House Research Department Major State Aids and Taxes A Comparative Analysis

1996 Update

April 1998

This report presents a comparative analysis of the major state aids and taxes in Minnesota. This data has been distributed in various formats by House Research for over ten years, although many of the reports in earlier years contained significantly less information.

This report was prepared by **KAREN BAKER** and **NINA MANZI**, Legislative Analysts. **TRENT GILLISS** provided secretarial support. **AMY SIMONSON** provided research assistance. Copies of this report may be obtained by calling (651) 296-6753.

Questions may be directed to:

٠	KAREN BAKER	(651) 296-8959
•	NINA MANZI	(651) 296-5204

This publication can be made available in alternative formats upon request. Please call (651) 296-6753 (voice); or the Minnesota State Relay Service at 1-800-627-3529 (TTY) for assistance.

Introduction

This report presents a comparative analysis of the major state aids and taxes in Minnesota. It is a reference document and is **NOT INTENDED** to be a complete list of all the aids and credits paid by the state and all the taxes collected by the state. The report contains data on:

- **Major State Aids** including education aid, human services aid, highway aid, local government aid (LGA), disparity reduction aid, homestead and agricultural credit aid (HACA), county criminal justice aid, community corrections funding, property tax refund, and targeting.
- **Property Tax Data** including property tax levies by type of taxing district, miscellaneous property tax credits, property valuation data and average tax rates
- **Major State Taxes** including individual income tax, sales/use tax, motor vehicle excise tax, motor fuels tax, motor vehicle license tax, and corporate franchise (income) tax

[Go to regional data.] [Go to county data.]

The report is divided into four main sections.

Section 1 discusses the state aids, property tax data and state taxes and gives the assumptions and caveats for using the report. It contains current and historical data using graphs, maps, and tables in both total dollars and on a per capita basis.

Section 2 presents STATEWIDE SUMMARY DATA. A sample table with a general explanation introduces the section. The section contains summary data for the most recent available year on the statewide totals and compares the metro and the non-metro economic development regions to each other.

Section 3 compares aid and tax data for the most recent available year for each of the 13 ECONOMIC DEVELOPMENT REGIONS to total statewide data.

Section 4 compares aid and tax data for the most recent available year for each **COUNTY** to total statewide data, and to the economic development region in which the county is located.

1. Current and Historical Data

Section 1 contains the most recent available data for the major state aids, credits, and taxes, and describes the programs under the general categories in the tables of this report. The assumptions and caveats when using the report are mentioned in this section. In addition to information from the most recent year, section 1 also contains historical information. Where possible, the data is for a five-year time period. However, fewer years may be displayed in the cases where program changes have made data not comparable or the data is not readily available for a full five years.

Section 1 is divided into three parts. They are:

- Major state aids
- Property tax data
- Major state taxes

Some of the data in this section relates to county level, while other tables and graphs are by region or groupings of regions. One table and one graph use northern and southern groupings of the 80 non-metro counties. The groupings were selected for convenience, rather than for any specific analytical purpose. The northern and southern regions are grouped as follows:

Northern Regions		South	ern Regions
1	Northwest	6E	Six East
2	Headwaters	6W	Upper Minnesota Valley
3	Arrowhead	7W	Central Minnesota
4	West Central	8	Southwest
5	Five	9	Nine
7E	East Central	10	Southeastern Minnesota

The seven metro counties are not included in either the northern or southern regions. A map on page 5 shows the counties and the economic development regions followed by a table on page 6 listing the 1996 county population estimates, which were used to calculate per capita amounts in the report.

The standard format for each aid or tax consists of five or six pages of information. The first three (or four) pages contain information and data for the latest available year; the last two contain historical data.

FIRST PAGE:* A program description of the aid or tax. It also contains the statewide amount for the most recent available year, any relevant reporting information, and the source of the data. In some cases, summary tables itemizing the data in different ways (e.g., by program totals) are included. Any recent law changes that affect the program and are important in analyzing the data are noted on this page.

SECOND AND THIRD PAGES: A map showing the per capita distribution of the aid or tax by **county** for the most recent year (second page) and by **economic development region** (EDR) for the most recent year (third page).

The counties were grouped by dividing the data range for each aid and tax into four segments. The map legend shows the size of the four segments, the per capita amount received or paid by the average county or economic development region (EDR), the range from lowest to highest amount per capita, and the overall statewide per capita amount. In some cases, a small number of counties may have per capita aid or tax amounts much higher or lower than all other counties. For purposes of comparability, the groupings constructed on the county data ranges were also used for maps presenting data by economic development region.

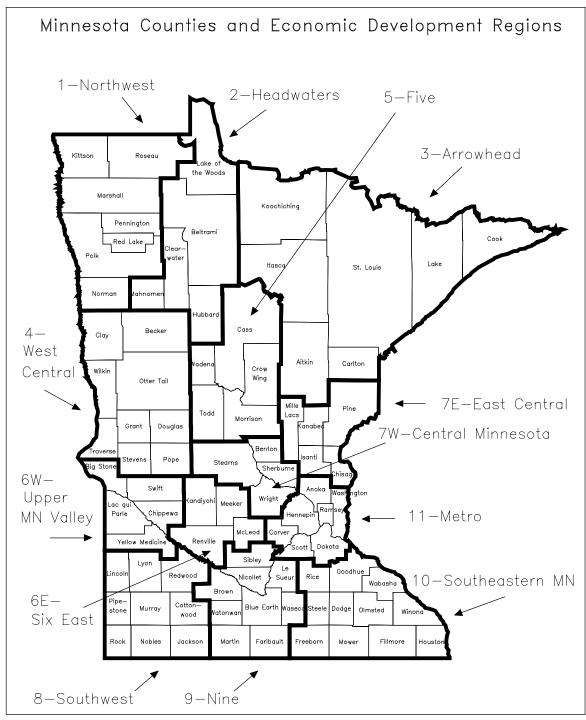

All maps are on a per capita basis for comparability among counties and consistency with tables used in the report. For some aids and taxes, however, other measures would probably be more appropriate. For example, a measure incorporating per pupil units could provide insight into the distribution of education aid. Construction of such measures on a county basis is beyond the scope of this report due to time and data limitations. Where appropriate, footnotes are provided suggesting alternatives.

FOURTH PAGE: A table containing the historical data for the state and the geographic areas of the state. The right hand column shows a percentage change for the time period presented, calculated using current dollars (e.g., not adjusted for inflation). Hennepin and Ramsey counties are shown separately from the rest of the metro counties on this page and the next one because of their greater size, and because each contains a city of the first class.

At the bottom of this page is a statewide graph containing a trend of the data in current (actual) dollars and in constant (inflation-adjusted) dollars. This is the only place where amounts presented are adjusted for inflation.

FIFTH PAGE: The bar graph on the last page of each set shows a per capita aid or tax, comparing the first year and the last year of the time period, unadjusted for inflation. The statewide per capita is shown on the top line, followed by the 12 non-metro economic development regions. In the case of the metro region, Hennepin County and Ramsey County are shown separately, followed by the remaining five metro counties.

^{*}For some of the aids or taxes, this discussion takes two pages.

House Research Graphics

The 1996 population estimates listed below, determined by the state demographer, are used to calculate all per capita amounts in the report.

Education Aid

Program Description

Education Aid is the total amount of state aid paid to school districts for all K-12 educational purposes. This amount includes state aid for general education, special education, transportation, community education, capital expenditure, secondary vocational, and other miscellaneous programs. About 77 percent of the total aid is "general education aid," which is distributed through an equalization aid formula to school districts on an entitlement basis using each school district's pupil count and relative property wealth as its primary factors.

Aid Amount and Reporting

1995/1996 Education Aid: \$3.5 billion

The total education aid for the 1995/1996 school year is \$3,535,738,009. The amounts received by school districts for property tax credits (i.e., taconite homestead credit, disparity reduction credit, etc.) are not included in this amount since they are itemized elsewhere in the report.

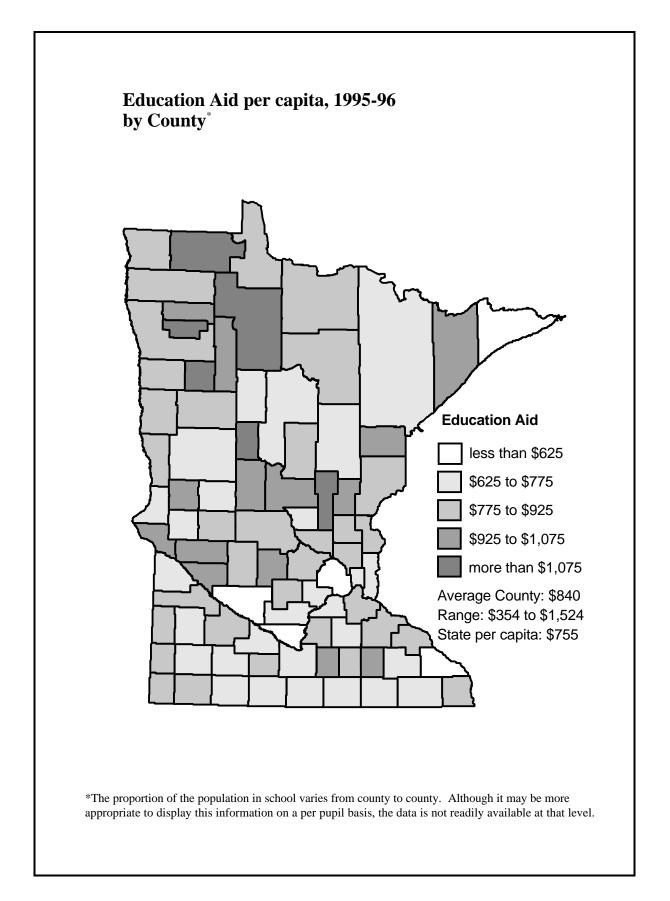

All education aids are reported by home county, that is, the county where the school district's administrative headquarters is located. If a school district is located in more than one county, the total aid for that school district is included in the home county's aid amount. Data by school district by county portion is not available. Education aid by home county by school district, obtained from the Department of Children, Families and Learning is listed in Appendix A.

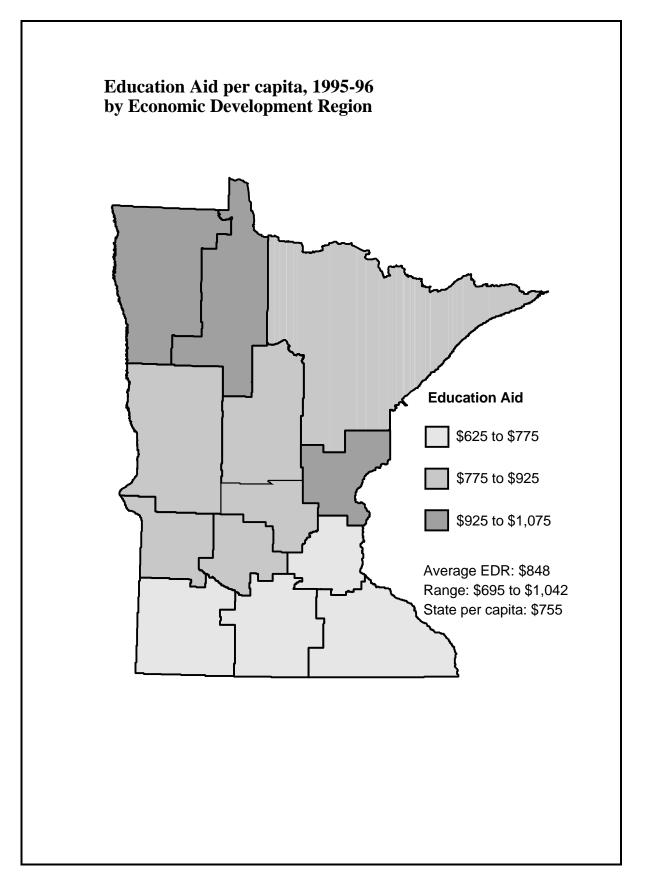

The education aid total does not include \$6,754,963 that went to the 17 charter schools operating in 1995/1996, and also does not include lesser amounts spent on metropolitan intermediate school districts and non-metropolitan educational cooperative districts.¹

Recent Law Changes

The 1995 Legislature substantially increased the percentage of K-12 education costs that are funded through state education aid, as opposed to local property tax levies. This accounts for the increase in education aid from \$2.8 billion in 1994/95 to \$3.5 billion in 1995/96.

¹ In 1995/96, metropolitan intermediate school districts #287, #916, and #917 received \$5,600 in education aid, and non-metropolitan educational cooperative districts received \$653,632 in aid. Before 1994/95, larger amounts of educational aid were paid directly to intermediate districts and educational cooperative districts. Since that time, additional aid has been paid to school districts which, in turn, distribute the aid to intermediate and cooperative districts. This change in aid distribution has resulted in a substantial decrease in aid paid directly to intermediate and cooperative districts.

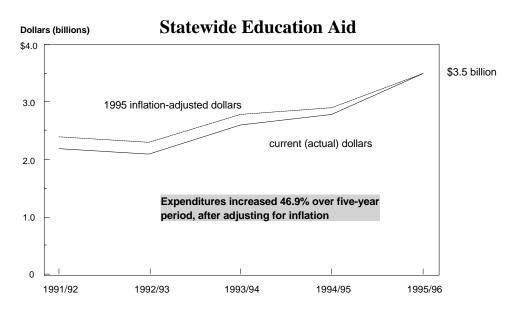

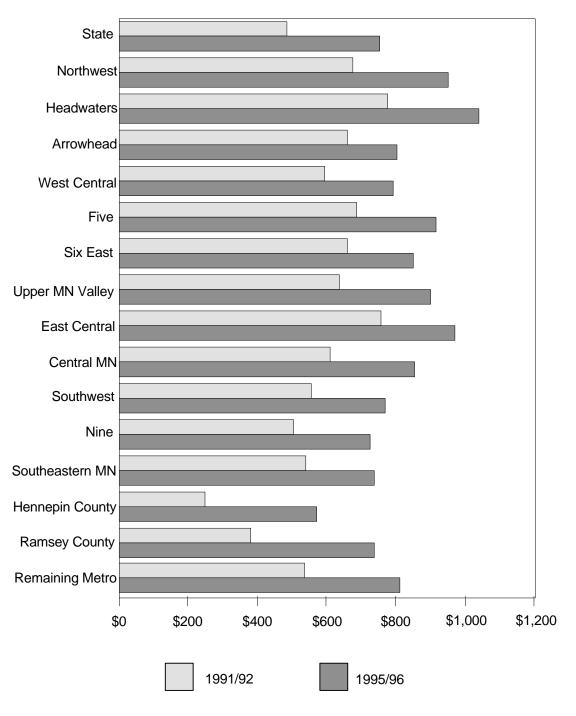

The Past Five Years of Education Aid

The table below shows the distribution of education aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of education aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

	Current dollars, in thousands						
	1991/92	1992/93	1993/94	1994/95	1995/96	5 Yr. Chg. Aid

Education Aid: 1991/1992 School Year to 1995/1996 School Year Current dollars, in thousands

Per Capita Education Aid 1991/92 and 1995/96

Human Services Aid

Program Description

Human Services Aid is the total amount of state aid for human services programs, including all income maintenance and social service programs. Although the federal government and the counties contribute money to programs in varying degrees, the amounts in this report reflect only the <u>state's share</u> of the human service costs.

Aid Amount and Reporting

Calendar Year 1995 Human Services Aid: \$2.0 billion

The state's share of the human services expenditures for calendar year 1995 is \$2,021,340,933. The statewide amounts by program are listed below.

Type of Program	Amount	Percent
Medical Assistance (MA)	\$1,189,428,717	58.8%
Aid to Families with Dependent Children (AFDC)	145,163,326	7.2
General Assistance (GA)	54,613,048	2.7
General Assistance Medical Care (GAMC)	158,860,666	7.9
Social Services (including CSSA)	407,408,364 ²	20.2
Miscellaneous:		
Minnesota Supplemental Assistance	54,672,938	2.7
Work Readiness	7,918,418	0.4
Food Stamp Delivery	61,488	0.0
Title IV Child Support	3,018,170	0.1
Other	382,881	0.0
Total	\$2,021,528,016	100.0%

² Includes \$91.1 million for the state's share of the cost of care for certain clients in regional treatment centers and \$29.5 million for the state's share of chemical dependency programs.

Minnesota counties collect mortgage registration and deed tax. They retain 3 percent of the tax and the remaining 97 percent is an offset against the state's share of human service programs. In prior year reports those amounts were shown in a separate table in the appendix. However, beginning with data for 1992 and subsequent years, the amounts are directly incorporated into the state aid amounts provided by the Department of Human Services and therefore, are included in the tables of this report.

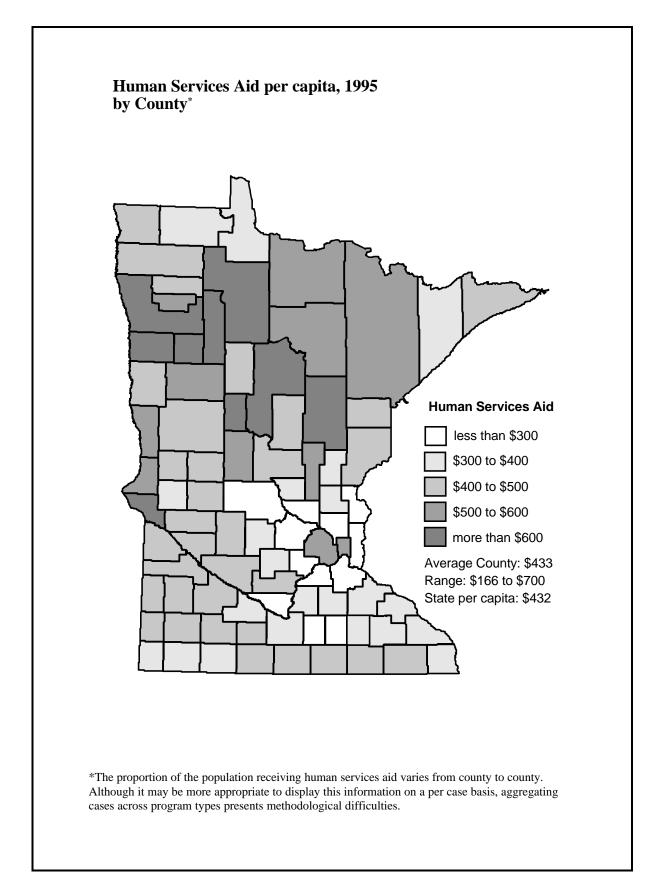

The human service amounts are not available by county in two cases:

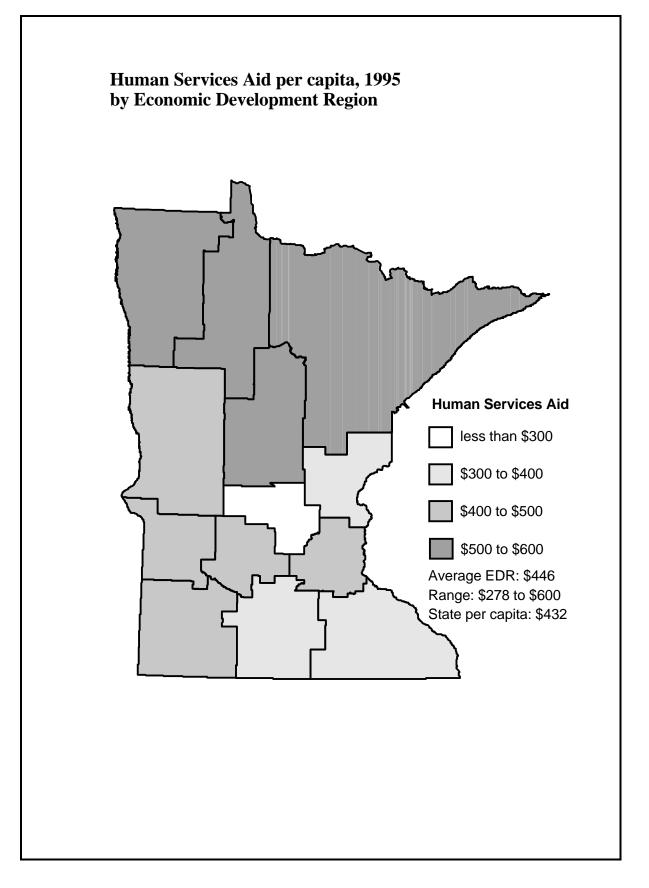

- Region VIII N—Lincoln, Lyon, and Murray
- Human Service Board—Faribault and Martin³

In these two groups, human services aid is administered through a "home" county: Lyon in Region VIII N and Faribault in the Human Service Board. The total human service amount for Region VIII N is \$17.4 million and for the Human Service Board, \$17.6 million. On the county tables, all of Region VIII N's amount is listed in Lyon County and all of the Human Service Board's amount is listed in Faribault County. A per capita estimate for these five counties appears in a footnote on the respective county tables.

Human services aid data was obtained from the Department of Human Services, Financial Management Division.

³ Prior to 1991, Watonwan was included in the Human Service Board. In 1991, Watonwan County left the joint county board and became responsible for its own human service programs.

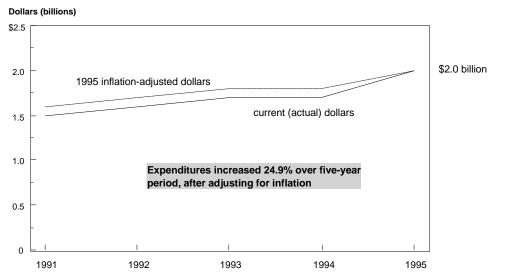

The Past Five Years of Human Services Aid

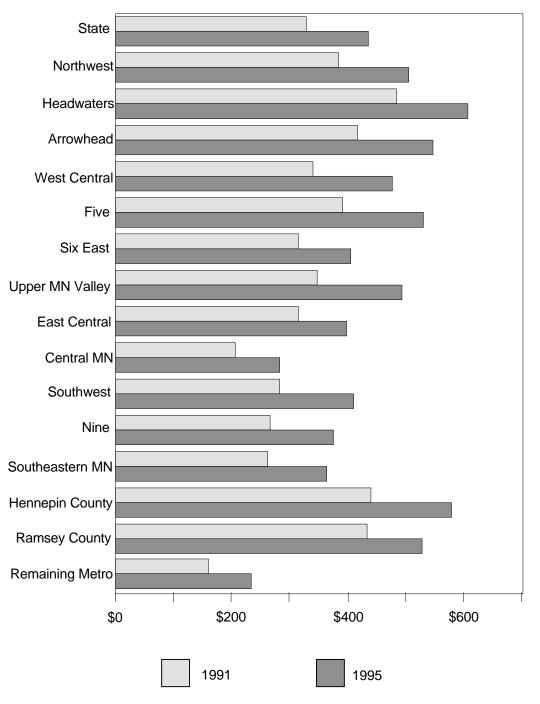

The table below shows the distribution of human services aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of human services aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

1005

Statewide Human Services Aid

Per Capita Human Services Aid 1991 and 1995

•

Highway Aid

Program Description

Highway Aid is the total amount of state aid distributed to counties, cities with more than 5,000 persons and towns for highway purposes. It includes three basic types of aid: (1) amounts distributed according to constitutional formula to all counties and to cities with population over 5,000, (2) amounts distributed to counties, cities and towns from state bridge bond proceeds; and (3) amounts distributed to towns for town roads and bridges. The sources of these funds are the Highway User Tax Distribution Fund, a portion of motor vehicle excise tax revenues, and proceeds from state bridge bonds.

Aid Amount and Reporting

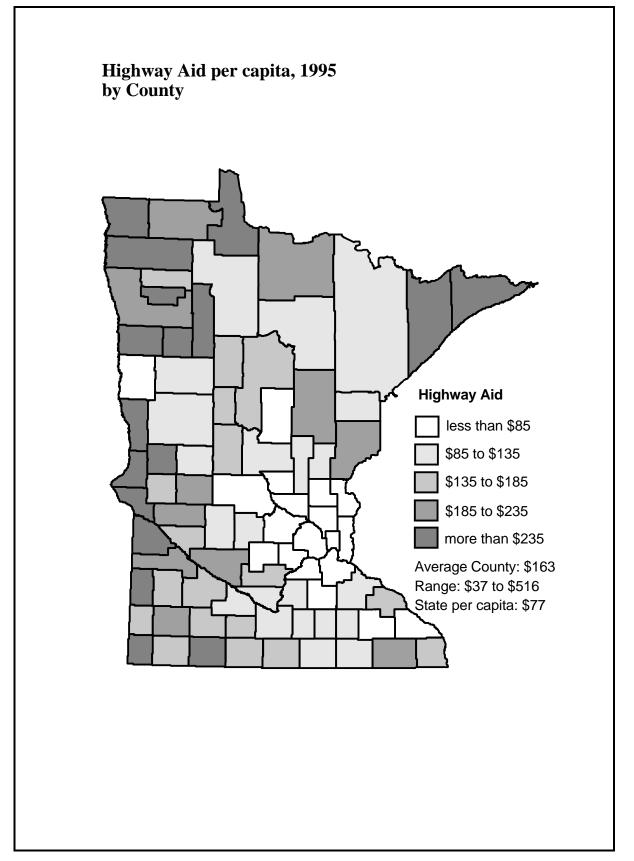

1995 Highway Aid: \$359.6 million

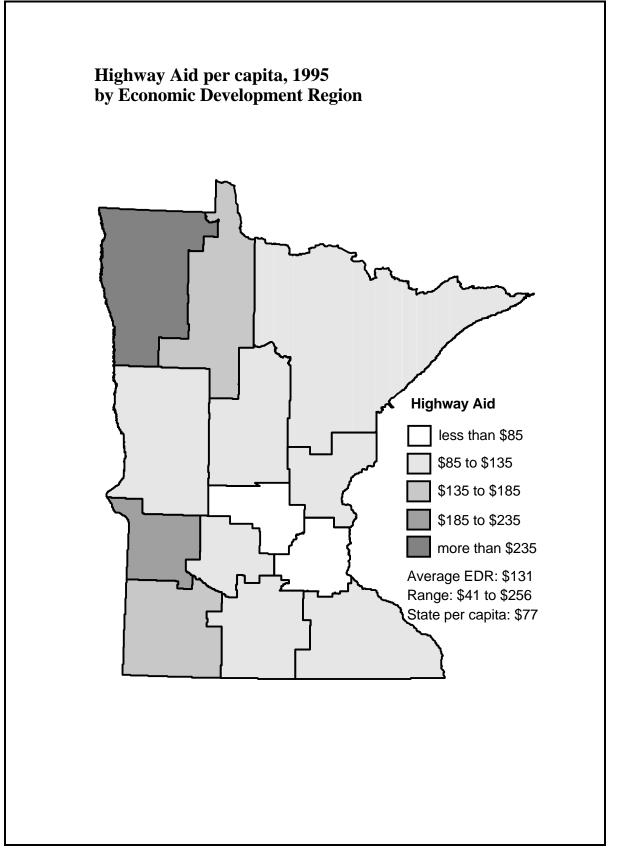

The total state highway aid paid in calendar year 1995 to the counties, cities (i.e., municipal) and towns is shown below by category.

Type of Highwa	y Aid	<u>Amount</u>		<u>Total</u>
County Aid	County State Aid	\$249,926,147		
	County Bridge Funding	5,582,248		
			County	\$255,508,395
Municipal Aid	Municipal State Aid	\$81,718,700		
	Municipal Bridge Funding	271,036		
			Municipal	\$81,989,736
Township Aid	Town Road Account	\$13,475,974		
	Town Bridge Account	7,092,619		
	Town Bridge Funding	1,592,974		
			Township	<u>\$22,098,567</u>
		Total H	Iighway Aid	\$359,596,698

The county and the municipal turnback account money (excluding the money in the town road and town bridge accounts shown above) is **not** included in the above totals. In 1995, there was approximately \$29.8 million in the county turnback account and \$7.4 million in the municipal turnback account (including the current year allotment). This \$37.2 million is used, as needed, on former state highways which have been "turned-back" to the counties and municipalities. Of those funds, \$14.1 million was spent in 1995. The amount spent in each county is not readily available.

Highway aid data was obtained from the Department of Transportation.

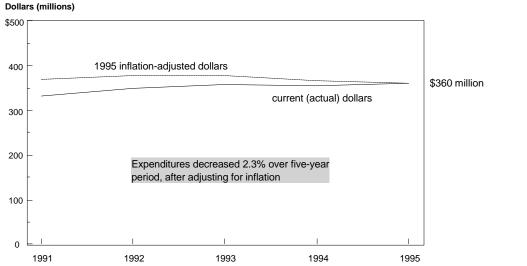

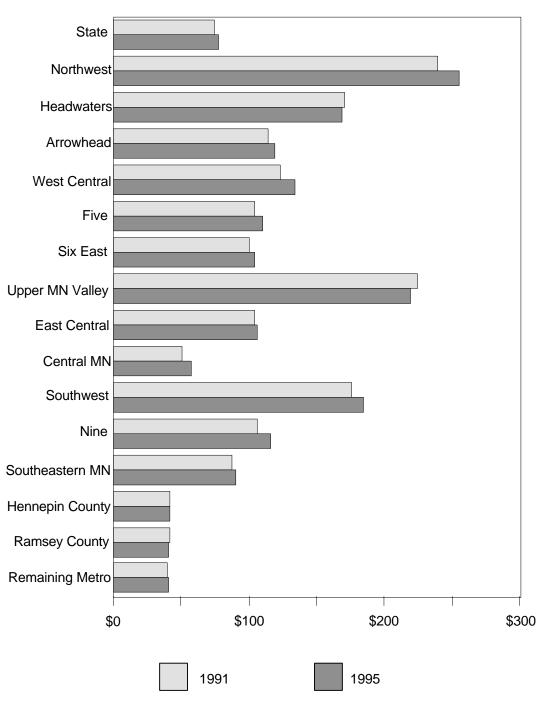

The Past Five Years of Highway Aid

The table below shows the distribution of highway aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of highway aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

Highway Aid: 1991 to 1995 Current dollars, in thousands						
State	1991 \$332,760	1992 \$348,312	1993 \$350,758	1994 \$354,305	1995 \$359,597	5 Yr Chg. Aid 8%

Statewide Highway Aid

Per Capita Highway Aid 1991 and 1995

•

Local Government Aid

Program Description

Local Government Aid (LGA) is a state program that provides property tax relief by giving general purpose financial support to local governments. It is not a categorical aid. The majority of the money distributed under the program is guaranteed (i.e. grandfathered). Increases in town LGA are proportional, based on payments in the previous year. The method for distributing city LGA increases changed significantly beginning with aids payable in 1994.

The change to the city LGA system was enacted during the 1993 legislative session. Beginning with aids payable in 1994 the amount of LGA a city received was the sum of the following:

- the city's **aid base** which is equal to the amount of LGA, equalization aid, and disparity reduction aid received by the city in 1992; plus
- the city's **formula aid** which is based on the relative difference between the city's need and its ability to pay.

The city's need is determined by four characteristics - city size, population decline, percent of the property in the city classified as commercial or industrial, and the age of the housing stock. Ability to pay is the city's adjusted tax capacity. In 1996 about \$321 million of the city LGA is in the aid base and about \$26 million is distributed via the formula.

Aid Amount and Reporting

1996 Local Government Aid: \$351 million

The total amount of local government aid (LGA) that was available to all taxing districts for distribution for calendar year 1996 was \$350,597,699:

- Cities received \$347,296,579
- Towns received \$ 3,301,120

Counties have received no aid under the LGA program since 1992.

This \$350.6 million is **after** the subtraction of about \$500,000 for various state administrative expenses, and **before** the subtraction of any reductions for certain tax increment financing (TIF) districts as listed in the table on the following page.

Municipal Aid Reductions 1996 Aid Year

* This reduction was a full or partial HACA reduction.

** The Cook County/Grand Marais Joint Economic Development Authority established a tax increment financing district in Lutsen Township. Through an agreement between Cook County and Grand Marais, the county receives the entire TIF municipal aid reduction; the \$30,526 was deducted from HACA since the county does not receive LGA.

Local government aid data was obtained from the Department of Revenue.

Recent Law Changes

Below is a summary of the changes to LGA in recent years.

1993 aid changes:

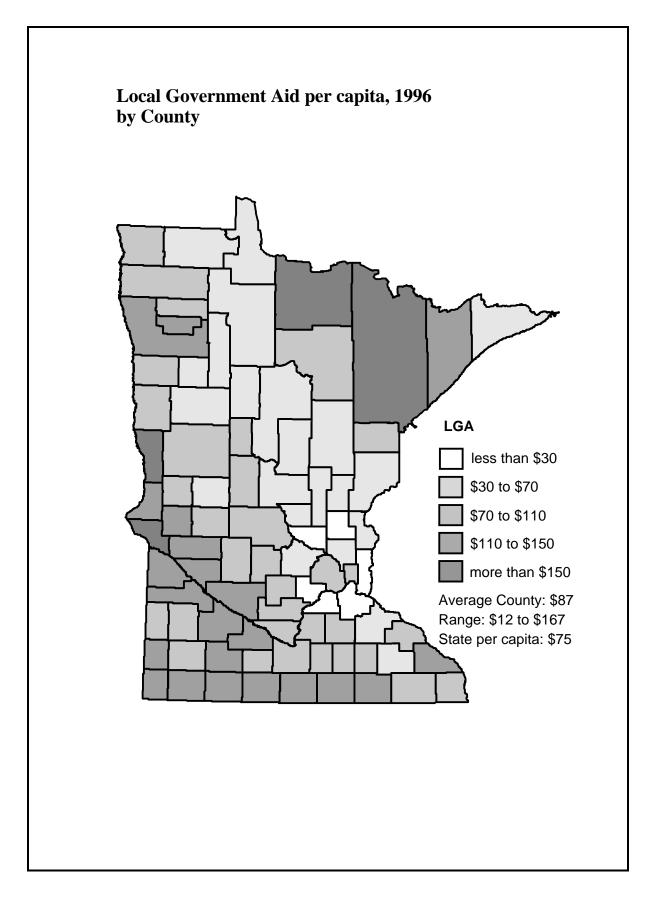

• Permanent increase of \$1 per capita in the LGA payment to each town.

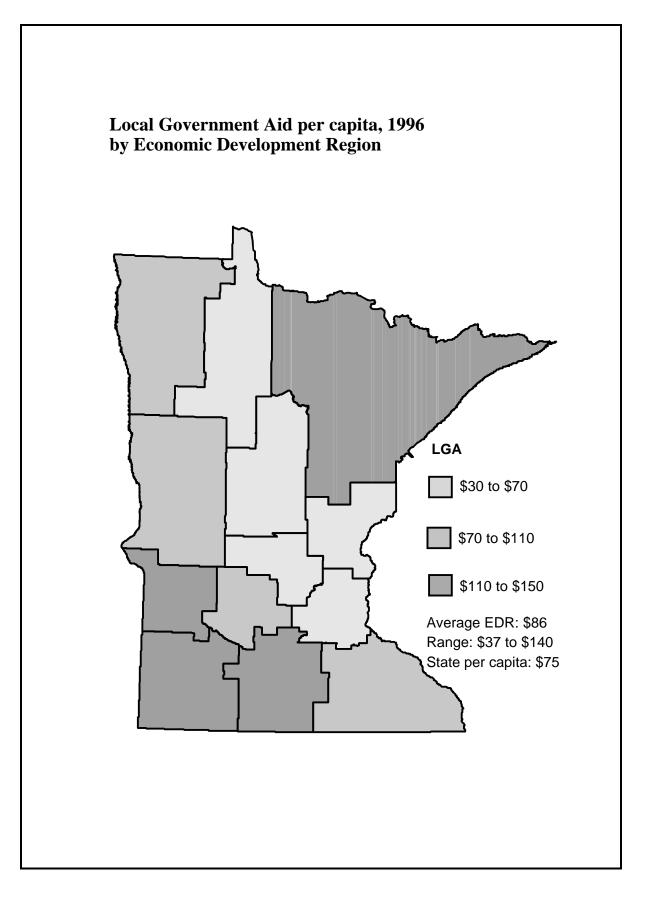

1994 aid changes:

- Equalization aid and the city share of disparity aid were folded into city LGA.
- A new formula for allocating increases in city LGA was adopted.
- A provision allowing for automatic increases in the city and town LGA appropriations, based on inflation, was adopted.

1995-1996 aid changes:

• No significant changes.

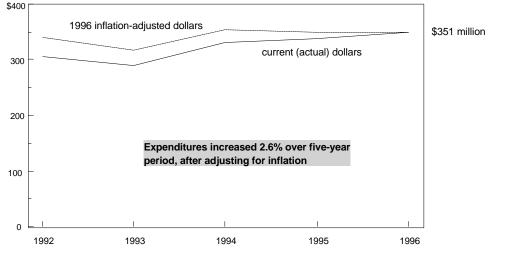

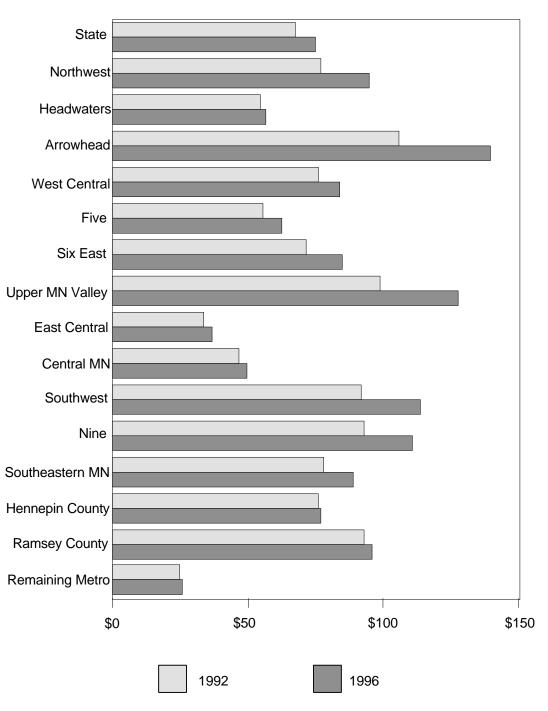

The Past Five Years of Local Government Aid

Dollars (millions) Statewide Local Government Aid

Per Capita Local Government Aid 1992 and 1996

•

1996 Disparity Reduction Aid: \$28.3 million

Disparity reduction aid (DRA) is a state aid to local governments that began in 1989. The total amount of aid for 1996 is \$28,330,641. Under the basic formula, aid was given to a taxing area if the total tax rate in the area exceeded 100 percent, based upon payable 1988 levies and market values (equalized), and payable 1989 class rates. An alternative formula gave disparity reduction aid to all unique taxing areas whose city government tax capacity rate exceeded 23 percent, regardless of whether or not the total tax capacity rate exceeded 100 percent.

Disparity reduction aid distributes the same amount each year to each jurisdiction.⁴ Jurisdictions do not receive any more or any less in disparity aid either as a result of levy increases or reductions, valuation increases or decreases, or as the result of any other actions or occurrences.⁵ The original 1990 DRA amount of \$63 million has had two major reductions. For 1990 and subsequent years, \$20 million was deducted from DRA. That amount was offset by corresponding increases in each jurisdiction's homestead and agricultural aid (HACA), so the net effect upon each jurisdiction was neutral. Second, a 1994 law change provided that each city's share of the DRA be folded into the city's local government aid. The city share of DRA was about \$14 million. The remaining amount of DRA (after the \$14 million reduction) is distributed as shown below.

		Amount	Percent of
		(thousands)	Total
State		\$28,331	100.0%
Northern Regions	Northwest	825	2.9
	Headwaters	366	1.3
	Arrowhead	15,564	54.9
	West Central	483	1.7
	Five	505	1.8
	East Central	204	0.7
Southern Regions	Six East	517	1.8
-	Upper MN Valley	1,158	4.1
	Central MN	248	0.9
	Southwest	1,450	5.1
	Nine	1,238	4.4
	Southeastern MN	3,522	12.4
Total Non-Metro		\$26,080	92.0%
Metro Region	Hennepin County	1,139	4.0
-	Ramsey County	1,063	3.8
	Remaining Metro	48	0.2
Total Metro		\$2,251	8.0%

Disparity	Reduction	Aid:	1996
Disparity	ncuuchon	I Mu.	1//0

⁴Jurisdictions receive very minor reductions in DRA each time there is an increase in HACA caused by a class rate reduction, due to the interactions between the two formulas.

⁵The only exception is that if after the subtraction of disparity aid, a unique taxing district's tax extension rate is less than 90 percent, the disparity aid will be reduced by the amount necessary to increase the tax extension rate to 90 percent.

Homestead and Agricultural Credit Aid (HACA)

Program Description

Homestead and Agricultural Credit Aid (HACA) is a state aid program instituted in 1990 to take the place of the homestead credit and agricultural credit programs. It differs from the old credit programs in that aid amounts are determined by formula and paid to local governments before taxes are levied, rather than as a percentage of tax levies that have already been made. With HACA, a jurisdiction's aid will not go up if it chooses to levy more tax, whereas aid amounts would increase as levies increase under the old credit programs.

HACA amounts were initially determined to be approximately the same as 1989 homestead credit plus agricultural credit. For the most part, each year each local government receives the same amount it received in the previous year. For county governments, HACA increases each year based upon the increase in the number of households served by the county. In addition, when the legislature reduces the class rate on a type of property, additional HACA is often given to each jurisdiction based upon the amount of tax base lost to the jurisdiction through the class rate reduction. Over the years, the legislature has used HACA funds to finance state takeovers of services that had been provided locally, and this has caused HACA amounts to be less in some years than in previous years.

Aid Amount and Reporting

1996 Homestead and Agricultural Credit Aid: \$544.4 million

The total amount of HACA for taxes payable in 1996 is \$544,411,199.⁶ The amounts by type of taxing district are shown below.

Taxing District	Amount	Percent
County	\$180,906,825	33.2%
City	189,897,211	34.9
Township	25,420,030	4.7
School District ⁶	117,498,515	21.6
Special Taxing Districts	30,688,618	5.6
Total	\$544,411,199	100.0%

The HACA data was obtained from the Department of Revenue.

⁶Includes \$610,214 for intermediate school districts #287, #916, #917, and the Lac Qui Parle area high school #6011.

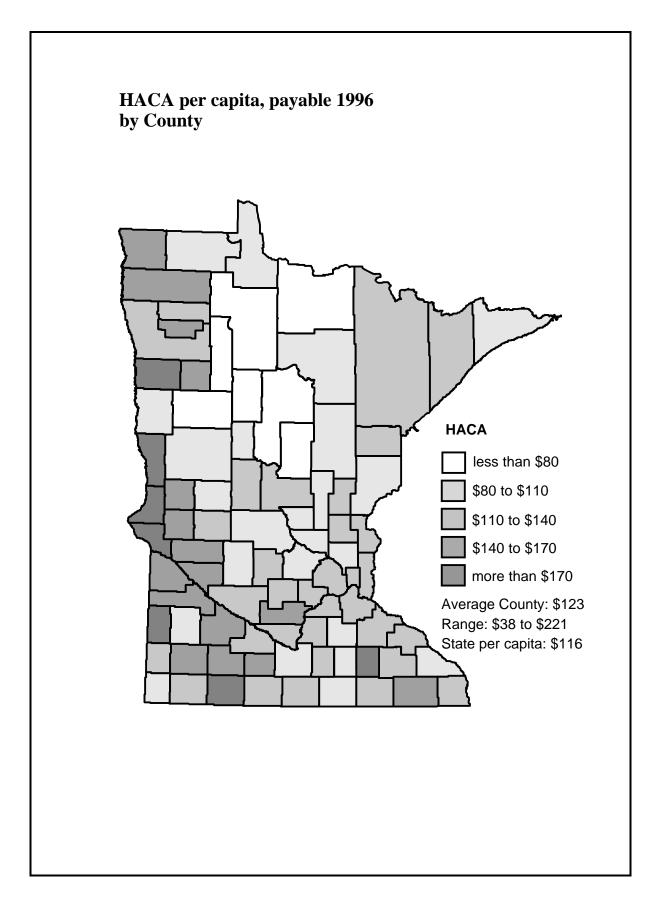

Recent Law Changes

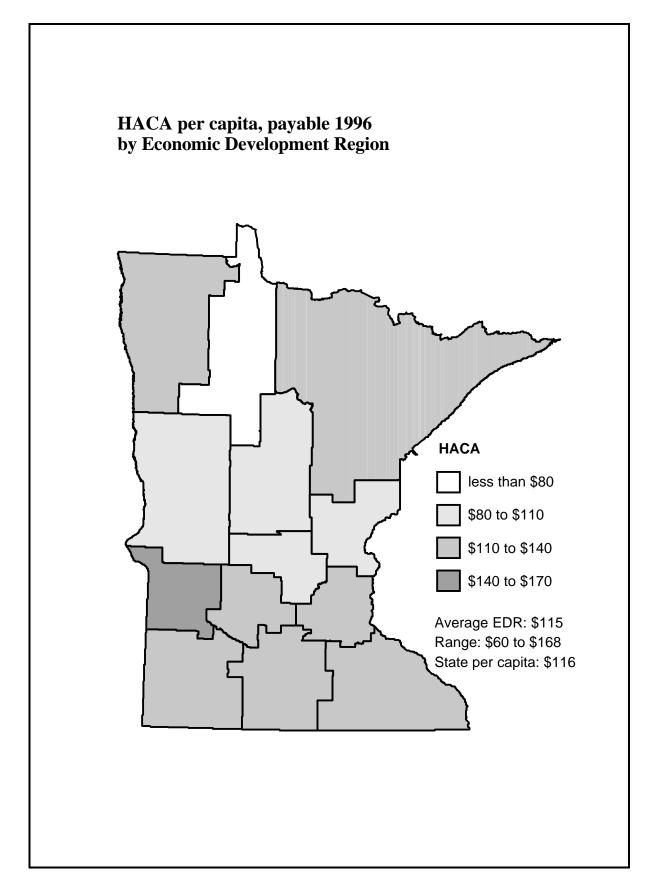

Continuing a trend begun during the 1989 session, the legislature used the Homestead and Agricultural Credit Aid (HACA) program to reimburse local governments for some of the tax base lost as a result of class rate changes.

<u>For taxes payable in 1994</u>, class rate reductions were granted to agricultural property (both homestead and non-homestead) commercial/industrial property, and residential non-homestead property, all of which caused the 1994 HACA amounts to increase over the 1993 amounts. The increase in each jurisdiction was in relation to the amount of property in those property classifications located within each jurisdiction. The total amount of aid increase for payable 1994 resulting from these class rate changes was \$33.4 million. HACA payments to school districts were reduced by \$55.7 million; this money was used to provide additional equalization aid to school districts with referendum levies.

<u>For taxes payable in 1995</u>, there were no class rate changes, and consequently no HACA increases related to class rate changes. However, HACA payments to taxing jurisdictions in the metro area increased as a result of a fiscal disparities adjustment from a reduction in commercial/industrial class rates for payable 1994. Also, most county governments received modest HACA increases from the percentage growth in the number of households in the county.

<u>For taxes payable in 1996</u>, there were no significant class rate changes, and consequently no HACA increases related to class rate changes. County governments received modest HACA increases based upon the percentage growth in the number of households in the county. County HACA was reduced by \$10 million statewide, in return for a \$10 million increase in county criminal justice aid. HACA to counties, cities, towns, and specialized taxing districts was reduced by \$16 million in aggregate for state budgetary reasons. Finally, school district HACA was reduced by \$26.7 million, which was used to fund a further state takeover of special education costs.

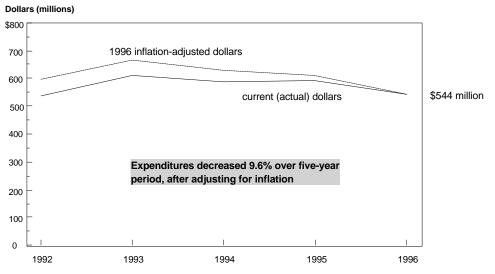

The Past Five Years of HACA

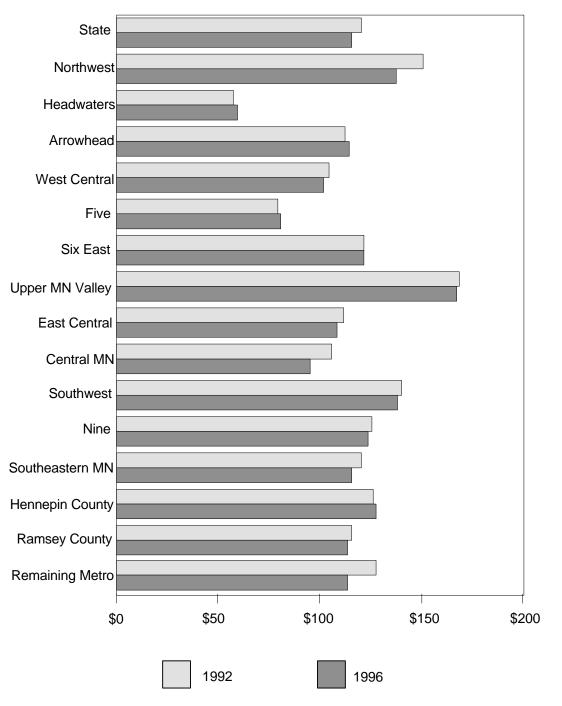

The table below summarizes the HACA amounts by region for the past five years for the state and economic development regions. The graph shows total dollars of HACA aid for that same time period in current (actual) and constant (inflation-adjusted) dollars.

1996 County Criminal Justice Aid: \$20.0 million

County criminal justice aid is a state aid to county governments that is intended to reduce the reliance of county criminal justice and corrections programs on property taxes. The aid, which initially took effect for taxes payable in 1993, must be used to pay expenses associated with criminal justice activities including law enforcement, criminal adjudication, and corrections. County criminal justice aid totaled \$20,009,721 in 1996.

Criminal justice aid is distributed to each county based upon a formula. One half is distributed to each county in the same proportion that the county's population is to the population of all counties. The other one half of the aid is distributed to each county in the same proportion that the county's Part I crimes are to the total Part I crimes for all counties.

Each calendar year, four percent of the total appropriation is retained by the Commissioner of Revenue to make reimbursements to the Commissioner of Finance to defray the additional costs associated with court-ordered counsel of the district public defender. For 1996, this amount was \$405,300.

Criminal Justice Aid: 1992 to 1996

Although counties assume much of the cost of their community correctional services, the state provides direct funding and in-kind services. In 1996 the state funding was \$48,429,248 million.

Counties must choose to receive funding from one of three basic funding options:

- Community Corrections Act aid (CCA)-31 counties
- county probation officer reimbursement aid (CPO)-32 counties
- contract with Department of Corrections for services (DOC state contract)-24 counties

The 31 CCA counties contain 70 percent of Minnesota's population, and include most of the Twin Cities Metropolitan area.

In addition, all 87 counties receive a share of funding for case-load/work-load (CL/WL) reduction. Because many of the 56 non-CCA counties have opted to receive their share of these funds partially or entirely as field services from the DOC, the dollar amount of these in-kind state services is included in this report even though the county does not receive an aid payment per se.

The following table lists the statewide total amounts for calendar year 1996 for the various community correction funding programs:

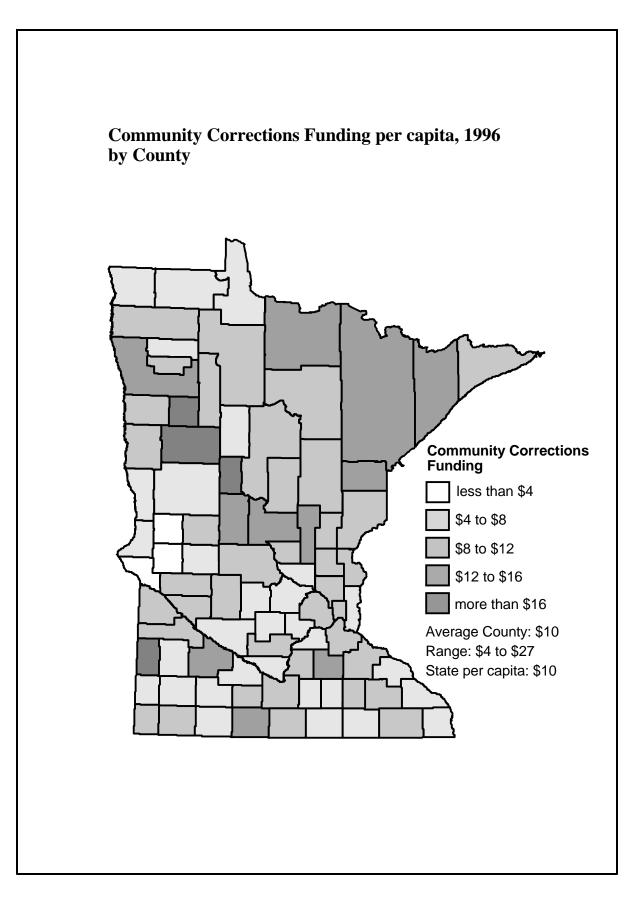

Program	Amount	Percent
CCA aid	\$ 30,412,000	62.8%
CPO reimbursement aid	3,379,634	7.0
DOC field services	5,702,397	11.8
Adult felony case-load reduction	1,500,000	3.1
Case-load/work-load reduction	7,435,217	15.3
Total Aid and In-kind Services	\$ 48,429,248	100.0%

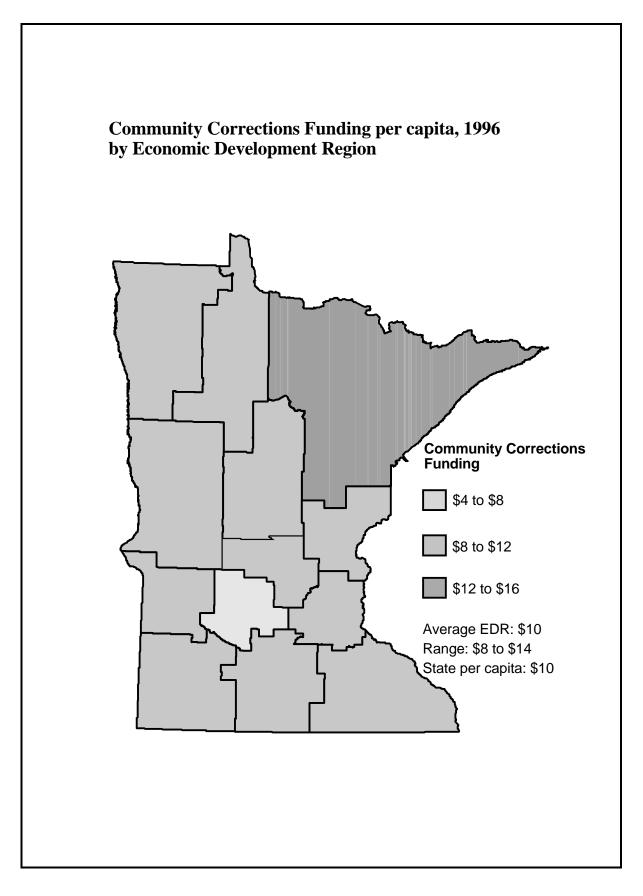

Although this is only the second year that community corrections funding has appeared in this report, they are not new programs. The state has helped the counties for many years in providing and managing its community correctional services for its offender population. However, since the amount of state assistance is continuing to increase, especially in the area of case-load/work-load reduction, it is included in this report.

State		1995 Amount (thousands) \$41,801	Percent of Total 100.0%	1996 Amount (thousands) \$48,429	Percent of Total 100.0%

Property Tax Refund

Program Description

The **Property Tax Refund**, also known as the Circuit Breaker, is a program in which the state partially reimburses homeowners and renters for a portion of their qualifying property taxes if those property taxes exceed a certain level of household income. Generally speaking, the higher the property tax and the lower the income, the higher the refund. The legislature establishes the income and property tax thresholds, reimbursement rates, and maximum refund amounts for the program. Each qualifying homeowner and renter must apply directly to the state for a refund. The amounts on the graphs/tables exclude the additional property tax refund (often referred to as "targeting"). See page 54 for a description of the targeting refund.

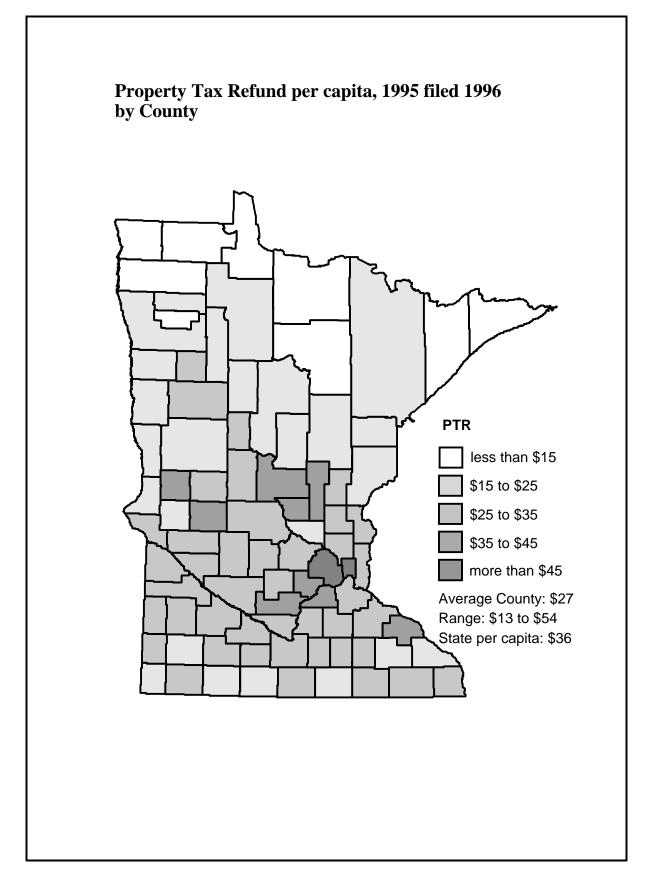

Aid Amount and Reporting

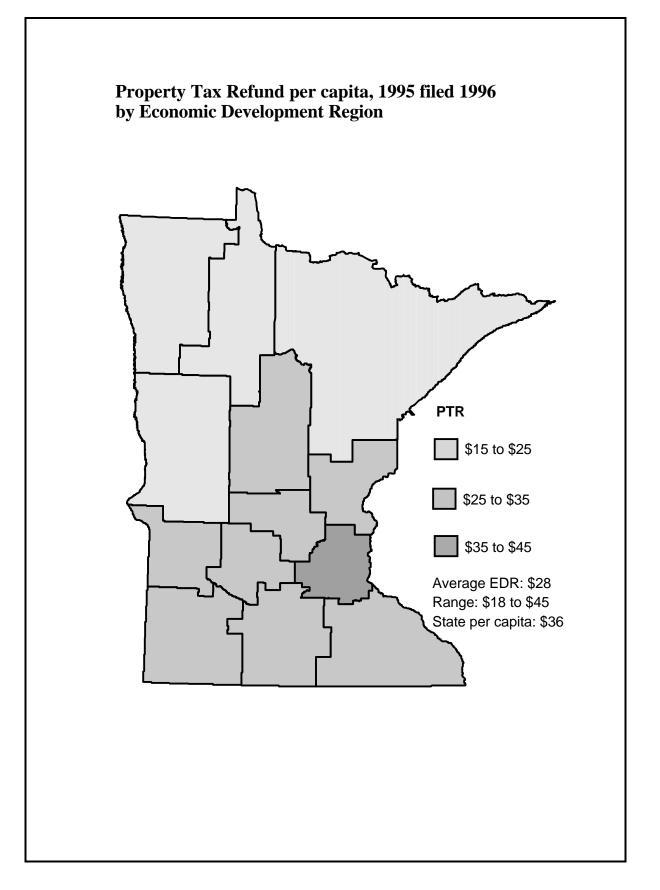

1995 Filed 1996 Property Tax Refund: \$170.8 million

The total property tax refunds for the 1995 returns filed in 1996 for homeowners and renters is \$170,834,232. The table below summarizes statewide data on the number of returns, amounts and average dollar per return for the various types of filers.

	Number of Returns (A)	Total Amount (B)	Net Amount per Return (C = B ÷ A)
Homeowners: ⁷ Senior/Disabled Under 65 Years Total Homeowners	101,393 <u>162,467</u> 263,860	\$31,458,328 <u>50,711,800</u> \$82,170,128	\$310 <u>312</u> \$311
Renters: Senior/Disabled Under 65 Years Total Renters Total	68,808 <u>182,838</u> 251,646 515,506	\$26,259,223 <u>62,404,881</u> \$88,664,104 \$170,834,232	\$382 <u>341</u> \$352 \$331

⁷Includes claimants who are part homeowners and part renters for that year's claim.

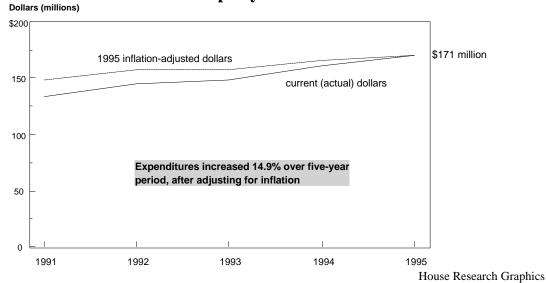

The Past Five Years of Property Tax Refund (See Note on page 53)

The table below shows the distribution of the property tax refund in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the property tax refund for that same time period in current (actual) and constant (inflationadjusted) dollars.

Property Tax Refund: 1991 to 1995

Statewide Property Tax Refund

NOTE: The property tax refund historical data on this page and the preceding page <u>excludes</u> any targeting data (see page 54).

Per Capita Property Tax Refund 1991 and 1995

House Research Graphics

1996 Additional Property Tax Refund (Targeting): \$4.8 million

"Targeting" is an additional property tax refund. The refund targets property tax relief to those homeowners whose property tax increase over the previous year exceeds a threshold percentage set by the legislature. The property tax refund return (M-1PR) contains a separate schedule for the targeting refund. The taxpayer files for this refund at the same time and in the same manner as for the regular property tax refund. However, unlike the regular property tax refund, all homeowners qualify for targeting regardless of their household income if the tax increase exceeds the specified percentage.

For returns filed in 1996 (for property taxes payable in 1996) the state paid 75 percent of the property tax increase over 12 percent (i.e., the taxpayer had to pay the first 12 percent increase over the previous year before qualifying for a refund), provided that the increase was greater than \$100. There were about 63,500 returns filed in 1996 for a total amount of \$4,788,805. The average refund per return was \$75. (The maximum refund is \$1,000.) The amount of the targeting refund is listed separately on all of the tables in this report, directly after the regular property tax refund amounts.

# **Property Tax Data**

### **Payable 1996 Property Tax Credits**

A significant restructuring of the property tax system took full effect for taxes payable in 1990 and subsequent years. Under this restructuring, homestead and agricultural aid (HACA) replaced the homestead credit and agricultural credit aid programs. This shift caused the total amount of property tax credits to decrease significantly while local aids, under the new HACA program, increased correspondingly (see pages 36 and 37 for a description of HACA).

The transition from the old credit programs to the new local aid program must be recognized when comparing any data on aids and credits on years after 1990 with any years prior to 1990. As a result of the change, the "property tax credit" category on the tables in sections 2, 3, and 4 of this report is significantly smaller and the "aids to local governments" category is correspondingly larger when compared to years prior to 1990.

The property tax credits discussed below are listed on the property tax statement. The property's tax (after the subtraction of HACA) less any applicable property tax credits equals the net tax amount which the taxpayer must pay to the county for distribution to the local governmental units.

#### Payable 1996 Taconite Homestead Credit: \$11.9 million

The total amount of the payable 1996 taconite homestead credit is \$11,928,665, excluding mobile home taconite homestead credit and adjustment amounts for prior years. Homeowners in the taconite tax relief areas, located in northern Minnesota on the Iron Range, receive a credit of either 57 percent or 66 percent. The percentage of relief is dependent upon certain characteristics of the local jurisdiction, such as the value of the iron ore in the district, proximity to mines, etc. A supplemental taconite homestead credit amount of \$464,166 is included in the \$11.9 million taconite homestead credit amount.

## Payable 1996 Miscellaneous Credits: \$6.6 million

The total of the miscellaneous property tax credits for 1996 is \$6,562,158. This is the total payable 1996 amounts for the disparity reduction credit, power line credit, agricultural preserves credit, county conservation credit, enterprise zone credit, disaster credit, and rental equity credit. A statewide breakdown of these miscellaneous credits is shown below.

Type of Credit	Amount
Disparity Reduction Credit ⁸	\$5,135,373
Power Line Credit	145,463
Agricultural Preserves Credit	306,943
County Conservation Credit	202,762
Enterprise Zone Credit	16,754
Disaster Credit	0
Rental Equity Credit	754,863
Total	\$6,562,158

#### **1995 Statewide Property Valuation:**

### Market Valuation: \$180.4 billion Net Tax Capacity: \$3.5 billion

This is the total real and personal property valuation for the 1995 assessment for taxes payable in 1996. The market valuation of \$180,447,712,127, as well as the net tax capacity of \$3,484,180,281, is listed in the tables. Net tax capacity is the valuation which results after the property tax capacity class rates have been applied to the market values. Effective for taxes payable in 1990 and subsequent years, the net tax capacity reflects incorporating the property tax credits into the class rate structure.

#### Payable 1996 Net Property Tax Levy: \$4.5 billion

The payable 1996 net property tax levy, excluding special assessments, made by each type of taxing district (i.e., county, city/town, school district and miscellaneous taxing districts) is shown in the table on the following page.

"Miscellaneous districts" includes levies made by special taxing districts (i.e., Metropolitan Council, regional transit authorities, hospital districts, port authorities, watershed districts, etc.), as well as the tax increment of tax increment financing districts, fiscal disparity contribution levies, and the power line levy amounts.

⁸A disparity reduction credit was established by the 1988 Legislature to provide additional property tax relief in the border cities of Breckenridge, Dilworth, East Grand Forks, and Moorhead. The credit, which is effective for taxes payable in 1989 and subsequent years, applies to class 4a apartments with four or more units, and commercial, industrial and public utility land and buildings. The credit is the amount by which the net tax exceeds the following effective tax rates: apartments, 3.0 percent; commercial, industrial, public utility land and buildings, 3.3 percent.

"Net taxes payable" is the amount of property taxes actually paid by the taxpayer after the subtraction of the state paid property tax credits shown above. However, the tax amount is prior to the subtraction of the regular property tax refund and the targeting refund.

Type of Taxing District	Payable 1996 Net Property Tax Levy	Percent
County	\$1,252,961,224	28.0%
City/Town: City Town	<b>762,759,157</b> \$682,565,391 80,193,766	17.0
School District	2,034,381,935	45.4
Miscellaneous Districts: Special Taxing Districts Tax Increment Financing Fiscal Disparity Contribution Power Line	<b>430,624,918</b> \$143,837,904 286,308,639 478,375	9.6
State Total	\$4,480,727,234	100.0%

The table above shows the fiscal disparity contribution levy amount as redistributed back to the various taxing districts. The fiscal disparity distribution amounts shown below are included in the property tax levy by type of district in this table. The county and region tables later in the report show the fiscal disparity levy entirely as part of "Miscellaneous District Levy." The fiscal disparity levy only applies to taxing districts in the seven-county metro area.

County	\$ 94,949,433
City	70,304,434
Town	1,172,412
School District	177,581,665
Special Taxing Districts	23,113,680
Total Levy	\$367,121,624

#### Payable 1996 Statewide Average Tax Rate

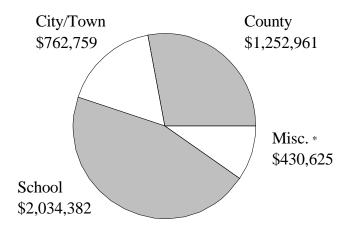

The average tax rate is computed by dividing the total levy excluding special assessments by the total net tax capacity.⁹ For purposes of this calculation, "levy" includes the tax increment financing levy and the fiscal disparity contribution levy; "tax capacity" includes the total tax capacity before the subtraction of the tax increment financing captured tax capacity and before any fiscal disparity adjustments. This rate represents the statewide average rate of taxation for all property. The same methodology is used in all the tables in the report containing an average tax rate.

⁹A small portion (\$59.1 million statewide) of property tax levies are spread as market value rather than net tax capacity. This amount is included in the computation of the statewide average tax rate. As market value levies become more significant in future years, separate average tax rates will be computed for the market value levy and the net tax capacity levy.

## Payable 1996 Property Tax Levies by Type of Taxing District (\$4,480,727)

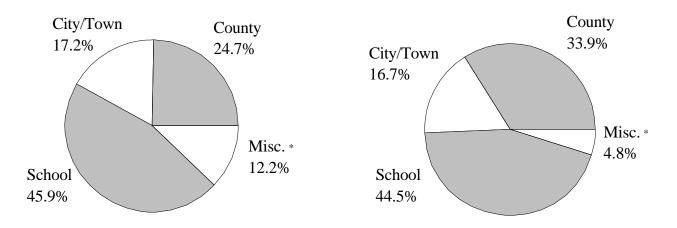

(Dollars in thousands)

# Statewide

## Metro

House Research Graphics

*Miscellaneous includes special taxing districts, tax increment financing, and power line levies, but excludes the fiscal disparities distribution levy (metro area only), which has been allocated to counties, cities/towns, school districts, and special districts. The metro/non-metro tables later in the report show the fiscal disparities levy as part of "Miscellaneous District Levy."

# **Individual Income Tax**

### **Program Description**

**Individual Income Tax** is a tax imposed by the state upon (1) the income of Minnesota residents and (2) the income, derived from Minnesota sources, of non-resident individuals. The 1995 tax base (filed in 1996) is essentially federal taxable income with minor modifications, including the addition of interest earned on bonds issued by other states, an income exclusion for elderly filers, and a subtraction for certain dependent education expenses. Rates applied in 1995 ranged from 6 to 8.5 percent. In 1995 Minnesota allowed a refundable dependent care credit of up to \$720 for one child, and \$1,440 for two or more children, and a working family credit equal to 15 percent of the federal earned income credit. In 1995 the maximum working family credit was \$467.

#### **Aid Amount and Reporting**

#### 1995 Filed 1996 Individual Income Tax: \$3.9 billion

The total amount of the 1995 individual income tax returns filed in 1996 is \$3,857,043,237. The tax shown is net tax (after refunds) reported on the basis of the filer's county of residence. The state total includes \$118.9 million of individual income taxes collected from returns filed by nonresident taxpayers. That amount was not allocated to the counties.

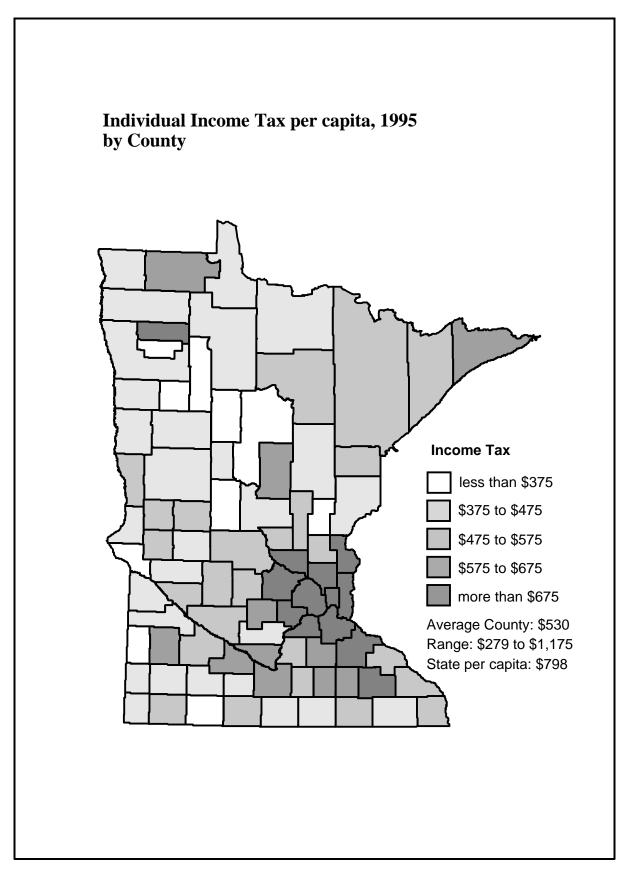

Individual income tax data was obtained from the Department of Revenue.

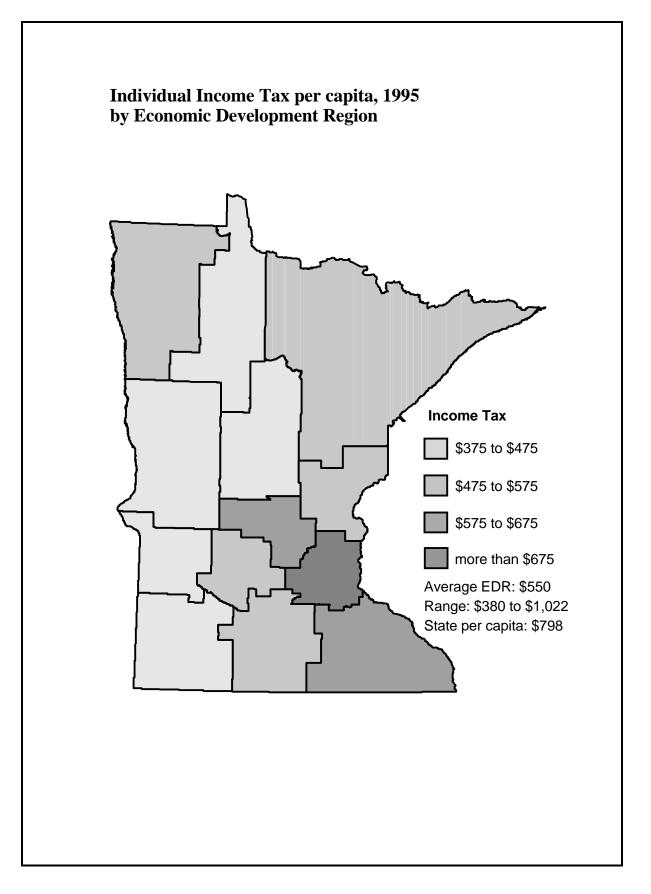

#### **Recent Law Changes**

Minnesota conformed with all major changes made in the federal tax code in 1994 and 1995. These changes included reducing the deductible portion of business meals and entertainment, an increase in the capital expensing allowance for small business, and changes to rules relating to estimated tax payments, and disallowing the earned income credit for filers with investment income over \$2,350.

Minnesota also conformed to federal changes providing for the taxation of up to 85 percent of social security income for middle-and upper-income taxpayers. Minnesota provided an additional elderly exclusion amount for tax years 1994 to 1996 to gradually phase-in the full effect of this change.

In 1994 Minnesota extended the dependent care tax credit to all married taxpayers with a child under age one, by deeming that they paid the maximum allowable dependent care expenses. The maximum credit under this provision is \$720 for one dependent.

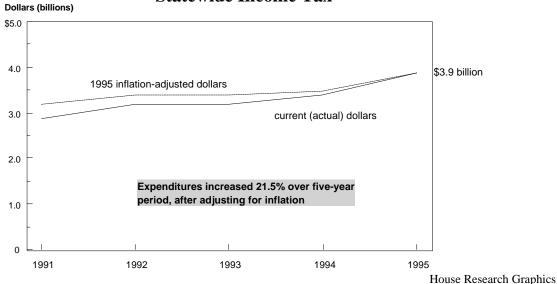

#### The Past Five Years of Individual Income Tax

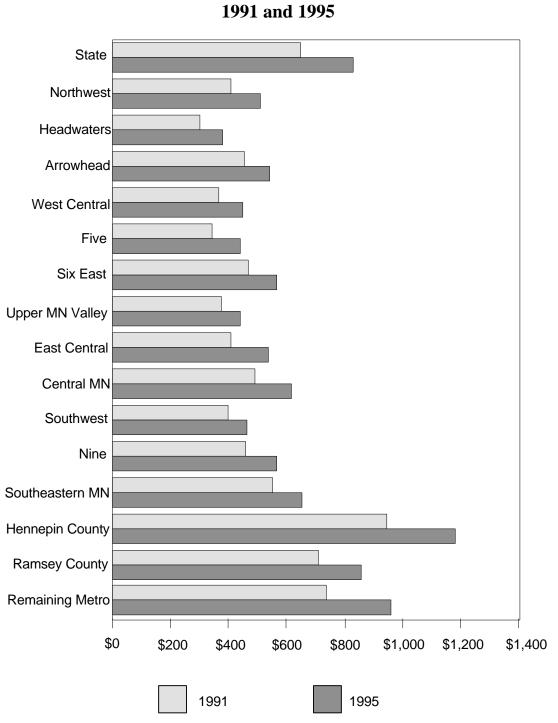

The table below shows the distribution of individual income tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of individual income tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# Individual Income Tax, Residents Only: 1991 to 1995

#### **Statewide Income Tax**

## Per Capita Individual Income Tax 1991 and 1995

House Research Graphics

# Sales/Use Tax

#### **Program Description**

**Sales Tax** is imposed by the state on the gross receipts of all persons who sell, lease or rent tangible personal property at retail or provide taxable services. The **Use Tax** complements the sales tax and is imposed at the same rate on the storage, use or consumption in Minnesota of taxable tangible personal property purchased from any retailer, unless the Minnesota sales tax was paid on the same property. Although the tax rate has changed over the years, it has been 6.5 percent since January 1, 1983. (See recent law changes below.)

Major exemptions include: Food for consumption off premises, clothing, prescribed drugs and medications, non-prescribed analgesics, gasoline and special fuels taxed under the motor fuels excise tax, publications issued at intervals of three months or less (except over-the-counter magazines), motor vehicles subject to the 6.5 percent motor vehicle excise tax, materials used or consumed in agricultural or industrial production, textbooks, residential heating fuels and water services, and capital equipment for new or expanding industries.

#### **Aid Amount and Reporting**

#### Calendar Year 1995 Sales/Use Tax: \$2.8 billion

A total of \$2,793,823,578 in sales/use taxes was collected during calendar year 1995 (after all refunds except capital equipment refunds). The total includes \$402.1 million of sales/use taxes collected from returns filed by out-of-state taxpayers. That amount was **not** allocated to the counties. (See next page for discussion on capital equipment refunds and amounts not allocated to Minnesota.)

Another \$91.0 million was paid by Minnesota residents, but the taxpayer's county was not reported on the return. Since those returns were from Minnesota residents, that amount was apportioned to the 87 counties based upon the proportion of each county's tax liability to the state's total tax liability.

The tax amounts contained in this report exclude any local sales taxes that cities impose (local sales taxes are primarily to support economic development and tourism). Sales/use tax data was obtained from the Department of Revenue.

#### **Recent Law Changes**

The sales/use tax rate was temporarily increased from six percent to 6.5 percent from July 1, to December 31, 1991. Beginning January 1, 1992, a local option sales tax for counties of .5 percent was enacted. Receipts from the .5 percent local option sales tax plus 1.5 percent of the six percent state tax rate were deposited in the Local Government Trust Fund.

Beginning July 1, 1996 the state sales and use tax was permanently increased to 6.5 percent and the local option sales tax and the Local Government Trust Fund were eliminated. Beginning with calendar 1997, aids currently paid from the Local Government Trust Fund will be paid from the state's general fund.

#### **Capital Equipment Refunds**

The amount of sales/use tax allocated to Minnesota does not adjust for capital equipment refunds made to taxpayers. The amount of state refunds has grown from \$8 million in FY 1990 to about \$50 million in FY 1996. The amounts contained in this report are prior to the subtraction of these refunds. Since the refunds are filed by company headquarters and not where the actual equipment is located, these refunds are not easily allocated by county.

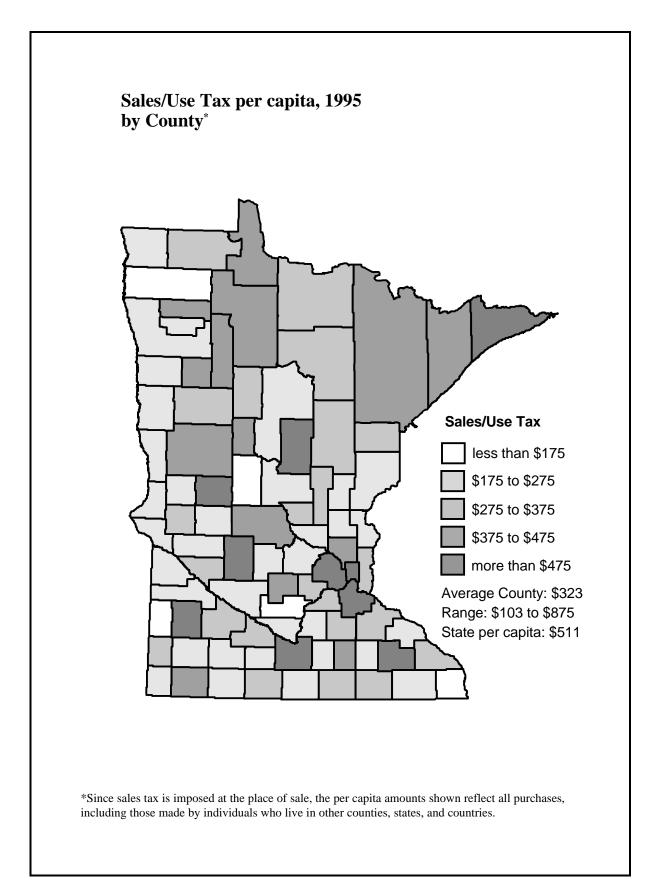

#### **Amounts Not Allocated to Minnesota**

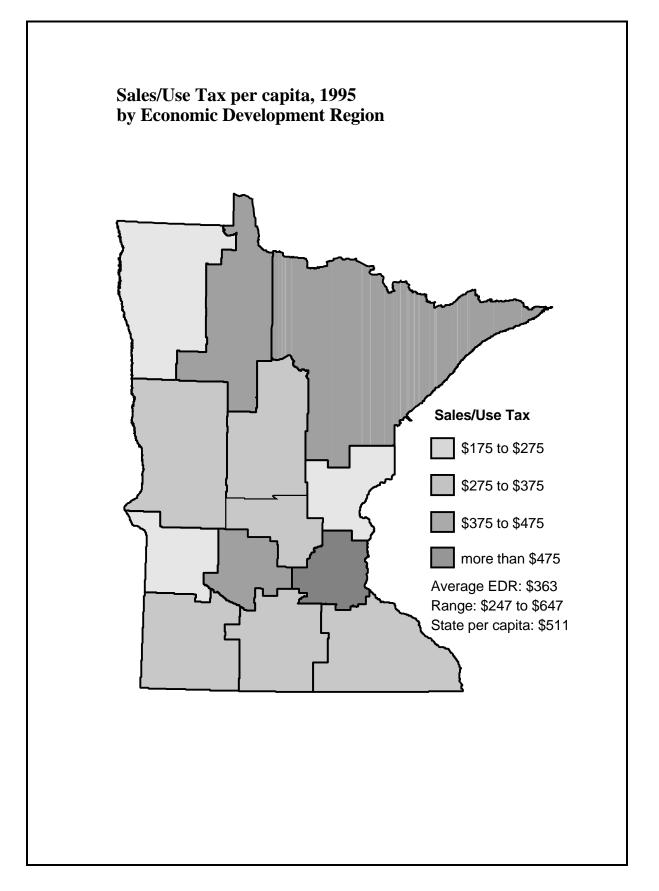

As noted on the previous page, a significant amount of sales/use taxes are collected from returns filed by out-of-state taxpayers. These amounts were not allocated to Minnesota in this report since the taxpayer's residence and/or place of business is unknown. However, this amount has been increasing significantly both in terms of absolute dollars and its overall percentage. The table below lists the amounts and percentages for the past six years.

	Allocated to Minnesota		Not Allocated to Minnesota		
Year	Amount	Percent	Amount	Percent	Total
1990 1991 1992 1993 1994 1995	\$1,708,197 1,802,060 2,041,528 2,164,607 2,300,383 2,391,693	91.9% 91.5 90.9 90.0 87.4 85.6	\$149,815 167,565 203,593 240,321 330,616 402,131	8.1% 8.5 9.1 10.0 12.6 14.4	\$1,858,012 1,969,625 2,245,121 2,404,929 2,630,999 2,793,824

Sales/Use Taxes (in thousands)

Most of these dollars are sales made by out-of-state businesses to Minnesota residents, which are then reported on a single non-Minnesota return. As that amount grows, it becomes more and more of a concern that it should somehow be allocated to the various Minnesota counties. In 1995, non-Minnesota sales/use tax increased by 21 percent over the previous year, from \$331 million to \$402 million. One of the primary reasons for the large increase is that the number of non-Minnesota filers has increased significantly in recent years. Data constraints have prevented allocation of this amount in this year's report; implementation of an allocation is expected for next year's report.

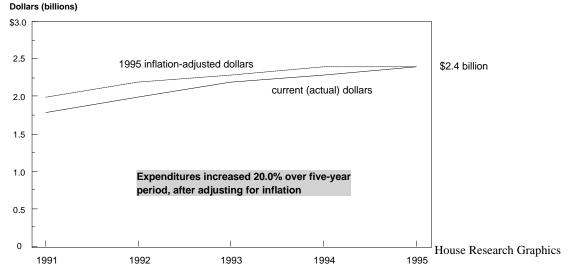

#### The Past Five Years of Sales/Use Tax

The table below shows the distribution of sales/use tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of sales/use tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

# Sales/Use Tax, Residents Only: 1991 to 1995

#### Statewide Sales/Use Tax

### Per Capita Sales/Use Tax 1991 and 1995

# **Motor Vehicle Excise Tax**

#### **Program Description**

The **Motor Vehicle Excise Tax** (**MVET**) is a sales/use tax on motor vehicles. It is imposed by the state on new and used motor vehicles at the time of sale and is levied at the same rate as the sales tax on the sale price of motor vehicles, minus any trade-in allowance. (A flat fee of \$10 is imposed upon most motor vehicles that are ten or more years old in lieu of the MVET.) Until fiscal 1992, a portion of MVET revenues was dedicated to highways and transit; that dedication was cancelled for the 1992-93 biennium. Effective July 1, 1991 all monies are deposited in the general fund.

#### **Aid Amount and Reporting**

#### Calendar Year 1995 Motor Vehicle Excise Tax: \$361.2 million

The total 1995 motor vehicle excise tax (MVET) is \$361,244,244. The Department of Public Safety collects the motor vehicle excise tax.¹⁰ Due to the method of collection, the amount of actual tax liability from each county is not available. However, since the motor vehicle excise tax is an important revenue source for the state, an estimate was made on how much the taxpayers in each county paid.

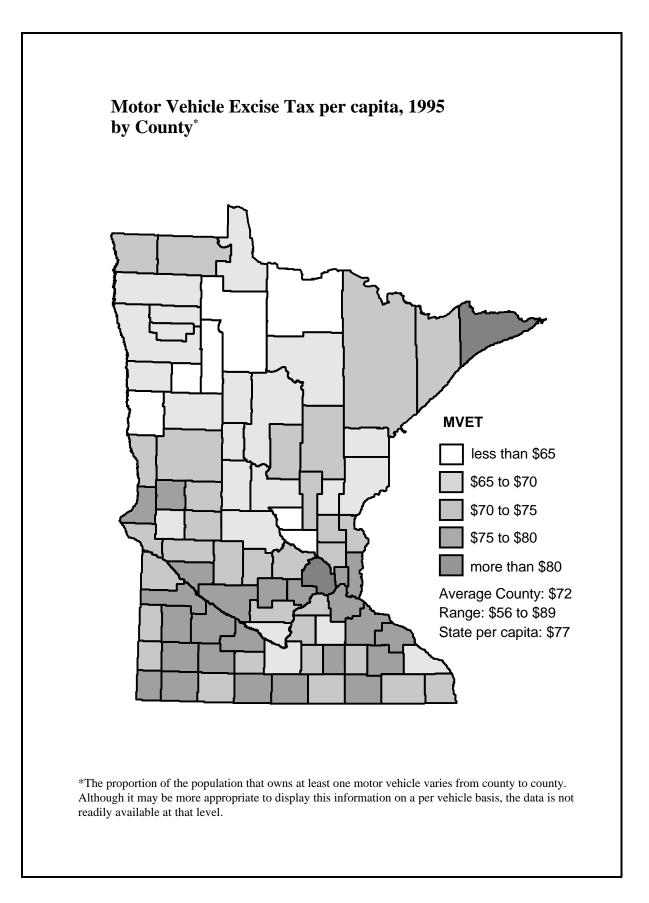

Two main factors were used in determining an estimated tax amount for each county. First, the number of passenger vehicles and pickup trucks registered in each county in 1995 was obtained from the Department of Public Safety. Registrations within each county are a good indicator of where the owners of the vehicles live. No weighting was attempted based upon the differences in the market value of the vehicles among counties.

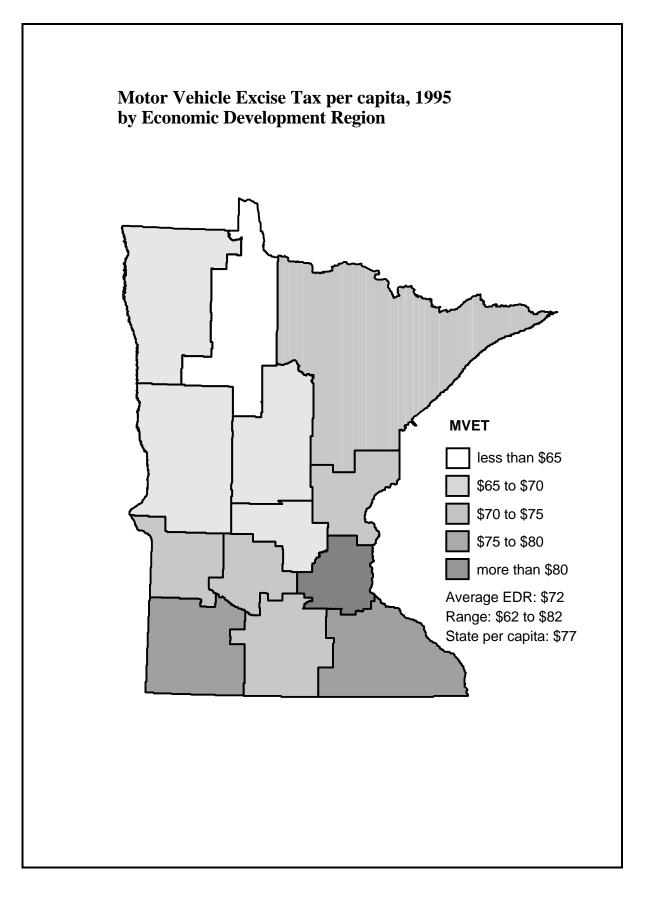

Secondly, an income factor was used, since it is assumed that the higher the taxpayer's income, the more vehicles the taxpayer will purchase and the more expensive those vehicles will likely be. Per capita 1995 personal income data by county was obtained from the U.S. Bureau of Economic Analysis.

A percent distribution was made on each of the two factors (i.e., registrations and income) comparing each county to the state. The results of each distribution were then weighted equally to allocate the \$361.2 million tax liability to the 87 counties.

Motor vehicle excise tax data was obtained from the Department of Revenue.

¹⁰In fiscal year 1990, 35 percent of MVET revenues was dedicated to transportation. In fiscal year 1991 that amount was reduced to 30 percent. Three-fourths of those revenues (i.e., the 35 percent and 30 percent) goes to highways and one-fourth for transit.

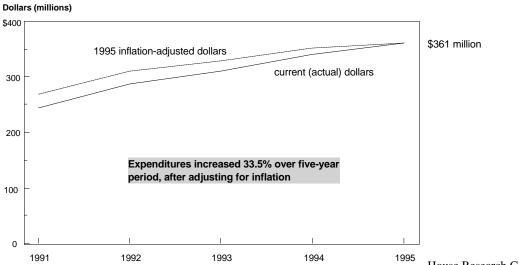

### The Past Five Years of the Motor Vehicle Excise Tax (MVET)

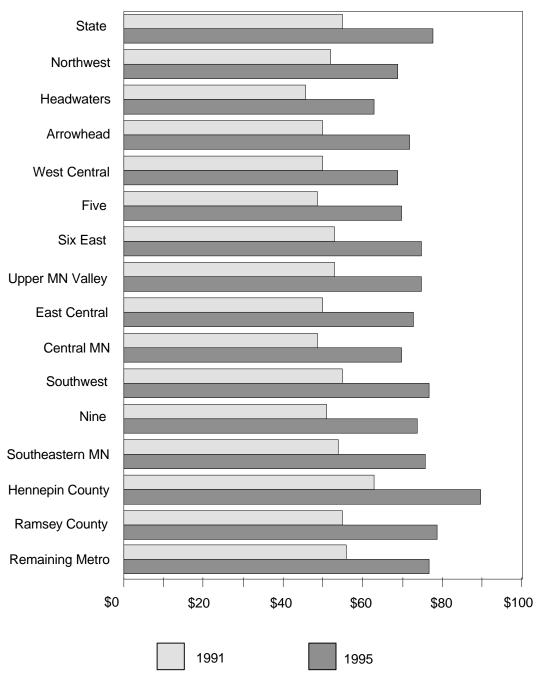

The table below shows the distribution of motor vehicle excise tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of motor vehicle excise tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

## Motor Vehicle Excise Tax: 1991 to 1995

### Statewide Motor Vehicle Excise Tax

### Per Capita Motor Vehicle Excise Tax 1991 and 1995

# Motor Fuels Tax (Gas Tax)

#### **Program Description**

The **Motor Fuels Tax** is imposed on gasoline, diesel fuel and other motor fuels used by vehicles on public highways. Aviation fuel purchased, stored, or withdrawn from storage in Minnesota is also subject to the tax. Highway motor fuels are taxed at a rate of \$.20 per gallon.¹¹ Aviation fuels are subject to a graduated, declining tax rate from \$.05/gallon to \$.005/gallon based on the number of gallons used during the calendar year.

Exemptions: Motor fuels used by public transit systems receiving state financial assistance are exempt. Until October 1, 1997, ethanol-gasoline blends receive a tax credit of five cents for each gallon of ethanol.

#### **Aid Amount and Reporting**

#### Calendar Year 1995 Motor Fuels Tax: \$485.3 million

The total net amount after refunds of the motor fuels tax for calendar year 1995 was \$485,299,009. This is the net amount after the distributions to the snowmobile, motorboat, forest roads, and all terrain vehicles (ATV) accounts.

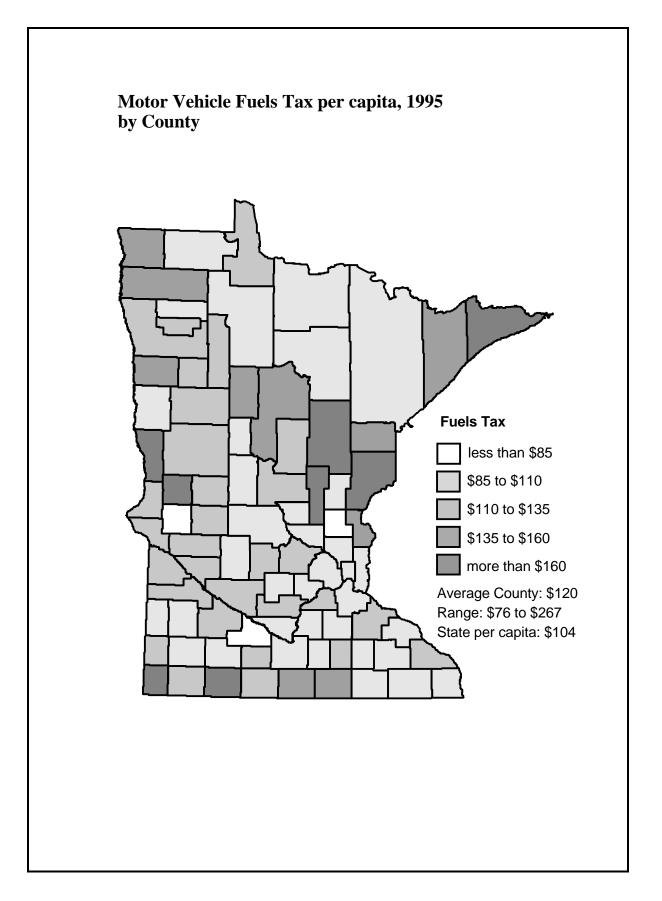

The motor fuels tax goes into the Highway User Tax Distribution Fund and is dedicated for highway use. In 1995 ninety-five percent of the amount in the fund was distributed as follows: 29 percent to the county state-aid highway fund; 9 percent to the municipal state-aid street fund for cities over 5,000 population; and 62 percent to the state trunk highway fund. (The allocation of this 95 percent is set by the Constitution.) The remaining 5 percent of the Highway User Tax Distribution Fund was distributed as follows: 28 percent to the state, 64 percent to counties;¹² and 8 percent to the cities over 5,000 population.¹³

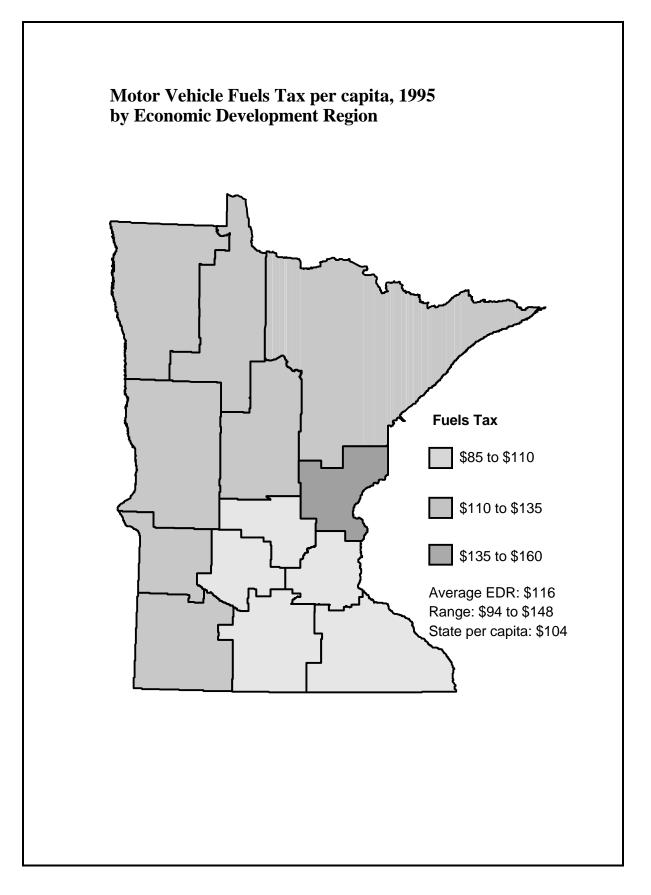

The highway aids listed in the tables estimate how much each area received from the above distributions. Like both the motor vehicle excise tax and the motor vehicle license tax, the amount of motor fuels tax paid by taxpayers in each county is unknown. For purposes of this report, an estimate was made for each county based upon the total number of vehicle miles traveled in each county in 1995 as a proportion of the total vehicle miles traveled within the state in 1995. The statewide motor fuels tax amount was obtained from the Department of Revenue.

¹¹Alternative fuels such as liquified natural gas and high-alcohol gasoline are taxed at rates proportional to their BTU content relative to the BTU content of gasoline.

¹²72.5 percent of the county's 64 percent allocation goes to the towns for town roads and bridges.

¹³The legislature has discretion on the allocation of this five percent.

## Motor Vehicle Fuels Tax: 1991 to 1995

### Per Capita Motor Vehicle Fuels Tax 1991 and 1995

# **Motor Vehicle License Tax**

#### **Program Description**

The **Motor Vehicle License Tax** is imposed annually on each motor vehicle registered and licensed in Minnesota to use the public streets and highways. The tax on passenger cars, pick-up trucks, and vans is \$10 plus 1.25 percent of base value based on the age of the vehicle. There is a minimum tax of \$35 and a flat tax of \$35 for vehicles over ten years old. The tax on trucks, tractors and buses is based upon the type, weight, and age of the vehicle. A minimum tax applies to each type of vehicle. There is also a flat tax on motorcycles and mopeds. The tax is paid when the vehicle is first registered in Minnesota to use the public streets and then annually thereafter when it is re-registered.

Exemptions from the tax include: vehicles owned by governmental units, school buses, agricultural tractors and trailers, special mobile equipment, vehicles used solely for carrying construction camp equipment or attached machinery, fire apparatus, ambulances, and vehicles not operated on highways.

#### **Aid Amount and Reporting**

#### Calendar Year 1995 Motor Vehicle License Tax: \$437.2 million

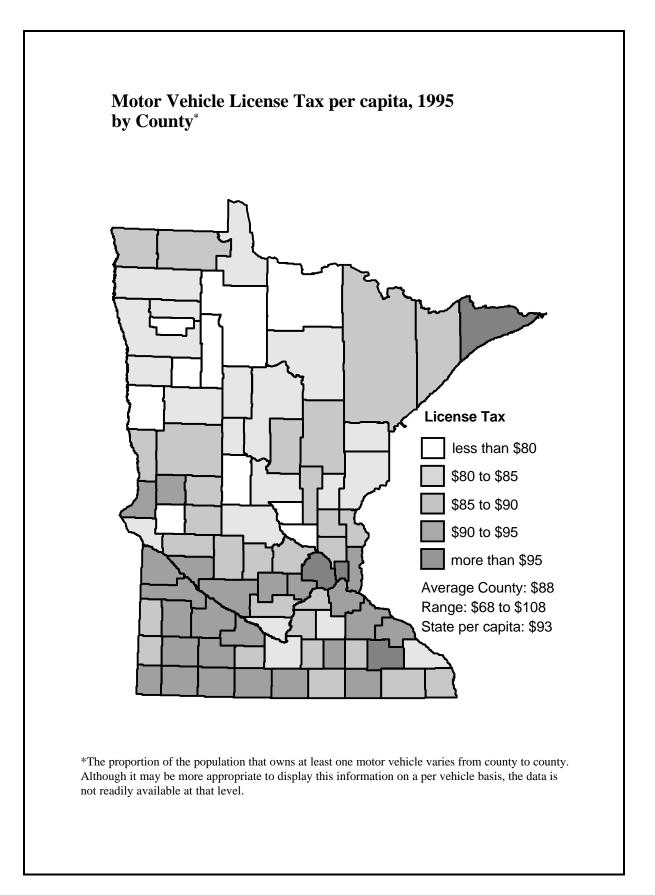

The total motor vehicle license registration tax for calendar year 1995 was \$437,207,397. The tax is collected by the Department of Public Safety. The amount of actual tax liability from each county is not available. An estimate of how much the taxpayers in each county pay was made using the total number of passenger and pickup trucks registered in each county in 1995, and the personal income of each county compared to the state total. Since the license tax varies with the age and value of the vehicle, it was assumed that the higher the taxpayer's income, the more likely the taxpayer would be to own newer and more expensive cars.

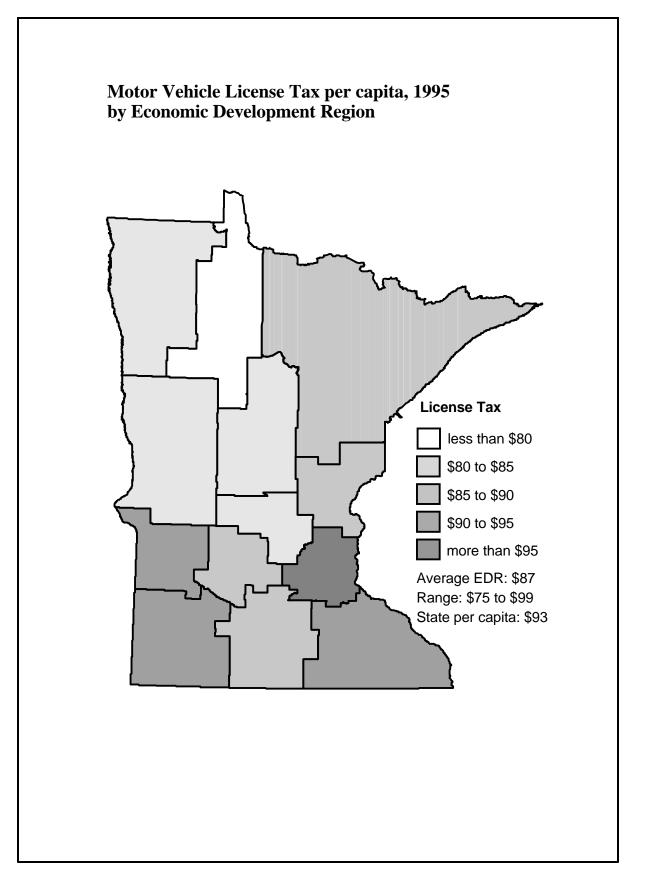

Revenue from this tax, like revenue from the motor fuels tax, is deposited in the Highway User Tax Distribution Fund.

The statewide motor vehicle license tax amount was obtained from the Department of Revenue.

#### **Recent Law Changes**

Effective for registrations in 1990 and subsequent years, the depreciation schedule for automobiles was changed to slow down the depreciation, resulting in substantial revenue increases from the motor vehicle license tax.

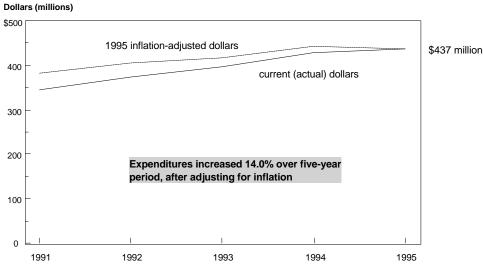

#### The Past Five Years of the Motor Vehicle License Tax

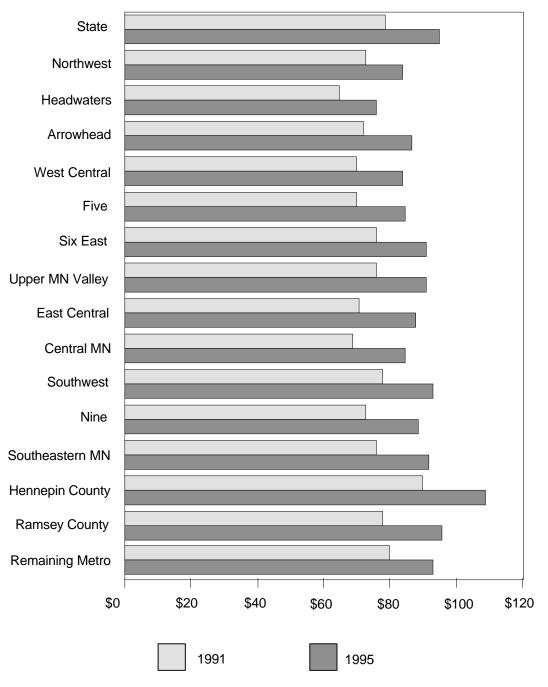

The table below shows the distribution of the motor vehicle license tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the motor vehicle license tax for that same time period in current (actual) and constant (inflation-adjusted) dollars.

## Motor Vehicle License Tax: 1991 to 1995

#### Statewide Motor Vehicle License Tax

### Per Capita Motor Vehicle License Tax 1991 and 1995

# **Corporate Franchise (Income) Tax**

#### **Program Description**

**Corporate Franchise (Income) Tax** (usually referred to as the corporate income tax) is imposed on the net income of corporations. The rate of the tax is 9.8 percent. The tax base is federal taxable income with a variety of Minnesota adjustments. Corporations that do business both inside and outside of Minnesota apportion their income using a three factor formula based on the share of the corporation's total property, payroll, and sales that are in Minnesota. The formula weights sales 70 percent and property and payroll 15 percent each.

An alternative minimum tax applies to federal alternative minimum taxable income, if it would result in a higher tax than the regular corporate franchise tax. The rate of tax is 5.8 percent. In addition, a minimum fee is imposed on larger corporations, including S corporations, and partnerships, if this fee is higher than the regular or alternative minimum tax. The minimum fee ranges from \$100 to \$5,000, depending upon the corporation's sales, property, and payroll in Minnesota.

#### **Aid Amount and Reporting**

#### 1996 Corporate Income Tax: \$574.7 million

The corporation statistics presented in this report were tabulated from all current-year Minnesota corporation income tax returns filed during the calendar year ending December 31, 1996. (Primarily 1995 returns were filed in calendar year 1996.) The total statewide corporate tax amount of \$574,677,130 includes income taxes collected from corporations whose main offices are in other states and foreign countries.

The corporate income tax data was obtained from the Department of Revenue's processing file. The location of each corporation's home office is not available on that file. Instead each county's total annual payroll, tabulated by the County Business Patterns (CBP), was used as an indicator of where the corporate tax was paid. (Government employment is excluded from the CBP data.) This method allowed allocation of the entire \$575 million of corporate tax liability rather than only that incurred by corporations headquartered in Minnesota. Since about one-third of the corporate tax liability is from these out-of-state corporations, this methodology allocates those corporate taxes to the counties.

In addition to the total dollar amount of corporate tax shown by region and by county in Sections 2-4 of the report, the tables below summarize statewide data by unitary/non-unitary (Table A) and by type of corporation/return (Table B).

Returns Filed in 1996	# of	% of	Tax	% of	Average
	Returns	Total	Liability	Total	Tax

¹⁴Related corporations, such as subsidiary, brother-sister, and parent corporations, must file on a unitary basis. For these corporations, the denominator of the three factor apportionment formula (property, payroll, and sales) includes the factors of all the corporations in the unitary group. The numerator is the factors of the individual corporation and the taxable income apportioned is the total income of the unitary group.

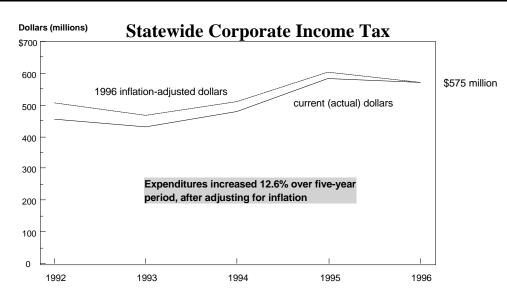

#### The Past Five Years of the Corporate Income Tax

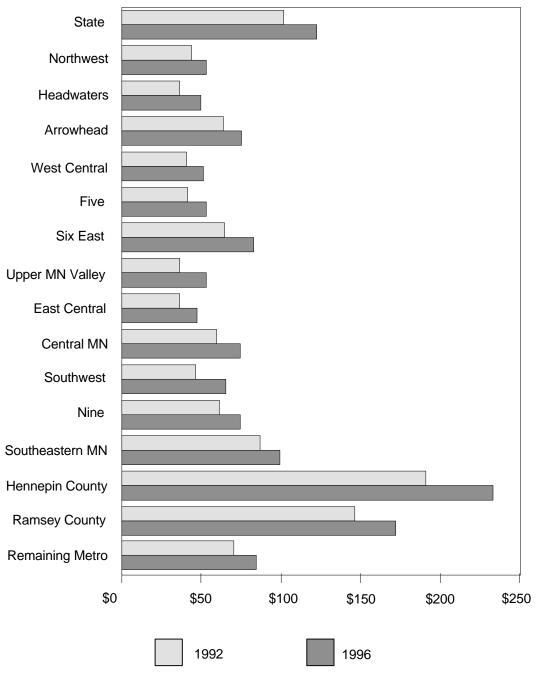

The table below shows the distribution of the corporate franchise tax in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of the corporate franchise tax for that same time period in current (actual) and constant (inflation adjusted) dollars. Note: 1992 data is based on collections, whereas the data for the other years is based on returns filed.

## **General Explanation of Tables**

The basic format is the same for all the regional and county tables in sections 3 and 4 of the report. (See adjacent page.)

**I. MAJOR STATE AIDS/CREDITS** Although all of the aids/credits listed are paid by the state, there are three types of aids/credits.

#### A. Aids to Local Governments

- Are paid to the local taxing district and are part of its total local revenue
- Benefit all types of property in the taxing district
- Reduce what is needed from the property tax levy

#### **B. Property Tax Credits**

- Are paid to the local taxing district, but are listed on the property tax statement as a credit against the property's gross tax
- Benefit only certain types of property
- Are computed on a parcel-by-parcel basis on qualifying property

#### C. Property Tax Refunds ("Circuit Breaker"/Targeting)

- Are paid directly to homeowners and renters (property tax refund)
- Are based upon a relationship between household income and the homeowner's property tax or the renter's share of property tax (property tax refund)
- Are targeted to homeowners who have large property tax increases in one year (targeting)

#### II. PROPERTY TAX DATA

- A. **Property Tax Levy** for taxes payable in 1996 by type of taxing district
- **B. Property Valuation** of taxable real and personal property for the 1995 assessment (taxes payable in 1996)
- C. The Average Tax Rate for taxes payable in 1996

#### **III. MAJOR STATE TAXES**

- Individual Income Tax
- Sales/Use Tax
- Motor Vehicle Excise Tax (MVET)
- Motor Vehicle License Tax
- Motor Fuels Tax (i.e., Gas Tax)
- Corporate Income Tax

The motor vehicle excise tax, the motor vehicle license tax, the motor fuels tax and the corporate income tax have been included in this report on a county-by-county basis. However, it should be stressed that these county amounts are only estimates since **actual collections by county are not available**. (See Section 1 for detail on how the county apportionments were calculated.)

## **Statewide Summary**

**Tables 2-1 and 2-2** contain the statewide totals of all the state aids and taxes presented in this report. Table 2-1 summarizes the total amounts for Minnesota residents only, whereas the amounts in Table 2-2 also include those dollars paid by nonresidents. The differences in the tables are in the area of income taxes and sales/use taxes.

The total state aids and credits contained in this report total over \$7.1 billion, whereas the total of the six major taxes listed in this report total almost \$8.0 billion paid by residents and an additional \$0.5 billion paid by non-residents. This indicates that approximately 89 percent of the six major taxes collected from residents and 84 percent of the six major taxes collected from residents are redistributed back to the taxing districts and to the taxpayers as tax relief.

It should be stressed that the total taxes presented in this report **are not the total of all taxes collected by the state**. The total net collections were about \$9.3 billion in fiscal year 1996 and \$10.9 billion in fiscal year 1997. Furthermore, the taxes presented in this report are not for a specific time period but are rather the latest available data and/or the next data in sequence to the 1995 Update report (dated December 1996). Therefore, the \$8.5 billion listed in this report (total of residents and non-residents) is about 84 percent of the total taxes actually collected over that time period.

The taxes **not** contained in this report include estate, bank excise, insurance gross premiums, telephone and telegraph gross earnings, mineral, cigarette and tobacco, and alcoholic beverages.

## Metro/Non-Metro Data

**Tables 2-3 and 2-4** contain data comparing the metro and non-metro counties. The metro counties are the Twin Cities seven metropolitan counties—Anoka, Carver, Dakota, Hennepin, Ramsey, Scott and Washington. The non-metro counties are the remaining 80 counties in the state.

Table 2-3 has the metro and non-metro dollar amounts of aids and taxes and a per capita comparison.

Table 2-4 presents a statewide breakdown of metro versus non-metro for each of the categories. Each item adds across to 100 percent, e.g. 48.8 percent of the education aid goes to metro counties and 51.2 percent goes to non-metro counties.

It should be noted that the metro and non-metro totals add to the state totals in Table 2-1 which include only Minnesota residents. The additional amounts paid by out-of-state taxpayers **have not been allocated** to any county. The amount of sales and income taxes which is unallocated to Minnesota is about \$521 million. Appendix B has a list of those taxes and amounts not entirely allocated to Minnesota counties.

# 3. Regional Data

There are two statewide maps by economic development region. The map on page 112 is the per capita **aid** amount; the map on page 113 is the per capita **tax** amount by economic development region.

Table 3 compares the state aid/tax data for each of the 13 regions with the statewide totals. Statewide per capita amounts do not include income and sales taxes paid by nonresidents of Minnesota. There is a separate table for each region.

The map of Minnesota on page 5 shows the counties that are located in each of the 13 economic development regions.

## **Economic Development Regions and their Counties**

#### Arrowhead – Region 3

- Aitkin
- Carlton
- Cook
- Itasca
- Koochiching
- Lake
- St. Louis

#### Central Minnesota – Region 7W

- Benton
- Sherburne
- Stearns
- Wright

#### **East Central** – Region 7E

- Chisago
- Isanti
- Kanabec
- Mille Lacs
- Pine

#### **Five** – Region 5

- Cass
- Crow Wing
- Morrison
- Todd
- Wadena

#### **Headwaters** – Region 2

- Beltrami
- Clearwater
- Hubbard
- Lake of the Woods
- Mahnomen

#### Metro – Region 11

- Anoka
- Carver
- Dakota
- Hennepin
- Ramsey
- Scott
- Washington

#### Nine – Region 9

- Blue Earth
- Brown
- Faribault
- Le Sueur
- Martin
- Nicollet
- Sibley
- WasecaWatonwan

#### **Northwest** – Region 1

- Kittson
- Marshall
- Norman

•

- Pennington
- Polk
- Red Lake
- Roseau

#### Six East – Region 6E

- Kandiyohi
- McLeod
- Meeker
- Renville

#### Southeastern Minnesota – Region 10

- Dodge
- Fillmore
- Freeborn
- Goodhue
- Houston
- Mower
- Olmsted
- Rice
- Steele
- Wabasha
- Winona

#### Southwest – Region 8

- Cottonwood
- Jackson
- Lincoln
  - Lyon
- Murray
- Nobles
- Pipestone
- Redwood
- Rock

#### Upper Minnesota Valley - Region 6W

- Big Stone
- Chippewa
- Lac qui Parie
- Swift
- Yellow Medicine

### West Central – Region 4

- Becker
  - Clay

•

•

•

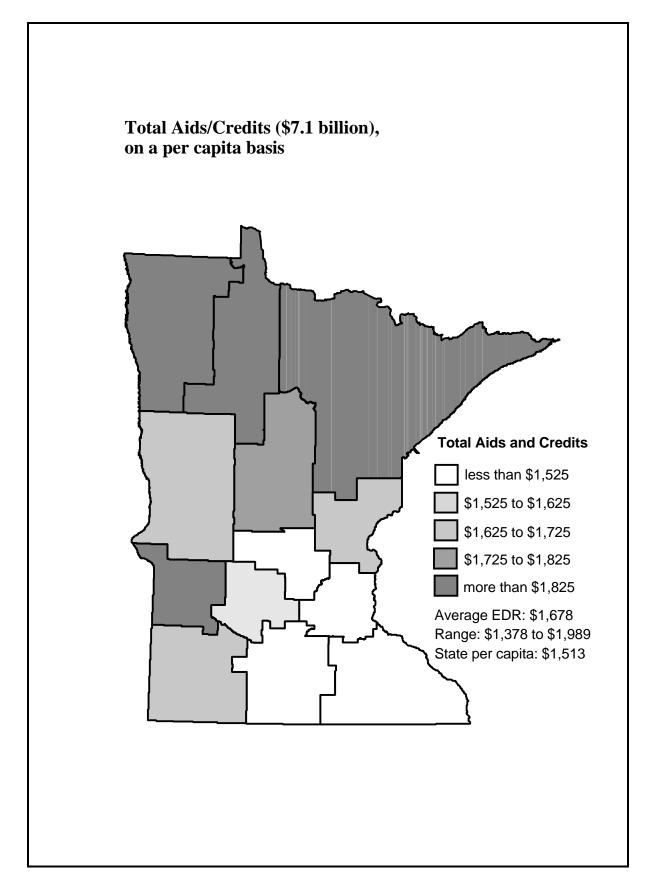

- Douglas
- Grant
- Otter Tail
  - Pope

## 4. County Data

This section compares data from each county with statewide data and data from the economic development region in which the county is located. The counties are listed in alphabetical order. There is a separate table for each county. A table containing the 1996 estimated population which was used for each county in determining the per capita amounts is on page 6.

* The human service amounts were not available by county for the Human Services Board (Faribault and Martin.) The total human services aid for the Human Service Board is \$17.6 million. This amount is listed in Faribault County. Although human services aid is not distributed on a per capita basis, this measure may be used as an estimate of how many dollars were allocated to each of the two counties. For the Human Services Board, that amount is \$446. The estimated total amount in Faribault County is \$7.4 million.

* The human service amounts were not available by county for Region VII N (Lincoln, Lyon and Murray.) The total human services aid for the Region VII N is \$17.4 million. This amount is listed in Lyon County. Although human services aid is not distributed on a per capita basis, this measure may be used as an estimate of how many dollars were allocated to each of the three counties. For Region VII N, that amount is \$416. The estimated total amount in Lincoln County is \$2.8 million.

* The human service amounts were not available by county for Region VII N (Lincoln, Lyon and Murray.) The total human services aid for the Region VII N is \$17.4 million. This amount is listed in Lyon County. Although human services aid is not distributed on a per capita basis, this measure may be used as an estimate of how many dollars were allocated to each of the three counties. For Region VII N, that amount is \$416. The estimated total amount in Lyon County is \$10.5 million.

* The human service amounts were not available by county for the Human Services Board (Faribault and Martin.) The total human services aid for the Human Service Board is \$17.6 million. This amount is listed in Faribault County. Although human services aid is not distributed on a per capita basis, this measure may be used as an estimate of how many dollars were allocated to each of the two counties. For the Human Services Board, that amount is \$446. The estimated total amount in Martin County is \$10.2 million.

* The human service amounts were not available by county for Region VII N (Lincoln, Lyon and Murray.) The total human services aid for the Region VII N is \$17.4 million. This amount is listed in Lyon County. Although human services aid is not distributed on a per capita basis, this measure may be used as an estimate of how many dollars were allocated to each of the three counties. For Region VII N, that amount is \$416. The estimated total amount in Murray County is \$4.0 million.

## Education Aids by Home County by School District 1995/1996 School Year

*Becker school district (No. 726), generates all of its general education revenue with a tax rate that is below the prescribed rate for other districts. However, the district is required to levy the prescribed rate, and the district's other state aids are reduced by the amount of the additional levy. Since this table does not include HACA in the definition of school aids, the negative amount shown reflects the subtraction that was made to the district's HACA. A district is not required to send locally raised revenue to the state.
