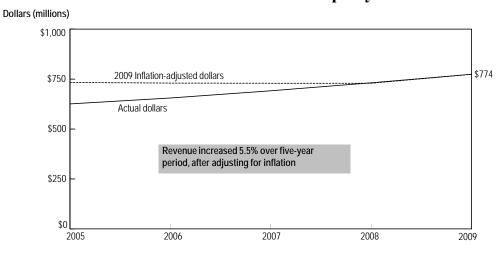

# The First Five Years of State General Property Tax

The table below shows the distribution of the state general property tax in thousands of dollars for the first five years for the state and economic development regions. The graph shows total dollars of the state general property tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# **Statewide State General Property Tax**

# 2. Summary Data

This section contains summary data for the most recent available year on

- statewide totals
- the seven metro and the 80 nonmetro counties
- the 13 economic development regions

A sample table and a general explanation of the tables in sections 2, 3, and 4 of the report precede the data.

# **General Explanations of Tables**

The basic format is the same for all the regional and county tables in sections 3 and 4 of the report. (See adjacent page.)

**I. MAJOR STATE AIDS/CREDITS.** Although all of the aids/credits listed are paid by the state, there are three types of aids/credits.

#### A. Aids to Local Governments

- Are paid to the local taxing district and are part of its total revenue
- Benefit all types of property in the taxing district
- Reduce what is needed from the property tax levy

#### **B.** Property Tax Credits

- Are paid to the local taxing district, but are listed on the property tax statement as a credit against the property's gross tax
- Benefit only certain types of property
- Are computed on a parcel-by-parcel basis on qualifying property

#### C. Property Tax Refunds (Circuit Breaker/Targeting)

- Are paid directly to homeowners and renters (property tax refund)
- Are based upon a relationship between household income and the homeowner's property tax or the renter's share of property tax (property tax refund)
- Are targeted to homeowners who have large property tax increases in one year (targeting)

#### II. PROPERTY TAX DATA

- **A. Property Tax Levy** for taxes payable in 2009 by type of taxing district, including the state property tax levy
- **B.** Property Valuation of taxable real and personal property for the 2008 assessment (taxes payable in 2009), including the total market value, referendum market value, and net tax capacity
- C. The Average Tax Rates for taxes payable in 2009 of the local net tax capacity and referendum market value

#### III. MAJOR STATE TAXES

- Individual income tax
- Sales/use tax
- Motor vehicle sales tax
- Motor vehicle registration tax
- Motor fuels tax (i.e., gas tax)
- Corporate income tax
- State property tax

The motor vehicle sales tax, the motor vehicle registration tax, the motor fuels tax, and the corporate income tax have been included in this report on a county-by-county basis. However, it should be stressed that these county amounts are only estimates since actual collections by county are not available. (See section 1 for detail on how the county apportionments were calculated.)

# **Statewide Summary**

**Tables 2-1 and 2-2** contain the statewide totals of all the state aids and taxes presented in this report. Table 2-1 summarizes the total amounts for Minnesota residents only, whereas the amounts in Table 2-2 also include those dollars paid by nonresidents.

2009 population is used to calculate per capita amounts in the tables and maps throughout this report, even if 2008 is the most recent year for which data for a particular aid or tax is available, except for Appendix C and the maps on pages 112 and 113.

The total state aids and credits contained in this report equal about \$13.2 billion, whereas the total of the seven major taxes listed in this report equal \$13.4 billion paid by residents and an additional \$0.9 billion paid by nonresidents (for a total tax amount of \$14.3 billion).

The total taxes presented in this report **are not the total of all taxes collected by the state**. The total state net tax receipts were about \$17.5 billion in fiscal year 2008 and \$16.3 billion in fiscal year 2009. Furthermore, the taxes presented in this report are not for a specific time period but rather are the latest available data and/or the next data in sequence to the 2008 Update report (published December 2010). Therefore, the \$14.3 billion total taxes listed in this report (residents and nonresidents) is about 85 percent of the total taxes actually collected over that period.

The taxes not contained in this report include estate, mortgage registry and deed, insurance gross premiums, MinnesotaCare, mineral, cigarette and tobacco products, lawful gambling, and alcoholic beverages. The collections from some of these taxes are dedicated for specific purposes.

## Metro/Nonmetro Data

**Tables 2-3 and 2-4** contain data comparing the metro and nonmetro counties. The metro counties are the Twin Cities seven metropolitan counties—Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington. The nonmetro counties are the remaining 80 counties in the state.

Table 2-3 has the metro and nonmetro dollar amounts of aids and taxes and a per capita comparison.

Table 2-4 presents a statewide breakdown of metro versus nonmetro for each of the categories. Each item adds across to 100 percent; for example 55.1 percent of the education aid goes to metro counties and 44.9 percent goes to nonmetro counties.

2009 population is used to calculate per capita amounts in the tables and maps throughout this report, even if 2008 is the most recent year for which data for a particular aid or tax is available, except for Appendix C and the maps on pages 112 and 113.

Note: The metro and nonmetro totals add to the state totals in Table 2-1, which include only Minnesota residents.

The additional amounts paid by out-of-state taxpayers have not been allocated to any county. The amount of sales and income taxes which is unallocated to Minnesota is about \$0.9 billion. Appendix B has a list of the type of tax and amounts not entirely allocated to Minnesota counties.

## 3. Regional Data

There are four statewide maps comparing various tax/aid factors.

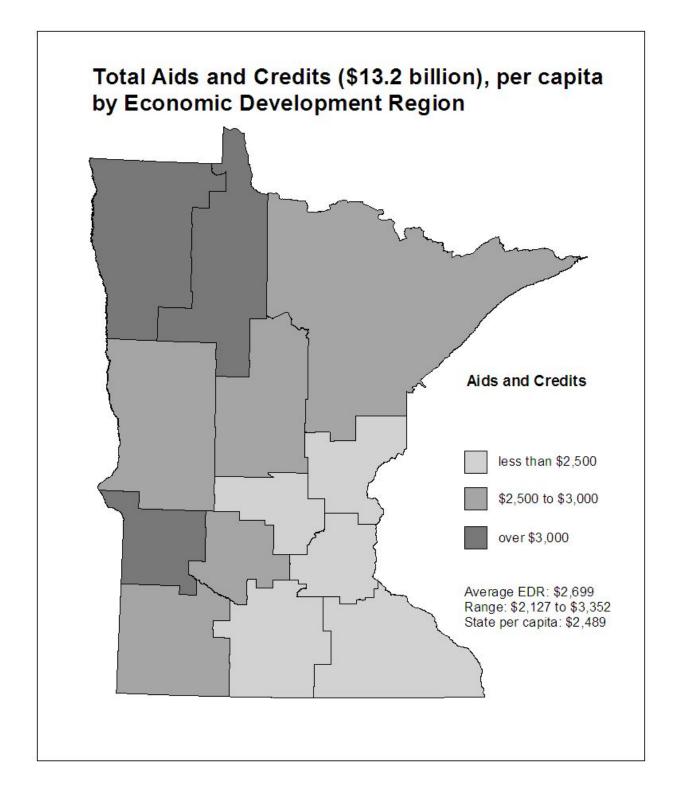

- Map on page 110 is total per capita aid and credits by economic development region
- Map on page 111 is total per capita taxes (residents only) by economic development region
- Map on page 112 is per capita personal income by county
- Map on page 113 is per capita personal income by region

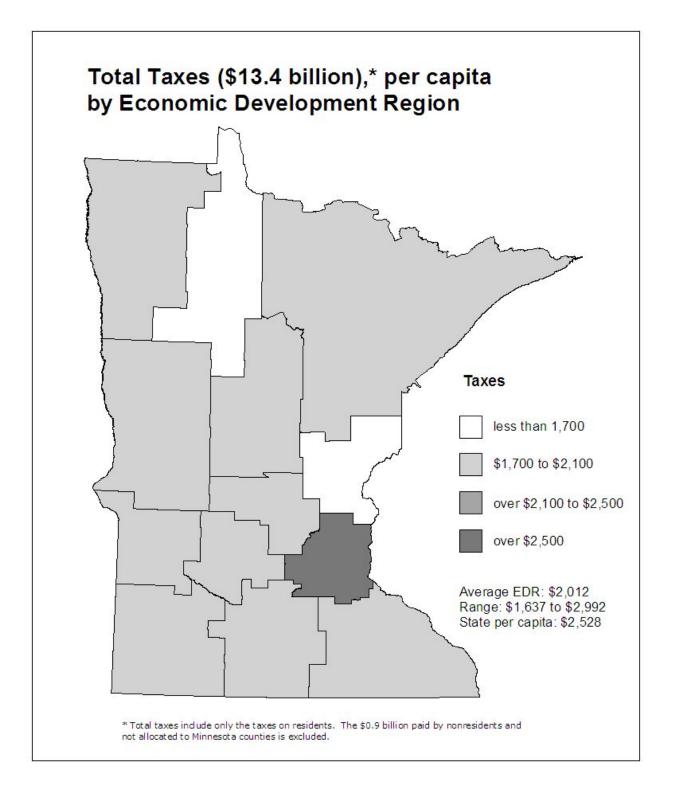

Table 3 compares the state aid/tax data for each of the 13 regions with the statewide totals. There is a separate table for each region.

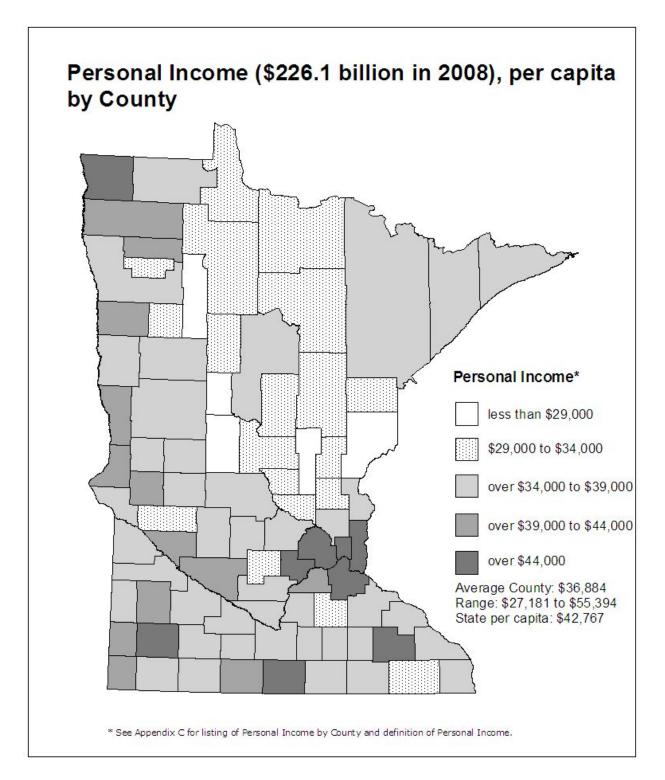

Statewide per capita amounts exclude income and sales taxes paid by nonresidents of Minnesota.

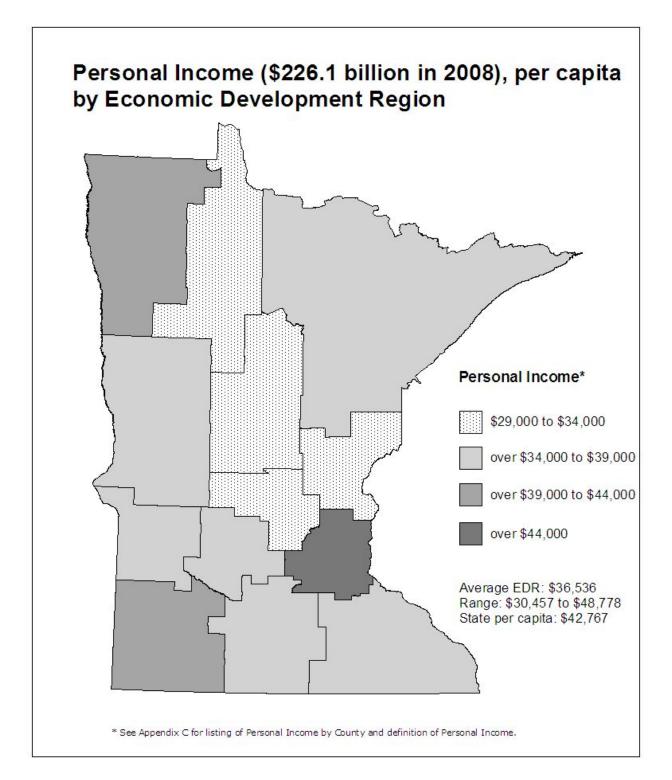

The map of Minnesota on page 4 and table on page 5 show the counties that are located in each of the 13 economic development regions.

2009 population is used to calculate per capita amounts in the tables and maps throughout this report, even if 2008 is the most recent year for which data for a particular aid or tax is available, except for Appendix C and the maps on pages 112 and 113.

## 4. County Data

This section compares data from each county with statewide data and data from the economic development regions in which the county is located. The counties are listed in alphabetical order. There is a separate table for each county.

Statewide per capita amounts exclude income and sales tax paid by nonresidents of Minnesota.

A table containing the 2009 estimated population, which was used for each county in determining the county and region per capita amounts, is on page 6. 2009 population is used to calculate per capita amounts throughout this report, even if 2008 is the most recent year for which data for a particular aid or tax is available.

NOTE: The human service amounts were not available by county for the Human Services Board (Faribault and Martin). The total for the Human Service Board is \$32.5 million, which was allocated to the counties on a per capita basis (\$13.544 million estimated to Faribault county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for Region VIII N (Lincoln, Lyon, and Murray). The total for Region VIII N is \$33.3 million, which was allocated to the counties on a per capita basis (\$4.940 million estimated to Lincoln county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for Region VIII N (Lincoln, Lyon, and Murray). The total for Region VIII N is \$33.3 million, which was allocated to the counties on a per capita basis (\$21.241 million estimated to Lyon county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for the Human Services Board (Faribault and Martin). The total for the Human Service Board is \$32.5 million, which was allocated to the counties on a per capita basis (\$19.001 million estimated to Martin county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for Region VIII N (Lincoln, Lyon, and Murray). The total for Region VIII N is \$33.3 million, which was allocated to the counties on a per capita basis (\$7.156 million estimated to Murray county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

#### 2008 Personal Income by County<sup>15</sup>

Personal income by county is estimated by the Bureau of Economic Analysis, and is defined as "the sum of wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and transfer payments to persons, less personal contributions for social insurance."

#### **Appendix D**

### Personal Income, Taxes, and Aids/Credits by Economic Development Region

Personal income by county is estimated by the Bureau of Economic Analysis and is defined as "the sum of wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and transfer payments to persons, less personal contributions for social insurance." Per capita amounts for personal income, taxes, and aids/credits in this appendix are calculated using 2009 population, so that the tax and aids/credits per capita amounts match the amounts shown on tables throughout the report. This means that the per capita amounts for personal income in this appendix do not match the amounts shown in Appendix C, or on the maps on pages 112 and 113, which are calculated using 2008 population. State per capita taxes exclude taxes attributed to nonresidents.

		Per Capita (2009 Population)			
		Personal Income	Taxes	Aids/Credits	
Northern Regions	Northwest (1)	\$39,765	\$1,962	\$3,245
