Major State Aids and TaxesA Comparative Analysis

2013 Update

The Research Department of the Minnesota House of Representatives is a nonpartisan professional office serving the entire membership of the House and its committees. The department assists all members and committees in developing, analyzing, drafting, and amending legislation.

The department also conducts in-depth research studies and collects, analyzes, and publishes information regarding public policy issues for use by all House members.

Major State Aids and Taxes

A Comparative Analysis

2013 Update

This report presents a comparative analysis of the major state aids and taxes in Minnesota. It is the latest edition of this report, which has been prepared for over 20 years. Previous updates are available on the House Research website.

This report was prepared by **Nina Manzi** and **Sean Williams**, legislative analysts in the House Research Department.

Questions may be addressed to **Nina** at 651-296-5204 or **Sean** at sean.williams@house.mn.

Megan Jaunich, Madeline Welter, Nikita Wilmers, and Scott Kulzer provided graphics, production, and research assistance.

Copies of this publication may be obtained by calling 651-296-6753. This document can be made available in alternative formats for people with disabilities by calling 651-296-6753 or the Minnesota State Relay Service at 711 or 1-800-627-3529 (TTY). Introduction

This report presents a comparative analysis of the major state aids and taxes in Minnesota. It is a reference document and is **NOT INTENDED** to be a complete list of all the aids and credits paid by the state and all the taxes collected by the state. The report contains data on:

- **Major State Aids** including education aid, human services aid, highway aid, local government aid (LGA), disparity reduction aid (DRA), county program aid, community corrections funding, property tax refund, and targeting.
- **Property Tax Data** including the market value agricultural credit, miscellaneous property tax credits, property tax levies by type of taxing district, property valuation data, and average tax rates.
- **Major State Taxes** including individual income tax, sales/use tax, motor vehicle sales tax, motor vehicle registration tax, motor fuels tax, corporate franchise (income) tax, and state general levy.

This report is divided into four major sections.

Section 1 discusses the state aids, property tax data, and state taxes and gives the assumptions and caveats for using the report. It contains current and historical data using graphs, maps, and tables in both total dollars and on a per capita basis.

Section 2 presents **STATEWIDE SUMMARY DATA**. A sample table with a general explanation introduces the section. The section contains the summary data for the most recent available year on the statewide totals and compares the metro and the nonmetro economic development regions to each other.

Section 3 compares aid and tax data for the most recent available year for each of the 13 ECONOMIC DEVELOPMENT REGIONS to total statewide data.

Section 4 compares aid and tax data for the most recent available year for each **COUNTY** to total statewide data and to the economic development region in which the county is located.

Throughout the report, dollar values are rounded to the nearest whole dollar. Percentage values are rounded to the nearest one-tenth of one percent (0.1 percent). As a result, rounded values may not exactly sum to 100 percent.

1. Current and Historical Data

Section 1 contains the most recent available data for the major state aids, credits, and taxes and describes the programs under the general categories in the tables of this report. The assumptions and caveats for using the report are mentioned in this section. In addition to information from the most recent year, section 1 also contains historical information. The data is for a five-year time period.

Section 1 is divided into three parts:

- Major state aids
- Property tax data
- Major state taxes

Some of the data in this section are county-level, while other tables and graphs are by region or groupings of regions. One table and one graph use northern and southern groupings of the 80 nonmetro counties. The groupings were selected for convenience, rather than for any specific analytical purpose. The northern and southern regions are grouped as follows:

Northern Regions		ern Regions
Northwest	6E	Six East
Headwaters	6W	Upper Minnesota Valley
Arrowhead	7W	Central Minnesota
West Central	8	Southwest
Five	9	Nine
East Central	10	Southeastern Minnesota
	Northwest Headwaters Arrowhead West Central Five	Northwest 6E Headwaters 6W Arrowhead 7W West Central 8 Five 9

The seven metro counties are not included in either the northern or southern regions and are region 11.

A table on page 6 lists the 2013 county population estimates, which were used to calculate per capita amounts in the report. A map and accompanying table on pages 4 and 5 show the counties and the economic development regions.

The standard format for each aid or tax consists of four or five pages of information. The first page or two contains information for the latest available year, followed by two maps and a page with historical data.

Program Description: The first one to two pages provide a program description of the aid or tax. They also provide the statewide total for the most recent available year, any relevant reporting information, and the source of the data. In some cases, summary tables itemizing the data in different ways (e.g., by program totals) are included. Any recent law changes that affect the program and are important in analyzing the data are noted on these pages.

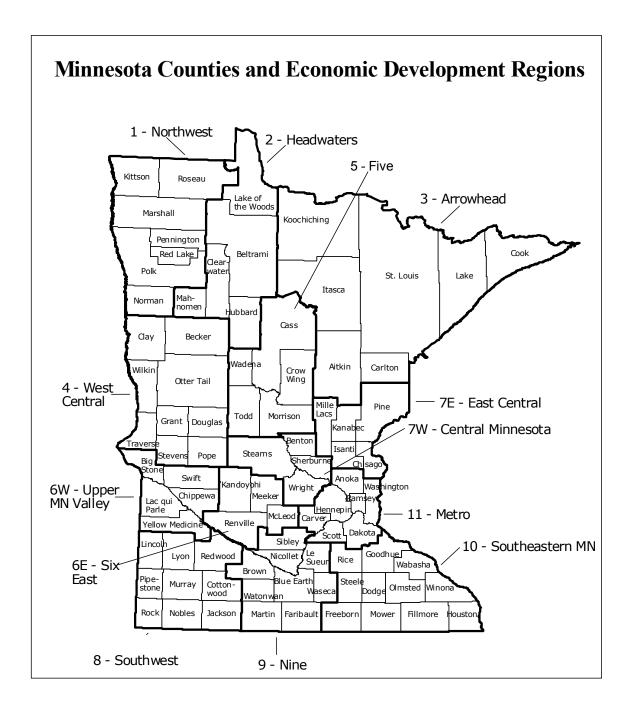

Maps: The next two pages contain maps showing the per capita distribution of the aid or tax by **county** for the most recent year and by **economic development region** (EDR) for the most recent year. 2013 population is used to calculate per capita amounts throughout this report. The 2013 population estimates used in this report are from the Minnesota State Demographer.

The counties were grouped by dividing the data for each aid and tax into three ranges. The map legend shows the size of the ranges, the per capita amount received or paid by the average county or economic development region, the range from lowest to highest amount per capita, and the overall statewide per capita amount. In some cases, a small number of counties may have per capita aid or tax amounts much higher or lower than all other counties. For purposes of comparability, the groupings constructed on the county data ranges were also used for maps presenting data by economic development region.

All maps are on a per capita basis for comparability among counties. For some aids and taxes, however, other measures would probably be more appropriate. For example, a measure incorporating per pupil units could provide insight into the distribution of education aid. Construction of such measures on a county basis is beyond the scope of this report due to time and data limitations. Where appropriate, footnotes are provided suggesting alternatives.

Historical Data: The last page has a table containing the historical data for the state and its geographic areas. The right-hand column shows a percentage change for the time period presented, calculated using nominal dollars (i.e., not adjusted for inflation). Hennepin and Ramsey counties are shown separately from the rest of the metro counties on this page because of their greater size, and because each contains a city of the first class.

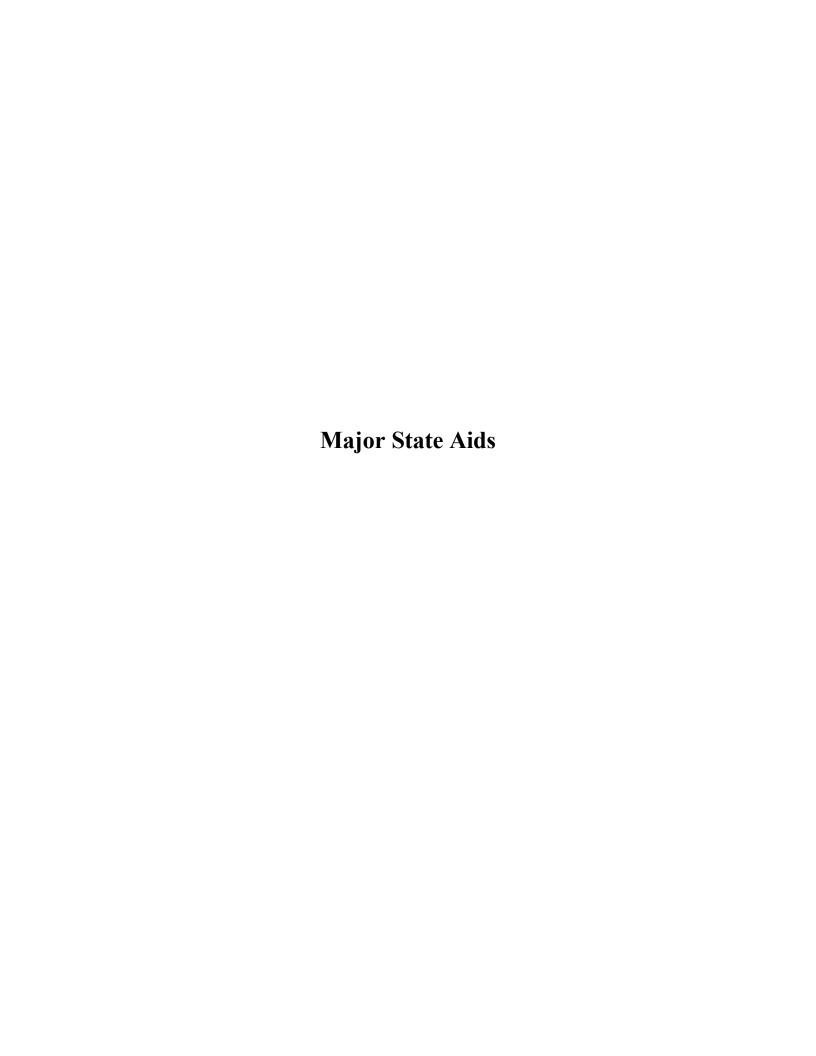

At the bottom of this page is a statewide graph containing a trend of the data in nominal dollars and in constant dollars, adjusted for inflation using the imlicit price deflator for state and local government expenditures, as published by the U.S. Bureau of Economic Analysis. This is the only place where amounts presented are adjusted for inflation.

Education Aid

Program Description

Education aid is the total amount of state aid paid to school districts for all K-12 educational purposes. This amount includes state aid for general education, special education, transportation, community education, capital expenditure, secondary vocational, and other miscellaneous programs. About 84 percent of the total aid (including aid to charter schools) is general education aid.

Aid Amount and Reporting

2012/2013 Education Aid: \$7.1 billion

The total education aid for the 2012/2013 school year is \$7,138,176,325. This total includes \$440,428,030 that went to the 148 charter schools that received funding in the 2012/2013 school year. The amounts received by school districts for property tax credits (i.e., agricultural market value credit, taconite homestead credit, disparity reduction credit, etc.) are not included in this amount since they are itemized elsewhere in the report.

Education aid is paid to school districts, many of which operate in more than one county. Education aid paid to school districts that operate in more than one county is apportioned to the various counties based on each county's share of total residential market value in the school district. For example, if one-fifth of the residential market value of a school district is in County A, two-fifths in County B, and the remaining two-fifths in County C, then one-fifth of the school district's education aid is apportioned to County A, two-fifths to County B, and two-fifths to County C. Aid to charter schools is reported in the county in which each school is located. Appendix A lists education aid by school district for 2012/2013 and lists the counties in which each school district operates.

The 2012/2013 education aid total does not include amounts paid to entities other than school districts:

- \$81.6 million to intermediate school districts¹
- \$50.5 million to cooperative school organizations
- \$28.0 million to colleges and universities participating in the postsecondary enrollment options (PSEO) program
- \$20.1 million to Head Start programs
- \$7.9 million to nonprofits operating adult basic education
- \$2.6 million to the Faribault Academies for the Deaf and Blind
- \$1.6 million to four tribal contract schools

¹ An intermediate school district is an educational cooperative authorized by statute and voluntarily created by participating school districts. Intermediate school districts offer special education services, vocational services, alternative learning programs, and administrative services for member school districts.

• \$0.1 million to South Dakota school districts, net of reciprocity payments

Education aid by home county by school district was obtained from the Minnesota Department of Education.

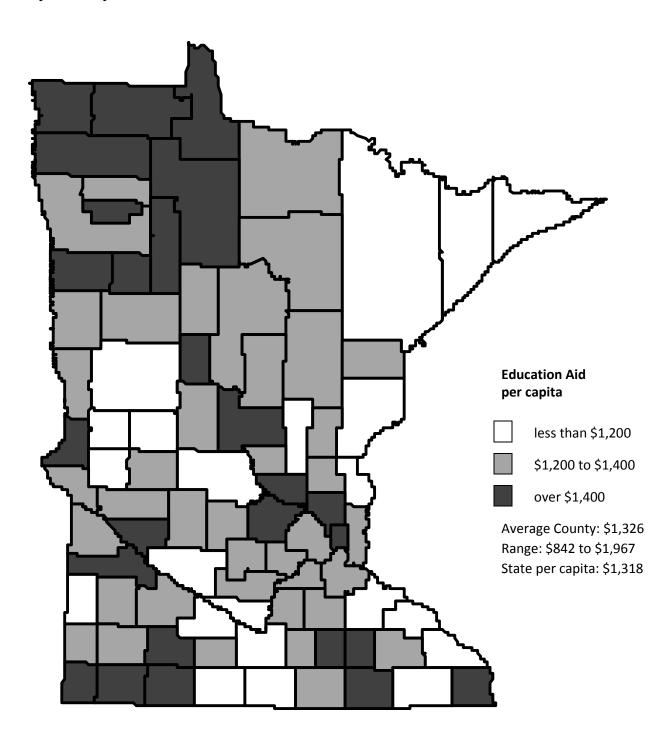

Recent Law Changes

The state aid share of school district revenue that is promised to the school district through Minnesota's school finance formulas is called the "aid entitlement." This report shows the school state aid entitlement amounts for each district (these are listed in Appendix A). The amount actually paid to school districts by the state during each fiscal year is called the "appropriation." Since school districts use the accrual method of accounting, the full amount of the aid entitlement owed to the district for a fiscal year is booked by the school district as revenue for that year, regardless of when the state aid is actually received. The state, on the other hand, uses a cash-based system of accounting. As a result, the "cost" to the state of school aid is only the actual appropriation for a particular school year, not the aid entitlement.

Payment shifts have been used to address state budget shortfalls since the early 1980s. For fiscal years 2010 to 2012, the school aid payment shifts were reinstated and portions of school aid payments were delayed until the following fiscal year. The amounts of school aid shown in this document are the state aid entitlements (the amount of state aid received by the school district for the relevant fiscal year). The property tax recognition shift and the aid payment shift have no effect on the amounts shown in this report.

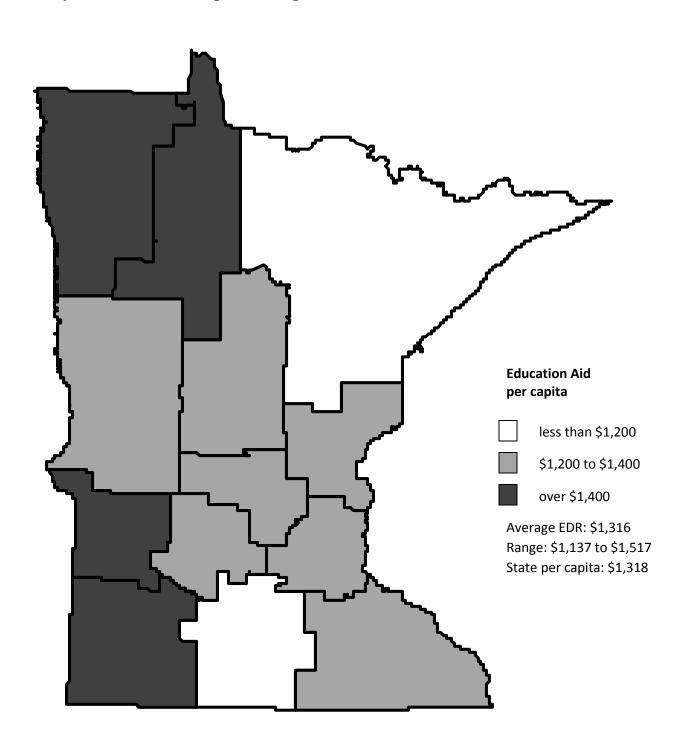

In fiscal year 2010, the state received about \$500 million in federal aid for education under the American Recovery and Reinvestment Act of 2009 (ARRA). The ARRA aid replaced state education aid, accounting for a large share of the state aid decrease from the 2008/2009 school year to the 2009/2010 school year, followed by an increase to the 2010/2011 school year.

Education Aid per capita, 2012-2013 by County*

^{*} Education aid is more often displayed on a per pupil basis (particularly since most education aids are generated on a per pupil basis). The data here is displayed on a per capita basis to remain consistent with other maps in this publication.

Education Aid per capita, 2012-2013 by Economic Development Region

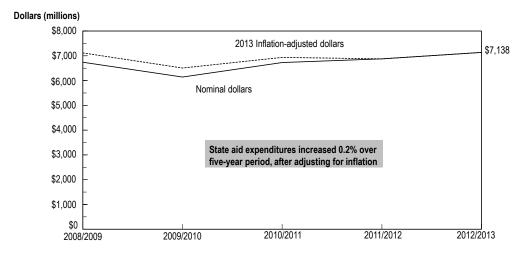

The Past Five Years of Education Aid

The table shows the distribution of education aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of education aid for the same time period in nominal and constant (inflation-adjusted) dollars.

Statewide Education Aid

Human Services Aid

Program Description

Human services aid is the total amount of state aid for human services programs, including all income maintenance and social service programs. Although the federal government and the counties contribute money to programs in varying degrees, the amounts in this report reflect only the **state's share** of the human services costs.

Aid Amount and Reporting

2013 Human Services Aid: \$5.2 billion

The state's share of the human services expenditures for calendar year 2013 is \$5,154,118,259. The table shows the dollar amount and share of total human services and for each of the major income maintenance and social service programs.

Type of Program	Amount	Percent
Medical Assistance (MA)	\$3,415,066,617	66.3%
Minnesota Family Investment Program (MFIP)	71,942,691	1.4
General Assistance (GA)	51,738,093	1.0
MinnesotaCare (MNCare) ²	27,022,092	0.5
Social Services (including CSSA)	1,414,982,336	27.5
Miscellaneous:		
Minnesota Supplemental Assistance	36,356,373	0.7
Group Residential Housing	134,137,603	2.6
Supplemental Nutrition Assistance Program (SNAP)	1,429,928	0.0
Title IV Child Support	1,442,526	0.0
Total	\$5,154,118,259	100.0%

State MFIP spending shown in this report is before offsetting any current year child support collections applied against current and prior years' MFIP payments. In calendar year 2013, MFIP spending in Minnesota totaled \$377.8 million (\$278.8 million federal, \$71.9 million state, \$27.0 million county), and offsetting child support collections totaled \$41.5 million, one-half offset federal costs and one-half offset state costs.

The human services amounts, other than MinnesotaCare, are not available by county in two cases:

 Southwest Health and Human Services (SWHHS)—Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock

² A small share of MinnesotaCare subsidies are not identified by county (\$213,572 in 2013). This amount is included in the state total.

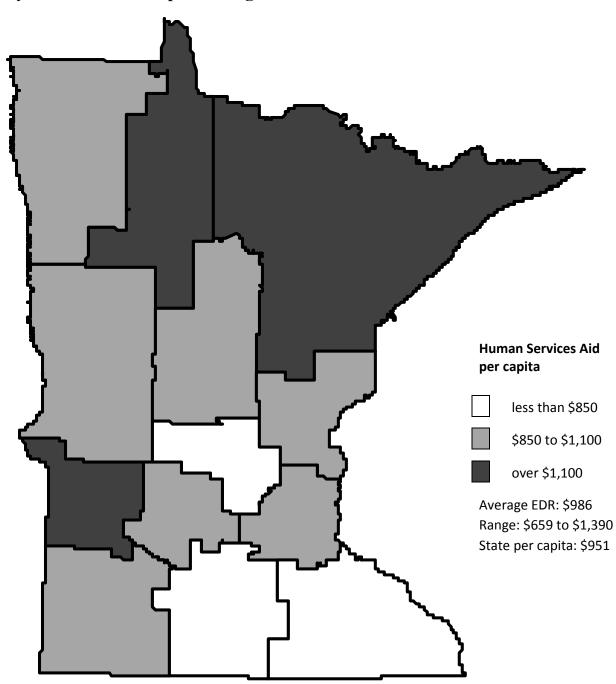

• Human Service Board—Faribault and Martin

In these two groups, human services aid is administered through a "home" county: Lyon in SWHHS and Faribault in the Human Service Board. The total human service amount for SWHHS is \$70.0 million and for the Human Service Board, \$36.9 million. An amount for these eight counties was estimated using population, and this amount appears in the county tables. Human services aid data was obtained from the Department of Human Services, Financial Management Division.

Human Services Aid per capita, 2013 by County

Statewide Human Services Aid

House Research Graphics

³ A small amount of MinnesotaCare subsidies are included in the state totals for 2009 to 2013, but cannot to be identified by county or region; as a result the state total is slightly greater than the sum of the regions.

Highway Aid

Program Description

Highway aid is the total amount of state aid distributed to counties, cities, and towns for highway purposes. It includes four basic types of aid: (1) amounts distributed according to a combination of constitutional and statutory formulas to all counties and eligible cities; (2) amounts distributed to counties, cities, and towns from state bond proceeds; (3) amounts distributed to towns for town roads and bridges; and (4) amounts distributed to some counties from sales taxes on motor vehicle leases. The sources of these funds are the Highway User Tax Distribution Fund (from a portion of the motor fuels tax, motor vehicle registration tax, and motor vehicle sales tax revenues), the sales tax on motor vehicle leases, and proceeds from state bonds.

The Minnesota Constitution sets the distribution formula for 95 percent of the money in the Highway User Tax Distribution fund: 29 percent is allocated to the County State-Aid Highway Fund, 9 percent to the Municipal State-Aid Street Fund for cities with populations over 5,000, and 62 percent to the state Trunk Highway Fund. Allocation of the remaining 5 percent of the fund is determined by the legislature. In 2013, following a statutory formula, a little under half of the set-aside was used for town roads and town bridges. The rest went into a flexible highway account that was used for road improvements on "turnbacks" in which trunk highways become part of local road systems.

County and municipal turnback account money (excluding the money in the town road and town bridge accounts shown in the table) is **not** included in the state totals. This money is used to repair former state highways that have been or are being "turned back" to counties and municipalities. In 2013, the state allocated approximately \$48.2 million to the county turnback account, and there was no allocation to the municipal turnback account. Disbursements from the turnback accounts of \$33.9 million to counties and \$3.5 million to municipalities were used for maintenance. The amount spent on turnbacks in each county is not readily available.

Aid Amount and Reporting

2013 Highway Aid: \$721.3 million

The total \$721.3 million in state highway aid paid in calendar year 2013 to the counties, cities (i.e., municipal), and towns is shown by category in the following table. Bridge bond funding amounts are the total expenditures made during 2013 (using the proceeds from state bonds that had been authorized in 2013 or previous years).

In fiscal year 2013, total highway spending from state and federal resources amounted to nearly \$1.9 billion for both state and local road systems. This total includes the \$721.3 million in state aid in this report except for the \$37.2 million in bond funding.

Type of Highway Aid		Amount		Total
County Aid	County State Aid	\$483,075,941		
	County Bridge Bond Funding	26,701,118		
	Motor Vehicle Lease Sales Tax Aid	14,989,319		
			County	\$524,766,378
Municipal Aid	Municipal State Aid	\$149,370,509		
_	Municipal Bridge Bond Funding	9,523,404

Township Aid	Town Road Account	\$27,504,264		
_	Town Bridge Account ⁴	10,099,926		
	Town Bridge Bond Funding	0		
			Township	<u>\$37,604,190</u>
		Total l	Highway Aid	\$721,264,481

Highway aid data was obtained from the Department of Transportation.

Recent Law Changes

The 2008 Legislature made two basic changes (effective July 1, 2009) to the allocation of flexible highway account funds, to reallocate a portion of the funds to metropolitan area counties and modify allowable uses of the funds.

The 2008 Legislature also provided for 50 percent of motor vehicle lease sales tax revenues in excess of a base amount⁵ to be transferred to the county state aid highway fund, for allocation to metro area counties other than Hennepin and Ramsey. The first year a transfer occurred under this provision was in 2012.

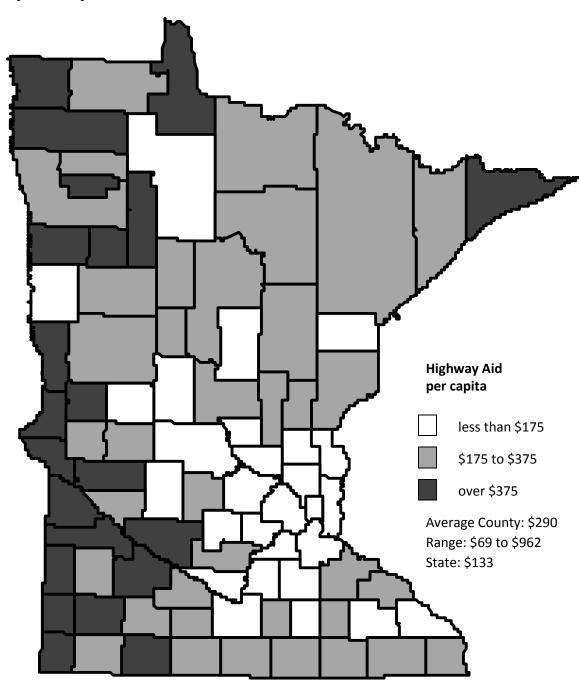

Also in 2008, the legislature modified the mechanism for distributing aid to counties by establishing a second formula to allocate a portion of County State-Aid Highway Fund revenues.

The legislature has regularly authorized bonding for local roads and bridges. Authorizations totaled \$10 million in 2009, \$66 million in 2010 (with an additional \$10 million for disaster relief), \$43 million in 2011, and \$40 million in 2012. There were no new authorizations in 2013. This report shows local road and bridge bonding amounts in the year the bond funds were expended, which may lag behind when they were authorized. (The lag is largely because bonds are sold based on the cash flow needs of funded projects rather than all at once.)

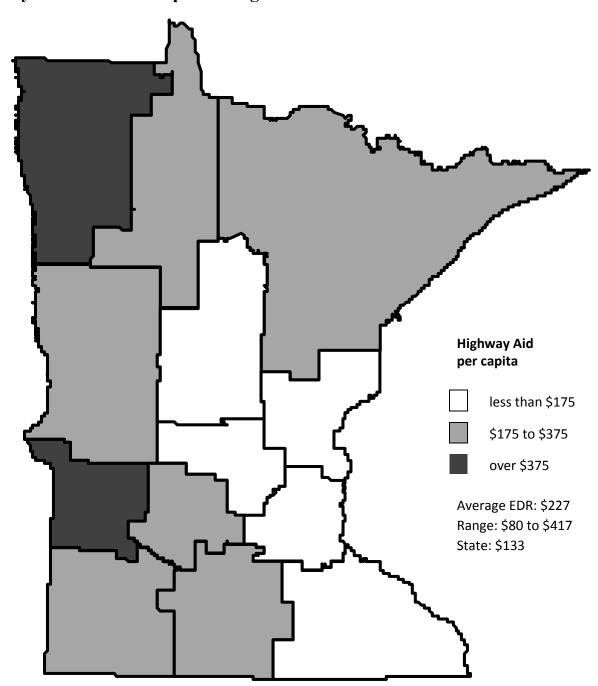

⁴ The Department of Transportation sets aside a portion of Town Bridge Account funding for flexible distribution as needed throughout the state. Amounts in this special Town Bridge Account set-aside are not always spent within the calendar year and are not included in this report.

⁵ The remaining 50 percent over the base amount is transferred the the greater Minnesota transit account.

State Highway Aid

House Research Graphics

Local Government Aid (LGA)

Local government aid (LGA) is a state program that provides property tax relief by giving general purpose financial support to cities. "Ability to pay" and "need" are the measures used in the formula. Ability to pay is the city's adjusted net tax capacity for all cities, regardless of population.

- For cities with population of 2,500 or more, need is determined by five characteristics: population decline, age of the housing stock, if the city is in the seven-county metro area, average number of vehicular accidents over the most recent three-year period, and household size.
- For cities with population less than 2,500, need is determined by population decline, age of housing stock, percent of the property in the city classified as commercial or industrial, and a population adjustment factor.

The state gives additional aid to cities with a population less than 5,000 based on population, and to cities with a population of 5,000 or more based on the ratio of jobs to population in the city.

Aid Amount and Reporting

2013 Local Government Aid: \$427.5 million

The 2013 certified LGA total was \$427.5 million.

LGA data was obtained from the Department of Revenue.

Recent Law Changes

Below is an overview of the changes made to city LGA.

City LGA

2009 aid changes:

In response to criticism that the LGA formula was (1) too volatile, (2) didn't recognize needs of certain cities, and (3) was underfunded, the 2008 Legislature modified the program as follows, with the changes taking effect in 2009:

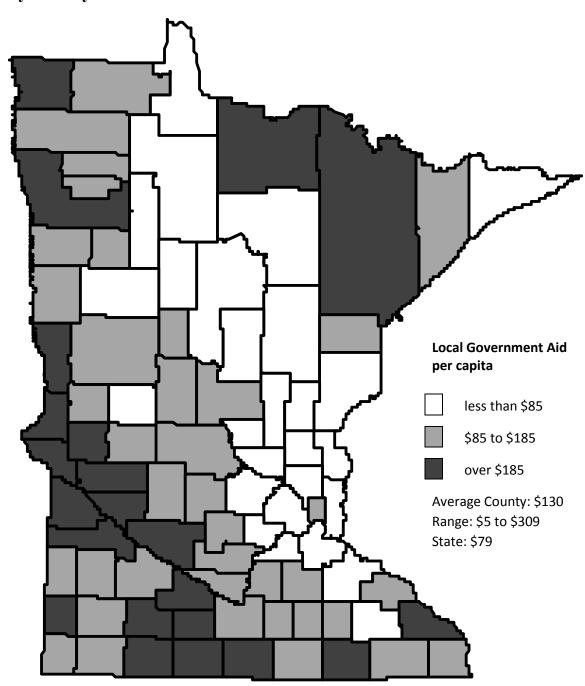

- Beginning with 2009 aids, maximum annual reductions to individual cities were lowered to limit volatility.
- Beginning with 2009 aids, the extra aid to cities with a population less than 5,000 was increased from \$6 per capita to \$8.50 per capita but was moved from the city aid base and included in the LGA formula. A new aid for cities with 5,000 or more in population was added to the formula, based on a city's jobs per capita. A city's small city aid or city jobs aid is reduced if its "need" is less than its "ability to pay" measure.

- Beginning with 2009 aids, taconite aid was removed from the "ability to pay" measure for all cities.
- Beginning with 2010 aids, volatility is further reduced by (1) using data available as of January 1 of the year in which the aid is certified to calculate need, and (2) using the average of two years of "unmet need" (need minus ability to raise revenue) to calculate aid each year.
- The LGA appropriation was increased to \$526 million for 2009, by an additional 2 percent in 2010, and another 4 percent in 2011. These increases were subsequently eliminated due to unallotment and legislative action in 2009 to 2011.

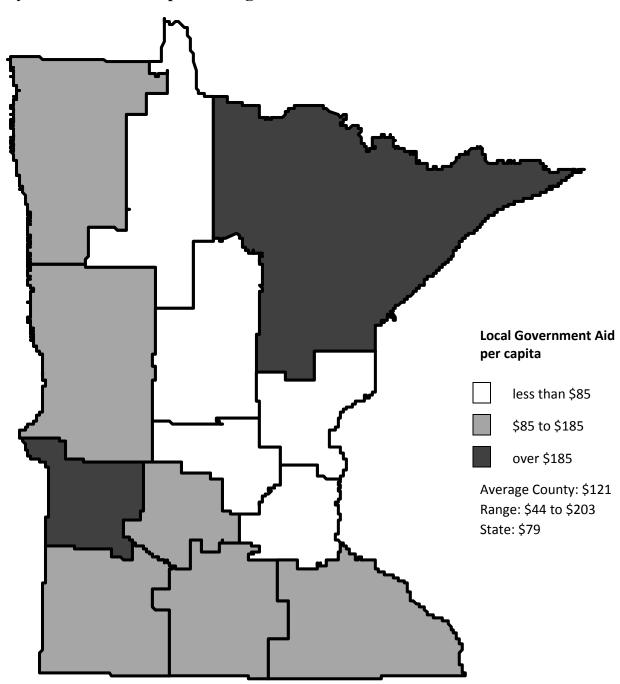

2009 to 2012 aid reductions:

- The actual LGA payment in 2009 for cities with a population of 1,000 or more was reduced by \$44.6 million from \$526.1 million to \$481.5 million through unallotment by the governor that was later ratified retroactively in the 2010 special session.
- LGA reductions in 2010 consisted of two parts—\$102 million in the governor's unallotments, ratified retroactively in the 2010 special session, and \$7.8 million in additional reductions enacted in the regular 2010 session. The reduction in the governor's unallotment only applied to cities with a population greater than 1,000.
- The certified 2011 LGA amounts of \$527.1 million were reduced by \$101.9 million to actual payments of \$425.2 million.
- 2012 LGA payments to each city were reduced to the lesser of:
 - o aid paid in 2010, or
 - o aid certified in 2011.

Statewide Local Government Aid

Disparity Reduction Aid (DRA)

Program Description and Aid Amount and Reporting

2013 Disparity Reduction Aid: \$18.3 million

Disparity reduction aid is a state aid program that distributed \$18,304,151 to counties, towns, and school districts in 2013. The aid is directed to taxing jurisdictions in areas that had inordinately high tax rates in the base year of 1988. The basis for computing the aid amount is the relationship of the area's 1988 tax rate to a benchmark tax rate of 100 percent of tax capacity.

County Program Aid

Program Description

One-half of the funding for county program aid is distributed based on each county's relative shares of (1) persons receiving food stamps, (2) age-adjusted population (population weighted more heavily for the number of persons over age 65), and (3) the reported number of Part I (serious) crimes. The other half is distributed based on a formula that takes into account each county's population and its property wealth. This distribution encompasses some of the distribution factors from the four programs that county program aid replaced in 2004: homestead and agricultural credit aid (HACA), county criminal justice aid, family preservation aid, and attached machinery aid.

Aid Amount and Reporting

2013 County Program Aid: \$165.6 million

The total amount of county program aid certified for taxes payable in 2013 was \$165.6 million. This total is after subtraction of \$500,000 to pay for court-ordered counsel and \$214,000 to pay for preparation of local impact notes.

The county program aid data was obtained from the Department of Revenue.

Recent Law Changes

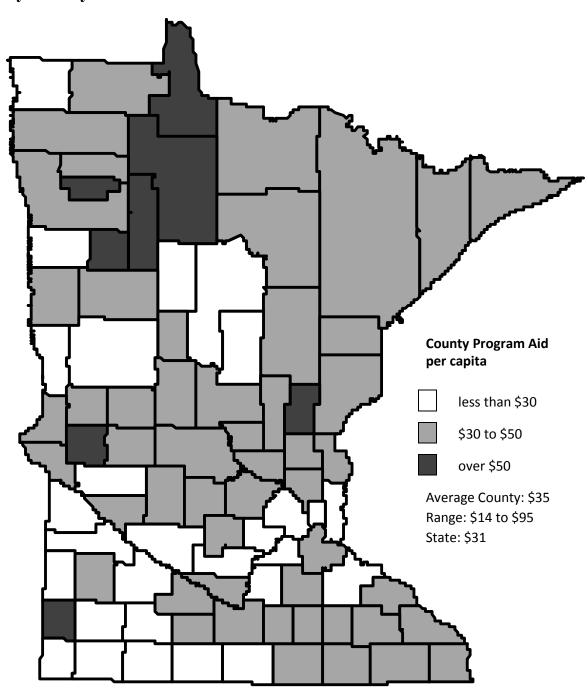

In the 2003 legislative session, county general-purpose aids were restructured into a single program called county program aid. County program aid replaced four individual aid programs:

- Homestead and agricultural credit aid (HACA)
- County criminal justice aid (CCJA)
- Family preservation aid (FPA)
- Attached machinery aid (AMA)

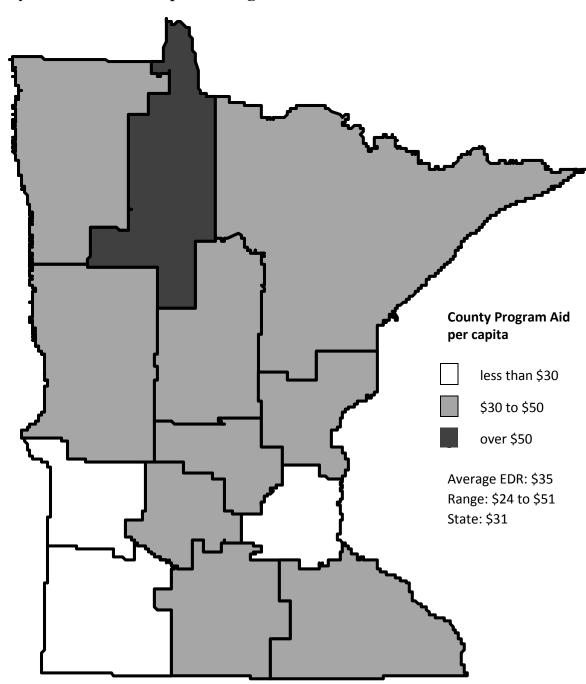

For 2009 and 2010, the initial allocation was increased to \$227 million (2009) and \$232 million (2010), except that in both years the actual payments were reduced by unallotment, eventually ratified by legislative enactment.

For 2011, the initial allocation was set at \$197.5 million. This was reduced by \$36.4 million to \$161.1 million in the 2011 special session tax law, which also set the 2012 aid amount at the lesser of the amount paid in 2010 or the amount certified in 2011.

Community Corrections Funding

Program Description

Although counties assume much of the cost of their community correctional services, the state provides direct funding and in-kind services. Counties choose to receive funding and/or services from one of three basic funding systems: the community corrections act (CCA), county probation officer (CPO), and the Department of Corrections (DOC). For 2013, the counties were funded as follows:

- Thirty-two counties are CCA counties. This group contains about 70 percent of the state's population, including most of the Twin Cities metropolitan area.
- Fifty-five counties are non-CCA counties. Although the DOC provides adult felony supervision to all 55 of these counties, there are two delivery systems that are generally referenced as follows:
 - o Twenty-seven counties (called "CPO" counties) provide their own juvenile and adult misdemeanant supervision
 - Twenty-eight counties (called "DOC" counties) have their juvenile and adult misdemeanant supervision provided by the DOC

To keep the counties on a comparable basis, the dollar amount of in-kind services provided by the DOC is included in this report, even though these counties do not receive an "aid payment" per se from the state.

Aid Amount and Reporting

2013 Community Corrections Funding: \$84.5 million

In 2013, the state funding was \$84,518,303.⁶ The table below lists the calendar year 2013 statewide total amounts for the various community corrections funding programs.

Program	Amount	Percent
CCA aid	\$37,030,000	43.8%
CPO reimbursement aid	5,049,000	6.0
DOC field services	16,919,641	20.0
Adult felony caseload reduction	956,000	1.1
Caseload/workload reduction	14,319,998	16.9
Intensive supervision	6,438,732	7.6
Enhanced supervision of adult sex offenders	3,804,932	4.5
Total Aid and In-kind Services	\$84,518,303	100.0%

⁶ An additional \$10.4 million, not included in this report, was distributed for miscellaneous categorical services.

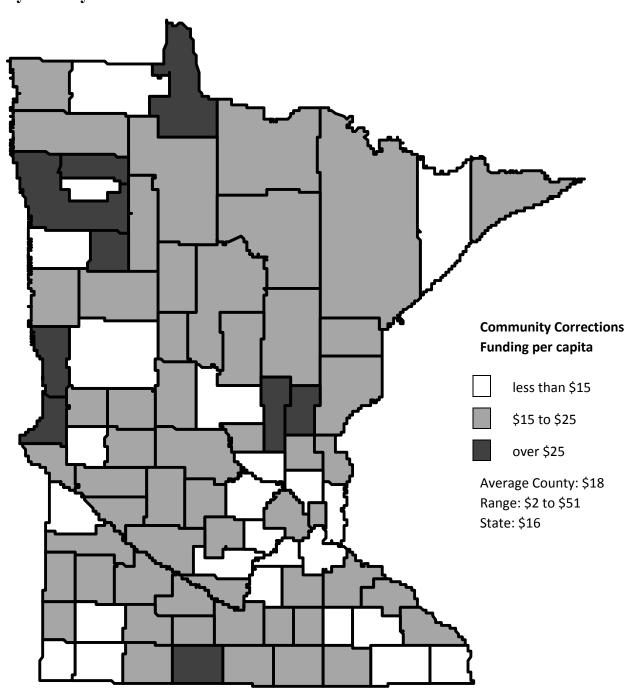

The DOC distributes some adult felony reduction aid, caseload/workload reduction aid, and intensive supervision aid to regional groups of counties. These counties and the DOC regions they belong to are listed in the table below.

Region	Counties
Central Minnesota	Aitkin
	Crow Wing
	Morrison
DFO	Dodge
	Fillmore
	Olmsted
Tri-County	Norman
	Polk
	Red Lake
Arrowhead	Carlton

Property Tax Refund - Homeowners

Program Description

The property tax refund for homeowners, also called the "circuit breaker," is a program in which the state partially reimburses homeowners for part of their property taxes if the taxes exceed a percentage of household income. Generally, the higher the property tax and the lower the income, the higher the refund. The legislature establishes the income and property tax thresholds, reimbursement rates, and maximum refund amounts for the program. Each qualifying homeowner must apply directly to the state for a refund.

Aid Amount and Reporting

2012 Filed 2013 Property Tax Refund: \$270.4 million

Total property tax refunds for 2012 returns filed in 2013 for homeowners is \$270,419,208. These returns are based on 2012 income and property taxes payable in 2013.

Homeowners ⁷	Number of Returns	Total Amount	Average Refund
Senior/Disabled	145,673	\$118,142,221	\$811
Under 65 Years	<u>193,524</u>	152,276,987	<u>787</u>
Total	339,197	\$270,419,208	\$797

Recent Law Changes

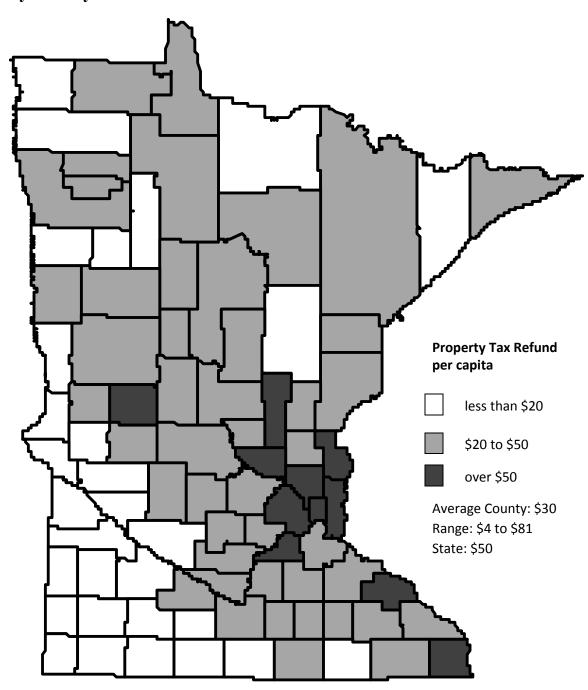

The 2011 Legislature expanded the homeowner program by increasing the maximum refund to \$2,460 for homeowners with household incomes less than \$37,280 and decreasing the copayment percentage for all claimants with incomes from \$10,880 to \$93,240.

The 2013 Legislature renamed the program to the homestead credit refund and further expanded the program by decreasing the threshold percentages to 2 percent for incomes from \$19,530 to \$65,049, and to 2.5 percent for higher incomes. In addition, the department was required to notify homeowners if available data suggests they might be eligible for a refund of at least \$1,000. The notification program was a onetime effort scheduled for 2014 and limited to homeowners not already claiming the refund.

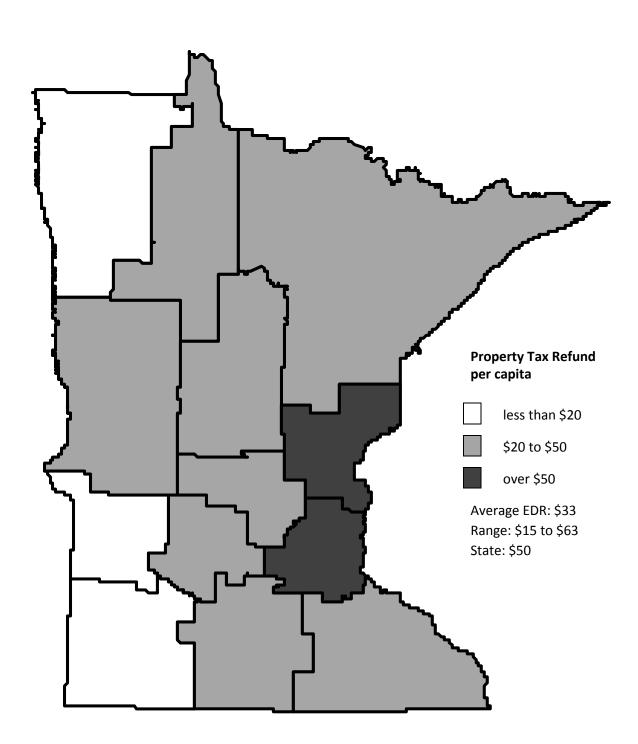

Property tax refund data are from the Department of Revenue. The department is unable to identify the county from which a claim is filed for about 1 percent of 2012 claims. This report apportions these claims to counties based on each county's share of total claims.

⁷ Includes claimants who are part-year homeowners and part-year renters for that year's claim.

Statewide Property Tax Refund for Homeowners

Property Tax Refund - Renters

Program Description

The property tax refund for renters, also called the "renters' credit," is a program in which the state partially reimburses renters for part of their qualifying property taxes if the taxes exceed a percentage of household income. Generally, the higher the property tax and the lower the income, the higher the refund. The legislature establishes the income and property tax thresholds, reimbursement rates, and maximum refund amounts for the program and sets the amount of rent deemed to represent property taxes. Each renter must apply directly to the state for a refund.

Aid Amount and Reporting

2012 Filed 2013 Property Tax Refund for Renters: \$180.5 million

The total property tax refunds for 2012 returns filed in 2013 for renters is \$180,483,830. These returns are based on 2012 income and rent paid in 2012.

Renters	Number of Returns	Total Amount	Average Refund
Senior/Disabled	88,065	\$56,138,229	\$637
Under 65 Years	<u>215,951</u>	124,345,601	<u>576</u>
Total	304,016	\$180,483,830	\$594

Recent Law Changes

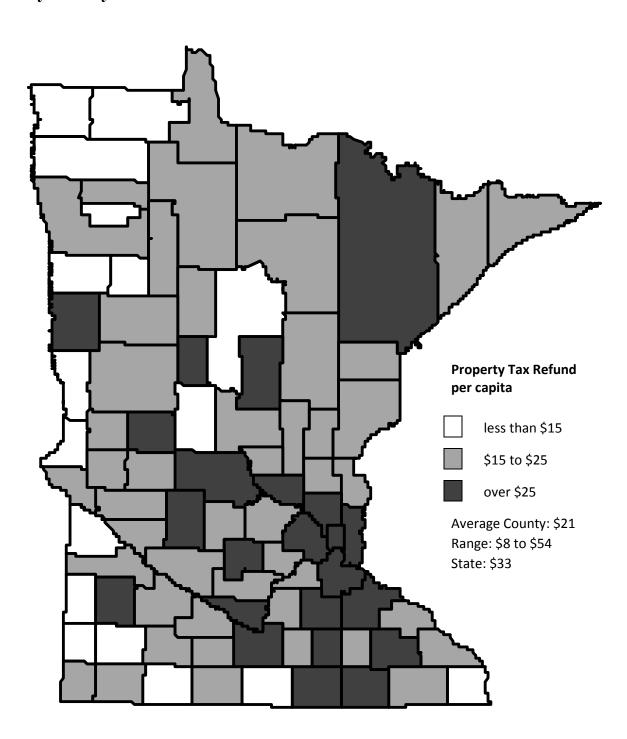

The 2010 Legislature reduced the percent of rent considered to represent property taxes from 19 percent to 15 percent, for refunds based on rent paid in 2009 only. This put into law the change made in Governor Pawlenty's 2009 unallotment, which reduced the percentage from 19 to 15 for refunds based on rent paid in 2009. A 2010 decision of the Minnesota Supreme Court invalidated other portions of the unallotment and suggested that the entire unallotment was likely invalid. For refunds based on rent paid in 2010, the percentage reverted to 19 percent.

The 2011 Legislature reduced the percentage of rent considered property taxes from 19 percent to 17 percent, effective beginning with refunds based on rent paid in 2011.

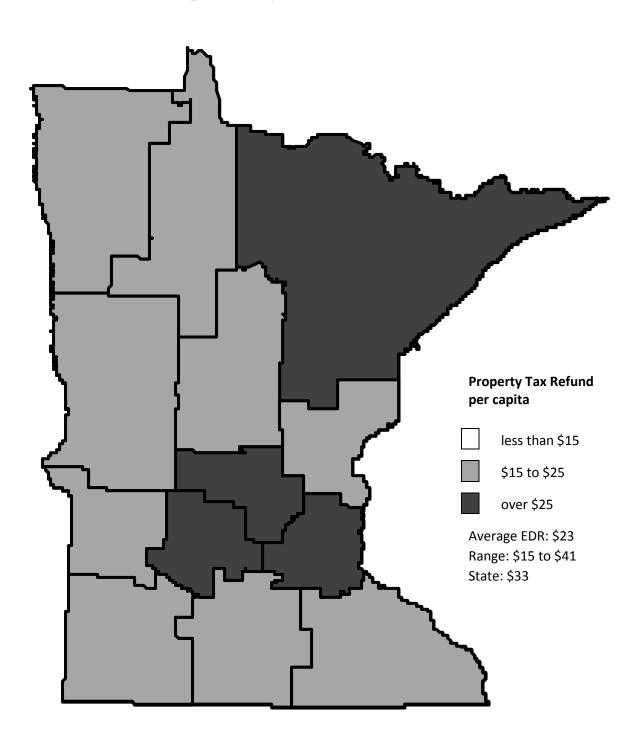

The 2013 Legislature expanded both the homeowner and renter property tax refunds. The legislature decreased the threshold percentages for renters to be no higher than those for homeowners and increased the maximum refund for renters to \$2,000.

Property tax refund data are from the Department of Revenue. The department is unable to identify the county from which a claim is filed for about 3 percent of 2012 claims. This report apportions these claims to counties based on each county's share of total claims.

Statewide Property Tax Refund for Renters

Additional Property Tax Refund (Targeting)

Program Description

"Targeting" is an extension of the regular property tax refund program. The refund targets property tax relief to homeowners whose property tax increase over the previous year exceeds a threshold percentage set by the legislature. The property tax refund return (M1PR) contains a separate schedule for the targeting refund. The taxpayer files for this refund at the same time and in the same manner as for the regular property tax refund. However, unlike the regular property tax refund, all homeowners qualify for targeting regardless of their household income if the tax increase exceeds the specified percentage.

Aid Amount and Reporting

2013 Targeting Refunds: \$0.7 million

For returns filed in 2013 (for property taxes payable in 2013), the state paid 60 percent of the property tax increase over 12 percent (i.e., the taxpayer had to pay the first 12 percent increase over the previous year before qualifying for a refund), provided that the increase was greater than \$100. There were 6,191 returns filed in 2013 for a total amount of \$728,581. The average refund per return was \$118. (The maximum refund is \$1,000.)

Targeting refund amounts can change greatly from one year to the next in any given county. Factors resulting in large fluctuations in refunds in recent years include net tax changes due to volatility in the housing market and the phaseout of limited market value.

Thirty-one counties reported fewer than four claims for targeted refunds filed in 2013 by senior/disabled claimants or by nonsenior/nondisabled claimants (Beltrami, Big Stone, Chippewa, Clearwater, Cottonwood, Dodge, Fillmore, Goodhue, Grant, Houston, Jackson, Lacqui-Parle, Lake of the Woods, Lincoln, McLeod, Mahnomen, Marshall, Nicollet, Nobles, Norman, Pipestone, Pope, Redwood, Renville, Roseau, Sibley, Steele, Stevens, Swift, Wilkin, and Yellow Medicine). To protect taxpayer confidentiality, the Department of Revenue is unable to provide detailed counts for these counties. These refunds were included in the totals for "county undesignated."

The total for which the county is undesignated represents 3.4 percent of all claims. This report apportions these claims to the 87 counties based on each county's share of refunds.

Recent Law Changes

The statutory percentage of 60 percent was increased to 90 percent for taxes payable in 2012 only under Laws 2012, chapter 294, article 1, section 6. For refunds based on the change in tax from 2011 to 2012 only, the targeting refund equaled 90 percent of the property tax increase over 12 percent, up to the maximum refund of \$1,000.

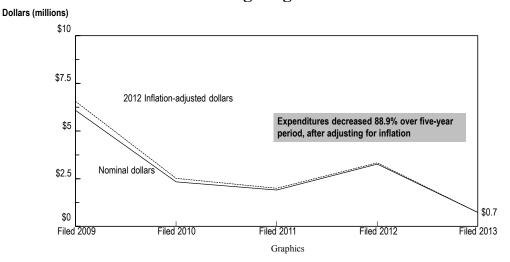

The Past Five Years of Targeting Refunds

The table below shows the distribution of targeting refunds in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of targeting refund for that same time period in nominal and constant (inflation-adjusted) dollars.

House Research

Market Value Agricultural Credit

Program Description

The 2001 Legislature created a new market value agricultural credit for all agricultural homestead property. The credit took effect for taxes payable in 2002 and was enhanced by the 2002 Legislature for taxes payable in 2003 and thereafter.

For agricultural homestead property with a taxable market value of \$115,000 or less, the credit is equal to 0.3 percent of the taxable market value of the property. For agricultural homestead property with a value between \$115,000 and \$345,000, the credit is equal to \$345 minus 0.05 percent of the value over \$115,000. For property with a value over \$345,000, the credit is equal to \$230. This credit does not apply to the value of the house, garage, and one acre of agricultural homestead property.

Payable 2013 Aid Amount and Reporting: \$23.0 million

For taxes payable in 2003 to 2006 and 2008 to 2011, the state did not fully compensate local governments for the credit computed on each taxpayer's tax statement due to state budget shortfalls. The taxpayers still received the credit. Throughout this report, the credit amounts shown are after the reductions in compensation resulting from state budget shortfalls.

For taxes payable in 2007 and 2012 to 2013, the state paid the full amount of the credit to local governments. In payable 2013, the amount of the credit was \$23.0 million.

Miscellaneous Property Tax Credits

Payable 2013 Miscellaneous Credits: \$25.4 million

The total of the miscellaneous property tax credits for 2013 is \$25.4 million. This includes the taconite homestead credit, disparity reduction credit, power line credit, agricultural preserves credit, county conservation credit, and the disaster credits. A statewide breakdown of these miscellaneous credits is shown below.

Type of Credit	Amount
Taconite Homestead Credit	\$16,624,940
Disparity Reduction Credit	6,801,011
Power Line Credit	97,145
Agricultural Preserves Credit	831,769
County Conservation Credit	197,631
State Disaster Credit	590,725
Local Option Disaster Credit	261,403
Total	\$25,404,624

The taconite homestead credit is the largest of the miscellaneous credits. Homeowners in the taconite tax relief areas, located in northern Minnesota on the Iron Range, receive a credit of either 57 percent of the net tax, capped at \$289.80 per homestead, or 66 percent of the net tax, capped at \$315.10 per household. The percentage of relief depends upon certain characteristics of the local jurisdiction, such as the value of the iron ore in the district, proximity to mines, etc. About two-thirds of the credit, \$11.4 million, is paid from proceeds of the taconite production tax, while \$5.3 million is paid from the state general fund. The portion paid from the general fund is referred to as the supplemental homestead credit. The mobile home taconite homestead credit and any adjustment amounts for prior years are not included in the amounts shown.

The disparity reduction credit provides additional property tax relief in the border cities of Breckenridge, Dilworth, East Grand Forks, and Moorhead. The credit applies to apartments, commercial-industrial, and public utility property only. The credit is the amount by which the net tax exceeds a 2.3 percent of market value for affected properties.

Property Values, Levies, and Tax Rates

Statewide Property Value: Assessment Year 2012, Taxes Payable in 2013

Market Value: \$545.8 billion
Market Value Exclusion: \$30.1 billion
Taxable Market Value: \$515.7 billion
Net Tax Capacity: \$5.75 billion
Referendum Market Value: \$418.1 billion

The total market value for taxes payable in 2013 is \$546 billion⁸; homestead market value exclusions of \$30.1 billion⁹ reduced this to \$515.7 billion of taxable market value. Class rates are applied to the taxable market value, resulting in total net tax capacity of \$5.75 billion. Net tax capacity is the tax base used for levies other than most referendum levies.

Referendum market value is the total market value excluding the value of agricultural and seasonal-recreational property, and is the tax base used for most referendum levies. The total referendum market value for taxes payable in 2013 is \$418.1 billion. The table shows the distribution of the two tax bases.

	Net Tax Capacity	% of Total	Referendum Market Value	% of Total

Metro Region				
Hennepin County	1,483,170,713	25.8	122,468,865,021	29.3
Ramsey County	462,534,143	8.0	38,967,473,500	9.3
Remaining Metro	1,158,604,234	20.1	102,129,510,973	24.4
Total Metro	\$3,104,309,090	54.0%	\$263,565,849,494	63.0%

⁸ The state total excludes \$463 million of market value that is located in Job Opportunity Building Zones (JOBZ) and exempt from most property taxes.

⁹ In 2011 the homestead market value exclusion replaced the homestead market value credit, which was repealed. The last year the credit was in effect was for taxes payable in 2011.

Payable 2013 Net Property Tax Levy Before Credits: \$8.55 billion

The payable 2013 net property tax levy made by each type of taxing district is shown in the following table (excluding special assessments). The table includes \$6,890 million of local net tax capacity levy, \$826 million of referendum market value levy, and \$840 million of state general levy. The statewide, region, and county tables show the net tax capacity levy and the market value levy combined by jurisdiction type, except they show the school district net tax capacity and referendum market value levies separately. The school district referendum market value levy is \$792 million, nearly all of the \$826 million in total statewide market value levy. "Special taxing districts" include the Metropolitan Council, regional transit authorities, hospital districts, port authorities, watershed districts, etc.

School District	2,307	27.0
Special Taxing Districts	321	
Tax Increment Financing	235	
Power Line	0.2	
Miscellaneous Districts	557	6.5
State	840	9.8
Total, all districts	\$8,555	100.0%

Note that in the statewide, region, and county tables (sections 2 to 4 of the report), the fiscal disparities levy is included in the "Miscellaneous District Levy," since that is how it is reported to the Department of Revenue. A detailed breakdown of that levy by type of taxing jurisdiction by county is not available, while in the table above the fiscal disparities levy is included in the totals for the various jurisdiction types statewide.

Payable 2013 Net Property Taxes Payable: \$8.51 billion

"Net property tax levy" is the amount levied before reductions for state-paid property tax credits. The net property tax payable, which is the amount that appears on property tax statements, is \$8.51 billion, which is the total levy of \$8.55 billion minus property tax credits of \$48 million.

Payable 2013 Average Tax Rate Calculations

The average net tax capacity rate is computed by dividing the total net tax capacity levy excluding special assessments by the total net tax capacity, then multiplying by 100.

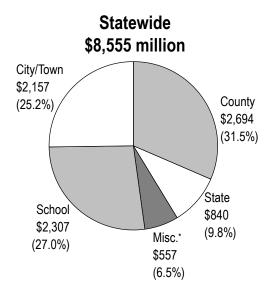

The tables show separate average tax rates for the net tax capacity levy and the referendum market value levy.

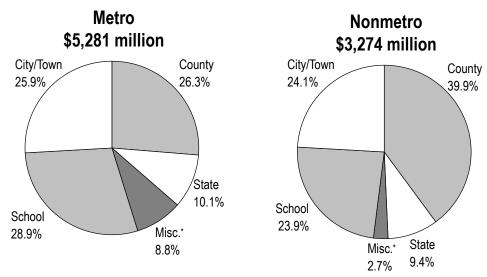

For purposes of the net tax capacity tax rate calculation:

- "levy" includes the tax increment financing levy and the fiscal disparities contribution levy; and
- "tax capacity" includes the total net tax capacity before the subtraction of the tax increment financing captured net tax capacity and before any fiscal disparities adjustments.

This rate represents the average local net tax capacity rate of taxation on all property.

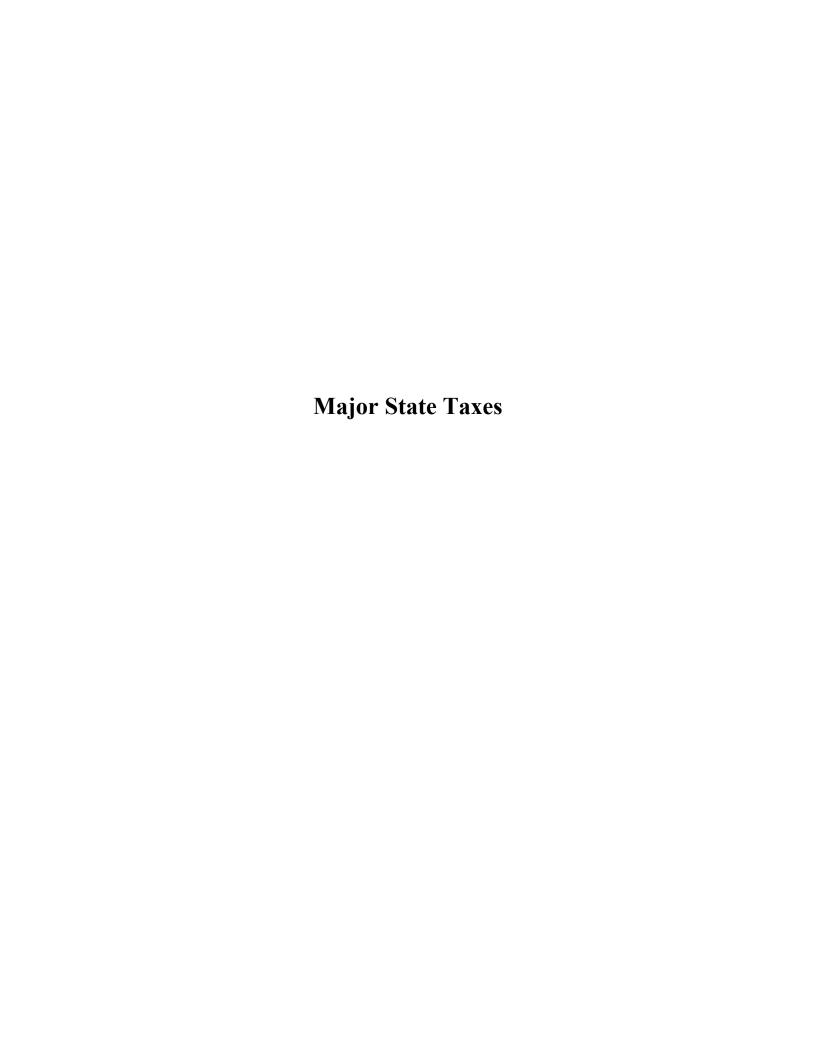

Payable 2013 Property Tax Levies before Credits by Type of Taxing District

House Research Graphics

^{*} Miscellaneous includes special taxing districts, tax increment financing, and power line levies, but excludes the fiscal disparities distribution levy, which in this graph has been allocated to counties, cities/towns, school districts, and special districts. (The tables later in the report show the fiscal disparities levy as part of "Miscellaneous District Levy.")

Individual Income Tax

Program Description

Individual income tax is a tax imposed by the state upon (1) the income of Minnesota residents and (2) the income, derived from Minnesota sources, of nonresident individuals. The 2012 tax base is federal taxable income with minor modifications, including the addition of interest earned on bonds issued by non-Minnesota state and local governments, and subtractions for military pay, charitable contributions of nonitemizers, and certain dependent education expenses. Rates applied in 2012 ranged from 5.35 percent to 7.85 percent. In 2012, Minnesota allowed a refundable dependent care credit of up to \$720 for one child and \$1,440 for two or more children, a refundable credit of up to \$1,000 per child for K-12 education expenses, and a working family credit tied to the federal earned income credit. The maximum working family credit was \$1,831.

Tax Amount and Reporting

2012 Individual Income Tax: \$8.4 billion

\$7.9 billion from residents

The total amount of the 2012 individual income tax revenues is \$8,361 million. The tax shown is net tax (after refundable credits) reported on the basis of the filer's county of residence. The state total includes \$478.1 million of individual income taxes collected from returns filed by nonresident taxpayers. This report does not allocate the amount paid by nonresidents to counties, with a net amount of \$7,883 million collected from Minnesota residents.

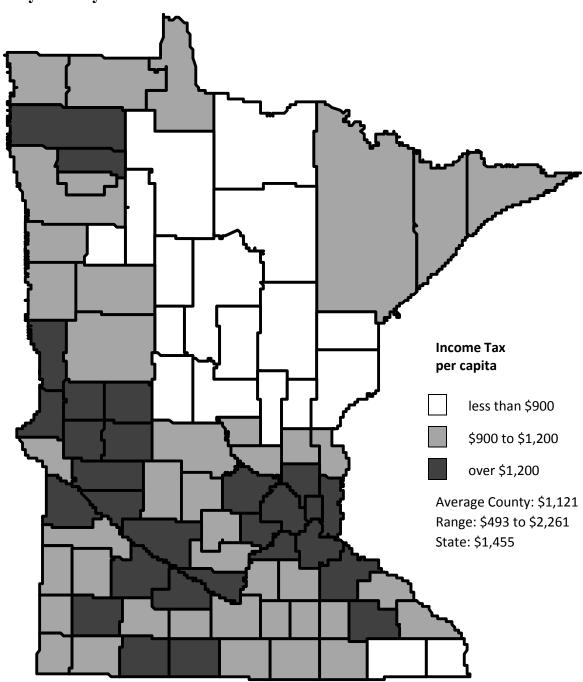

Individual income tax data was obtained from the Department of Revenue.

Recent Law Changes

Minnesota conformed with all major changes made in the federal tax code through tax year 2014, except that Minnesota did not allow the additional standard deduction amount for married filers for tax years 2011 to 2013. Instead, Minnesota taxpayers were required to add the additional deduction amount to state taxable income.

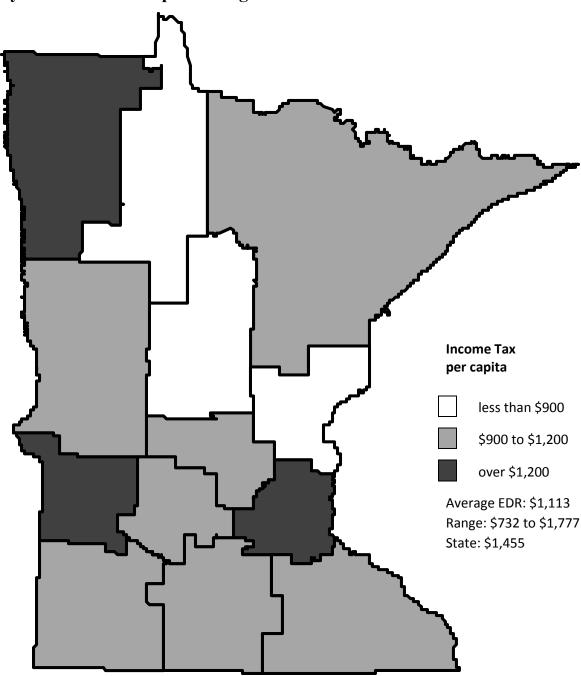

Effective in tax year 2013, Minnesota added a fourth rate of 9.85 percent. The new rate applies to taxable income in excess of \$250,000 for married joint filers, \$150,000 for single filers, and \$200,000 for head of household filers. The income brackets are adjusted annually for inflation.

Individual Income Tax per capita, 2012 by County*

Statewide Income Tax, Residents Only

Sales/Use Tax

Program Description

Sales tax is imposed by the state on the gross receipts of all persons who sell, lease, or rent tangible personal property at retail or provide taxable services. The **use tax** complements the sales tax and is imposed at the same rate on the storage, use, or consumption in Minnesota of taxable, tangible personal property and taxable services purchased from any retailer, unless the Minnesota sales tax was already paid on these items. Since July 1, 2009, the state sales and use rate has been 6.875 percent.

Major exemptions include: unprepared food, clothing, prescribed and nonprescribed drugs and medications, gasoline and special fuels taxed under the motor fuels excise tax, publications issued at intervals of three months or less (except over-the-counter magazines), motor vehicle purchases subject to the 6.5 percent sales tax on motor vehicles, materials used or consumed in agricultural or industrial production, textbooks, residential heating fuels and water services, and industrial capital equipment.

Tax Amount and Reporting

Calendar Year 2013 Sales/Use Tax: \$5.5 billion (gross)

\$5.2 billion (net after refunds) \$4.4 billion from residents and in-state sellers

A total of \$5,475.4 million in state sales/use taxes was collected during calendar year 2013. The net amount of sales/use tax after the reduction of capital equipment refunds of \$228.0 million¹⁰ was \$5,247.4 million. The total amount of capital equipment refunds is allocated to counties based on the ratio of each county's mining and manufacturing payroll to the total statewide mining and manufacturing payroll. Of the \$5.2 billion in net sales taxes, about \$866 million was collected from returns filed by out-of-state vendors, resulting in \$4.4 billion allocated to Minnesota. The amount collected from returns filed by out-of-state sellers is not allocated to Minnesota in this report since the taxpayer's residence and/or place of business is unknown, nor is it included in the five-year historical table on page 72. The table shows the amount and share of taxes that were allocated to Minnesota (paid by residents and in-state sellers) and the portion not allocated to Minnesota (paid by out-of-state sellers) over the last ten years.

¹⁰ This includes refunds paid on other exempt purchases where the tax is paid at the time of purchase and then refunded, mainly for some specific capital projects.

Sales/Use Taxes (in thousands) (after capital equipment refund)

	Allocated to N	Allocated to Minnesota		Not Allocated to Minnesota		
Year	Amount	Percent	Amount	Percent	Total	
2004	3,542,797	85.9	579,820	14.1	4,122,617	
2005	3,625,842	84.7	652,956	15.3	4,278,798	
2006	3,729,834	84.2	701,410	15.8	4,431,245	
2007	3,753,243	83.6	737,234	16.4	4,490,477	
2008	3,704,922	83.6	725,751	16.4	4,430,673	
2009	3,282,128	84.1	620,690	15.9	3,902,818	
2010	3,792,834	84.1	719,073	15.9	4,511,908	
2011	3,975,604	84.0	758,966	16.0	4,734,571	
2012	4,192,302	83.7	815,555	16.3	5,007,858	
2013	4,421,957	83.6	865,535	16.4	5,287,492	

Most of the amount not allocated to Minnesota is a tax on sales made by out-of-state businesses to Minnesota residents, which are reported on a single non-Minnesota return. The amount not allocated to Minnesota has gradually increased from about 14 percent to over 16 percent.

The sales tax amounts contained in this report exclude any local sales taxes that cities and counties impose. Local sales taxes are used primarily to support specific capital projects. The amounts shown in the statewide tables are net of the capital equipment refund; the amounts shown by geographic region in the maps are also net of the total remitted by out-of-state sellers. Because sales tax is reported in the county where the seller is located, higher amounts tend to be reported in counties with a regional center (e.g., Twin Cities, Duluth, Rochester, etc.).

Sales/use tax data were obtained from the Department of Revenue.

¹¹ As of December 2013, the cities of Albert Lea, Austin, Baxter, Bemidji, Brainerd, Clearwater, Cloquet, Fergus Falls, Hutchison, Lanesboro, Mankato, Marshall, Medford, Minneapolis, New Ulm, North Mankato, Proctor, Rochester, St. Paul, Two Harbors, Worthington, and St. Cloud-area cities imposed a 0.5 percent general sales tax. The cities of Duluth and Hermantown, and Cook County imposed a 1 percent general sales tax; Hennepin County imposed a 0.15 percent general sales tax; and a Transit Improvement Area consisting of Anoka, Dakota, Hennepin, Ramsey, and Washington counties imposed a 0.25 percent general sales tax.

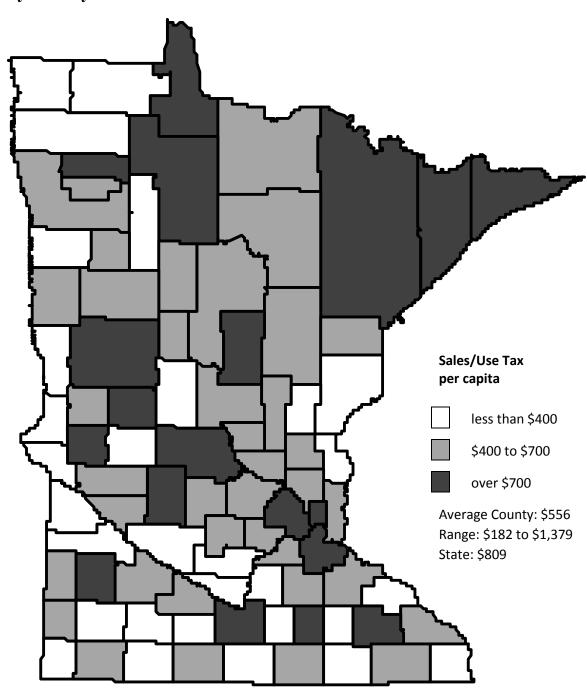

Recent Law Changes

The tax rate was 3.0 percent when enacted in 1967 and has risen gradually over time. The most recent increase, from 6.5 percent to 6.875 percent, is a temporary increase imposed from July 1, 2009, to June 30, 2034. The extra revenue from this temporary rate increase is constitutionally dedicated to fund clean water, parks and trails, and arts and cultural heritage.

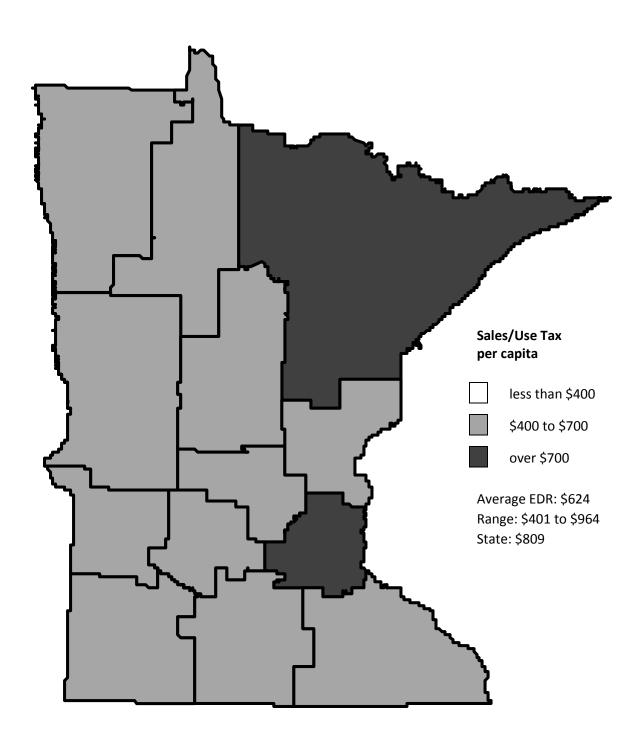

The legislature fairly often modifies the goods and services included in the sales tax base. Some of the most significant changes in recent years include the following:

- 2011 exempting most purchases by townships
- 2012 exempting materials used to construct a new professional football stadium
- 2013 exempting most purchases by cities and counties
 - imposing the tax on most digital products
 - imposing the tax on repair and maintenance services for most business equipment
 - repealing an exemption for telecommunication equipment
 - providing a number of construction exemptions for certain businesses

Statewide Sales/Use Tax, Residents and In-State Sellers

Motor Vehicle Sales Tax

Program Description

The **motor vehicle sales tax** is imposed on new and used motor vehicles at the time of sale. It is imposed in lieu of the general state sales tax on the sale price of motor vehicles, minus any trade-in allowance. (A flat tax of \$10 in lieu of the motor vehicle sales tax is imposed upon most motor vehicles that are ten or more years old.)¹² The rate is 6.5 percent, the rate of the general state sales tax prior to the 2008 passage of the constitutional amendment that increased the general sales tax rate to 6.875 percent, with the increase dedicated to outdoor heritage, clean water, parks and trails, and arts and cultural heritage. The increase did not apply to the motor vehicle sales tax.

The table below lists the allocation of the motor vehicle sales tax revenues from fiscal year 2004 through fiscal year 2012 and following years.

Allocation of Motor Vehicle Sales Tax Revenues

	FY	FY	FY	FY	FY	FY
	2004-2007	2008	2009	2010	2011	2012+
Highway user tax distribution fund	30.00%	38.25%	44.25%	47.50%	54.50%	60.00%
County state-aid highway fund	0.65					
Municipal state-aid highway fund	0.17					
Metropolitan transit	21.50	24.00	27.75	31.50	35.25	36.00
Greater Minnesota transit	1.43	1.50	1.75	4.75	4.00	4.00
General fund	46.25	36.25	26.25	16.25	6.25	0.00

Note: Allocations for transit in fiscal years 2010-11 are capped at fixed dollar amounts, with any excess under the percentage allocations going to the highway user tax distribution fund.

Tax Amount and Reporting

Calendar Year 2013 Motor Vehicle Sales Tax: \$621.9 million

The total 2013 motor vehicle sales tax is \$621.9 million. The Department of Public Safety collects the motor vehicle sales tax. Due to the method of collection, the amount of actual tax liability from each county is not available. The state total is allocated to counties based on two equally weighted factors:

- the number of passenger vehicles and pickup trucks registered in each county, as reported by the Department of Public Safety
- motor vehicle registration tax by county, as estimated by the Department of Public Safety

Vehicle counts serve as a proxy for the residence of vehicle owners, who pay the sales tax. Motor vehicle registration tax estimates serve as a proxy for the value of vehicles purchased.

¹² The flat tax in lieu is \$150 for certain collector vehicles and fire trucks.

Motor vehicle sales tax data was obtained from the Department of Transportation.

Recent Law Changes

2005 Laws:

At the 2006 general election, the voters approved a constitutional amendment dedicating all motor vehicle sales tax revenue to transportation purposes. The constitutional language requires that "no more than 60 percent" of the revenue go to the Highway User Tax Distribution (HUTD) fund and "not less than 40 percent" go to public transit assistance (Minn. Const. art. XIV, sec. 13). These distribution limits establish a ceiling for allocation to highways. Within the distribution limits, the Constitution allows legislation to set the actual division between highways and transit.

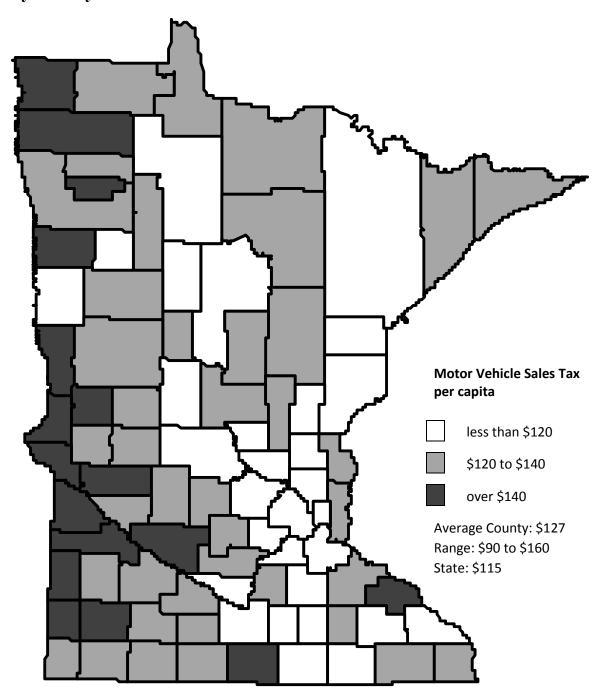

2007 Laws:

2007 legislation established a motor vehicle sales tax phase-in schedule, shown in the table on the preceding page. Starting in fiscal year 2012, after the phase-in was fully completed, the revenues are distributed 60 percent to highways and 40 percent to transit, with the transit portion divided 36 percent for the metropolitan area and 4 percent for greater Minnesota.

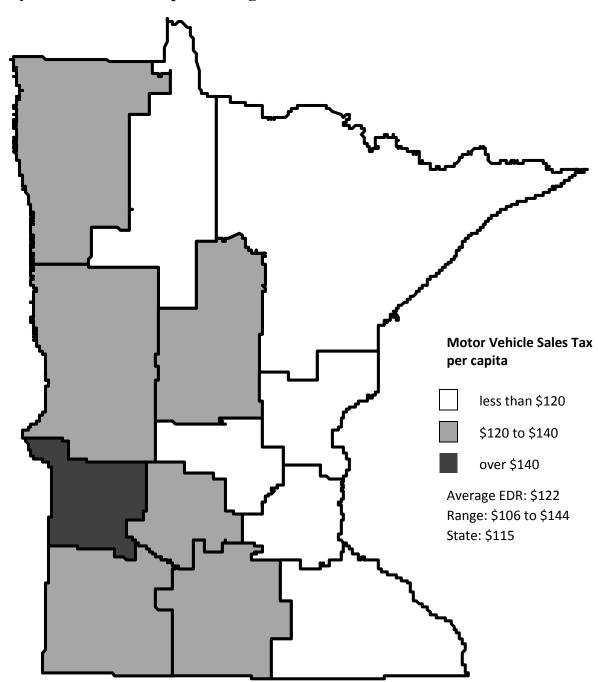

2009 Laws:

As part of the 2010-2011 budget, the motor vehicle sales tax phase-in schedule was adjusted to provide additional funds to both metropolitan and greater Minnesota transit.

Statewide Motor Vehicle Sales Tax

Motor Vehicle Registration Tax

Program Description

The **motor vehicle registration tax** is imposed annually on each motor vehicle registered in Minnesota. The tax on passenger cars, pickup trucks, and vans is equal to a \$10 flat tax, plus an additional tax based on the vehicle's original value. The tax starts at 1.25 percent of the vehicle's original value, and decreases as the vehicle ages to a minimum \$25 flat tax.

The tax on trucks, tractors, and buses is based upon the type, weight, and age of the vehicle. A minimum tax applies to each type of vehicle. There is also a flat tax on motorcycles and mopeds. The tax is paid when the vehicle is first registered in Minnesota to use the public streets and annually thereafter when it is re-registered.

Tax Amount and Reporting

Calendar Year 2013 Motor Vehicle Registration Tax: \$636.0 million

The total motor vehicle registration tax for calendar year 2013 was \$636.0 million. The tax is collected by the Department of Public Safety. The amount of actual tax liability from each county is not available. The statewide total was allocated to counties based on Department of Public Safety estimates of the amount actually remitted from each county. Revenue from this tax is deposited in the Highway User Tax Distribution Fund.

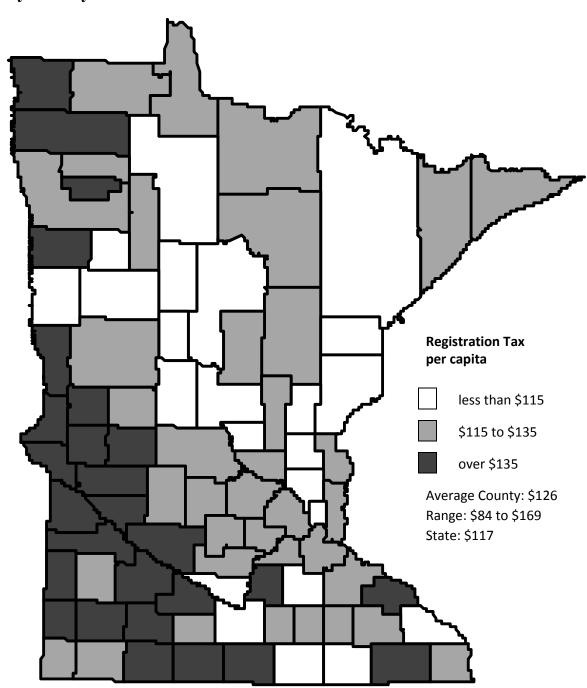

The statewide motor vehicle registration tax amount came from the Department of Revenue.

Recent Law Changes

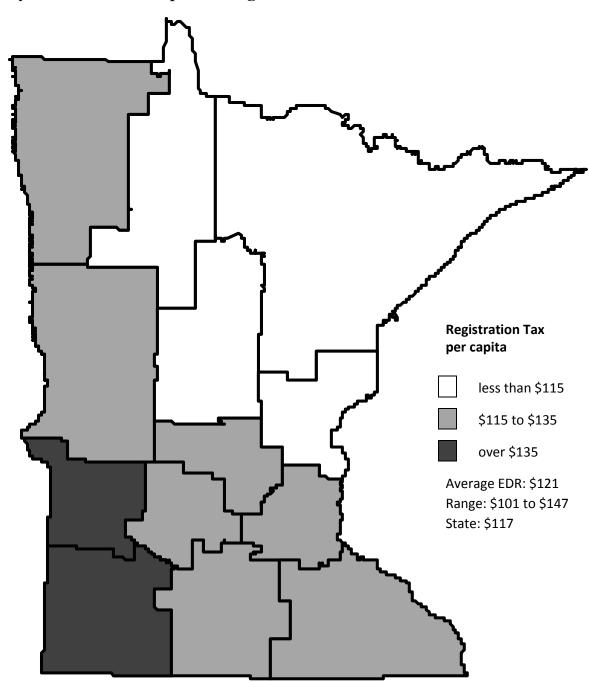

The 2008 Legislature restructured the registration tax for passenger vehicles by:

- eliminating the maximum of \$189 in the first renewal and \$99 in subsequent renewals;
- amending the vehicle depreciation schedule for a vehicle's valuation; and
- restricting the tax changes so that the amount owed for vehicles previously registered in Minnesota does not increase from the amount paid in previous years.

Statewide Motor Vehicle Registration Tax

Motor Fuels Tax (Gas Tax)

Program Description

The **motor fuels tax** is imposed on gasoline, diesel fuel, and other motor fuels used by vehicles on public highways. Aviation fuel purchased, stored, or withdrawn from storage in Minnesota is also subject to the tax. The rate on highway motor fuels¹³ is 28.5 cents per gallon.

Tax Amount and Reporting

Calendar Year 2013 Motor Fuels Tax: \$869.1 million

The total net amount after refunds of the motor fuels tax for calendar year 2013 was \$869.1 million. This is the gross amount before distributions (based on motor fuel use attributed to nonhighway use) to snowmobile, motorboat, forest roads, and all-terrain vehicles (ATV) accounts.¹⁴

The motor fuels tax goes into the Highway User Tax Distribution Fund and is dedicated for highway use. (See page 20 for description of the allocation of the Highway User Tax Distribution Fund.)

Like both the motor vehicle sales tax and the motor vehicle registration tax, the amount of motor fuels tax paid by taxpayers in each county is unknown. For purposes of this report, an estimate was made for each county based on the total number of vehicle miles traveled in each county in 2013 as a proportion of the total vehicle miles traveled within the state in 2013.

The statewide motor fuels tax amount and data on vehicle miles traveled was obtained from the Department of Transportation.

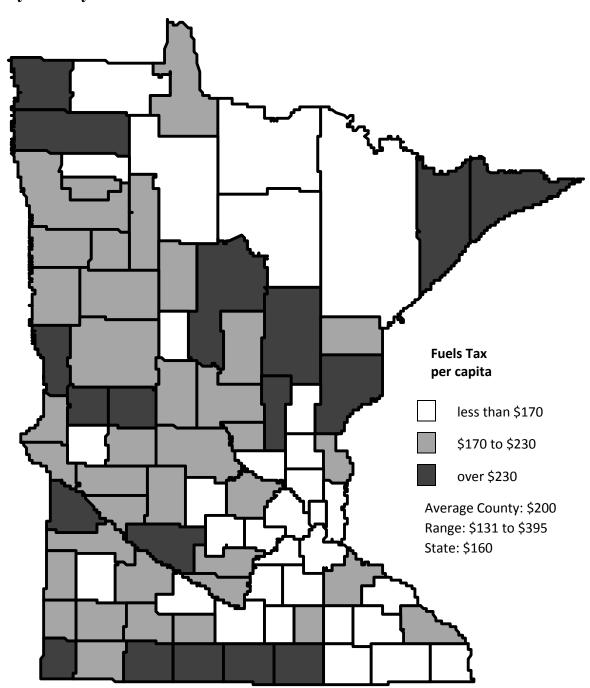

Recent Law Changes

The 2008 transportation finance act provided for a phased-in increase in the motor fuels tax. The tax increased by 2 cents to 22 cents per gallon on April 1, 2008, and the rate phased in over ensuing years to 28.5 cents per gallon on July 1, 2012. In 2009 only, low-income individuals were eligible to claim a refundable income tax credit of \$25 to offset the motor fuels tax increase. The credit was repealed in 2010.

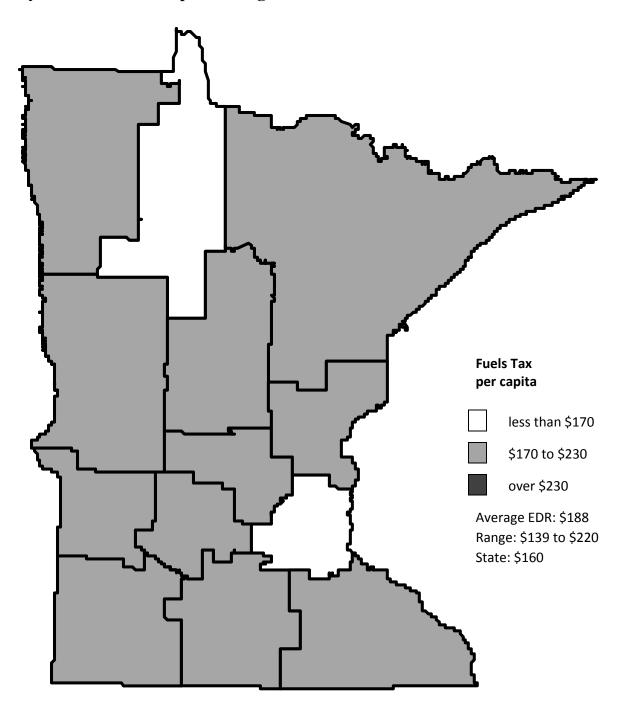

¹³ Alternative fuels, such as liquefied natural gas and high-alcohol gasoline, are taxed at rates proportional to relative energy content.

¹⁴ Previous years' reports indicated that the total was the net after distributions, but the reporting changed several years ago so the amount shown was actually the gross.

Statewide Motor Fuels Tax

Corporate Franchise (Income) Tax

Program Description

Corporate franchise (income) tax is imposed on the net income of corporations. The rate of the tax is 9.8 percent. The tax base is federal taxable income with a variety of Minnesota adjustments. Corporations that do business both inside and outside of Minnesota apportion their income using a three-factor formula based on the share of the corporation's total property, payroll, and sales that are in Minnesota. Prior to 2007, the formula weighted sales 75 percent and property and payroll 12.5 percent each. Beginning in 2007, the formula gradually phases in 100 percent sales apportionment, reaching that percentage in 2014.

An alternative minimum tax (AMT) applies to federal alternative minimum taxable income, if it would result in a higher tax than the regular corporate franchise tax. This tax rate is 5.8 percent. A minimum fee is imposed on corporations (including S corporations) and partnerships in addition to the regular tax or the AMT. The minimum fee ranges from \$100 to \$5,000, depending upon the corporation's sales, property, and payroll in Minnesota. 15

Tax Amount and Reporting

2013 Corporate Income Tax: \$1,057.1 million

The amount presented in this report was tabulated from all Minnesota corporate income tax returns filed during the calendar year ending December 31, 2013. (Most returns filed in 2013 were for calendar year 2012, but the total also includes some calendar year 2011 returns.) The total statewide amount of \$1,057.1 million includes taxes collected from corporations whose main offices are in other states and foreign countries. It does not include any taxes or minimum fees paid by S corporations or partnerships.

The corporate income tax data was obtained from the Department of Revenue. The location of each corporation's home office is not available. Instead, each county's total sales, reported in the U.S. Census Bureau's Survey of Business Owners, are used as an indicator of the source or location of the corporate tax.

Corporate tax for 2009 to 2011 was allocated using the Census Bureau's 2007 Survey¹⁶, adjusted for the change in gross sales from year to year in Department of Revenue data on gross sales of businesses reporting sales tax. The 2012 and 2013 state total of corporate tax was allocated using the Census Bureau's 2012 Survey, with the 2013 data adjusted for the change in gross sales from 2012 to 2013.

¹⁵ Beginning in tax year 2013, the minimum fee amounts increase to \$190 to \$9,340 and are indexed for inflation in following years.

¹⁶ 2007 sales for Lake of the Woods County were unavailable. 2007 sales in Lake of the Woods County were estimated by increasing 2002 sales in Lake of the Woods County by the same percentage that sales increased statewide.

In addition to the total dollar amount of corporate tax shown by region and by county in sections 2 to 4 of the report, the tables below summarize statewide data by unitary/nonunitary and by type of corporation/return.

By Unitary/Nonunitary Returns¹⁷

Total	62,294	100.0%	\$1,057,094,318	100.0%	\$16,969

¹⁷ Related corporations, such as subsidiary, brother-sister, and parent corporations, must file on a unitary basis. For these corporations, the denominator of the three-factor apportionment formula (property, payroll, and sales) includes the factors of all the corporations in the unitary group. The numerator is the factors of the individual corporation, and the taxable income apportioned is the total income of the unitary group.

Statewide Corporate Franchise Tax

State General Levy

Program Description

A state general property tax levy was instituted as part of the overall property tax reform adopted during the 2001 legislative session. Ninety-five percent of the state general levy is levied on commercial/industrial property (including public utility property), and the remaining 5 percent is levied on seasonal recreational property. That portion of public utility property consisting of attached machinery used in the generation of electrical energy is exempt from the state general levy, as well as the property at the Minneapolis-St. Paul International Airport and the St. Paul intermediate airport.

For its first year in taxes payable 2002, the state general levy was \$592 million. Each subsequent year's levy is increased from the previous year's levy by the increase in the implicit price deflator for government consumption expenditures and gross investments published by the U.S. Bureau of Economic Analysis (an index of inflation). ¹⁸

Tax Amount and Reporting

Payable Year 2013 State General Levy: \$839.9 million

The total state general levy for taxes payable in 2013 was \$839.9 million.

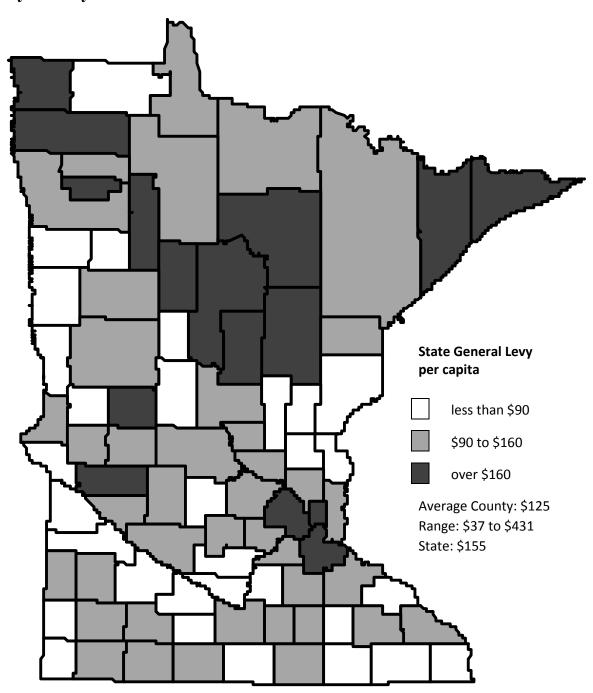

For taxes payable in 2013, the state tax rate was 52.523 percent for commercial-industrial/public utility property and 22.327 percent for seasonal recreational property, which provides revenues of \$798.0 million and \$41.9 million respectively.¹⁹

The tax rates are computed by the Department of Revenue.

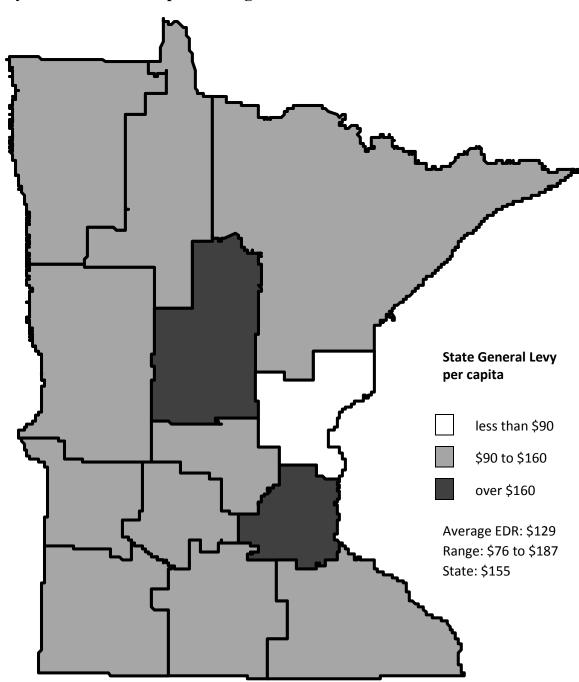

¹⁸ The historical graphs throughout this report adjust for inflation using the implicit price deflator for state and local government expenditures, as published by the U.S. Bureau of Economic Analysis, a slightly different measure than the general government expenditure index used to adjust the state general levy amount. Use of a different measure explains why the inflation-adjusted line in the graph on page 96 is not the same as the nominal line.

¹⁹ In addition to the amount formally levied, an additional amount of approximately \$2.4 million is collected from properties that are not included in the abstract of assessment (i.e., the majority of the tax is on certain transmission and distribution line property). This amount is not included in this report because its distribution is unknown.

Statewide State General Levy

2. Summary Data

This section contains summary data for the most recent available year on

- statewide totals
- the seven metro and the 80 nonmetro counties
- the 13 economic development regions

A sample table and a general explanation of the tables in sections 2, 3, and 4 of the report precede the data.

General Explanations of Tables

The basic format is the same for all the regional and county tables in sections 3 and 4 of the report. (See adjacent page.)

I. MAJOR STATE AIDS/CREDITS. Although all of the aids/credits listed are paid by the state, there are three types of aids/credits.

A. Aids to Local Governments

- Are paid to or for the benefit of the local taxing district
- Are paid on behalf of individuals in the county (MinnesotaCare)
- Reduce what is needed from the property tax levy

B. Property Tax Credits

- Are paid to the local taxing district, but are listed on the property tax statement as a credit against the property's gross tax
- Benefit only certain types of property
- Are computed on a parcel-by-parcel basis on qualifying property

C. Property Tax Refunds (Circuit Breaker/Targeting)

- Are paid directly to homeowners and renters (property tax refund)
- Are based upon a relationship between household income and the homeowner's property tax or the renter's share of property tax (property tax refund)
- Are targeted to homeowners who have large property tax increases in one year (targeting)

II. PROPERTY TAX DATA

- **A. Property Tax Levy** for taxes payable in 2013 by type of taxing district, including the state property tax levy
- **B.** Property Valuation of taxable real and personal property for the 2012 assessment (taxes payable in 2013), including the total market value, referendum market value, and net tax capacity
- C. The Average Tax Rates for taxes payable in 2013 of the local net tax capacity and referendum market value

III. MAJOR STATE TAXES

- Individual income tax
- Sales/use tax
- Motor vehicle sales tax
- Motor vehicle registration tax
- Motor fuels tax (i.e., gas tax)
- Corporate income tax
- State general property tax

The motor vehicle sales tax, the motor vehicle registration tax, the motor fuels tax, and the corporate income tax have been included in this report on a county-by-county basis. However, the county amounts are estimates since actual collections by county are not available. (See the sections for each of the apportioned taxes for detail on the county apportionment calculations.)

Statewide Summary

Tables 2-1 and 2-2 contain the statewide totals of all the state aids and taxes presented in this report. Table 2-1 summarizes the total amounts for Minnesota residents only; Table 2-2 also includes income and sales taxes paid by nonresidents.

2013 population is used to calculate per capita amounts in the tables and maps throughout the report.

The total state aids and credits contained in this report equal about \$14.2 billion, whereas the total of the seven major taxes listed in this report equal \$16.35 billion paid by residents and an additional \$1.35 billion paid by nonresidents (for a total tax amount of \$17.7 billion).

The total taxes presented in this report are not the total of all taxes collected by the state. The total state net tax receipts were about \$18.8 billion in fiscal year 2012 and \$20.5 billion in fiscal year 2013. Furthermore, the taxes presented in this report are not for a specific time period but rather are the latest available data and/or the next data in sequence to the 2012 Update report (published April 2016). Therefore, the \$17.7 billion total taxes listed in this report (residents and nonresidents) is about 90 percent of the total taxes actually collected over that period.

The taxes not contained in this report include estate, mortgage registry and deed, insurance gross premiums, MinnesotaCare, mineral, cigarette and tobacco products, lawful gambling, and alcoholic beverages. The collections from some of these taxes are dedicated for specific purposes, and amounts are not available by county.

Metro/Nonmetro Data

Tables 2-3 and 2-4 contain data comparing the metro and nonmetro counties. The metro counties are the Twin Cities seven metropolitan counties—Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington. The nonmetro counties are the remaining 80 counties in the state.

Table 2-3 has the metro and nonmetro dollar amounts of aids and taxes and a per capita comparison.

Table 2-4 presents a statewide breakdown of metro versus nonmetro for each of the categories. Each item adds across to 100 percent; for example 56.0 percent of the education aid goes to metro counties and 44.0 percent goes to nonmetro counties.

2013 population is used to calculate per capita amounts in the tables and maps throughout this report.

Note: The metro and nonmetro totals add to the state totals in Table 2-1, which include only Minnesota residents.

The additional amounts paid by out-of-state taxpayers have not been allocated to any county. The amount of sales and income taxes which is unallocated to Minnesota is about \$1.3 billion. Appendix B has a list of the type of tax and amounts not entirely allocated to Minnesota counties.

3. Regional Data

There are four statewide maps comparing various tax/aid factors.

- Map on page 110 is total per capita aid and credits by economic development region
- Map on page 111 is total per capita taxes (residents only) by economic development region
- Map on page 112 is per capita personal income by county
- Map on page 113 is per capita personal income by economic development region

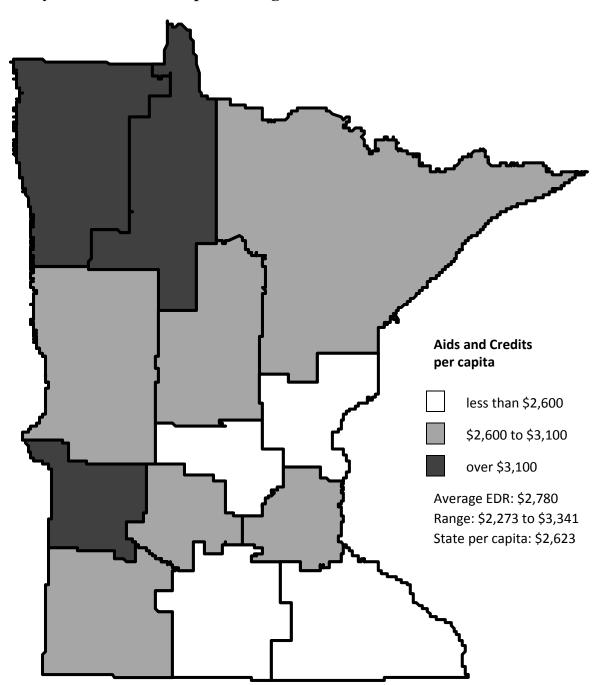

Table 3 compares the state aid/tax data for each of the 13 regions with the statewide totals. There is a separate table for each region.

Statewide per capita amounts exclude income and sales taxes paid by nonresidents of Minnesota.

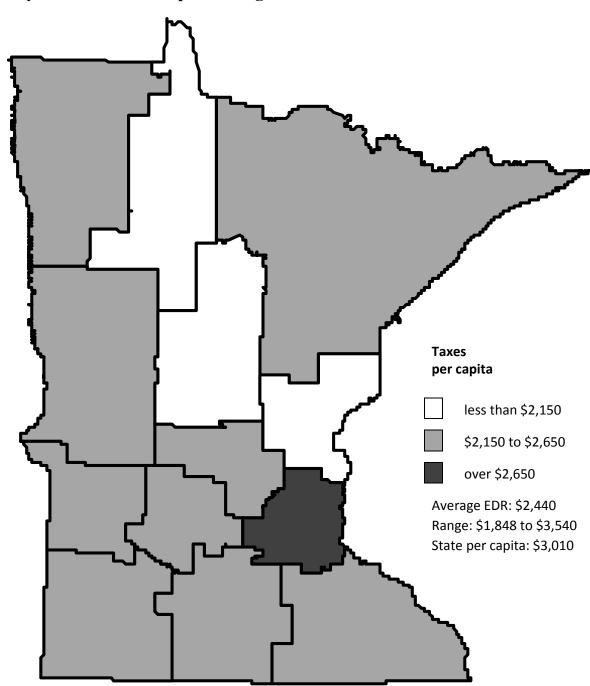

The map of Minnesota on page 4 and table on page 5 show the counties that are located in each of the 13 economic development regions.

2013 population is used to calculate per capita amounts in the tables and maps throughout this report, except for Appendix C and the maps on pages 112 and 113.

Total Aids and Credits (\$14.2 billion), per capita by Economic Development Region

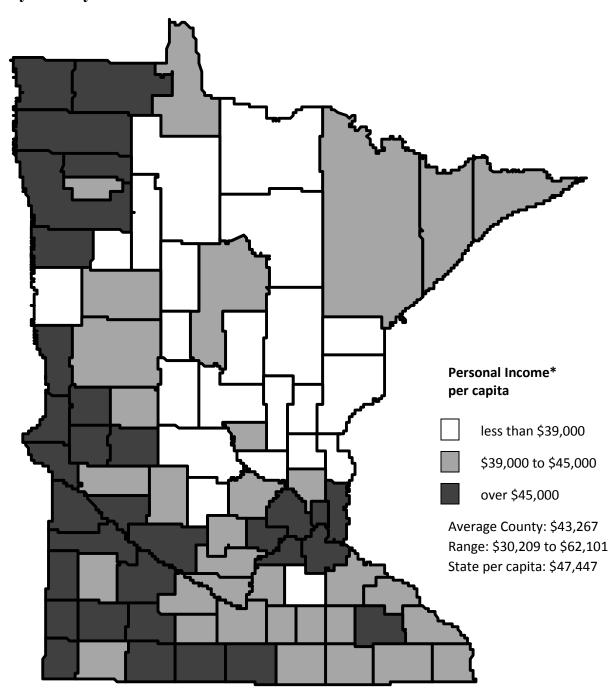

Total Taxes (\$16.3 Billion),* per capita by Economic Development Region

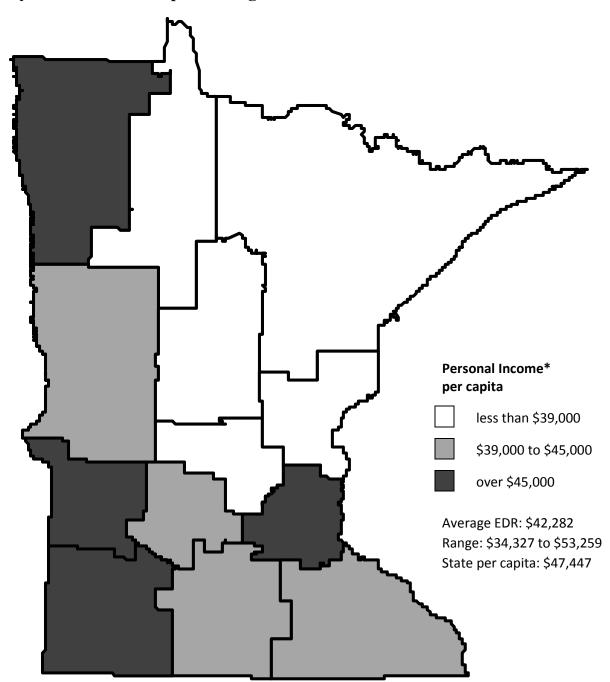

^{*} Total taxes include only the taxes on residents. The \$1.3 billion paid by nonresidents and not allocated to Minnesota counties is excluded.

Personal Income (\$257.1 billion in 2013), per capita by County

^{*}See Appendix C for listing of Personal Income by County and definition of Personal Income.

Personal Income (\$257.1 billion in 2013), per capita by Economic Development Region

^{*}See Appendix C for listing of Personal Income by County and definition of Personal Income.

4. County Data

This section compares data from each county with statewide data and data from the economic development region in which the county is located. The counties are listed in alphabetical order. There is a separate table for each county.

Statewide per capita amounts exclude income and sales tax paid by nonresidents of Minnesota.

The table on page 6 shows 2013 estimated population, which was used for each county in determining the county and region per capita amounts. 2013 population is used to calculate per capita amounts throughout this report.

					<u> </u>

NOTE: The human service amounts were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$70.0 million, which was allocated to the counties on a per capita basis (\$5.5 million estimated to Lincoln county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$70.0 million, which was allocated to the counties on a per capita basis (\$8.0 million estimated to Murray county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$70.0 million, which was allocated to the counties on a per capita basis (\$8.7 million estimated to Pipestone county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

NOTE: The human service amounts were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$70.0 million, which was allocated to the counties on a per capita basis (\$14.8 million estimated to Redwood county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

_						

NOTE: The human service amounts were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$70.0 million, which was allocated to the counties on a per capita basis (\$8.9 million estimated to Rock county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the various programs such as MFIP, etc.

Appendix A

Education aids include state aid for general education, special education, transportation, community education, capital expenditure, secondary vocational, and other miscellaneous programs, as well as charter school aid. Education aid paid to school districts that operate in more than one county is apportioned to the various counties based on each county's share of total residential market value in the school district.

Education Aids by County and by School District 2012/2013 School Year
